Mrs. F. O. Christmann's mother is with her again, coming from her home in Tucson.

The rain which fell in torrents Monday was welcomed by all as things were beginning to need rain; there was hail in a good many places, but extent of damage small.

A. H. Glidewell who has a fine garden in the east part of Patagonia complains that the gophers are destroying his peanuts and he has been compelled to make war on them by placing gopher traps at convenient places and we expect to have a good report from him in a few days.

Calabazas Veteran Asks Pension 55 Years After War

PHOENIX, Aug. 12—Fifty-five years after the close of the Civil war, in which he had a part, it occurred to Jesus Figueroa that he ought to have a pension when he discovered that almost everybody else was getting one.

But Jesus, though he probably will make his pension, will occasion a great deal of searching of the war records before his claim can be established. He offers nothing at all in the way of documentary proof that he was a soldier in the war between the states.

MINING NOTES

Mr. J. B. Schriever, president of the Southern Arizona Mining and Smelting Co., operating the Morning Glory mine, is here making an examination of their property, and renewing old acquaintances. Mr. Schriever is accompanied by an associate from Scranton, Pa. and also by Martin Fishback, who is the consulting engineer for the company.

MINING NOTES

Work upon the surface plant of the Sweet shaft (Southern Arizona Mining Co.) is rapidly nearing completion. P. M. Etchell, who is doing this work, states that with the next week he will be ready to start unwatering the shaft. This shaft is well located and is 360 feet deep; it is well equipped. It is stated that considerable ore is already blocked out in this mine—ore that will mill at a good profit, now that the oil flotation scheme of concentration has been developed.

MINING NOTES

The Hardshell mine are rapidly installing their new equipment and will soon be unwatering their shaft. The Blue Nose mine are installing power jigs to treat their lower grade ores with. They expect to resume shipments shortly.

MINING NOTES

Mr. Ritzler and the officials of the Consolidated Arizona Copper Mines Co. are here making an inspection of their El Paso shaft and Mexican holdings. They are to be congratulated upon the recent strike made by their manager Mr. J. W. Mitchell, upon their property just across the line in Sonora.

FARMERS DO WELL

Record Prices Paid Wheat Growers of Western Canada.

Will Get Above 40 Cents Over the Fixed Scale Set—World Looking to the Dominion for its Grain.

It will be of interest to many readers to learn that their farmer friends in Canada will do so well out of the wheat they grew on western Canada's prairies last year.

There was a fixed price of \$2.15 per bushel paid for their wheat last season.

Not knowing the price at which it would be possible to market the crop, the Canadian grain board, which organization handled the whole of the crop last summer, fixed \$2.15 as a minimum price for No. 1 wheat, and arranged that each farmer should be given certificates for the quantity of wheat he delivered.

The latest advice are that the wheat board will pay at least 40 cents a bushel over the fixed rate of \$2.15 a bushel for their wheat of last season.

Canadian Wheat in Demand.

A declaration that Canadian wheat would in all probability sell this year at between \$3 and \$5 per bushel, was made recently before a conference of western supporters of the government by Dr. Robert Magill, who was one of a deputation from the Winnipeg grain exchange.

Dr. Magill argued in favor of open trading from the aspect of world conditions. He stated that no wheat could be exported from Russia into internal troubles.

Romania would have absolutely none to export, India was prohibiting export, while Australia's acreage would fall from 12,000,000 to 7,000,000.

Dr. Magill, according to formal announcement, though it would be impossible to secure as good a price for the producer by control as by the open market.

Slowly Getting Back to Normal

American Visitors Find Industrial Conditions Steadily Improving in England.

HIGH PRICES EVERYWHERE

But Taxes Are Higher, Too, Than Elsewhere in the World—London Hotels Are Crowded—How it Looks to Visitors.

London.—Economic, financial and industrial conditions are steadily improving in England, but are still a very long way from being normal.

Most Heavily Taxed Nation. English people are probably more heavily taxed than any other nation in the world at the present time.

Hotels Are Crowded. London still has an extra million population which drifted there during the war, and the hotels are so crowded that strangers who have not reserved rooms frequently have to drive about for hours seeking accommodation.

ON THE FUNNYSIDE

SELF-EFFACEMENT. "Leonidas" exclaimed Mrs. Meekton, "are you aware that I was reading my essay on politics aloud to you?"

"Yes, my dear." "But you went to sleep." "Why not? You removed every doubt so thoroughly and solved every problem so completely that I saw no further reason for retaining personal consciousness."

Another Item. "This bill of yours—why, it makes my blood boil!" the indignant patient stormed.

"Ah!" the man of medicine returned calmly, "in that case we must make a little change," and, taking the bill he added the line: "To making blood boil and thereby sterilizing system, \$25."

Painful Meeting. Bill—Just happened to run into an old friend downtown.

Smartness. "Don't you think this is a smart gown?" asked the lady.

"I do," answered the gentleman. "Anything that looks especially foolish is spoken of as especially smart."

A Way of Thers. "Bills have one queer quality." "What is it?"

THE NEXT IN ORDER. Mr. Chesnut: Too bad you lost so much money in that oil stock swindle.

True. The road to fame is long and rough. They only win Who've got the stuff.

A Suggestion. "Do you really believe a wife with good cooking can pull the wool over her husband's eyes?"

Not Fastened to the Idea. "Is a wife bound to obey her husband?"

Very Odd. "It seems strange that there should be so much industrial disturbance caused by coal."

Too Suggestive. "Why do dentists call their offices 'dental parlors'?"

Not Certain. "You know, my dear boy, we really gain by our trials in life."

Cruel Comment. "Look at the engagement ring Will gave me. He has such taste."

Fitting Styles. "I see where they are making hats of shavings."

Sometimes Difficult. Little Harry—Papa, what is politeness?

A New Breed. "The post I pointed out to you at the dog show is very peculiar in some ways. He has a perfect passion for dactyls."

Works Both Ways. "One by one our children have us," said the mother sadly, as the fourth daughter started on her wedding journey.

EDITORIAL

SIR THOMAS LIPTON—FIGHTER

Congratulations on your Celtic courage and perennial persistency. Ninety percent of the people wish that you were taking back the cup for which you have fought so long and so well.

Come often; this country will always be glad to see you.

You are as young as you look, and have plenty of time and energy ahead of you.

Bring back next time a ship to fly in the air, giving us fair notice, and we shall be glad to race you.

Or bring back a submarine Shamrock to race below the water, and we shall race you there.

In the line of yacht racing you have done what is far more important than the winning of a victory; you have **DESERVED** a victory.

You are not taking back the cup that you came to get, and this country regrets it. We had to try to beat you, we are sorry to have done it.

You are taking back the friendship and affection of a hundred million human beings that like to see a man remain a fighter, as you have done, in spite of the years, just as your country, Ireland, is still a fighter in spite of many centuries.

Good-bye, good luck; come back soon.—Los Angeles Examiner. (By request.)

Everybody (nearly) wants the Government to do something for them. Everybody (nearly) wants some special privileges. Everybody (nearly) wants legislation that will benefit a particular class.—(Marshall (Tex.) News).

It does begin to look like everybody wants the best of it, and nobody wants to earn more than he gets. The fear that he is not getting as much as he ought to cool the ardor of the average man like ice chills the ice box. The world is short of many good things today because the producers of those things have come to the conclusion that they can make more money by producing too little than too much.

"Make Patagonia more beautiful," should be adopted as the town's slogan for the next year. The town should be beautiful as well as thriving and progressive. Indeed we are neglecting a very necessary part of our town life—beauty. We trust that a tree planting campaign will be started this fall which will result in the planting of thousands of trees in and immediately around Patagonia. The town is also badly in need of more sidewalks but the chances are we will never get them until we incorporate.

Perhaps you have noticed that the man who plants trees is sooner or later looked upon as a public benefactor. No better monument could be left to your memory. Moral: Plant more trees while you have the opportunity. They are like foot prints in the sand of time.

Another Texas lady who killed her husband has been exonerated in court. Still, we doubt if Texas husbands are as unfit to live as some judges and juries seem to think.

Of course it is none of our business, but if we were in Sir Thomas Lipton's place we would give up yacht racing and try something with a kick in it.

Another reason why we like prohibition is because we don't have to buy a drink for anybody who shows a friendly interest in our political affairs.

It is an easy matter to find people with whom you can argue, but it's a difficult job to locate one that you can convince.

Another reason why a man is a man is because when he loses money in a poker game he blames it on his lack of luck instead of his lack of brains.

The old fashioned man who refused to read the ads in the paper is now paying double price for his summer suits at the old-fashioned stores.

The man who looks every few miles to see if his gasoline tank is getting low may be the same one who never used to know whether his horse needed water on a hot day.

The Germans don't know exactly whether to look upon the advancing Bolsheviks as Satans or Santa Clauses.

**I. C. E. ADAMS VISITS

I. C. E. Adams, democratic candidate for State Corporation Commissioner, is a visitor in Santa Cruz County in the interest of his candidacy and is calling upon his constituents.

Mr. Adams is one of the well known men of the state. At the present time he is chairman of the board of supervisors of Cochise County and is devoting the greater portion of his time to the building of better roads in his county.

He has resided in Cochise County for 25 years and has always taken an active interest in the welfare of his county and state. Mr. Adams also has served as mayor of Bisbee.

The candidate is confident of his election as corporation commissioner and is anxious to serve the people of the state in that capacity.

**MIAMI WILD MAN SETS
TOWN IN UPROAR**

MIAMI, Aug. 9.—This town has been wishing some circus would come along and capture a man guaranteed to be wild enough for any sideshow. His first appearance several months ago on a hillside near Copper Glance.

He was clad in nothing but Arizona atmosphere and people who observed him notified the police. An unavailing chase followed.

Since then, the mysterious stranger has been seen several times lurking on the outskirts of town. One day, when the menfolk of an outlying neighborhood were off at work, the "wild man" appeared. He was clothed at that time, but he pranced on all fours around women and children with agility and mournful howls. There an immediate exodus toward Miami proper and the police had another hard run for nothing. Nobody has been able to establish the man's identity or the reason for his antics.

**Dog Walks 900 Miles
To Get Back
To Home In Kansas**

ALBUQUERQUE, N. M., Aug. 9.—How his dog "Bud" walked 900 miles to their old home at Fort Scott, Kansas, arriving there last week after eight months on the road was told here by Roy M. Coe.

Two years ago Coe and his family moved here from Kansas, bringing with them the family pet, Bud, a collie dog. Last November Bud disappeared and although Coe offered a substantial reward the dog was not returned.

Last week Coe received a message from his brother-in-law, an employee of the Fort Scott Gas company, reading: "Bud, somewhat tired, walked into gas plant today."

The dog was brought to Albuquerque by train. On his homeward journey Bud had no familiar landmarks to guide him unless he followed the rail road.

**GIBSON'S CLAIM
HE MURDERED 2
AGED ERHARDTS
TAKEN AS TRUE**

PHOENIX, Aug. 12.—After an interview with Mose Gibson, under death sentence at San Quentin prison for the murder of Roy Trapp, a Fullerton (Cal.) rancher, County Attorney Laney and Sheriff Montgomery say they have removed every possibility of doubt on the question of Gibson's guilt in the murder of Mr. and Mrs. Jacob Erhardt on the night of June 6 at their Phoenix home.

In answering questions put to him by the county officials the murderer showed a familiarity with every detail in connection with the killing of the Erhardts. He described every room in the Erhardt house, the drawers, trunks, boxes and wardrobe, all of which had been rifled, and told how he gained entrance to the house and struck down his victims.

Gibson was also familiar with other details of the vicinity, locating the house with respect to the direction and position of the railroad tracks, the canal, vacant lots, scrubbery and out buildings. He also told where he had thrown the hammer after he struck down Mr. and Mrs. Erhardt and left the house.

Throughout his entire story Gibson remained absolutely calm, giving the details in a matter-of-fact manner, as if he were recounting something not at all uncommon.

Arrest of Mexican
Following the murder of the Erhardts here, Jesus Maria Barbon, the Mexican now at the state hospital, was arrested in Patagonia, and brought back to Phoenix for investigation, when it was reported that palm prints taken at the scene of the local crime corresponded to the prints of the Mexican. He was taken to the Erhardt home and there,

**ROOSEVELT OPENS SPEECH
TOUR OF WEST**

CHICAGO, Aug. 12.—Franklin D. Roosevelt, Wilson candidate for President, made his first campaign speech here last night, opening a speaking tour of Western states.

He dwelt on an appeal to independent and Republican voters to join the Democratic party because Senator Harding stood for "the old guard," which he said Roosevelt opposed. Mr. Roosevelt made no reference to the fact that Col. Roosevelt was an open admirer of Sen. Harding and a close friend of the Republican senator who was an ardent advocate of preparedness in the days during which the president "kept us out of war."

Mr. Roosevelt also devoted considerable attention in his speech to an alleged split in the ranks of the Republicans.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

Every Tire Is Signed

Two men sign every Miller Tire—the maker and the inspector. Both are penalized if a tire comes back.

Under this method, defects have become extremely rare. Not a tire came back for adjustment to many Miller dealers last year.

Over 1,000 tires yearly are worn out in Miller factory tests.

All the best rival tires are constantly compared with the Miller, with these results:

Millers now excel all rivals, both in average and in uniform mileage.

Miller treads outwear rivals' treads by 25 per cent on the average.

Miller Cords average 15,000 miles—Miller Fabrics from 8,000 to 9,000 miles—in rear-wheel tests under extreme conditions.

You will gain a new idea of modern tires when you test a new-type Miller. Get one now and watch it. The super-service of the Miller Tire is now everywhere discussed.

Boston Finance Wizard and Wife Who Presides At Their Suburban Boston Home

(BULLETIN)

BOSTON, Aug. 9.—An involuntary petition in bankruptcy was filed here today against Charles Ponzi, in the federal court by three persons holding notes totaling \$750.

New photographs of Charles Ponzi, Boston financial wizard, his young wife, Mrs. Rosa Ponzi, and their beautiful home at Lexington, Mass. The Boston wizard is credited with having

extracted a fortune of nearly \$16,000,000 out of foreign exchange within a few months.

Charles Ponzi, whose offer of 50 per cent return on investments in 90 days has resulted in federal and state investigations, declines the suggestion of Attorney General Allen that the state conduct an investigation to determine his assets. The audit being made by the federal authorities is to disclose his liabilities.

"There is no law which can force me to show all my assets," Ponzi asserted. "Show me my liabilities and I'll show enough cash to cover them."

The offices of the Securities Exchange company, conducted by Ponzi, continues to honor all notes presented by investors. When Ponzi and his wife attended a theater in Boston Saturday his appearance was the signal for shouts and cheers.

RICH SILVER STRIKE MADE IN SWISSHELM MINE DISTRICT

TOMBSTONE, Aug. 9.—This district famous in pre-railroad days, discovered a year before Ed Schieffelin attracted the world's attention to Tombstone and long before Bisbee was on the mining map, has "come back."

Rumors have been persistent for some time that a most important silver strike had been made in the old Great American patented, ground adjoining the Swisshelm Gold Silver Co. mine. These two properties embrace all the porphyry (andesite-rhyolite) and lime contract of that section of the district.

The Great American mine is owned by a Colorado corporation but no work has been done since silver started to break down in price 35 years ago—in 1885. Dumps not then shippable can now be handled at a good profit, especially with railroads and smelters so convenient.

The last shipments made in 1885 went to Colorado smelters and the records available on 200 tons show an average of 199 ounces of silver and \$12.50 in gold per ton.

STEPHENS LEAVES STATE SANITARY BOARD FOR BUSINESS

PHOENIX, Aug. 9.—Confirmation of a rumor that E. W. Stephens, secretary of the livestock sanitary board, would quit that office at the end of a year to accept a position with one of the largest firms of manufacturing druggists in the world. Mr. Stephens said he expected to associate himself with the manufacturing firm on January 1. The negotiations for the change have been under way for some months and recently Mr. Stephens was called east, when the arrangements were concluded.

He would leave the office earlier, he says, but for his desire to complete the work he undertook soon after he entered the office, of revising the system of records. An important work undertaken by him was re-recording brands, thus removing from the records hundreds of brands almost extinct, though an unknown number of cattle bearing such brands might be roaming the range.

That work is practically completed and a new system has been installed by which in an instant any brand may be found in which record of its ownership is set out together with the fact that if there has been a transfer of it that will be shown by reference to a bill of sale.

KEEP AN EYE ON PATAGONIA—THE PROPER PLACE TO INVEST

Patagonia is situated in the center of a great mining district. The townsite is a beautiful one, located in the valley between the Santa Rita and Patagonia Mountains at an elevation of over 4000 feet. The town has a fine school building, three hotels, six stores, etc. The climate can not be surpassed; there is good water in abundance, and splendid roads lead from Patagonia to all parts of the county.

A fine tract of land has just been laid out in town lots adjoining the

Patagonia townsite on the east. This new tract has been named East Side Addition and fine lots in this section of the town are for sale at reasonable prices and on easy terms. Terms, one-third cash, one-third in six months and one-third in 12 months. When last payment is made a deed will be given.

Another tract of land situated along the Harshaw road has been laid off, called Linder Addition, which is for sale in acre, five acre and 10-acre lots at attractive prices.

Notice to Subscribers!

Subscription Rates of THE PATAGONIAN Must be Raised to Meet Rising Costs of Materials.

THE PATAGONIAN has refused for some time to advance its subscription rates although prices of various materials necessary for the production of a newspaper have advanced as much as 300%. We have held on to our old rate of \$2.00 per year until we are compelled to make an advance.

On And After September 1st, 1920 the Subscription Rate of "THE PATAGONIAN" Will Be

\$3⁰⁰
---PER YEAR---

THIS GIVES EVERY SUBSCRIBER to this newspaper an opportunity of renewing their subscription at the old rate of \$2.00 per year, providing their subscription reaches this office before September 1st.

THE PATAGONIAN is issuing a larger and better newspaper than ever before. We have many surprises in store for the present year. News of all sections of the county is printed weekly and every effort is being made to give reliable, newsy information of the Mining and Agricultural development of Patagonia and environs.

SEND US YOUR CHECK now for a subscription to The Patagonian. Don't stop at one year but make it more. Remember the present rate is only \$2.00 per year. After September 1st it will be \$3.00. This is a chance for both old and new subscribers alike.

RALPH H. CAMERON

Republican Candidate for United States Senator

If nominated and elected I promise to become the active business agent of the people of the State of Arizona at the national capital. I will work incessantly for legislation that will intensify the prosperity of our people and will eventually make of Arizona the brightest star in the galaxy of states. As to my ability to make good on this pledge I refer to my record in 1908, when I secured statehood for Arizona, and during my first term in congress I succeeded in placing the 48th star on the matchless canopy of blue. On this pledge can I have your support?

C. A. Pierce, the well known civil engineer, is looking after business affairs in Mexico this week. He left here Friday with the intention of being absent about ten days.

First Photographs From Lower California Showing Governor Cantu and Part of His Forces

First photographs showing Governor Esteban Cantu of Lower California and part of his military forces which President De la Huerta declares he is leading in revolt against the new federal government in Mexico. Press reports credit Cantu with having 3,000 men armed and high-powered aeroplanes and quantities of war munitions ready to resist what he terms will be an "invasion" if the Huerta government sends troops into his territory. Many foreigners, including some former American soldiers are reported to have joined forces to aid in the Cantu battle against the de facto government of Mexico.

The federal government was reported today to have 3,000 troops at Guaymas and Mazatlan which will be embarked at once for the scene of the Cantu revolt. More troops are reported being concentrated by the Mexican government on the West Coast for sending against Cantu. Half of the troops now assembled are reported to be Yaquis from Sinaloa and Sonora. A part of the federal army it is said will proceed by way of the Colorado river into Lower California while others will be sent by ships in through the Gulf of California. The Mexican government is reported to have under charter deepwater tugs

and other power ships for use in towing shiploads of soldiers and supplies to Lower California to subdue the rebel. The government has declared the Cantu rebellion must, and will be put down at any cost. The federal government's active campaign against Cantu follows a recent conference at Mexicali, Cantu's capital, between Juan Platt and the revolting governor, Platt acting as a special representative of President De la Huerta. This conference failed to evoke a peaceful settlement of the difference between Cantu and the federal government.

There will be a regular meeting of the Patagonia Chamber of Commerce on Saturday evening, the 14th, at 8 o'clock, at the Gardner theatre. Matters of importance to every tax payer will be discussed and everyone should be there.

WAYSIDE NOTES (By E. B. Edgell) (Deferred)

H. B. Riggs, the well known ranchman, and the editor of the Patagonian motored up to Sonoita and Elgin Wednesday afternoon and were surprised to find the country in such a prosperous condition. Good rains have recently fallen throughout that section of country and the range is fine and all cattle fat and sleek. If the cattlemen are not happy there must be something wrong with their digestive organs. Nearly all crops, where proper cultivation had been given, were in a flourishing condition. The corn and maize crops are very promising and some fields of Souda are nearly ready for the harvester. Many of the farmers are busy planting beans and hundreds of acres are being put in. This is said to be a sure and profitable crop, requiring but little cultivation, easy to gather and good for the soil. It would be difficult to find a better and more beautiful country than that lying between Sonoita and Empire. We passed the homes of P. A. Honnas, J. M. Frederick, Mr. Rouse, Ed S. Black and many others, and waving fields of grain, fat cattle and hogs, orchards, wells and windmills, good homes and contented people were everywhere in evidence. So far as we could see Mr. Black seemed to be the champion hog raiser. He also has some nice apples, blackberries, grapes and strawberries. There were good sized crowds of people at both Sonoita and Elgin and these embryonic towns appeared to be enjoying a good trade from the surrounding country. A short but very pleasant visit was made at the ranch home of C. L. Beatty, about one mile from Elgin. Mr. Beatty was out somewhere in his pasture at the time but this did not prevent us from being served with some delicious cake and lemonade which had been prepared by Mrs. Beatty. Our visit here was cut short on account of a storm which was coming up over the Patagonia mountains and which appeared to cover San Rafael Valley and the mining towns in the mountains. We arrived in Patagonia just a few moments before the rain began coming down and which continued slow and steady for quite awhile.

C. A. Pierce who left here last Friday morning for a two week's business trip to Sonora, Mexico, returned home Wednesday, having completed the work down there much sooner than he had expected. He states that everything is quiet and peaceful in Sonora but that the country's industrial conditions are badly demoralized and it will require time, money and patience to bring order out of chaos.

The premium lists are now out for the Agricultural and Horticultural exhibits of the State Fair. All exhibits must be placed in position ready to be judged at 12 o'clock noon, Monday, November 8, 1920. C. A. Pierce has a copy of the premium lists should anyone wish to see them.

D. B. Pierce, the genial cashier in the First State Bank, made a business trip to Nogales Saturday and returned Sunday.

PHOENIX HEADQUARTERS OF POLITICIANS THICK AS IN CHICAGO MEET

Little Chicago! That's Phoenix from a political viewpoint. There are headquarters signs everywhere—from United States senators down to dog-catchers—all have headquarters, and workers parade the streets in regiments of men and women. Senator Mark Smith has his headquarters in the Creighton building on Central avenue, and the veteran statesman is personally directing his state force from the capitol city. The Smith-Stanford battle is apparently being fought in Maricopa county, and the way Maricopa goes, so will the state in this controversy. Smith and Stanford are running neck and neck in Maricopa. John Norton will secure a very fair vote, and Worsley will get the radical labor vote. Rausdell isn't considered.

In the Republican struggle for senator, it is predicted that Ralph Cameron will carry Maricopa county by a large majority. Clark is cold—a characteristic that is fatal to a candidate—and his defeat in Maricopa county and in the state is openly predicted in Republican circles. Wilkinson and Robinson are only casually considered.

Simms and Winsor are running neck and neck in the Democratic gubernatorial struggle. Roberts is not seriously considered.

Posted bets here may give some idea of the direction of the political winds. Here they are:

One thousand dollars that Simms carries Maricopa county.

Five hundred dollars even that Cameron lands the Republican nomination for U. S. senator.

Five hundred dollars to \$250 that Roberts is third in the race for Democratic nomination for governor.

Mulford Winsor has opened headquarters over the Central Bank, and Simms is directing his forces from rooms adjoining a theater in Adams street. Cameron's headquarters are in the Commercial hotel, and Clark is working out from the Jefferson hotel.

Mrs. C. L. Northcraft and Mrs. C. A. Pierce and children motored to Nogales Saturday.

Ed. S. Black, a successful farmer from the Sonoita country, was here on business Saturday and stated that he had just finished planting his bean crop.

C. L. Northcraft made a business trip to Nogales Monday, returning in the afternoon.

Rev. J. A. Prior and wife visited relatives in Douglas Sunday, returning home Tuesday. They report heavy rains and swollen streams all along the route.

The Harbeshell mine is preparing to put in another large oil tank in Patagonia.
