PERTINENT PATAGONIA PARAGRAPHS

WAYSIDE NOTES

The editor of the Patagonian visited one of Col. R. R. Richardson's farms Tuesday afternoon where he spent a most delightful hour with Mr. and Mrs. F. E. Smith, the leasers.

A walk through this garden revealed a choice lot of vegetables of many varieties, all of which were in a thrifty condition.

In addition to his vegetable garden Mr. Smith has quite a good sized "patch" of wonder berries, and they are indeed what their name implies.

The cement walls of the new Methodist church building are fully completed and carpenters are now at work putting on the steel roof.

It was stated in the last issue of the Patagonian that the public school here would begin the first Monday in September, but H. B. Riggs, one of the trustees, informs us that this was a mistake.

ELGIN Extracts

The petition for a county road within the Coronado Forest Reserve was presented to the Board of Supervisors August 16.

Mr. W. F. Neil who is enjoying his fifteen days' yearly vacation recently returned from a short visit in California.

The Elgin school opens September 2d under the supervision of Miss Anna Sue Daugherty, a niece of Mrs. M. T. Layelle.

Mr. Wolfgen has bought out the range of Tom Lotzko and is busy taking charge.

Ray Spradlin recently returned from California and will probably invest in the dairy business at Nogales.

Mrs. James Timpon who recently joined her husband in Yuma reports the weather unusually cool for that section.

Mrs. Will Cane is spending the week end in Nogales with friends.

Mr. and Mrs. T. B. Titus were in Elgin Saturday.

Mr. and Mrs. McDaniels left Monday for their home in Dallas, Texas, after a three months' visit with Mr. and Mrs. J. M. McDaniels.

Miss Thelma Phelan has been an Elgin visitor for the past two weeks, a guest of Mrs. F. Neil.

F. Neil returned Monday from a visit with his brother and family in Bakersfield, Calif. He reports a grand time of it and seems good to get back to Arizona again.

Mrs. D. Olson returned Friday to Oakland, Calif. after a three months' visit with her son, Will South.

Forest Rangers' Purity Squad To Raid Love Nests

LOS ANGELES, Aug. 26—Forest rangers in the Angeles National Forest have been ruffled in a "purity squad" by Supervisor S. W. Allen.

A circular letter has been sent to all holders of cabin permits, advising them that hotel permits must be taken out in case they rent their cabins to other parties.

Forest rangers have been instructed to eject from the reserve complex who are not properly chaperoned.

The members of Troop A are deeply interested in the work. Twenty members on Sunday availed themselves of the order of the adjutant general's office permitting the members to ride the cavalry horses at the state fair ground, under supervision.

SOVIET CHIEFS, RUSHING MIGHTY RESERVES TO IMPERILED FRONTS, SMASH WAY INTO TRAP OF ENEMY

WARSAW, Aug. 26—Remnants of the fourth Bolshevik army, which was cut off by the Polish advance in the region of Kolno have succeeded in cutting their way through to the Eastward after a ten-hour battle, according to an official statement.

THE SOVIETS carried out a recouping maneuver and succeeded in getting out of the trap which had closed upon them, but at last accounts were surrounded by more numerous forces.

THE POLES occupied Knysyn and Stanwisk on the central front, completing the ring about the fifteenth Bolshevik army. At Lomza the Poles took 20,000 prisoners and nine guns, and at Bialystok 7000 with 18 guns.

LONDON, Aug. 26—Polish troops yesterday, after hard fighting, captured the important fortress of Ostrolenska, twenty-two miles southwest of Lomza, and forced a passage of the Mard river, a Central News dispatch said.

WARSAW, Aug. 26—Russian reserves are reported being brought up on the southern front in great numbers, according to information in the hands of the Polish general, Haller. Reserves some distance behind the Bolshevik front are also being brought up, Haller was informed.

LONDON, Aug. 26—The Soviet government today replied to the note of Arthur J. Balfour concerning peace terms in Poland, agreeing to withdraw the condition that the Poles provide arms of 200,000 of the Workmen's militia in Poland.

WARSAW, Aug. 26—Military authorities expressed the belief that although crushed in the north, the Bolshevik plan to renew offensives with Lemberg as their objective. General Haller said the indication is that the armies of Russian workmen are being grouped at various points for possible use against the Poles, and these might be thrown against them at any time.

FLEET JUSTICE ON CANAL ZONE

Three Murderers Tried, Convicted and Sentenced Within Six Hours.

AGED WATCHMAN IS SLAIN

Prosecutor Described Murder as "the Most Dastardly Crime Ever Committed in the Canal Zone"

Crisleia, C. Z.—Eighteen days after they murdered a Barbadian named William Blackett, Daniel McCloud and Eduardo Lopez, Panamanians, and James Williams, a Nassau Islander, were placed on trial here and within six hours the three were convicted and sentenced to death.

The prosecutor described the murder as "the most dastardly crime ever committed in the Canal Zone." Blackett, an old man, was a night watchman at a remote dynamite magazine in a pit about a mile from the Atlantic entrance to the canal. McCloud, Lopez and Williams, two of whom had been released from jail not long before, plotted to steal dynamite and caps, with the necessary fuses, and sail down the coast and sell their spoils to fishermen. They stole a flat-bottomed boat, sailed up a narrow diversion channel to within a short distance of the dynamite storehouse, silently stole up to the house, which was guarded by the watchman, and asked for some dynamite. On the watchman's refusal to give it they hit him on the head with a blacksmith's hammer, then tied a rope around his neck and stabbed him in the throat. They stole 32 boxes of dynamite, placed them in their boat, sailed down the diversion channel, hid their spoils to be carried away at leisure and went their several ways. This was at one o'clock in the morning, and Blackett's body was not discovered until three o'clock, when a watchman came to relieve him.

IS ALWAYS FIGHTING

U. S. Devil Dogs Have Real War Without an End.

Main Fighting Just Now Is in Haiti—Also Ready in China—Wonderful Life.

Washington.—For Uncle Sam's marines the fighting is never at an end. While the great war and their part in it is history, they still are busy in the far corners of the world settling small disturbances, guarding government property and awaiting any emergency.

In Haiti and San Domingo nearly 4,000 "Devil Dogs," as the Germans came to call them after Belleau wood, are maintaining order and bringing recalcitrant bands to justice. It is not a "play" job by any means and at times lately it has assumed the proportions of real war. Casualty lists

TURKEY ACTIVE IN CAUCASIA

Movement is Started to Establish a Large Mohammedan State.

Warsaw.—A strong movement designed to create a large Mohammedan state in Trans-Caucasia, extending from the Caspian sea to Erzerum, has been started, according to word received here. It is designed to make the new state a satellite of Turkey. A purely national plan is said to be behind this movement, and has nothing in common with bolshevism, according to reports, excepting dislike for the allies.

It is said Lentze, the Russian premier and Mustafa Kemal Pasha, Turkish nationalist leader, both have the same aim to attack Great Britain. But while Kemal cannot admit Moscow's supremacy over Armenia and the Mohammedan Caucasus, Lentze does not wish to see creation of a large Turkish state in the Caucasus. Consequently, though allies, the two leaders are really rivals.

AID FRENCH ARTISTS

Ten Scholarships Have Just Been Founded by Americans.

Paris.—Ten scholarships open to the most deserving young French artists, sculptors, musicians, novelists, dramatists, architects, decorators, engravers and journalists have just been founded by Mrs. George Blumenthal of New York and Paris, and who is particularly noted because of her gallery of French Gothic art at her New York home.

ENGLAND GREAT SHIPBUILDER

Total Tonnage Under Construction Exceeds Amount Here by 1,672,000.

London.—Total tonnage now building in the United Kingdom exceeds the amount under construction in the United States by 3,672,000 tons, according to returns published by Lloyd's register of shipping.

The aggregate amount now under construction in Great Britain is 3,578,000 tons—the highest amount ever recorded.

Much comment has been aroused in shipping circles by these figures, says the London Times. But, it adds, the future of the United States to maintain its lead in shipbuilding was expected, since the intensive construction there was chiefly a war measure.

France had already honored the memory of the intrepid soldiers of your army, and will honor soon your heroes

of the war of independence. I think the faithful friends of France who are instituting this permanent monument to the glory of the French thought and art.

The candidates will be selected by juries of ten men prominent in each profession.

Associated with Mrs. Blumenthal in founding the scholarships are J. P. Morgan, T. F. Ryan, E. R. Stettinius, H. P. Davidson, G. F. Baker, Charles Hayden, W. N. Cohen and H. Walters. The founders have just been sent the following telegram from Premier Millerand of France:

English Clergy Unionizes to Combat Low Wages When Twenty-Five Die.

London, England.—At least 25 Protestant ministers are reported to have died of starvation in England last year, and the persons have now formed the National Clerical Union for "establishment of a minimum living wage for the clergy." While it is announced the union will follow the trend of trade unionism, the clergy-men have declared they have no intention to strike to enforce their demands.

They will seek not only to establish a minimum wage, but also deal with provisions for adequate retiring pensions and pensions for widows and orphans of clergymen.

Rev. C. H. Lloyd Evans, acting secretary of the new movement, said few of the "inferior clergymen" earned more than £200 a year and a great many earned less. The union will

PRICE AMAZES QUEEN MARIE

"Must Think We Are American," Comments Princess Elizabeth of Roumania.

Paris, France.—Queen Marie of Roumania taught luxury-loving persons a good lesson recently when she entered an antique shop. She picked up an amber statuette and asked the price. "One hundred and twenty pounds (normally \$600)," was the reply.

"That's too much for me," said the queen, and her daughter, Princess Elizabeth, who was with her, added: "They must think we are Americans."

NATION GETS EQUAL SUFFRAGE

States of Washington and Tennessee Ratify Constitutional Amendment.

"VOTES FOR WOMEN IN 1920"

Seventy Years of Struggle at Last Crowned With Victory—High Lights of the Movement and Some Immortal Names.

Washington.—The United States gets equal suffrage. Washington and Tennessee have ratified the constitutional amendment. This makes 36 states.

The legislatures of the states of Washington and Delaware met in special session March 22 to pass upon the ratification of the woman suffrage amendment to the Constitution as passed by congress June 4, 1919.

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.

In general the situation as to the ratification of the amendment was as follows:

Ratification necessary by legislatures of three-fourths of the 48 states of the Union.

Amendment ratified by 34 states, beginning with Wisconsin, June 10, 1919, and ending with West Virginia, March 10, 1920. Ratification in Ohio before United States Supreme court.

Amendment defeated by six states: Alabama, Georgia, Mississippi, South Carolina, Virginia and Maryland.

The situation in the remaining six states was as follows: Connecticut and Vermont had no regular sessions until 1921. Govs. Marcus H. Holcomb and P. W. Cle-

LATE MARKET QUOTATIONS

The mountain of success is steep and rough. Who gains the summit climbs a weary way. And, though brave feet grow stronger with rebuff, The rocky path a coward's steps may stay.

A HOT WEATHER LUNCHEON.

Even in warm weather a hot soup is enjoyed, especially those made of fresh green vegetables, such as peas, spinach, vegetable oysters or celery. Cucumber soup may not be so well known but it is a most appetizing one.

Cream of Cucumber Soup.—Have ready one cupful of steamed cucumber, rubbed through a sieve. Take the liquor in which the cucumber was cooked, reduce it to half a cupful by boiling, and set aside.

Put into a saucepan one tablespoonful of butter, season with salt, pepper and, when the butter is hissing hot, stir into it two tablespoonfuls of flour. Stir until the mixture leaves the sides of the pan.

Add three cupfuls of cold milk and stir constantly until it boils. When the mixture is as thick as a thin cream sauce add the cucumber and the half-cupful of liquor. Mix thoroughly, boil up once and serve.

Eggs a la Bourgeoise.—Cut slices of bread half an inch thick and trim off the crust; lay on a buttered platter and sprinkle liberally with grated cheese.

Beat eggs enough to cover the bread; season with salt and pepper and grated nutmeg; pour over the bread and bake in a moderate oven until the eggs are set.

Creamed Fish with Potato.—Prepare creamed salmon as usual and put a layer of the fish in a baking dish, cover with a layer of cold, mashed potato, then add another layer of fish until the dish is full and the potato on top.

Dot with bits of butter, sprinkle with buttered crumbs and bake brown in a hot oven.

Macaroni with Codfish.—Take one cupful of cold-boiled macaroni, add one cupful of cold-boiled codfish flaked fine. Put into a buttered baking dish, sprinkle with salt, pepper, grated cheese and sufficient milk to moisten. Bake until brown.

Potato Border.—Make a rim of mashed seasoned potato around a well-buttered platter. Fill the center with creamed fish, cover with buttered crumbs and bake in a hot oven until the crumbs are brown.

Cheesebuns and scones are great beautifiers, and are famous preservers of good looks.—Barnaby Rudge.

WHAT TO HAVE FOR LUNCHEON.

For a warm weather luncheon, and this means one easy to digest and not too heavy, try a fish dish for the main course, a salad and a light dessert with an iced or a hot drink as one prefers.

Curried Salmon.—Chop a small onion very fine and fry brown in one tablespoonful of butter. Mix one teaspoonful of curry powder with one tablespoonful of flour and a pinch of salt. Stir into the butter. Add slowly one cupful of hot water, stirring briskly. When the sauce is thick add one cupful of flaked salmon and cook until well heated.

Current Pie.—Bake a pastry shell and fill with the following: Mash one cupful of currants with one cupful of sugar, or use the same quantity of fresh currant jam, prepared by using crushed currants and sugar in equal measures, or slightly less sugar.

Add two beaten egg yolks, two tablespoonfuls of flour, a quarter of a cupful of water; mix well and cook until smooth and thick. Cool, fill the shell and cover with a meringue made from the beaten whites with two tablespoonfuls of sugar. Brown in the oven and serve at once.

Peas and Carrots.—Clean and dice enough carrots to make two and one-half cupfuls. Steam until tender; put through a sieve; add butter and flour, one tablespoonful each; one beaten egg, one-half teaspoonful of salt and a few dashes of pepper and a grating of nutmeg. Press into a ring mold, cover with greased paper and steam twenty minutes. Fill the center with cooked seasoned peas and garnish with parsley.

Tomato Hors d'Oeuvres.—Arrange slices of tomato cut one-half inch thick on thin rounds of browned cornmeal mush. Cover the tomato with a paste made of cottage cheese mixed with a few chopped nut meats and add a seasoning of chopped chives and radishes. Garnish with radish roses or with olives. Serve at dinner.

FAVORITE RECIPE

For a warm weather luncheon, and this means one easy to digest and not too heavy, try a fish dish for the main course, a salad and a light dessert with an iced or a hot drink as one prefers.

Curried Salmon.—Chop a small onion very fine and fry brown in one tablespoonful of butter. Mix one teaspoonful of curry powder with one tablespoonful of flour and a pinch of salt. Stir into the butter. Add slowly one cupful of hot water, stirring briskly. When the sauce is thick add one cupful of flaked salmon and cook until well heated.

Current Pie.—Bake a pastry shell and fill with the following: Mash one cupful of currants with one cupful of sugar, or use the same quantity of fresh currant jam, prepared by using crushed currants and sugar in equal measures, or slightly less sugar.

Add two beaten egg yolks, two tablespoonfuls of flour, a quarter of a cupful of water; mix well and cook until smooth and thick. Cool, fill the shell and cover with a meringue made from the beaten whites with two tablespoonfuls of sugar. Brown in the oven and serve at once.

Peas and Carrots.—Clean and dice enough carrots to make two and one-half cupfuls. Steam until tender; put through a sieve; add butter and flour, one tablespoonful each; one beaten egg, one-half teaspoonful of salt and a few dashes of pepper and a grating of nutmeg. Press into a ring mold, cover with greased paper and steam twenty minutes. Fill the center with cooked seasoned peas and garnish with parsley.

Tomato Hors d'Oeuvres.—Arrange slices of tomato cut one-half inch thick on thin rounds of browned cornmeal mush. Cover the tomato with a paste made of cottage cheese mixed with a few chopped nut meats and add a seasoning of chopped chives and radishes. Garnish with radish roses or with olives. Serve at dinner.

NATION GETS EQUAL SUFFRAGE

States of Washington and Tennessee Ratify Constitutional Amendment.

"VOTES FOR WOMEN IN 1920"

Seventy Years of Struggle at Last Crowned With Victory—High Lights of the Movement and Some Immortal Names.

Washington.—The United States gets equal suffrage. Washington and Tennessee have ratified the constitutional amendment. This makes 36 states.

The legislatures of the states of Washington and Delaware met in special session March 22 to pass upon the ratification of the woman suffrage amendment to the Constitution as passed by congress June 4, 1919.

Ably Defended. Judge Hagan designated three of the most able lawyers practicing in the Canal Zone courts to defend the murderers.

Amendment ratified by 34 states, beginning with Wisconsin, June 10, 1919, and ending with West Virginia, March 10, 1920. Ratification in Ohio before United States Supreme Court.

Amendment defeated by six states: Alabama, Georgia, Mississippi, South Carolina, Virginia and Maryland.

The situation in the remaining six states was as follows: Connecticut and Vermont had no regular sessions until 1921. Govs. Marcus H. Holcomb and P. W. Cle-

INTERESTING BRIEFS

The earliest fabric which deserves the name of lace was probably made in Egypt. Most of the "lace" mentioned in the early Bible ages was in reality a sort of embroidery, and not lace in the ordinary sense of the word.

Gold is found in Sumatra, the Celebes and in Dutch Borneo in beach deposits, tertiary gravel beds and also in vein deposits. In 1914 58 concessions had been granted for prospecting and subsequent working of gold and silver waters.

The island of Cyprus, with an approximate area of 3,584 square miles, is chiefly agricultural, being regarded, indeed, notwithstanding its lack of level territory, as one of the richest and most fertile islands of the Mediterranean.

both Cady Stanton in organizing the woman suffrage movement. She became in time the real leader of the movement; certainly she was its militant suffragist. Born in Adams, Mass., she came of Quaker stock, and early devoted herself to "temperance" (the prohibition of those days) and to the abolition of slavery.

For several years after the Civil War Miss Anthony endeavored to secure an interpretation of the fourteenth and fifteenth amendments which would allow women to vote.

During the years the constitutional amendment campaign was making no progress the women won many victories in the states. They received full suffrage in 15 presidential suffrage in 12 and partial suffrage in several others.

The National American Woman Suffrage association in 1912 opened headquarters in Washington and began an active campaign for the passage of the amendment.

The National Woman's party, organized in 1910 by Alice Paul, established Washington headquarters in 1913 and introduced the militant into the campaign.

Alice Paul—the third Quakeress to immortalize herself—is the spectacular figure of the struggle. She is a practical politician and developed the grandest campaign plan in the history of the movement.

In general the situation as to the ratification of the amendment was as follows: Ratification necessary by legislatures of three-fourths of the 48 states of the Union.

Amendment ratified by 34 states, beginning with Wisconsin, June 10, 1919, and ending with West Virginia, March 10, 1920.

Amendment defeated by six states: Alabama, Georgia, Mississippi, South Carolina, Virginia and Maryland.

The situation in the remaining six states was as follows: Connecticut and Vermont had no regular sessions until 1921.

Florida and Tennessee could not vote in 1920 because of constitutional provision.

The Louisiana legislature was scheduled to meet in May.

The North Carolina legislature was to meet in special session in August.

Washington ratified in March, Delaware refused in March, Louisiana in July. Calls for special sessions were refused by the governors of Connecticut, Florida and Vermont.

The United States Supreme Court upheld the Ohio ratification, holding that the United States Constitution overrides state constitutions as to details of ratification methods. Under this decision Tennessee called a special session to act on ratification.

It is 70 years since the organized movement for woman suffrage was begun in the United States.

In the first part of the nineteenth century woman suffrage was spasmodically advocated in print and from the platform.

These are two immortal names in American history. Lucretia Coffin Mott (1775-1859) was born in Nantucket, Mass., of Quaker parents.

Elizabeth Cady Stanton (1815-1902) was born in Johnstown, N. Y. She married in 1840 Henry B. Stanton, a journalist and anti-slavery speaker.

In the days when women were stiffly boned white bodices, whalebone was sold as high as \$10,000 a ton.

Incidentally Miss Paul herself served seven terms in jail.

In 1899 were formed two national organizations: National Woman Suffrage association, with Mrs. Stanton and Miss Anthony leaders and headquarters in New York; American Woman Suffrage association, with Mary A. Livermore, Julia Ward Howe and Lucy Stone leaders and headquarters in Boston.

The line of division between them was this: The former wished to concentrate on the passage of a constitutional amendment; the latter was in favor of obtaining the suffrage through amendments to state constitutions. In 1890 the two organizations were united under the name of National American Woman Suffrage Association, and work was pushed along both lines of endeavor.

Mrs. Stanton was president until 1892. Miss Anthony served until 1900, resigning at the age of eighty, Mrs. Carrie Chapman Catt was its head, 1900-1904. Dr. Anna Howard Shaw, recently deceased and possibly the best loved of all the leaders—a woman of transcendent gifts and eloquence—was president until 1915.

Mrs. Catt was then again chosen. Mrs. Frank Leslie left a large legacy to Mrs. Catt to be used in the work.

The National association made arrangements at the St. Louis convention of 1919 to dissolve its organization and become the League of Women Voters. These arrangements became effective at the Chicago convention in February last. So the League of Women Voters now holds sway over something like 27,000,000 potential American women voters.

Mrs. Catt, who is also the head of the International Woman Suffrage alliance, which she founded in 1904, is honorary chairman; Mrs. Maud Wood Park is chairman; Mrs. Richard Edwards of Indiana, treasurer; Mrs. Solon Jacobs of Alabama, secretary, and there is a board of regional directors.

The question was recently asked if an airplane could be made to fly if there was no air? And would the same rule apply to a bird? It is said that a child can ask questions that a wise man cannot answer. But here is a hard one: Could a fish swim if there was no water? Now answer this question.

**PHOENIX PHINDS BOOZE
WRAPPED IN GOOD
PAPER**

PHOENIX, Aug. 21—Wrapped in several copies of the Nogales Herald, 35 pints of bonded Old Taylor whiskey were unearthed by the officers last night in a vacant lot in the 300 block on North Sixth avenue and taken to the sheriff's office.

The officers say that although several anxious faces watched them take the liquor from its hiding place no arrests were made. The liquor, at bootleg price, is valued at about \$900.

The find was made by Deputy Sheriff Al De Witt, Harry Diehl and Ernest Smith. The liquor was hidden in the front of the lot in a hole and covered with Bermuda grass. According to the officers a house in that neighborhood was searched Wednesday by the federal officers and no liquor discovered. This, they say, is the booze the federal officers were looking for.

The officers assert that the shipment, thought to have been brought in here from Nogales recently, contained 36 bottles upon arrival, but a small boy found the missing bottle in the lot yesterday afternoon and handed it to a man on the corner near. The man, they say, sampled the contents of the bottle, placed it in his pocket, and told the boy to keep still.

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

GOOD COTTON PROSPECTS IN CASA GRANDE

"Farmers in the Casa Grande district expect to make a half bale of long staple cotton to the acre," John H. Patton, formerly of Douglas, who resides in the Casa Grande district said. The majority of farmers and ranchers in that district are engaging extensively in raising cotton, according to Mr. Patton, who stated that he had 55 acres under cultivation.

Cut Alfalfa 4 Times

Mr. Patton also has 29 acres of Feterita under cultivation from which he expects bumper production. He has cut his alfalfa crop four times this season and declares it is still good for two more.

"Very little cattle raising is done in that section," said Mr. Patton "with the exception of A. G. Curry, formerly proprietor of the Emporium of Douglas, who has approximately 1000 head of cattle grazing on fertile lands of the Casa Grande valley.

Will Let Contract

A contract for the diversion dam at Florence, Ariz., is supposed to be let today, according to Mr. Patton, who declares that after construction is completed, it will irrigate approximately 250,000 acres of arid territory.

"The San Carlos project will develop into a reality in the near future," Mr. Patton said. "The farmers of the valley are awaiting government action after which the contract will be let for construction."

Mrs. J. A. Prior returned Monday afternoon from Douglas where she visited relatives. Her aunt who recently underwent a surgical operation is reported on the way to complete recovery.

PATAGONIA, ARIZONA

KEEP AN EYE ON PATAGONIA—THE PROPER PLACE TO INVEST

Patagonia is situated in the center of a great mining district. The townsite is a beautiful one, located in the valley between the Santa Rita and Patagonia Mountains at an elevation of over 4000 feet. The town has a fine school building, three hotels, six stores, etc. The climate can not be surpassed; there is good water in abundance, and splendid roads lead from Patagonia to all parts of the county.

A fine tract of land has just been laid out in town lots adjoining the

Patagonia townsite on the east. This new tract has been named East Side Addition and fine lots in this section of the town are for sale at reasonable prices and on easy terms. Terms, one-third cash, one-third in six months and one-third in 12 months. When last payment is made a deed will be given.

Another tract of land situated along the Harshaw road has been laid off, called Linder Addition, which is for sale in acre, five acre and 10-acre lots at attractive prices.

SENDING SONORA STEERS INTO CHIHUAHUA

DOUGLAS, Aug. 23—Francisco Elias, a prominent cattleman, and resident of Agua Prieta, last week shipped 400 steers from his Sonora ranches to the state of Chihuahua, in Mexico. These steers were in good shape and will be butchered on their arrival at their destination. This shipment of cattle was made in bond through the United States.

This is the first shipment of cattle ever made from Sonora to Chihuahua, as the latter state in the past has always ranked as the greatest cattle growing state in northern Mexico.

It is said that during the past 10 years of revolution in Mexico the cattle ranges in the state of Chihuahua have been almost completely depleted and that it is likely that other shipments will go there from the ranges south of Douglas.

Mr. and Mrs. C. F. Young and Mrs. B. Baldwin and son Clyde were in Patagonia Monday. Mr. and Mrs. Young motored over to Tucson, returning late at night, and left early Tuesday morning for home.

LETTERS TO EDITOR

To The Patagonian.

The present writer, accompanied by Mrs. A. C. Henderson and Miss McCullister, attended the Institutional and Social gathering held at the San Rafael Valley school house last Saturday night. Upon our arrival at the school house we found the building literally packed with a jovial crowd of people from the surrounding country. The entertainment was made up entirely of home talent and the actors did credit to themselves and the community in which they reside. It was a real good play and everybody seemed to enjoy it immensely.

After the program Mr. Abernathy, candidate for county attorney, delivered a very entertaining speech.

The writer made a short talk upon the social side of life, dwelling upon the fact that the social and church life should go hand in hand in their efforts to build up a strong moral fabric which will protect and amuse the younger generation by giving them good wholesome social recreation.

Many amusing games were played, interspersed with music and conversations, and Jeff Rountree treated the crowd to a fine lot of watermelons, which were highly enjoyed and appreciated.

The San Rafael Valley Social Club meets at the school house every three weeks. This program was put on by Mrs. Young and Mrs. Farrells side, but the next program will be gotten up by Mrs. Parker's side.

Everybody is invited and it is hoped that more Patagonia people will attend.

THE SABBATH DAY

Parker Canon, Ariz., Aug. 23.
To The Patagonian.

In your issue of the 20th inst. the statement is made that the Church in the Dark Ages changed the Sabbath from the seventh day to Sunday the first day of the week; also stating there is no scriptural authority for the change.

Both statements are incorrect, and those who observe Sunday as a day of rest not only have scriptural authority, but also the example of the early Christians.

Very sincerely,
L. K. McINTYRE.
