Veta Grande May Hold Many Mines

The Alabama Queen Mining company, working the Orosco mine just north of the Alto postoffice, about 15 miles from Patagonia, is in good ore, which appears to increase in value as purchased five additional claims from Josiah Bond, taking a lease and bond on these for \$25,000. Work has started on one of these claims on a shaft and good ore encountered at once. The road out is now being improved to reach the county road, and hauling will begin as soon as this improvement is completed.

The company is now employing about twenty men, but will increase this force as soon as there is room underground for more men. The ore now being moved is a carbonate, carrying copper and precious metals.

The vein from which this ore is being taken is supposed to be the same lode as that on which are the American Boy resume operations under a new management. The Congressional group further west covers the same vein.

On all these shipping ore has been found, and the vein is so wide and persistent that it is reasonable to expect great mines along its course. This vein has been known as the "veta grande" since the time when the Spanish treasout bonanza ore, and leaving accounts of its richness in the mints and royal archives of the Iberian kingdom,

get any fresh meat for several days this week, caused quite a little inconvenience to Patagonia housewives, and others who have appetites for good first class. wholesome "feeds." Duquesne Plant to Be Enlarged a Unit

The change in the Duquesne Mining and Milling company's plant to an electrical driven power is expected to occur by the first of June. The electric company will have the transmission lines and everything completed from Nogales to the big plant by about the 15th of this month, but the necessary changes in machinery will probably not be possible before the first of June. At the present time the oil flotation process at the Duquesne, recently installed by W. Murray Sanders, an oil flotation expert, is working on the zinc taillings from the old dunp, which is expected to be cleaned up some time this month, The process has been proven a great G. Urquides came over Sunday in his success, saving both the copper and zine 'tin Lizzie'' from the new camp of values in the ore.

When the change has been made to electricity, the present plant will be increased by adding another unit, thereby Monday evening, returning Tuesday incresing the capacity to 200 tons a day. The mill is now treating about 100 tons daily. Including the construction crews, mine and mill forces, the Duquesne Mining and Milling company is now employing over 100 men, about 25 of which, employed at the more skillful work, are high-priced Americans. This force will necessarily have to be increased when the change is made to electricity and the contemplated additions to the mill up from Nogales Monday, where they are made. Copper ore and concentrates from the mine are shipped to the Copper Queen smelter in Douglas, with which the Duquesne has had a contract turned Tuesday evening from Phoenix, for many years, while the zinc concenwhere they had been visiting for the trates are shipped to a smelter in Okla-

F all the relatively larger cities on the American hemisphere. the oldest. Its beginning was on his memorable voyage of discovery, when it was the seat of the Aztec empire. Civilization of a sort flourished there long before the first hardy pioneers settled along the northern Atlantic coast and before the eyes of a white man had ever rested upon the Mississippi river.

It has been a city of many vicissi- sins. tudes. It has been held by Indian lican, by revolutionist, and by northern invader. Many of its streets are niece, a beautiful girl. A Portuguese of the greatest antiquity. Many of its days of the Montezumas or of the Con-

quistadores. As is inevitable, the City of Mexico mysterious legends. There are old tales that have been handed down from generation to generation by word of mouth and are still told by Mexican nurses to the children as they

were told centuries ago. The Wailing Woman.

A relic of Aztec folk lore is the tale of the Wailing Woman. Once, a long time ago, the story runs, there was a very bad woman in the City of Mexico. She gave birth to many children, but children bored her, and, as drowned it. Finally her conscience

As a matter of history there was such a person in Mexico in 1641 and the capital of Mexico is by far he was a dishonest collector of revenues. He was jailed, and, to secure long before Columbus sailed his liberty, his wife was compelled to suffer incredible humiliations at the hands of a judge. Don Juan broke prison, went to his home, found the judge there, and stabbed him to death. Later he was mysteriously lynched one night before the church. and from this grew the legend that the angels had punished him for his

A striking story of ghostly revenge and Spaniard, by viceroy, by republis the legend of Don Juan de Nava, priest and guardian of his orphan nobleman, Don Duarte de Sarraza, fell traditions are so old that no man in love with her, and she reciprocated knows whether they originated in the the attachment, but the priest rejecter Don Duarte because he was known as a gambler. One night the priest came upon Don Duarte talking to his has its own peculiar folk-lore, its niece through her window. Duarte struck the old man with his dagger, which was imbedded in his skull, killing him. He threw the body, dagger and all, into a ditch. Just one year later Duarte was found dead at the site of the crime. Kneeling over him, one of its bony hands gripping his body by the throat, was a skeleton in priestly garments, with a dagger sticking in its skull.

The Ghostly Raven. Rather a weird legend is that of Don Rodrigo de Ballesteros and his fast as one came upon the earth, she raven. It is said that there is a certain bridge where at midnight when

began troubling her. It is supposed | the weather is stormy one may even that her punishment was to go yet hear the ghostly cawing of this through eternity looking for her lost

Frequently since then, it is said, watchmen have seen a woman in white, with a white mantilla over her head, roaming through the streets at palace and he and the raven dined business have received an answering Don always went about in shabhy inquiry as to where her children can clothes, in spite of his riches. He be found. The greatest misfortune never went to church, and he made always overtakes those who question fun of holy things. Suddenly he and her. Most of them are stricken dead the raven both disappeared. On in pan until it threads; add a lump of or become insane. This latter fate is vestigation persons found in his house said to have overtaken a gifted young a sacred image that had been defiled thoroughly mixed remove from the army officer, who once tried to flirt and was sprinkled with blood. From with the Wailing Woman. It is said her lamentations are still heard at had beaten the image until it had shed night, sometimes,

One story with a foundation in fact is the legend of Don Juan Manuel. As the tale survives in the folk-lore Don Juan was an amiable enough gentleman, except that he had a bad habit of wandering out nights and murdering people. His custom was to approach somebody on the street, ask him the time, and, when he replied, tell him he was lucky because he knew the hour of his death and stab him to the heart. This went on until one night Don Juan killed his dearly beloved nephew, whom he had not

recognized. Stricken with remorse Don Juan confessed to his priest, who for penance ordered him to go alone at midnight to a certain church, before which was a gallows, and to tell his rosary under the gallows. Three nights he attempted to fulfill the command, but was driven back by the dered. After begging in vain for a lighter penance he finally reached his goal under the gallows. And then angels from heaven came down and

hanged him.

raven, although the incidents with which the story deals happened 300 years ago.

Don Rodrigo, it seems, was very rich and very wicked. He lived in a Those who have inquired her from gold and silver plate, but the this it was supposed that the raven the crimson fluid, and that Satan punished them both by taking them to himself. Occasionally, however, they come back to haunt the scene of their misdeeds.

> Rather a humorous turn is given to the story of the Street of the Somersault. According to it, a Spanish nobleman, Don Mendo Quiroga y Saurez, the fruit up well as it shrinks in cook- cooked prunes. Rub through the puvery rich and very old, was much neglected in his dying days by his beautiful niece, upon whom he had showered Cut slits in the top crust or prick with every benefaction. He planned to revenge himself by his will.

When the will was read, everything was bequeathed to the niece, who was spoken of in terms of the warmest afcent should go to religious orders. certain day the niece must attire groans of the persons he had mur- herself in her richest ball dress, and, wearing her richest jewels, must proceed in her coach at noonday to the busiest corner in the city. There she must go to the middle of the street board and thoroughly wamabbing it in and turn a somersault.

Properly Plays an Important Part In the Preparation of All Kinds of Desserts.

Gelatin plays an important part in many a recipe. A tasty dessert is made thus: Dissolve the contents of ne envelope of granulated gelatin in one pint of boiling water; stir it to melt the powder and then pour it into a bowl, and as soon as it starts to 'jel" beat with a rotary egg-beater until it is light. Then pour in half a pint of rich, sweet milk, a pinch of salt, two ounces of crushed stale almond macaroons; if this is soft, put it on the ice until it stiffens again, then add a few drops of sweet almond flavoring and one gill of granulated Wet a mold, pour the water BUERT. out of it and refill with the mixture: put it in the refrigerator to ripen. Serve with plain or whipped cream

and lady fingers.

With Fruit.-Fill individual glasses a little more than half with mixed fruit, fresh or canned; drain off all juice; make one pint of orange or lemon gelatin; as soon as cold put it very cold, with cream and sponge cake

lemon juice and one gill of brown sugar. As soon as the prunes are very soft stir in one package of granulated There should be over one pint of liquid. Stir until melted. When cold serve with cream and soft ginger

COLD ENTREE HARD TO BEAT

Mousse of Sweethread Just the Thing for the Table When the Weather Is Hot.

Line a plain mold with pale aspic jelly, dotted with diamond-shaped pieces of truffle. Blanch and braise a large sweetbread, and, when it is cold, pound it in a mortar with eight ounces of the white meat of a boiled fowl and a tablespoonful of pate de foie gras, and then pass the mixture through a fine sieve. Bring a large cupful of milk to a boil with a small chopped onion, a dozen white peppers, a blade of mace, a few thin strips of lemon peel, and a thin slice of fat bacon. Simmer twenty minutes and then strain over a tablespoonful of butter rubbed smooth in two of flour. Stir quickly until thick, season with salt and white pepper, and dissolve in half an ounce of gelatine. Pour into a basin with the sifted chicken and sweetbread and two tablespoonfuls of sher-

Whip a pint of cream, and as soon as the sweetbread mixture is cool, stir it in and add the stiffly beaten whites of two eggs. Pour the mousse at once into the molds lined with aspic, and leave it on ice to chill. Turn out on flat platter and garnish with alternate slices of tomato and cucumber and a bunch of watercress here and there.

Green Gooseberry Pudding.

be made the same barb pudding with a suet paste, and bolled, steamed, or made in a deep ple dish with good ordinary pie paste with a little cornstarch mixed with the sugar to thicken the juice. When the gooseberry filling is thick enough to support the mixture, lift off the crust and pour in a layer of cornstarch custard cooked in a double-boiler, the whites of the eggs reserved for a meringue to cover the top. The top crust may be served at another meal spread with canned peaches or pears. Or instead of a top crust, cover the dish with another pie dish until the gooseberries are done. Another way is to replace the top crust and return pie to the oven until the oustard mixture is cooked quite firm. The pie is then served cold with upper crust, without a meringue.

Chocolate Fudge,

Three cupfuls of light brown sugar, two squares of chocolate, a cupful of new milk, one-half teaspoonful of cream of tartar. Cook in a granite butter the size of a walnut, and when cream and a teaspoonful of vanilla and into shallow buttered pans and when nearly cold cut into squares.

Mistress Ford's Green Currant Pie. Line a deep dish with paste. Fill with green currants and sugar in alternate layers, using at least twospoonful of flour to thicken the juice. a fork. Bake in a moderate oven from thirty to forty-five minutes.

Delicious Pie.

Line a deep pie plate with a rich fection, up to the last paragraph. In crust, rub crust with flour and put in it certain terms of acceptance were a layer of dates, ten to twelve to an they were not complied with every cut in pieces; then fill the plate with side. aliced rhubarb, three heaping table- edge. spoonful of flour; put on top crust,

VARIOUS USES FOR GELATIN NEW BISCUIT DAINTIES

RECOMMENDED AS VARIATION FROM STANDARD RECIPES.

Appetizing With "Filling" of Stiff Or ange Marmalade-Nut-Drop Confeotions Popular With Everybody-Clover Biscults.

Light, flaky, biscuits, temptingly browned, always receive a smiling welcome at the table. But have you ever tried any variations of your stand ard recipe? I have experimented and have concocted some goodles that disappear like cake, writes a contributor to the Woman's World. They are delicious not only for the home meal but for lunches. And the housekeep er finds them just the thing to serve with chocolate as light appetizing refreshments to guests.

Orange two-story biscuits are my er two cupfuls of bread flour, two tea harbor's edge was to forfeit all claim spoonfuls baking powder, half a teaby spoonfuls over the fruit; serve spoonful salt and a tablesponful of sugar. Beat one entire egg and add two-thirds of a cupful of sweet milk Joined upon the tourist to take advan-Prune Delight.-Wash, soak and for wetting the dough. No shorten cook in only enough water to cover ing is used. Knead the dough lightly calm sea and no wind from north or them one pound of good prunes; while and roll thinner than biscuits are usuthey cook put in a pinch of salt, two ally made. Cut the rounds with a but which a sojourn in Naples is a inches of stick cinnamon; grated yel- cookie cutter or the open end of a low rind of an orange and one lemon; pound baking powder can. From hali six whole cloves, one gill of strained of the rounds remove the centers with a smaller cutter. Spread the grotto and, inasmuch as this is a frank whole rounds with melted butter, lay one of the dough rings on each and gelatin previously dissolved in cold fill the centers with stiff orange man malade before baking.

Nut-drop biscults were my next successful trial at making "goodles." For them, sift together a pint of flour, half a teaspoonful of salt and two teaspoonfuls of baking powder. Rub in generous tablespoonful of butter and stir to the consistency of a thick batter, using sweet milk to moisten. Add half a cupful of chopped nuts and drop the dough with a spoon upon a greased baking sheet, leaving an inch between "drops" for swelling.

Sandwich biscuits require four cup fuls of flour, four tablespoonfuls of baking powder, a teasponful of salt, two tablespoonfuls of ment drippings, half a cupful of milk, and water to complete the wetting to the ordinary biscuit consistency. Roll the dough thin, like pie crust, cut, spread half the rounds with butter, add a filling of seasoned, finely ground, cooked ham, then lay on the covers and bake

Clover biscuits are dainty mouth fuls. Use any standard recipe for regular biscuit dough. Cut into rounds an inch in diameter. (I use the center of my round loaf cake pan inverted, as a cutter.) Place the tiny rounds in threes in greased gem cake pans and glaze the tops with egg yolk mixed with a little water. When baked, the group of three from each mold will come out in trefoil shape They are nice to serve with cheese

Hot-cross biscuits taste good at any season of the year. Their ingredients consist of: One quart flour, one teaspoonful salt, four teaspoonfuls baking powder, half a cupful of butter, half a teaspoonful each of ground cinnamon and nutmeg, one tablespoonful finely chopped citron or candied orange peel, half a cupful of currants, one egg, and sweet milk to make a firm more moisture than others, so the amount of milk or water used for bis cuits is not absolute. Roll an inch thick, cut in large rounds, cut two gashes at right angles across the top of each, and moisten the tops with milk before baking. Some cooks like to fill the cross cuts with sugar.

Poached Eggs in Muffin Rings. When frying or poaching eggs for breakfast, slip into the pan a muffin ring for each egg, break the egg into it and when it has set as much as tenderer because it is thicker, but it the muffin rings is not as much trouble as trying to "slide" a broken egg to a plate from a hot frying pan.

Mixed Fruit Ice. Three oranges, three lemons, three sananas, one cupful dried apricots soaked several hours and cooked, edge of the cliff, on which a comparafire, add a tablespoonful of sweet of water. Squeeze the juice from the oranges and lemons. Put the bananbeat till it begins to thicken. Pour as and apricots through a sieve. Cook the sugar and water together to make a thin sirup (ten minutes). Add the juice, pulp, and freeze. Very inexpensive and good.

Prune Ice Cream,

Prepare cream same as for vanilla thirds as much sugar as fruit. Heap ice cream. Drain and seed carefully ing, and shake over the top a table- ree sieve of a colander, or they may be even chapped very fine. For every quart of sweet cream use one pint of the prunes, unsweetened, and one tablespoonful of lemon juice. Freeze, pack and let ripen for one hour.

What to Do With the Covers. Save the covers of cocon or mustare boxes to use for cleaning frying pans set forth with the provision that if ordinary pie; they must be stoned and and saucepans. Hammer down sharp Scrape with the sharp lower The rounding corners of the The terms were that on or before a spoonfuls of sugar mixed with one covers fit in the round pans much better than anything you can buy for the purpose.

When Making Potato Salad, If potatoes are being cooked for saind boil them with the skins on. They will be less soggy.

The effect of the island, rising thu steeply from the sea, is striking from any point of view. The mountain sides are bare and gray, save in the milder elopes, where vegetation is pos sible. Olive groves and vineyards oc cupy the gentler hillsides and the pla teaus. Hotels and villas are scatteres here and there in commanding post tions. Roads cut zigzag up the heights can be traced by the retaining walls

The water of the Bay of Naples is : wondrous blue, and as the shores o more pronounced, owing to the shoal ing. The steamer anchors in liquid tur quoise. Out come the rowboats, be fore the chain begins to rattle, and it a few minutes the now familiar proc sengers is in progress. But here only

After a short wait the steamer weighs anchor again and starts of along the coast toward the westers end of the island. Experienced tour low to the gangways to be among the first to visit the grotto.

Not a sign of an entrance to the cav ern appears as we leave the steamer but after a short pull the little bark is brought to a point where the rock wall is darkened. A statue of the Virgin is let into the cliff 30 feet-from the sur face of the sea, alongside of a hotel ad vertisement, impudently placed in this

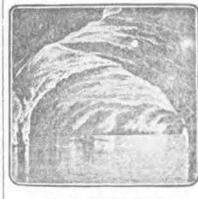

The small boats are by now clusperpendicular. This is the place where, tered at the entrance. One by one

CENTRAL NAPLES

according to tradition, the Emperor ; they disappear. The ladies of my part; desired, lift it out with a cake lifter. Tiberius, who spent the last ten years are in one of those ahead and my comring and all, then remove the ring of his life, with but little interruption, The white of the egg is in a nice cir on this island, had the victims of his cle, and not only looks better and is wrath flung to death on the rocks of selves in the bottom of the boat, at the the shore. It is undeniable that if the oarsman's command, and draw our is easier to serve. The washing of tyrant indulged in this ghastly pastime, which is gravely doubted by some students of Roman history, he chose a most effective place for the performance.

Remains of the largest of the 12 villas erected by Tiberius on Capri appear a short distance back of the

The Blue Grotto, Capri.

and commanding site for a place of worship. The ridge of the island falls of 450 feet, about a third of the east and west length of the Island, and there, in the middle of a saddle between the heights, lies the city of lire note in order to pay the tax of 25 Capri, invisible from the sea. Just westward the rocks rise again precipitously, almost as abruptly as the easternmost point of the Island, forming west coast, where the descent is sharp. | Neapolitan season.

panion is a German who knows no English. We manage to extend ourheads below the gunwale. The boatman grasps a chain and pulls us through the low opening.

Hurried Trip Through Grotto. For a moment after entering the grotto, it seems to be all that the enthusiasm of preceding visitors has painted it. The light from the entrance gives the water a marvelous blue tone, three cupfuls of sugar, three cupfuls tively modern chapel stands, a bold impossible to describe, and the cars are as of sliver. But the boatman quickly makes the round of the "room" and is soon back near the opening. where already a dozen other boats are collected, while more are entering. The blueness fades as the grotto fills. Away back, opposite the entrance, a candle is burning, and two youths in negligee stand spectrally on a ledge waiting to be bargained with for a dive into the water for a lire. This is reputed to be a remarkable phenomenon, the boy's body showing silvery in the refracted light beneath the surface. But so quickly are we rowed around that there is no chance to negottate for the dive, and almost before we realize that we have been lucide of the famous "grotto azura" of Capri we are lying down again in the bottom of the boat, the carsman is pulling at the chain and we have popped out into away to the weetward to an elevation the sunlight. Our visit has lasted just six minutes.

> Back to the steamer we went, pausing by a "change" boat to break a fivecents American for each passenger. Meanwhile boats were continuing to come and go.

Obviously; it does not pay to vieit a rough tableland, sloping off to the the blue grotto in the height of the

New Indian Animal Stories

Bear's Fat and Rabbit's Blood

By JOHN M. OSKISON

-

(Copyright, 1914, by the McClure News-paper Syndicate.) Long time ago, it was the old men

who told the little boys about the animal people and the Yunwi Tsunsdi. It was in the long winter evenings, as the fire died down from tall flames to coals with gray dust all over their heads that the boys would hear most about the Yunwi Tsunsdi-the "little people," or fairles, that lived away out in the wood.

But almost any time the boys would hear the stories of the animals, and this one was told to them when they were eating supper. It was only necessary for one little boy to call out that he wanted more grease on his beans to start the old man on that story about the time the rabbit went to have supper with the bear.

It was this way, as the old men

Once the rabbit was sent out as messenger to call all of the animals in council to decide about where they would plant their corn that year and where they would plant their beans.

All day the rabbit went from one house to the next, and just as the sun was going down the came to the bear's

"Siyu!" (hello!) said the bear, "you look all tired out and hungry." "Yes," said the rabbit, "the road up to your house is very rocky, and I be- spurt out of the cut! and the rabbit

gan to get a blister on my left hind foot about two hours ago. I tell you, the fellow that gets a reputation for the rabbit had done, and he was angry. going fast is always kept on the As he worked away at tying up the jump!" And as the rabbit limped to a slit in the rabbit's side and stopping cheeks and sniffed. "What you smell cooking in there

are beans," said the bear.

And that reminded the rabbit of his message, and when he had told the the knife don't hurt me, but you're bear to be sure to come to the council, he got up and made as if to go away.

'You must stay and eat supper with me," said the bear, and the rabbit said story, he would ask the little boy: he would if the bear would only give him plenty of grease in his beans.

"All right," said the rabbit, and he took up a sharp knife, as he had seen the bear do, and cut a little slit in his own side. But no fat ran out of the cut-instead of fat, blood began to

"Oh, that's all right," said the bear,

and he waddled up to the fire where

the bean pot was steaming. "Now,

you watch me get all the grease you

want for the beans!" And then the

bear took a sharp knife and cut a little

slit in his own fat side, and out of the

slit a lot fine bear fat ran into the

KNOTTY PROGLEMS FOR BOYS

Knots Are Just As Useful About the House as They are at Sea-Sallor Describes Three.

Can you tie a good knot? Probably not. Few but sailors can knot a rope as it should be done. Yet knots are just as useful, in a hundred ways, about the house as they are at sea. An old sailor describes a few of the more handy knots known to every

Useful Knots.

"able-bodied seaman." Cut out his description as they are printed and save them. You'll find occasion to refer to them over and over again.

The familiar "overhand" (Fig. 1) is the simplest knot of all. It is the basis of the "square" or "reef" knot (Fig. 2), which is more useful and common than any other. In describing these knots, two terms are frequently used. "Bight" means simply a loop, and "standing part" means and he doesn't need a tail.

that part of the rope to the left of the knot, if the knot is held before you, with the free end to the right.

To make a square knot, using the ends of two ropes, make a bight of the end of one, so that the end and standing part lie side by side. Then pass the end of the other up through the bight, around both parts of the first end, and down through the bight again. The difference between this knot and the "granny" knot (Fig. 3) is evident, when you study the plctures carefully. Sailors make fun of the granny knot; it is very liable to

April Fool.

utterly ridiculous-but it isn't. It is, sheep. in reality, the celebration of the possession of laughter by the human race. Turn Frequently,

The manure for the garden should be kept in a large box with a lid, or so Manure heaps are the natural breeding places of these pests and if they are allowed to remain near the house, un-

covered, will prove a great nuisance. A good plan is to use a very close wire screen nailed to a frame with hinges for the top. The manure should is my regular price." be spaded often on the top so that the water from the clouds or the sprinkling pot may penetrate to all portions

of it. If kept in a box a spout should be placed in one corner, at the bottom, so that the water may drain into a sunken barrel.

This will supply liquid manure which can be used at all seasons when vegetables and flowers are growing.

The manure in the box should be

worked over once or twice a month, working the bottom to the top so that the entire heap may rot. Manure may be kept in this manner if the boxes are placed at the farthest

point in the garden from the house, and if surrounded with vines their presence will never be noticed from

BAD WEED IN THE PASTURES

Burdock is Typical Back Yard Plant, But is Found in Fence Corners and All Waste Places.

Burdock is a blennial plant with a large, deep tap root. The leaves, which are large, are generally fuzzy beneath, and the leaf stock is hollow. The first year the plant merely develops a leaf and root system. The second year the branched flowering stalk is sent up, sometimes six feet high. At the ends of the branches purple tipped flower burs are formed. The burdock is especially bad in sheep and horse pastures, as the burs get into the wool of the sheep and manes and tails of the horses. Burdock flowers in July and August and seeds in September. It is a typical back yard weed, but is found in fence corners and all waste places.

Continued cutting will exhaust the plants, and, in time exterminate them. The process may be hastened by cutting off deeply below the surface and

Burdock-Showing Top of Plant With Burs, Also Large Leaf.

applying a handful of salt or a few drops of gasoline or kerosene to the root of each plant.

Mangels for Cows.

Mangels are good cow feed, but are not of high value as a horse feed. They contain about nine per cent of dry matter and 91 per cent water, 1.1 | think up people who ought to be ar per cent protein and six per cent carbohydrates and have a nutritive ration of 1:5.5. They are valuable as succulence in feeding milk cows, a very important consideration when animals are being fed on dry hay or fodder where one has no silo to keep silage in. The mangels are far more valuable for maintaining the healthfulness of Probably you have wondered why the animal than for the food in them. bases. there should be celebrated such a day Carrots are the best horse's root feed as April Fool's day. When the causes have been ascertained an effort will be made to help the individual to overcome his difficulty and so prevent him from becoming a permanent burden upon society.

FOUND, MOST STUPID WOMAN

Manuel, Cigar Man at Shanley's, Says She is His Wife, but Lady Has Yet to Be Heard From.

Alfred Henry Lewis, the writer, has long been one of the habitues of Shanley's restaurant. He knows the proprietors as brothers, calls the cabaret porformers by their first names, has the attentive eye of every waiter in sight, and gets solicitous messages of inquiry from the chef about his impressions of new dishes. Mr Lewis is an observant and philo-

sophic friend. Furthermore, beneath a solemn manner he observes the humor of life. For instance, the other night, he called Manuel, the cigar man in the restaurant, to his table. "Manuel," said he, unsmilingly, "I want you to tell my friends about that remarkable occurrence which concerned your wife and your two pairs of shoes."

"Ah, Mist' Lewess," exclaimed Manuel in the acquired English of the Catalonian, "that is something domesteeck, but if it should interest your friends, then-

Manuel shrugged his shoulders and continued. "You see, gent'men, with my costume I have two pairs of shoes one he ees white and one he ees black. My wife, gent'men, see most stupid woman ever yet leef.
