

Gov. Tom Campbell Felicitates Citizens Over New Bridge

The dedication services held on Wednesday, Feb. 14—Admission day for Arizona—to celebrate the completion of the bridge over the Santa Cruz river connecting Nogales with the other parts of the county, were well attended, considering the inclemency of the weather. The chief feature of the occasion was the presence and address of Governor Thos. E. Campbell. When the governor and his party passed the Alabama camp entering Nogales a salute was fired. Escorted by Chamber of Commerce officials and followed by a big crowd from Nogales, the motorcade proceeded to the bridge in the afternoon, where they were met by many automobiles filled with citizens from Patagonia and other parts of Santa Cruz county.

At the bridge ex-Senator Karns acted as master of ceremonies. Rev. Geo. C. Golden pronounced an invocation. Mr. Karns made a speech, setting forth the great benefits to be derived from the completion of the bridge, and entered to some extent upon the details of its construction.

Col. Allen T. Bird of the Nogales Oasis, in a few well chosen words, congratulated the people of Santa Cruz county upon the completion of the new bridge, the connecting link between the county seat and the entire up-country communities.

Judge A. S. Henderson, representing Patagonia, responded, telling how pleased the people of Patagonia were at the completion of the structure, and expressing the hope that within a short time the state would be able to spend \$10,000,000 on its roads.

Senator Karns then introduced Gov. Campbell, who was given an ovation. The governor was in good spirits, and made a pleasing address, listened to with great attention, his remarks often being interrupted with applause. He advanced some good ideas on future road building, his suggestion that automobile tax within a few years should be sufficient to pay interest on over two million dollars worth of road bonds, meeting with approval. The governor suggested that the bridge should be named the "Karns bridge, in honor of the ex-senator."

The United States Civil Service Commission announces that on Saturday, February 24, 1917, an examination will be held at Patagonia, Ariz., as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth-class postmaster at San Rafael, Ariz., and other vacancies as they may occur at that office, unless it shall be decided in the interest of the service to fill the vacancy by reinstatement. The compensation of the postmaster at that place was \$266 for the last fiscal year. Age limit, 21 years

and over on the date of examination. Applicants must reside within the territory supplied by the postoffice for which the examination is announced. The examination is open to all citizens of the United States who can comply with the requirements. Application forms and full information concerning the requirements of the examination can be secured from the postmaster at San Rafael or from the United States Civil Service Commission, Washington, D. C. Applications should be properly executed and filed with the Commission at Washington at least seven days before the date of the examination; otherwise it may be impracticable to examine the applicants.

An Associated Press dispatch of recent date from Sheboygan, Wis., says: Virginia Fessler, 15, daughter of Bernard Fessler, was unable to unfasten her heavy coat and cape in her anxiety when her brother Jacob, 6, and Cecilia Melger, 7, broke through the ice in the Sheboygan river, so she broke through the ice and swam in her heavy clothes to the middle of the river and rescued her brother as he sank the third time, came back to shore, then returned and saved the other child. The children were throwing sticks on the ice for a pet dog to bring back. One went to the open channel and the dog fell into eight feet of water. The children went out to rescue the dog and broke through. Virginia learned to swim last summer. She wore gloves and could not unfasten her cloak as she ran out on the ice, but broke through and with her fist broke a channel to rescue her brother and his companion. [The young heroine above referred to is the granddaughter of Antone Fessler, who with his brother, Henry, and by their wives, were in Patagonia last week for a short visit with another brother, Wm. Fessler, of this place. After a few days spent in visiting mines near Patagonia as the guests of their brother here, the Fesslers left for the coast, expecting to spend a week or more in each of the more important cities before they return to their Wisconsin home.]

The grower who produces a fancy product has an advantage in selling his crop. This has been well illustrated recently in the case of a crop of tepary beans grown by W. E. L'Hame, of Cochise county. Mr. L'Hame produced a crop of teparies which yielded 800 lbs. per acre on land which produced a fair crop of wheat in the spring before the beans were planted. Both crops were grown without irrigation. So good was the quality of the teparies that a seed house paid him 10 cents per pound. Mr. L'Hame has now followed the beans with fall wheat, first discing the land, and the wheat has made a promising growth to date without irrigation.—Agricultural Extension Service, University of Arizona.

Herb McCutchan this week started work on a contract at the Sunnyside property, which adjoins the Three R, and is owned by J. C. Miller.

Pete Hanson, interested in some valuable claims near Patagonia, who has lately been in the restaurant business, which he sold last week to Mrs. Fall and Mrs. Bennett, has accepted a position at the Pinal mine.

Bar silver has been selling recently at over 77 cents an ounce, the highest quotation for a good many years. It is the belief that the price will go considerably higher. This opinion is based on the belief in an increased scarcity of supplies resulting from shipping conditions. The price of silver is influenced by a firm foreign demand.

A head writer in the Tucson Star says the Sweet Bye and Bye is "about to eventuate." Somehow the Tucson papers never did take kindly to this property, although it is in Pima county and has shipped some ore over a long period of years. Perhaps the name has quered it with the Tucson papers. The name does suggest the far distant future, but notwithstanding this handicap, all reports from the claims are of a most encouraging nature, and lead to the belief that a big deal is liable to be made for the purchase of the property any day. A distinguished Patagonian, Mayor Wm. Powers, will make a stake when the Sweet Bye and Bye "eventuates."

In response to a general demand that a national park be created at the Grand Canyon in Arizona, Hon. Carl Hayden has introduced in the House a carefully prepared bill the enactment of which will accomplish this purpose. The bill provides that certain lands now included within the Grand Canyon National Monument shall be set aside and dedicated as a public park for the benefit and enjoyment of the people under the name of the Grand Canyon National Park.

The Sunday school institute at Fruitland hall on February 7 was pronounced a success by those in attendance. In the absence of the four speakers announced to be there, Pastor Orton took charge, providing an impromptu program, resulting in live discussions on local Sunday school problems. Mrs. Bartlett was chosen president; Mrs. Chute, secretary-treasurer, and Mrs. Rothrock teacher.

The law forbidding civilians to wear soldiers' uniforms is being rigidly enforced in Nogales and other places where any number of soldiers are stationed. Recently a well known Patagonian wearing a soldier's shirt was in Nogales, and was compelled by the provost guard to take off the garment and deliver it to Uncle Sam's commissary. Fortunately friends of the Patagonian came to his rescue with another shirt not of the military model, thereby preventing considerable embarrassment.

Several inquiries have been received this week about the lot in the main business part of Patagonia for sale for \$500, but as yet no definite deal for its purchase has been made. This lot is 50 by 135 feet, and looks like a mighty good buy. Better hurry if you want to get a good business lot in Patagonia for a very reasonable price. A year or two will soon go by and this lot will then be worth probably \$1000 or \$1200, judging from present indications.

Ramsdell May Build Smelter Near Tucson to Treat Own Ore

The Tucson Citizen has just issued a Statewide Mining Edition, which is one of the most complete and comprehensive editions of the kind ever published in this state. Especial attention is given to the mines of Southern Arizona, and such Patagonia properties as the Three R, Duquesne, Mowry, World's Fair and the Pinal are given publicity. The edition is replete with valuable information, and is of inestimable worth to the state in general, but to the southern part in particular, in letting the outside world know of the wonderful mining development and opportunities for investment in this favored region. Speaking of W. R. Ramsdell, who is operating the Pinal, in the Santa Rita above Patagonia, and the proposed state smelter, the Citizen says:

One of the possibilities of the near future for Tucson is a smelter for the Ramsdell interests, to be located at a central point in this vicinity. Smelting interests have been in close touch with Mr. Ramsdell during the past month; tests have been made and it was found that a combination of the ores of the various mines is ideal. W. R. Ramsdell states that his mines are now producing enough ore to keep a smelter of the capacity of from 100 to 200 tons daily busy. He described the project as having advanced beyond the speculative stage, but as one which would require sixty days or more to bring to the organization stage.

This question of a market for ores is a pressing one with the small operator, whose shipments are infrequent. There is a movement on foot for the establishment of a state smelter at this time, and a bill providing for its establishment has been introduced in the legislature. It appears improbable of carrying, however, and as an alternative it has been suggested by C. F. Willis, director of the State Bureau of Mines, that the state assist the small operator by assembling small lots of ore at a central point to make up carload shipments to the smelters. It is said such shipments, by reason of good smelting combinations, would be welcomed by the smelters.

Vic Wager, popular assessor of Santa Cruz county, has been in the Patagonia country this week on official business.

A Gypsy band which recently arrived in Tombstone, consisting of a number of wagons, donkeys, bears, monkeys, etc., were told to move on when they applied to the mayor and chief of police for permission to "show" in Tombstone. They were politely informed that their presence was not required in that town, and that it would be necessary to keep moving. The outfit was a dirty looking bunch, and the people, monkeys, dogs and bears all barked together. Traveling bands of this kind are a menace as well as a nuisance, and the city officials of Tombstone did the proper thing in giving them the "move on" order.

Mrs. Theodora Marsh, representative from Santa Cruz county, has introduced a bill in the legislature abolishing the state board of control, and substitutes a board of public welfare, constituted of the governor, the state examiner and a third person, who shall not hold any other office in the state and who shall be secretary and purchasing agent. The new board shall keep the accounts of the public institutions, including the university and normal schools, and shall distribute free a report showing the financial condition of the state, and the revenues and cost of each of the public institutions.

A petition remonstrating against abandonment of the old Harshaw-Mowry road, as proposed in a posted notice from the office of the Board of Supervisors, was quite liberally signed by citizens of this part of the county this week. There seems to be difference of opinion about the proposed new road from the Mowry. It is generally believed the new road down Serrano canyon would be a great benefit, but it is not desired to abandon the old road. The Duquesne company would be the chief beneficiary of the proposed new road, and the great mining region of Harshaw would be left to upkeep its own road. Some point out that in case the new road is built, as proposed, the Duquesne company should pay half its cost. Others maintain, and with some reason, we think, that before attempting to build new and unnecessary roads, the Supervisors should repair roads now in use, especially the road leading from Nogales to Patagonia, to Sonoita, Elgin and on through the county to connect with the Borderland Highway.

The new grazing rates in forest reserves, which have recently been raised, will be as follows: Cattle, 60 cents; horses, 75 cents; sheep, 15 cents; goats, 15 cents. The season will be from April 1 to March 31. Nothing is said in the order concerning advances for future years, although in the original plan it was decided to make other raises in the second and third years. An effort to obtain state protection against spread of blackleg will be made by cattle interests, it is reported. At present there is no state law which requires the burning of the carcasses of infected animals and an effort will be made before the present legislature to obtain some provision for sanitary regulations to combat the spread of this disease among cattle. The forestry service can only enforce regulations on the forest reserves.

Notice of Forfeiture

Patagonia, Ariz., Nov. 15, 1916.
To H. H. McCutchan and M. A. Hogan, their heirs and assigns:
You are hereby notified that I, Jake Johnson, the undersigned, have expended during the year 1915 the sum of Six Hundred Dollars (\$600.00) in labor and improvements upon the following lode mining claims, situated in the Wrightson mining district, in Santa Cruz county, Arizona, to-wit: The Dixie No. 1, Dixie No. 2, Dixie No. 3, Dixie No. 4, Dixie No. 5, Dixie No. 6, the notices of location of which are recorded in the office of the Recorder of said Santa Cruz county, Arizona, in Book 15, pages 494 to 590 of Mining Locations.
The labor was done and improvements made in compliance with the requirements of the United States Laws, being the amount necessary to hold said mining claims for the annual period, ending December 31, 1915.
Now, therefore, if within ninety days from the personal service of this notice, or within thirty days after the publication thereof, you fail or refuse to contribute your proportion of said expenditures as co-owner, to-wit: One-half or Three Hundred Dollars (\$300.00) for the said year 1915, your interest in the said mining claims will become the property of the undersigned, your co-owner, who has made the expenditure required by law.
JAKE JOHNSON.

Direct From Our Factory Will Save You \$100 or More

OUR Big Offer is to send you for 30 days' free trial in your home a beautiful, guaranteed Starck Piano direct from our factory, thereby saving you \$100.00 or more.

We require no payment in advance. You are not asked to tie up your money in any way. All you do is to take the piano into your home for 30 days free trial, where you test it and try it in your own way.

At the end of 30 days you decide whether the piano is just the one you want. If it is, you keep it, paying our low factory-to-home prices. If, for any reason, it does not prove to be up to your expectations in every way and the first piano you have ever seen for its money, you may send it back and in that event we will pay the freight both ways.

Easy Payments

You are not asked to pay any cash down, but after 30 days of trial you can begin payment on the lowest, easiest terms ever suggested by piano manufacturers. These terms are arranged to suit your convenience, and you can buy a piano for your home, without missing the money.
