No Further Advance in Fees for Grazing

The secretary of agriculture announced recently that further advance of grazing fees on the national forests will be deferred for the present. He also announced that no change will be made at this time in the existing regulations governing the issuance of grazing permits for more than one year. The reasons for this course have been set forth by Secretary Houston in an identical letter to the secretaries of the American Live Stock Association and the National Woolgrowers' Association. The letter, in part, follows:

"The further study of the value of grazing privileges on lands within the different national forests, referred to in my letter of Feb. 1, 1917, has been made during the past summer and indicates that in general, the fees charged this year are still below the real value of the forage. In the meantime, however, many important changes have taken place, due to the present war conditions, and the stockmen have been called upon to overcome many difficulties in order to keep up the country's supply of beef, mutton, hides and wool, not only for our own use but also to help meet the needs of the allies.

"In view of this situation, I have decided to defer action in connection with any further increase in grazing fees on the national forests for the present. Whether the postponement will continue until the close of the war, I cannot now determine, since I have no way of forecasting probable economic developments. For the time being the grazing fees now in force will be continued, with the exception of such minor changes as may seem advisable to adjust and correlate the fees between certain forests or groups of forests."

MISS OLLIE STONE WEDS 35TH INFANTRYMAN

December 8th, in Nogales, Miss Ollie Stone, youngest child of S. P. Agent F. A. Stone, became the bride of Chester A. Broyles, a soldier of the 35th infantry, Chaplin Eusey officiating. Many friends of the young couple, and the bride's parents, were in attendance at the ceremony, musicians of the 35th regiment furnishing the music for an impromptu dance which followed. In the absence of an officer's sword, the bride was shown one of the many uses to which a bayonet can be put in times of peace—the cutting of a wedding cake.

Good wishes for a long and happy wedded life follow the newlyweds.

NEWS OF THE MINES

Christmas toys, candies; dairy lunch, hot drinks at Peerless Parlors.—Adv.

Mr. J. V. Burge, of Twin Lakes, Colo., is in Patagonia looking after his mining interests in the Red Rock district. He intends to remain here indefinitely.

Ed. Massey, deputy mine inspector, of Bisbee, was in Patagonia this week. He recently located some mining claims adjoining the Henry Ford, in which he is interested.

Mr. J. W. Wilson of Nogales, interested in mining property in the Harshaw district, was out to inspect his claims and arrange for their further development.

Mr. James Rooney of Ft. Stockton, Texas, arrived this week in Patagonia to inspect the group of claims in the Red Rock district recently taken over by Lee Reagan, with whom he is interested.

Lee Reagan has leased the Verde and other claims in the Red Rock mining district belonging to N. Stanley and Theodore Faunce. The property is a very promising one and good ore is in sight in large quantity, it is reported.

A. J. Hooks and Dale Goodrich, lessees of the Sunlight group of claims, in the Wrightson district, close to Patagonia, have just returned from Bisbee, where they purchased a hoist to be used in taking out the ore from the shaft, which is now down 70 feet.

Mr. C. A. Pierce, engineer in charge of the Mansfield mine, reports that the company has set up a new churn drilling outfit and is continuing the work of prospecting to determine the size of the ore bodies started some time ago. Mr. Pierce says the showing so far is entirely satisfactory.

The Basin group of claims, owned by George Welland of Harshaw, under lease to the T. E. Mumma Mining Co. of San Antonio, Texas, will begin immediately the shipment of ore. There is a large body of ore stacked out on this property which carries more than 7 per cent copper, it is said.

Messrs. Joe Miller and H. F. Schoerer, who recently acquired the Castle Butte mine, are making preparations to commence active operations. Already lumber has been taken to the property and the erection of a house has begun. We anticipate that the Castle Butte will be one of the big producers of this section.

Chas. W. Clark, owner of the Trench mine at Harshaw, is here inspecting the property, which, under the able management of John Hoy, is developing into one of the best properties surrounding Patagonia. Mr. Clark is investing considerable capital in the Trench, and it will be returned with interest when ore shipments begin.

LOCAL NEWS NOTES

"Kid" O'Toole has taken a position with the Montana mine near Nogales.

W. S. McKnight of Nogales stopped in Patagonia Wednesday on his way to Sonora and Elgin.

Mr. E. E. Bethel of the Washington Trading Co. was a business visitor to Nogales last Monday.

Jarvis Reed, nephew of Mrs. E. E. Bethel, is on an extended visit here from his home in Greeley, Colo.

Jim Reagan was in town Tuesday night from Elgin, where he has a well-drilling outfit in operation.

B. Lewis of Parker Canyon, accompanied by Mr. and Mrs. C. F. Young of San Rafael, was a Patagonia visitor yesterday.

Mr. R. E. Kohler of Bisbee, representing a large mine machinery company, was registered at the Commercial Hotel Monday.

Mr. A. L. Kinsley of the San Rafael valley last Saturday fell from the top of a load of hay and was seriously injured. He is confined to his bed.

Bo. J. Whiteside, well-known former Patagonian, in sending in a request to have his subscription renewed, sends kindest regards to his many friends here.

A marriage license was issued Monday by County Clerk Mrs. Lona Mix to Leonard Brooks and Miss Elizabeth Adams, both well-known residents of Elgin.

Mrs. M. A. Fryer and son, Kent, have taken over the Commercial Hotel dining room, and in future travelers and other hungry mortals may secure meals "like mother used to" prepare.

Mr. R. H. Williams of Los Angeles has accepted a position as bookkeeper with the Evans Mercantile Company and has rented the Julia Trank home, in which he will shortly install his family, who will move here from the coast.

Mr. C. L. Northcraft spent Tuesday in Nogales, and went through the passport mill, and after being separated from \$4.50 he was allowed to cross the line into the land of perpetual revolution. He reports that business men in Nogales are somewhat handicapped because their Mexican customers, many of them, cannot or will not secure passports, thereby reducing their volume of business when it should be increasing owing to the holiday season.

A farewell dance was Thursday night given in honor of Miss Gertrude Parker, who has been spending several weeks visiting her father, Mr. F. B. Parker. The affair was largely attended, and a pleasant evening was passed. Miss Parker has made many friends here, and it was with regret that she was seen to depart on this morning's train, in company with her father, for Los Angeles, where her mother resides. Mr. Parker will return after a two week's visit to the coast.

MARGARET HOLDEN AND JOE KANE ARE MARRIED

Miss Margaret Holden, niece of Ben Powell, and Joe Kane, son of Mr. and Mrs. James Kane, were married last Saturday evening by Justice Francis. The ceremony was performed at the home of the bridegroom's parents in the presence of a small party of relatives and friends.

The young couple arrived upon their matrimonial career followed by the best wishes of a host of friends.

Patagonian Today Begins Its 6th Year

With this week's issue the Santa Cruz Patagonian starts upon the sixth year of its existence, with every promise of living to a ripe old age.

Five years ago, on the 12th day of December, Messrs. Price & Waddell conceived the idea of establishing a newspaper in this camp, and with many misgivings concerning the success of the venture they launched the Patagonian upon the journalistic sea. The paper was at that time received and supported with enthusiasm by the business men, miners and ranchers of the community. But, like all things new, it had to have a thorough trial to prove itself as a permanent and beneficial institution. That it has done so is proved by the fact that it has doubled in size and its circulation reaches from coast to coast and from, and including, Canada to Mexico. Local and foreign advertisers also value it as a medium of publicity for their business establishments, as is shown by the constant and ever-increasing amount of space used by them. Like wine, the Patagonian improves with age.

While the opportunity is at hand, the editor wishes to impress upon the mind of the people the fact that a newspaper is not a business, but an institution, and as such should receive the hearty support and co-operation of the community in which it is published. It can not exist without money any more than a school or other public institution, and the subscribers and advertisers are the channels through which the money must come. Those channels have been kept open for this paper to a certain extent, but there will have to be a little dredging constantly done in the way of increased collaboration on the part of the public if it wishes to increase the effectiveness of its newspaper.

We take this occasion to thank the patrons of the Patagonian for the support they have given it in the past, and to hope they will continue it in the future.

Peerless Parlors serves lunches and hot drinks. Christmas toys.—Adv.

AMERICAN SPIRIT ON FRENCH FRONT

Yankee Push Shown by Signboards Bearing Legends of Various Nature.

"ABODE OF LOVE" ON HUN HUT

"Keep Off the Grass," Is American Engineer's Warning to Avoid Unexploded German Shell—France's Tribute to Fallen Allies.

Paris.—Among all the legends that appear on signboards at and near the front three plainly show the American spirit newly at work, writes George T. Bye.

BOOST FOR C—! WATCH IT GROW!

Not so far from this evidence of pulsating Yankee push we passed a German internment camp, a collection of black huts surrounded by several

RISK LIVES AT FRONT

When the shortage of men became acute in England thousands of British women volunteered to drive ambulances on the western front to permit the men in the service to join the fighting forces.

barbed wire fences, the center one probably charged with electricity. This is the second stage of internment for Hun prisoners, the first being in wire cages at the trenches. More Americans were close by.

On the front of one of these huts a hasty arm had chalked in white letters:

ABODE OF LOVE

"Abode of Love" must have been the work of a Chicagoan. When I lived in Chicago several years ago certain celebrated affiliates were spending "sweet seasons" in a little cottage on southern Lake Michigan, which they called "Abode of Love."

Along still another division of the military railway in American hands (I spent two days visiting our engineers at the front) we found a Missouri humorist making a sign for a little fenced-off square already marked "Danger." Within was a huge unexploded German shell that had descended on too great a slant and had not buried itself.

PEOPLE SUFFERING ACUTELY

Internal Conditions Far Worse Than Pictured—Some War Loans to Be Repudiated—Austria Is Unable to Break Away.

Zurich.—An American citizen has arrived here with an amazing story of internal conditions in Germany. Since war was declared this man, whose identity is kept secret at his own request, has lived in Germany. He has worked with Germans, dwelt with them, been one of them, and has acquired an intimate knowledge of conditions existing in Germany.

Do Not Hate America.

"But the big men of Germany, the men who have to look ahead and guide the empire after the war, do not hate America. They feel too keenly that they need America, and they would like to stem the tide of hate before it becomes mutual and the United States is alienated, perhaps for all time.

ploded them, and most of them are fenced in, as I have described, and signed "Danger" or "Do Not Touch."

KEEP OFF THE GRASS.

Will our boys still consider it a pleasant pastime to devise wayside signs after they have lettered a few thousand of another sort. For example: "To the Memory of —, One of the Best Defenders of His Country and a Regular Man?"

The biggest war sign is at the Butte de Warlencourt, on the Bapaume-Albert road. It has the dimensions of an American bill board and reads: "To Be Kept Intact by the French Government. Do not Disturb."

The other four survivors reported besides Commander Bagley and Lieutenant Scott were: Chief Boatswain's Mate Clarence McBride, Syracuse, N. Y.; Coxswain Ben Nunnery, Edgemoor, S. C.; Chief Electrician Lawrence G. Kelly, address not given; Fireman Joseph Korzenlecky, Suvive, Russia.

4,000 DEAD AT HALIFAX.

Officials Believe That Hundreds Were Consumed by Flames.

Halifax, N. S., Dec. 10.—Four thousand dead. This is the new estimate of the superintendent of morgues, whose duty it is to assemble and expose for identification, if possible, the bodies of those who perished by shock or fire when the ammunition ship Mont Blanc blew up in the harbor Dec. 6.

FEW WOMEN CAN CAN AS MRS. BRUN CAN CAN

Hutchinson, Kan.—Mrs. Jack Brun of this city lays claim to being a strong ally of Herbert C. Hoover. She has put up 321 quarts of all kinds of fruits and vegetables. There is scarcely a vegetable or fruit she does not have in her stock.

COSSACKS TO OUST BOLSHEVIKI.

Kaledines and Korniloff, Backed by Millions, to Wage War. London, Dec. 10.—Cossack forces have revolted under the leadership of Gen. Korniloff and Kaledines and an effort is being made to drive the Bolsheviks out of power in Russia.

Propose Six Months' Armistice.

Petrograd.—The Russian delegation from the front which took part in the armistice negotiations has reported to the central executive committee and the Soldiers' and Workmen's Council. The Russians proposed, according to a member of the delegation, that the duration of the armistice be six months, with three days' notice of the resumption of hostilities.

United States City in France

Americans Build Town All for Themselves.

It Will Be the Main Base for Our Army and Will Cost Millions of Dollars.

Washington.—An American city is rearing itself on French soil. It will be populated entirely by Americans—a city of men. Everything about it will be American. It will be a little bit of New York or Kanaksee or Whoozis transported across the Atlantic and set up on an alien, though an allied soil.

Reports to the war department indicate that plans are well under way. This great city will be well removed from the front, in a locality already selected. It is all mapped out what is to be done. The location is a military secret, so are the plans. All that may be told is what will be there.

German prisoners now in France probably will be employed in the labor of building. American architects and engineers will direct the work.

The place will be as typically American as if it were in Illinois or New Hampshire. Out of it will run an American railway—American built, equipped and manned, direct to the American section of the front. It is understood that it will be located in regard to harbor facilities so that American ships can come in to the docks, there to be unloaded by American stevedore gangs, recruited from the wharves of United States seaports for that especial purpose. These men will wear the American uniform and

will be enlisted for the duration of the war.

It might be a combined seaport-railroad-town-mining-camp-post - frontier-settlement, from all reports that are spread here.

Butterflies Rob Bees.

Fresno, Cal.—Butterflies have become so greedy in Fresno county that honey bees have gone on strike, according to C. R. Snyder, bee inspector of this district. The butterflies have been robbing the bees of the nectar in flowers, and finally the honey makers became sort of discouraged, and recently the bees have virtually been doing no work at all.

British Decorations for Nurses. London.—A ribbon decoration for nurses and woman hospital workers is to be awarded shortly by the British military authorities.

ESTIMATES SUBMITTED TO CONGRESS GREATEST IN NATION'S HISTORY.

11 BILLIONS FOR WAR

TAXES TO PAY PART AND ISSUE OF LIBERTY BONDS TO COVER PORTION.

Washington.—Estimates of more than \$12,500,000,000—the greatest in the nation's history—for the conduct of the government and prosecution of the war during the fiscal year 1919 were submitted to Congress by the Treasury Department.

In round figures, more than \$11,000,000,000 of that vast sum is for the war alone. Only part of it will be realized from taxation; the remainder will come from issues of Liberty bonds.

Deducting an item of \$153,000,000, intended as an annual appropriation toward a sinking fund for the discharge of the old public debt, and some \$330,000,000 which will be turned back to the treasury from postal revenues, the estimated sum for which Congress actually is expected to appropriate is \$13,018,725,595. No previous estimate ever has exceeded two billions.

Table with 2 columns: Category and Amount. Includes Legislative, Executive, Judicial, Agriculture, Foreign Intercourse, Military (Army), Navy, Indian, Pensions, Panama Canal, Public works, Postal service, Miscellaneous, and Permanent annual appropriations.

Total (cents omitted here and above) \$13,504,357,940

Deduct sinking fund postal returns 485,632,345

Total \$13,018,725,595

Greatest Sums for Army and Navy. The greatest sums, of course, are estimated for the army and navy.

\$390,000,000 for Big Shells.

A billion dollars is asked for pay and miscellaneous expenses of the army; more than two billion dollars for the quartermaster corps; \$157,000,000 for hospital and medicines; \$135,000,000 for the equipment of engineer troops and \$892,000,000 for the expenses of their operations in the field.

Navy's Estimates.

The navy's total of a little more than \$1,000,000,000 is distributed principally in this way:

Pay of officers and men, \$426,000,000; aviation, \$94,000,000; improving and equipping navy yards for construction of ships, \$4,000,000; pay, provisions and clothing for the marine corps, \$61,000,000; recruiting, transportation and outfitting recruits, \$15,000,000; arming and equipping naval militia, \$1,500,000; organizing naval reserve force, \$200,000; schools and camps of instruction for naval reserve recruits, \$2,600,000; ordnance strictly in the Bureau of Ordnance, \$26,500,000; new batteries of guns for ships, \$38,000,000; ammunition for ships, \$22,000,000; torpedoes and torpedo appliances, \$1,000,000; extension of the naval gun factory at Washington, \$2,500,000; reserve supplies of ordnance, \$33,000,000; for a new naval proving grounds, \$1,000,000; for experiments, \$355,000; maintenance of yards and docks and contingent expenses, \$12,000,000; for medicine and surgery, \$6,500,000; care of hospital patients, \$4,000,000; provisions for bluejackets, \$61,000,000; transportation charges \$4,000,000.

FARM STOCK

HIGH-CLASS HORSES WANTED

Animal That Performs Work Most Efficiently and Sells at Profit Is Most Desirable.

The most desirable horse is the one that performs the work required most efficiently and economically, and sells at the greatest profit. Under average conditions this horse will combine size, substance, style, step and quality. Nothing adds more to the value of a big horse than style, action and quality.

A big horse without these three things is a very undesirable, unsatisfactory and expensive form of motive power, either on the farm or in the city. Each year sees less demand for inferior horses, both large and small, and a corresponding increase in the value of high-class horses of

Style, Action and Finish.

Three kinds—wagon horses, chunks and drafters. All of these horses are derived from draft breeds.

Wagon horses weigh from 1,250 to 1,500 pounds, and show style, action, finish and substance to a marked degree. Chunks weigh from 1,350 to 1,600 pounds and are compactly built, about two inches less in height than wagon horses of equal weight. They must show quality, action and especially substance, to sell well. Drafters weigh from 1,600 pounds up. The bigger the better if they show the other qualities and are snappy movers.

KEEP CLOSE TRACK OF HOGS

Make Sure That Animals Are Not Afflicted With Lice—Oilers Are Quite Common.

It is well to keep close track of the hogs and make sure that they are not afflicted with lice. Lice are blood-sucking parasites. They lower the vitality of hogs, not only by sucking the blood but by continual irritation which gives the hog no rest.

GRAIN RATION FOR LAMBS

Young Animal Just Beginning to Eat Should Be Given Corn, Oats, Oil Meal and Bran.

A good grain ration for lambs just beginning to eat is ground corn, 1 part; crushed oats, 1 part; linseed oil meal, 1 part; and wheat bran, 2 parts. Wheat bran is very essential in this ration, and the shepherd should always see that it is present. A grain ration consisting of 2 pounds of wheat bran, 1 pound of oats (crushed oats being preferred), 1 pound of finely ground cornmeal, and one-half pound of oil meal has proved to be an excellent grain ration for young lambs. It has also been found that a grain mixture of oil meal and cornmeal has given better results than a mixture of cottonseed meal and cornmeal.

ROUGHAGE FOR IDLE HORSES

Expert of North Dakota Station Makes Suggestions on Feeding During Winter Season.

Mr. Peters of the North Dakota experiment station makes the following suggestions on wintering the horse. The work horse that has been properly cared for and fed in the summer can be wintered, when not at work, on such roughage as oats straw, good hay and corn fodder. In addition to the above it may be necessary to give four to five pounds of grain daily per animal in order to maintain them in good flesh. Idle horses should be turned out for exercise every day in winter except on the few stormy winter days that occur during this season.

NOTICE TO DRAFTED MEN

Under date of Nov. 30, the following communication has been sent to all local exemption boards:

"All Boards--Please note the following instructions of provost marshal general:

"Please cause the broadcast and most extensive and continuous publicity to be given through the adjutant general, local and district boards, the newspapers and by all possible means of warning to all registrants who may have changed their place of abode and postoffice address to communicate immediately with their local board where they are registered and furnish their present address so that questionnaires which will begin to be mailed December 15th will reach such registrants without delay. Registrants are bound by law to keep themselves advised of all proceedings in respect to them, and failure to do so may result in their losing right to claim exemption or discharge.

"Please request newspapers to give this warning broad and continuous publication from this time until the process of mailing questionnaires has been accomplished."
