

School Children Give Pleasant Entertainment

The school pupils gave a delightful little entertainment Tuesday evening, to celebrate National Song week. The evening was spent in singing good old songs, some religious, others patriotic. The idea of a song week throughout the country is to teach school pupils and others that some songs are worth remembering and others are not. For instance, what good can it ever possibly do a child to learn and remember such songs as "Casey Jones" and "Has Any One Here Seen Kelly?" While such good old hymns as "Nearer My God to Thee," and all the American patriotic airs and a few folklore songs like "Swanee River" should be remembered. Both children and adults entered into the spirit of Tuesday evening's entertainment, and a general good time was held. Mrs. Coombs and her corps of teachers were complimented for the success of the affair, as well as for the very fine idea in falling in line with other up-to-date communities in teaching the young the things worth while. Refreshments were served.

High Metal Prices Does Not Bring Prosperity

Lead has been selling at and around 10 cents for the past few days. Silver also keeps climbing up a little, and may go to a dollar an ounce. A small supply of copper was sold at 37 cents, while future deliveries of the red metal are quoted strong at about 32 cents. On account of smelters refusing to accept more ore, the high metal prices have not brought the great prosperity to mining camps in Arizona they should. As a counter proposition to the proposed state smelter, Prof. Chas. F. Willis has suggested that the state come to the aid of the small shipper by collecting small amounts of ore at some central point for shipment in carload lots to the smelter. This is a good suggestion and steps should be taken to carry it out. Temporarily it should give relief to a great number of prospectors throughout the state.

PATAGONIA MINES

Work is going on regularly at the Ruby Copper Company's camp, the work now being in an upraise from one of the lower levels.

Edw. Massey, deputy mine inspector, who often visits Patagonia in an official capacity, was married last week to Miss Mary Flood, one of the most popular girls in Phoenix. Good luck and lots of it is the wish of Edward's many friends in this district.

Franklin W. Smith, the Bisbee engineer, accompanied by Marshall Bond, a mining man of Santa Barbara, Cal., were in the district this week, at the Coronation group, where extensive exploration work is going on under Mr. Smith's direction. Conditions at the Coronation are reported quite satisfactory.

W. J. Mitchell, representing the Standard Metals Company, which has recently taken over the old Mowry mine, says plans are going ahead satisfactorily for the early operation of this famous old property. About the first part of next month everything is scheduled to be completed on the deal and immediately work will start.

J. Lee Brown, who owns claims in the Harshaw district, last Saturday went to Nogales, where he will again enter the Sisters' hospital. Mr. Brown has been having very poor health of late, only recently having been released from a hospital. He intends to remain this time until he thoroughly recovers.

Mr. and Mrs. Lou Stevens motored down to the county seat Wednesday.

LETTERS TO PATAGONIAN

It should be understood, of course, that Santa Cruz Patagonian, like all other papers of the country, assumes no responsibility for articles made in communications to the paper. All contributions must be signed by the writer, but the name will not be printed if requested.

Editor Santa Cruz Patagonian: Napoleon was the greatest agency in the work of road construction the world has ever known, and he had as his example the Romans, who constructed great paved thoroughfares, stretching out to all of their empire—roads which were so well built that many of them remain to this day. In the current reports of the battle on the Somme we hear of the British and Germans fighting "along the ancient Roman road." After the Roman era roads were allowed to deteriorate until for centuries the people of Europe no longer knew what the term "road" meant, and even had no name for it. The barbarians were in full swing; they had no use for roads, and would not allow any built.

The roads of a country can be taken as a very good index of the character and advancement of the people. Go into a section where the people are poor, shiftless, lazy and not completely civilized and the roads will be of the worst order. Go into a section where the people are industrious, enterprising and well-to-do and the roads will be good. This is not invariable, but it is the rule. Good roads and prosperity go together; neither is the sole cause of the other, but their influence is mutual.

Poor roads are the biggest tax the people of this country have to pay. The good roads enthusiasts have tried to estimate what the bad roads of this country cost us a year and the amount is so stupendous that they did not like to publish it. As a matter of fact, the damage can hardly be over-estimated. There is not only the direct loss in the way of small loads hauled, wear and tear of equipment, breakdowns and time wasted, but a long list of indirect losses such as lower value of lands owing to the absence of good roads, lack of facilities for social intercourse, etc.

The State of Arizona as a State has made great progress in the last five years in building roads and bridges. Some of the counties in Arizona have made great progress in the shape of building good roads. Santa Cruz county has been making an attempt at road building the last year, with more or less success. The people of Santa Cruz county have been generous to their Board of Supervisors in furnishing them opportunity and money, chances which comes to but few men in a lifetime. The board has not been responsive to the will of the people; they have not given the people what they want—good roads. This is a progressive age, and the people of Santa Cruz county are not doing justice to themselves to stand idly by and allow the Board of Supervisors to keep them in the background with bad roads. The people have a good deal of patience with this Board of Supervisors. When there was no money we did not complain. Now we do complain, and the people have to act and

Extra Good Program for Sunday's Show

The picture show Sunday night will give the program which was advertised for last Sunday evening, but the show was not given last Sunday on account of the bad weather. The program is a good one, and should be enjoyed. "The Quarterbreed" is a three reel picture of thrilling scenes and full of pathos and human interest, while the comedy, "Billie's Reformation," in two reels is also a good one.

LOCAL NEWS NOTES

Rev. Chas. H. Harshman of Bisbee has been giving a series of lectures in Patagonia this week, which are appreciated by those who attend. Mr. Harshman is a splendid speaker.

F. B. Parker and A. Sydenham returned to Patagonia the latter part of last week, driving on automobile from Los Angeles. They had many interesting experiences, and enjoyed the trip very much.

James Richie, who has been working at the Trench for some time, has resigned. Tuesday he was in Patagonia and went on down to Nogales on the evening train for a short visit.

Mr. and Mrs. C. L. Northcraft left last Saturday morning for a visit with relatives in Los Angeles and vicinity. The manager of the San Jose de Sonora land grant will also combine a little business with pleasure on the trip.

Mrs. Short Long came up on the train from Nogales Monday morning with her husband, the well known conductor on this branch. A son of Mr. and Mrs. Long is going to take up the homestead near Sonota formerly occupied by Vallston Fuller.

Fr. Van Goethem of Nogales was in Patagonia Tuesday, making preliminary arrangements for the musical concert to be given at the opera house here a week from Sunday night, March 4, the proceeds of which are to be devoted to the church fund.

A fine big snow visited the Patagonia country Sunday morning, as much as three inches being recorded on a level. A rain or snow was very badly needed, and as a result of Sunday's big snow storm, which melted almost entirely by the next day, the

Soldiers at Lochiel Are Preparing to Remain

J. Paul Jones, assistant to the base quartermaster at Nogales, accompanied by two or three engineers and a couple of army trucks, was through Patagonia last Saturday en route to Lochiel. A battalion of four or five companies of guardsmen are now stationed at Lochiel, and the visit of the representative of the quartermaster's department was to prepare winter quarters for the men. Those timid souls in Patagonia who have professed to be fearful lest some of Villa's cutthroats would swoop down on this place some evil day, should now take courage, as with plenty of soldiers at Lochiel, to guard the entrance through the San Rafael or Duquesne, it is impossible for any marauding bands to get here, unless they come by way of Tucson—and then, the chances are, cowboys between here and the Old Pueblo would stop 'em before they got very far.

cattle men and farmers are beginning to whistle two tunes at once. Mr. O. F. Ashburn says it was "a million dollar storm."

Al Saxon is Sheriff Ray Earhart's representative in Patagonia, being stationed here as deputy.

L. M. Ham, of Alhambra, Cal., has accepted a position with the Washington Trading Co., as stenographer and accountant, beginning his duties this week.

Dr. J. M. Harris, formerly a practitioner in Patagonia, with Mrs. Harris, have located in Fort Davis, Texas, for the practice of his profession, according to news received here in a letter by friends of Mrs. Harris.

Frank Blackledge of Patagonia came in Wednesday for a short visit home. He is now employed running the compressor at the famous Three R mine, which is now making a record as a producer.—Benson Signal.

Mr. and Mrs. Roy Peterson have returned from Phoenix, where they were married last week, and are keeping house for the present at Paul McIntyre's home.

F. A. Blauser, who was connected with the Patagonia Garage until recently, and before coming to Patagonia was engaged in farming between Canille and Elgin, is now in Salem, Oregon. Mr. Blauser sold his ranch in this county to Ed Ellis, the freighter. Word received by friends of Mr. Blauser here say he is very much pleased with his new surroundings, and that he has gone into the chicken business.

Machinery for the Jerome Daisy Copper Company is now on the ground.

Two carloads of machinery for the Gadsden Copper Company has arrived at Clarkdale.

There is greater activity in the Parker district just now than at any time in its previous history.

Operations are getting into full swing again at the Yeager cañon mine, which is being developed by the Shannon Copper Company.

Definite arrangements for the development of the Verde Squaw Copper Mining Company's property on a big scale are being completed at Jerome.

An unexpected and probably important change has taken place in the Pittsburg-Jerome shaft in Jerome district. At a depth of 886 feet the shaft is in white iron with a little copper stain. White iron is regarded as a splendid indication of copper.

The mine being sunk from the main tunnel level at the Cobrita shows up two feet of the best high grade copper sulphides yet seen in the Salome district, the ore being practically a solid black sulphide and chalcopyrites.

Colorado.

A decided revival of activity is noted throughout the tungsten districts.

Many mines that have not worked for years are preparing to resume work as soon as weather conditions permit.

It is reported that a deal is on whereby the Terry estate will turn over control of the famous Sunnyside mine at Eureka to parties heavily interested in the American Zinc Company.

Reports from Ouray are to the effect that a good production of smelting grade ore will be made this season from the Callopie group of claims located in the Paquin district about three miles from Ouray.

From Silverton, the central point of San Juan county, comes a report which states that 1917 will outstrip the preceding year—"a banner year in every respect, with the largest production in the history of the camp."

In the Telluride district the Smuggler, Tomboy and Liberty Bell mines are the big producers and ship out from three to five cars of concentrates per day, and all of them plate the gold and send bullion to the mint.

A report from Telluride states that the largest enterprise in a mining way at or near Ophir is the Silver Bell property, near the Ophir Loop depot. This mine is developed by six levels and a big two-compartment shaft.

The Golden Anchor Mining Company worked its property in Horse gulch last summer and only closed down when forced to do so by the deep snows. Some very fine copper-gold ore was shipped during the late summer.

New Mexico.

The Oaks Company of Mogollon paid its third consecutive monthly dividend on outstanding preferred stock, on Feb. 1st.

The Socorro mines clean up for the last half of January amounted to nineteen bars of bullion or between 22,000 and 23,000 ounces.

The Mogollon Mines Co. produced sixteen bars of bullion for the last two weeks of January. Additional dwelling houses are being put up for their men.

New Mexico has an exclusive corner on one of the world's commodities, meerschaum, and it is likely that these vast deposits will again be operated, this time by Lordsburg interests.

Arrangements have been completed whereby the Oaks Company have taken option on the Maude S. property. Examinations are now being made and it is expected that this property will again enter the productive stage. Upwards of a million dollars have been taken from the mine.

Shepard Bros., drilling for the Prudential Oil Company, are down 2,100 feet at Silver Tip.

The Ohio Oil Company is now shipping the oil it produces and buys in the Elk Basin field.

The coming season will be one of great activity in oil operations in the vicinity of Douglas.

SEVEN YEARS AGO AND TO-DAY

Then He Had 6 Mules, \$660 Cash and Some Equity—Today He Has \$20,000 and Owns 2 Sections of Land.

The story of the wealth of Western Canada cannot be told too often; the truth will bear repeating. And in telling of it it is hoped that advantage will be taken of the great opportunities that Western Canada offers by those who are today struggling for a mere existence, by those who are occupying lands, high in price and high in rentals.

From grain, live stock and dairying in 1916, there was a return from the three Prairie Provinces of \$258,000,000, or an increase of four million dollars over 1915, and 118 million dollars over 1914.

A prominent Trust Company says: Some of our contract holders have paid off their purchase money on lands bought a year ago out of this year's crop, and what one man can do another can do. Thousands of Southern Alberta farmers harvested an average of 40 to 50 bushels of No. 1 wheat to the acre. These farmers have more real money to spend than any other people on the American Continent. J. D. Johnston of Bladsworth, Sask., left Johnson County, Kansas, seven years ago. When he left he had \$600 in cash, six mules, some settler's effects and an equity in some prairie land. Mr. Johnston tells his story:

"In my seven years' residence in Saskatchewan, I have raised seven good crops the value of this year's crop alone being Twenty thousand dollars. I now own Two Sections of improved land, 17 horses and mules, 40 cattle, a large steam thrasher and a full line of farm machinery."

We have made five trips to Kansas, one trip to the Pacific Coast and return. We have enjoyed the society of a class of people than whom none better can be found. The climate is healthful and invigorating. The soil is fertile and productive, well adapted for the production of the best quality and large yields of all cereals and vegetables, wild and tame grasses. It is an excellent stock country."

The question of taxes is one that carries with it considerable weight. Coming from a man like Mr. Johnston the same weight should be given the answer. He says:

The tax system especially commends itself to me as being simple, reasonable and just. All direct taxes are levied on the land at its appraised market value, exclusive of improvements thereon. No tax on personal property. This tends to discourage the holding of lands by speculators who prevent its cultivation or improvement, hoping to realize profits from the enhanced value of their holdings due to the industrial activities of the bona fide settlers. It tends to encourage the settlers to rear substantial improvements upon their land without paying a penalty in the form of taxation therefor. It encourages the raising of live stock and the possession of other personal property necessary to the development of the country.

"The laws are well and economically administered. Citizens of the Dominion vote on election of members of parliament and members of the Provincial assembly, while on questions of local improvements and school matters the franchise is exercised by ratepayers, irrespective of citizenship. The people are enterprising, school facilities are good, taxation, just and reasonable. Military service voluntary. Patriotic fervor unsurpassed, law and order the rule, and crime the rare exception. It is the land of banks, schools, telephones, grain elevators, broad, fertile acres, good climate, good citizenship and abounding in opportunities for the industrious man or woman of good morals. In short, the land of promise and fulfillment, I know of no better anywhere."—Advertisement.

A MINISTER'S CONFESSION

Rev. W. H. Warner, Myersville, Md., writes: "My trouble was scientific. My back was affected and took the form of lumbago. I also had neuralgia, cramps in my muscles, pressure or sharp pain on the top of my head, and nervous dizzy spells. I had other symptoms showing my kidneys were at fault, so I took Dodd's Kidney Pills. They were the means of saving my life. I write to say that your medicine restored me to perfect health." FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandierine hair cleanse." Just try this—moisten a cloth with a little Dandierine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandierine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Dandierine from any store and just try it. Adv.

A FAVORITE KIDNEY MEDICINE IN THIS STATE

Dr. Kilmer's Swamp-Root stands equal to the best kidney, liver and bladder medicine, and customers are generally well pleased with the benefits derived from its use in the diseases for which it is intended. Nearly a quarter of a century ago I began selling it and since that time know that it has done much good in this locality. Very truly yours, J. A. HUBER, Druggist, Louisville, Colo. July 14, 1916.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

Uric Acid!

Ever since the discovery of Scheele in 1775 that uric acid was found within the body—most eminent physicians agree that rheumatism is caused by it; also many distressing symptoms as headache, pain in back, stomach distress, swollen feet and ankles, gout, etc. It was Dr. Pierce of the Invalide Hotel, Buffalo, N.Y., who discovered a new agent—called Anuric, a harmless remedy that if taken before meals will carry off the uric acid from the system and in this way the pains and aches, the creaky joints and all the distressing symptoms of rheumatism and other maladies disappear. You can easily prove this yourself, by obtaining Anuric at almost any drug store, or send Dr. Pierce 10c. for trial package. Try it and be convinced that Anuric is many times more active than lithia and eliminates uric acid as hot water melts sugar.

A FRIEND'S ADVICE

Woman Saved From a Serious Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads." — Mrs. NELLIE FISHBACK, 1521 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary. If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice.

Getting Free Advertisers. That eminent self-advertiser, Houdini, is just summing up the net results of his purchase of the Bernhardt statue. You may possibly remember that the statue was presented to Mme. Bernhardt by John Drew, in the name of the actors of America, and afterwards was discovered not to have been paid for. The sculptor's wife sent Bernhardt a bill for it and Bernhardt promptly responded that she had accepted it as a gift and would send it back rather than pay for it. A most embarrassing situation ensued and all the newspapers commented upon it. Then came Houdini to the fore. He paid the sculptor's wife for the statue and wrote Mme. Bernhardt begging her to keep it with his compliments and forget an incident which had brought embarrassment to the door of the world's greatest artiste. Houdini has just finished tabulating the returns from his press clippings describing his highly commendable act and linking his name with Bernhardt's have been received. Over half of them were first-page stories. They average 15 lines in length. Estimating this advertising at the pure reading matter rate of a dollar a line, Houdini calculates that he has reaped the equivalent of an expenditure of \$56,340. The statue cost him \$300.—New York Letter.

Lloyd's announces the sinking of the British steamer Langscar, 2,777 tons; the Hopemoor, 3,740 tons; the Afton, 1,155 tons; the Greenland, 1,753 tons; the Kynasti, tonnage not recorded; the schooner Percy Roy and a trawler.

The negotiations between Frederic C. Penfield, the American ambassador at Vienna, and the Austro-Hungarian government have been broken off, according to the Berliner Tageblatt, as quoted in an Exchange Telegraph Company dispatch from Copenhagen.

Striking at the French line in Champagne, midway between Verdun and Rheims, troops of the German crown prince have taken ground to a depth of a half mile on a front of a mile and a half. The attackers captured 558 prisoners and twenty machine guns. The latest French official statement mentions only artillery activity in the vicinity of Maisons de Champagne. Except for raids by British, French and German troops at various points along the front in France and two small engagements in Galicia, there has been no important infantry fighting on the other battlefields. Official communications report much aerial activity on the western front.

Feel Achy All Over?

To ache all over in damp weather, or after taking a cold, isn't natural, and often indicates kidney weakness. Uric acid causes many queer aches, pains and disorders of the organs. Well kidneys keep uric acid down. Tired, dizzy, nervous people would do well to try Doan's Kidney Pills. They stimulate the kidneys to activity and so help clear the blood of irritating poisons.

A Colorado Case. Mrs. J. B. Williams, 199 S. Cherokee St., Denver, Colo., says: "I suffered a great deal from pain and weakness in my back and it felt as though a heavy weight were pulling me down. Nights, I had sharp pains through my kidneys and was so nervous I couldn't get much rest. The action of my kidneys was irregular and the kidney secretions were unnatural. BRITISH DRIVE WINS AT ANCRE

TEUTON LINES CRUMBLE ON FRONTS OF MORE THAN TWO MILES.

TURKS LOSE ON TIGRIS

GERMAN SUBMARINE SINKS 50,000 TONS OF MERCHANT SHIPS IN A SINGLE DAY.

Western Newspaper Union News Service.

London, Feb. 20.—British troops captured German positions on a front of about one and one-half miles, penetrating the German defenses to a distance of about 1,000 yards, and coming within close range of Petit Miramont, which lies to the northeast of Grand Court, on the Ancre front in France.

Another important position also was carried along a front of about 1,000 yards, according to the official report from headquarters. The text reads: "Successful operations on both banks of the Ancre were undertaken by our troops. Very considerable further progress was made south of the river."

Several important gains against the Turks in Mesopotamia are recorded in the official report. In addition to forcing the Turks back on the Tigris river, the British captured 1,900 prisoners.

Berlin.—One German submarine returning to her home base reports that during a period of twenty-four hours she sank merchant ships aggregating 50,000 tons. Another German submarine has a record of sinking a total tonnage of 35,000 in five days.

London.—Lloyd's announces that the British steamer Lady Anne, 1,016 tons, has been sunk by striking a mine. Two of the crew were killed and five injured. The captain and eighteen men are missing.

Sinking of the following steamers was announced by Lloyd's: Worcestershire, 7,175 tons, Valdes, 2,255 tons, Romsdalen, 2,548 tons, Marie Leonhardt, 1,468 tons, Marion Dawson, 2,300 tons, Queenswood, 2,701 tons. The crew of the Queenswood was saved except three men killed by the explosion.

GOVERNOR DE BACA DIES

New Mexico Governor Passes Away at Santa Fe After Long Illness.

Santa Fe, N. M., Governor E. C. de Baca died Sunday afternoon at 4 o'clock of pernicious anemia.

Governor de Baca had been ill for some time, failing health forcing him to take only a minor part in the campaign for his own election last fall. He was sworn in virtually on a sick bed, barely a score of persons attending his inauguration, which was held in his room in a local sanitarium.

The governor gave small attention to state affairs until the Legislature met, two weeks after he took office. Then he began to exercise more and more of the executive functions, but the strain told on him severely, and further heroic treatment was resorted to.

Governor de Baca will be succeeded by a Republican, Lieut. Gov. William E. Lindsey of Portales. Governor de Baca's running mate, former Gov. W. C. McDonald, was defeated at the last state election.

Ask U. S. Intervention in Cuba.

Washington.—Apprehension over the Cuban situation was increased by receipt of dispatches from Havana stating that the situation in that section of Cuba is very critical and threatening. Business throughout that region has been paralyzed; there are no mails, and trains are not operating. The insurgents in control of Santiago have seized two Cuban merchant vessels, the Frank Penny and the Julia, which have been heavily armed and stationed at the mouth of the harbor.

Permit Americans to Leave Turkey.

Washington.—Permission for the departure of the American refugees from Turkey has been given by the Ottoman government. Ambassador Elkus at Constantinople advised the State Department today that a Turkish authority had expressed the hope that the Americans would be given passage soon and their departure would in no way be interfered with. American missionaries in Syria, Palestine and Turkey are awaiting transportation at Beirut.

National Guard Ordered Home.

San Antonio, Tex.—Following the receipt of orders for release of all the state troops remaining in the Mexican border service, Gen. Funston and members of his staff began preparations for sending home the 50,000 guardsmen. Movements will not be commenced until organizations designated to go home under previous orders have left their border stations. Virtually all of the troops included in the earlier lot will be out of the way Feb. 20.

WOMEN! IT IS MAGIC! LIFT OUT ANY CORN. Apply a few drops then lift corns or calluses off with fingers—no pain.

Just think! You can lift off any corn or callus without pain or soreness. A Cincinnati man discovered this other compound and named it Freezone. Any druggist will sell a tiny bottle of Freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off. Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the surrounding skin. Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't Freezone, tell him to order a small bottle for you from his wholesale drug house.—adv.

ACCESS TELLS SECRET. A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

HERE AND THERE

In the department of the Tucson Star, "Ringing Down the Ages," being clippings from the files of that paper for a period of thirty years back, was recently published the following interesting item to people of this community, taken from the Star's edition for Saturday, February 17, 1887: "Mrs. James Kane of Greaterville on Saturday night presented her husband with a beautiful infant daughter, the second child in the family, both of the gentler sex. Mother and child are flourishing." This child afterwards became Mrs. Morgan Wilson, who died about two years ago, and is buried in the Patagonia cemetery. The first child mentioned in the local from the long ago is Mrs. A. C. Eperson, who now lives at Pinos Altos, N. M. The same issue of the Star says in another place: "James Kane is in the city and reports that 200 miners are at work in Greaterville, mostly on their own account. Those working for wages receive \$3 per day."

In Sonoita there is an agitation on foot for the selection of a local cemetery site, and a mass meeting was recently called to discuss this subject. With the large number of families now resident in Sonoita, bereavements are bound to occur, and a cemetery close by is a necessity. Patagonians will think the Sonoita people will have better success than with their plans for a burying place for their loved ones than we have had so far in Patagonia.

Senator Ferguson of Patagonia has introduced a bill in the State Senate with the intent of amending the present alien law to permit Mexican refugees to acquire property in Arizona. The bill will require considerable thought and precision in phrasology to prevent the proposed amendment permitting Japanese and Chinese from acquiring property in the State—now prohibited under the existing law.

A Mississippi man wants to buy a carload of burros, female burros, which causes the Tucson Star to remark that when he gets this car of burros he will probably find that the "female of the species is more deadly than the male, and the carload will be packed full of original sin and cussedness."
