

PATAGONIA IS IN THE HEART OF THE WORLD'S RICHEST COPPER, SILVER, GOLD AND LEAD DISTRICTS

SANTA CRUZ PATAGONIAN

JOIN PATAGONIA'S CHAMBER OF COMMERCE & MINES AND BE A BOOSTER FOR THE TOWN AND DISTRICT.

VOL. X. PATAGONIA, SANTA CRUZ COUNTY, ARIZONA, FRIDAY, JULY 28, 1922. NO. 34

PERSONAL AND SOCIAL

E. E. Bethell, E. H. Evans, Mrs. Lander Young, and son and daughter, were Nogales business visitors Wednesday. Mr. and Mrs. Bud Baldwin passed through Patagonia Tuesday on their way to the Elgin and Sonita country. Bud was on a campaign trip. They were accompanied by the Hon. Richard Farrell of Harshaw. Mrs. B. C. Larimore of Sonita and Mrs. Solomon of Tucson, who is visiting at the Larimore ranch, were in Patagonia Tuesday afternoon. Mr. and Mrs. Bradford, Miss Ross Pugh and Mr. Coates were visitors Sunday at Monkey Springs. E. F. Bollinger, O. D. Blakely and Val Valenzuela Jr. were out to the Andes mine Saturday making a thorough inspection of the property. Miss Dwane Goldsmith was in from the 3-R camp Tuesday. James Cunningham (Mudboon) was in town Wednesday from the Morning Glory mine, where he is employed as watchman. He went to Nogales later in the day with C. B. Wilson, who made the trip to get repairs for the generator at the electric light plant. R. L. Wood, proprietor of the Harshaw store, spent several days this week in Nogales. Val Valenzuela Jr., J. R. Coffe and O. D. Blakely were visitors at the Harshaw mine Sunday. Mr. and Mrs. G. P. Woodward of Elgin were in Patagonia Friday of last week. Mrs. Grace A. Farrell spent several days last week in the Elgin district getting acquainted with voters in anticipation of the September primaries. W. P. Capelhart, president of the First State Bank of Patagonia spent several days this week at the 3-R mine, as a guest of Fred Goldsmith. Melnie Burton was in town Friday from the Burton ranch in Elgin. He returned home with a load of supplies. No man is stronger than the woman. Tonale will make your stomach strong. Sold in Patagonia by Evans Mercantile Co. and by druggists everywhere. Advertisement. Mrs. Grace Farrell, candidate for county school superintendent, spent several days last week in Patagonia visiting friends. Mrs. Maud Melnyre returned last Friday from a shopping trip to Nogales. Mr. and Mrs. C. F. Peterson of the San Rafael valley came in from their ranch Friday to meet Mrs. Peterson, mother, who lives in Denver. She will spend several weeks with her daughter and son-in-law before returning home. Mrs. E. E. Bethell left last week for San Diego, Calif., where she will spend a few weeks' vacation, the guest of Mr. and Mrs. Ed-Cook, former residents of Patagonia. Mrs. Lottie Miller, son, Charles, and Mr. P. O. Stow, of Mowry, were in Patagonia Saturday on business. Mr. and Mrs. O. V. Kinsey were Patagonia business visitors Saturday. Mrs. A. C. Best, an uncle, Ernest, were in from their ranch in Bort's canyon Sunday and enjoyed the speaking at the Opera House by ex-Gov. G. W. P. Hunt and C. M. Zander. Mr. and Mrs. O. F. Ashburn and daughters, Hulda and Bobbie, motored to Tucson Saturday. Mr. and Mrs. Ashburn leaving for California by train, and the girls returning to the Pennsylvania ranch. Craig Pottinger, editor of the Nogales Herald, spent the weekend at the Commercial hotel, where his wife has been spending several days, recuperating from an attack of ptomaine poisoning. Mr. M. A. Phillips of Nogales visited Miss Geraldine McCormick at the Commercial hotel Tuesday. Ex-Governor G. W. P. Hunt and C. M. Zander, were dinner guests at the Commercial hotel last Sunday, when they stopped in Patagonia to enlighten the people concerning the proposed amendments to the Constitution of Arizona at the special election to be held September 12. William Pessier went to Nogales Wednesday to consult Dr. Bayard Pitts, eye, ear and nose specialist, regarding an affection of one of his eyes.

Mystery, love and adventure in the land of Creole delight!

The Mardi Gras Mystery

By H. BEDFORD-JONES. If you love dear, old New Orleans—and who that has ever spent much time there does not?—you have a treat before you in this story; for in addition to a pleasing, pulse-quickening romance which introduces the gayer life of Mardi Gras and the most charming characteristics of a people of Latin descent, you are taken into the inner life of the modern city. You see a city which has changed in outward form with the times, with its aristocracy in lineal descent from cavaliers of France and dons of Spain, one might almost say princes of the blood, graduated into merchant princes and men high in the professions—the prideful, boastful, loveable Creole as a man of affairs.

The Santa Cruz Patagonian

PERSONAL MENTION

Mr. and Mrs. Woodie Gattlin and family were Nogales visitors Wednesday. Henry Wood of Vaughn was a Nogales visitor Wednesday. Mrs. Anna H. Fortune and children and Mrs. Frank Schold and children were county seat visitors Tuesday. J. A. White, a well-known Kootenay farmer, said he could beat his hands shaking corn after taking Tonale. Sold in Patagonia by Evans Mercantile Co. and by druggists everywhere. Advertisement. James Rountree, who has been drilling water wells for T. E. Heady, manager of the San Rafael ranch, in the San Rafael valley, on his private holdings, returned to the valley Monday, after spending several days in Patagonia. Robert A. Campbell, Lou Quinn and Tom Fraser were business visitors to the county seat Monday. Harry Steen of Mowry was in town Monday for supplies for his store. Harry Fryer, rancher of the San Rafael valley, was in town Monday, taking out a load of supplies.

MINES AND MINERS

Two carloads of ore left Patagonia via Tuesday's freight. One load came from Salero, taken out by Black Jack Gardner, and the other was brought in from the Black Eagle, at Harshaw Gardner's ranch. The ore was shipped to Douglas, while the Black Eagle ore went to the Copper Queen's smelter at Douglas. The new boarding house at the Morning Glory mine is completed and ready for occupancy. Friday of last week Dan Dawson left for an indefinite trip to New Mexico. Ed McFarland was a Patagonia visitor Tuesday from his ranch in the Sacramento canyon. Fred Goldsmith of the 3-R was in town Tuesday. Mike Hogan and John Farrell of Harshaw were Patagonia visitors Monday.

AT THE COMMERCIAL HOTEL

Following are the guests registered at the Commercial hotel: J. E. Hopkins, Garden (Garden, Ariz.); O. H. Mitchell, Phoenix; C. H. James, Rose Beach, Phoenix; Lydo S. Smith, Rose Beach; W. R. Beatty, Robert Thompson, Chandler; H. M. Frank, Phoenix; Mr. and Mrs. W. E. Rodbach, Tucson; Mr. and Mrs. Chris Eck, Tucson; Mr. and Mrs. Jesse L. Adams, Tucson; Mrs. Ashley, Tucson.

LIGHT PLANT SHUT DOWN

The local electric light plant suffered two days' loss of service when, on Tuesday night a bearing of the dynamo was burned out. Lights were out Tuesday and Wednesday night. C. H. Wilson took the generator to Nogales to have it repaired.

Monkey Springs Imp. Assn. Makes Report

The following communication was received from the Monkey Springs Improvement Association, and is an acknowledgment of receipts and expenditures to date: Patagonia, Ariz., July 24, 1922. Mr. Howard Keener, Editor of the Patagonian, Patagonia, Arizona. Dear Sir: For the information of those who donated to the Monkey Springs Improvement Fund, will you kindly publish in the Patagonian the enclosed statement of receipts and disbursements of the money collected for that fund? Thanking you for your articles advertising the dance and keeping the improvement in general before the public. Thanks also are extended to the good ladies of Patagonia and vicinity who donated sandwiches, cakes, etc., for the dance for the benefit of the Monkey Springs Improvement Fund. Yours very truly, Monkey Springs Improvement Fund, By T. H. Pattison.

Table with columns: Receipts, Disbursements, Total. Lists various items and amounts.

LOCO WEED, MAYBE?

Monday night Deputy Sheriff Lou Quinn was called to take care of a "wild man" on lower McEwen avenue. A storm was raging and water flowed in a stream down the street, but the officer, accompanied by Pat Downing, Frank Wilson and others, went after the Mexican, who was full of "white mud" and was in some other highly intoxicating stimulant. He was frothing at the mouth and defying Gringos and the inhabitants of the street in general to take him. He was quickly subdued and placed in a hot cell for safe-keeping until morning. With the rising sun the "bad man" was repentant. He promised, if given his liberty, he would leave town immediately, which he did, boarding the morning train with his wife, bound for Benson. The Mexican has been working at the Mowry mine.

VISIT MONKEY SPRINGS

Mr. and Mrs. Fred Lawson, Mr. and Mrs. David Patton, Miss Mary Beatty, A. R. Beatty and Wallace Patton spent Sunday at Monkey Springs at the Peacock ranch about town.

SEVERAL NEW ARIZONA LAWS NOW IN EFFECT

State and county officials are busy working out the enforcement details of several new state laws. With the exception of emergency measures, all laws passed by the special session of the fifth legislature and approved by the governor, became operative July 15. The list of new laws includes the following: House bill 39, appropriating \$40,000 toward the construction of a road from Chloride to the site of the Boulder Canyon dam, contingent upon a like appropriation from Mohave county. Senate bill 37, making an appropriation to cover preliminary expenses advanced in the organization of the industrial commission act, which later was decided to be unconstitutional. Under this bill, Roy N. Davidson is allowed \$782.33 and John B. Ryan \$547.58 for services rendered as secretary and assistant secretary to the commission. Senate bill 52, appropriating \$5000 for the relief of Bridget Murphy, whose husband was killed in a highway construction accident. Senate bill 52, appropriating \$5000 for the relief of Mrs. Maids Layton, whose husband was killed by an inmate of the state industrial school. Senate bill 50, an amendment to the irrigation laws, conferring upon state lands located in irrigation districts all rights and benefits of privately owned land. Senate bill 42, providing for the formation of electrical districts. This law was aimed especially at the residents of the Casa Grande district to secure cheap power. House bill 62, providing for the organization, management and maintenance of agricultural improvement districts. House bill 49, amending the gasoline tax law by exempting all gasoline used by the federal government or its agents. Senate bill 34, new motor vehicle law, regulating the use of highways. House bill 61, amending the marriage and divorce law by providing that any justice of the peace located more than 20 miles from the county seat may receive applications for marriage licenses. House bill 51, an amendment to the irrigation district law, permitting enlarged boundaries by the inclusion of adjacent territory. Senate bill 62, providing for the re-organization of the state tax commission of information relative to all issues of bonds or other securities of state, counties, cities, towns, school districts, irrigation districts, municipal or other public subdivision of the state, and imposing penalties for failure of officials to comply with like orders of the tax commission. Senate bill 52, authorizing school boards to levy assessments to cover the cost of improving streets adjacent to school property without the necessity of holding a bond election. House bill 81 repeals senate joint resolution No. 1, passed by the regular session of the fifth legislature, referring to the people an amendment to the law on education. The purpose of this bill was to prepare the way for the new constitutional amendment initiated by the State Treasurers' Association, and which will be voted on at the general election next fall. With the recent appointment of three field nurses, the child hygiene department of Arizona is preparing to place in operation at once in this state the Sheppard-Towner bill, passed by congress some time ago. The bill was formulated for the benefit of the mothers and babies of the United States, and provides funds for a campaign of intensive education in the physical needs of the mother and child. The nurses named are: Cordelia Valenzuela of Patagonia, Nellie Wilson of Mesa and one from Phoenix, whose name will be given later. These nurses are all registered under the state law and have had special training in child hygiene work and are well qualified to take charge of the work in the state. Miss Valenzuela, the state based states, will be especially valuable to the department in reaching the Spanish-speaking mothers. NACE BURGOON AGAIN IN RING. Nace Burgoon, one of the best known residents of Santa Cruz County, has filed his southern into the arena as a candidate for county treasurer on the Republican ticket. "Nace," as he is called by his friends, and they are many, held the office of county treasurer for one term and is thoroughly familiar with the duties of the office. He is one of the few Republicans who is not considered politically when he is a candidate for office. Santa Cruz county, being normally Democratic, has elected Mr. Burgoon to office, and, of course, it was with the vote of many Democrats that he was elected. He hopes to repeat for a second term as the winner at the fall election. IT PAYS TO ADVERTISE.

FIRST POLITICAL SPEECH IN PATAGONIA BY GOV. HUNT

Last Sunday ex-Gov. G. W. P. Hunt and C. M. Zander were in Patagonia and spoke at the Opera House to a large and attentive audience on the proposed amendments to the Arizona constitution. They left for Nogales immediately after the meeting here, where they spoke before a packed house in the superior court room at the county courthouse. Hunt is a candidate for the Democratic nomination for governor at the fall primaries, and says he is confident of getting the nomination. He said: "If I am defeated for the nomination I'll not cry, but I don't believe those opposing me will cry, although I hope they will, if I am returned the winner." C. A. Parris, precinct committeeman of Patagonia introduced the speakers. In his opening remarks Hunt said he was not going to lambast the Republicans at this time, leaving that until after the primaries. Governor Hunt told his audience that prior to his return to the United States after serving his connection with the diplomatic corps as minister to Siam he had had no mail from Arizona for several months, and when he did get his mail, after it had followed him around the world, he discovered that several things had taken place during his absence that were very surprising to him. Three of the surprising things were: Organization of an industrial congress, a special session of the legislature and the calling of a Democratic conference at Tucson. The amendments to the constitution, Hunt stated, were fostered by the industrial congress. He stated also that he was not here to mine words and would tell some truths that might not be pleasing to some people. The speaker complained of the small amount of space devoted to his speeches by the Democratic press and mentioned the fact that Republican papers devoted many columns and lengthy editorials to him and his campaign against the proposed amendments to the constitution.

GOV. R. R. RICHARDSON LEAVES FOR EAST: FIRST VISIT HOME

SINCE COMING TO ARIZONA After a residence in Arizona of 39 years, most of which time has been spent in the vicinity of Patagonia, Cal. R. R. Richardson, founder of the town of Patagonia, left Tuesday for Tucson, where he will entrain for Franklin, Pa., home of his youth. The Colonel, whose health has not been good for some time, will remain in Pennsylvania for several weeks in hopes of being benefited by the change of climate. He will return in the fall, we hope, much better for his trip home. Since Mr. Richardson has been in the west, without once having paid a visit to his old home, his mother, father, and several sisters have passed to the great beyond, leaving one sister, Mrs. O. D. Blakely of Franklin, Pa., who has, with her husband, been visiting Mr. Richardson in Patagonia for several weeks. Val Valenzuela Jr. left Monday for Tucson to make arrangements for the return east of the party, which included Cal. R. Richardson and Mr. and Mrs. O. D. Blakely. E. S. Bollinger, Pat Patterson and Miss Las Valenzuela accompanied Cal. R. Richardson and Mrs. Blakely to Tucson Tuesday.

MRS. M. T. LAVELLE DIES AT ELGIN

Wednesday afternoon, at 1 o'clock, Mrs. M. T. Lavelle, age 49 years, died at her ranch home, near Elgin. The funeral will be held Thursday, burial taking place in the Elgin cemetery. Deceased is survived by her widower and a host of friends. Mrs. Lavelle was taken down Saturday with a malignant fever and grew rapidly worse, the end coming Wednesday afternoon.

PIPE LINE BROKEN

No, gentle reader, it was not the old pipe line from the Elgin field, but the water pipe line that crosses the arroyo on Railroad avenue. During the storm of Thursday of last week the water pipe in the arroyo, carrying debris down with the flood, a tree lodged in the pipe and broke it in three places. J. R. Coffe was out early Friday morning making the needed repairs.

VALUABLE BULL KILLED

Wednesday of last week a valuable bull struck and killed a Herbert bull owned by the Green Cattle Company at the San Rafael ranch. The animal was about as large as a cow.

CHURCH NOTICE

There will be regular church services next Sunday at 2 o'clock at the school house. Please come. We had good Sunday school last Sunday. Their lesson was taken from the Sixth Chapter of Daniel, 15th to 23rd verse: "Daniel and the lions." The golden text was: "Who through faith subdued kingdoms, wrought righteousness, obtained promises, stopped the mouths of lions." Hebrews, 11:33. God defeated Daniel's enemies. He like Daniel, he brave enough to worship God, no matter how much those around you dishonor Him. Be strong in purpose, be prayerful—the heavens men pray. One man with God is a multitude. The friendship of God is won by loyalty to Him. Enemies can hurt the soul. Perseverance improves the soul. An evil conscience will make a sleepless night. I fatherly injures us let us forgive. If we injure another let us ask forgiveness. Come, hear God's word.

BREAKS BOTTLE OF BOOZE

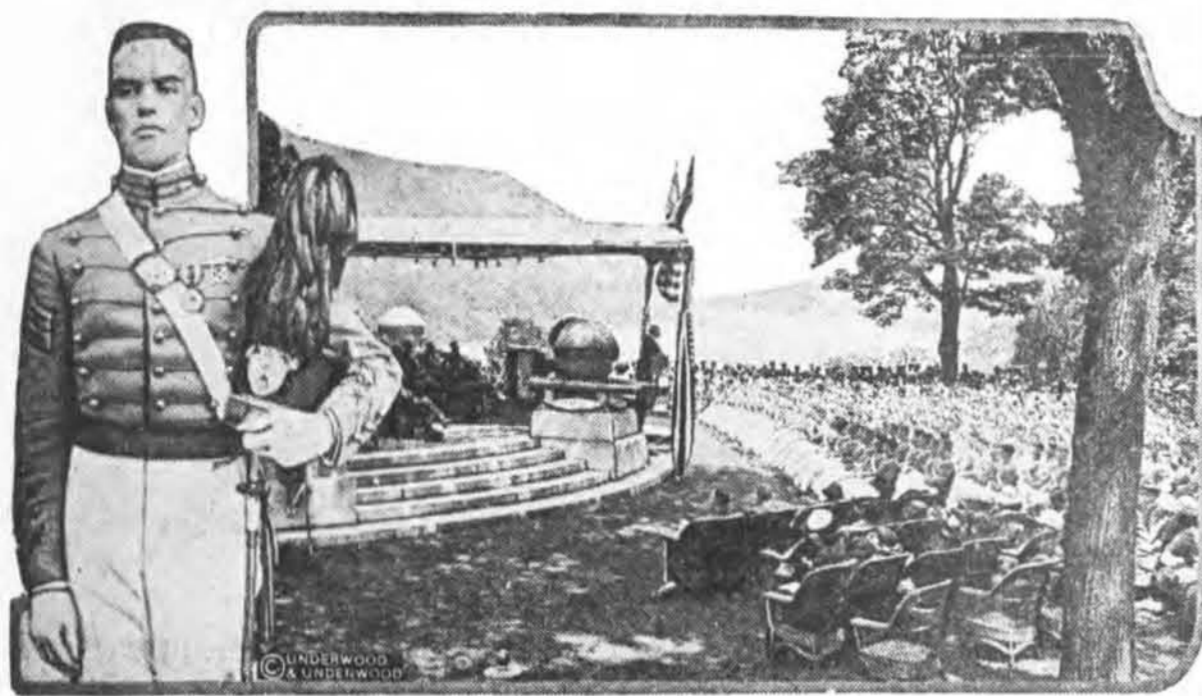

"Prepsight" White (colored) ran afoul of the law Monday night in Nogales when he attempted to smuggle a bottle of liquor across the border from Sonora. "Prepsight" had passed the customs officials, but Policeman "Wickey" Peator, noting that his coat lodged at the hip suspiciously as he walked north on Morley avenue, halted him. Recognizing "the low," Mistah White fell against an automobile near the curb, breaking the bottle in his hip pocket, an odor arising that was sweet in the nostrils of bystanders. "Smell like old Jose Curran," said Wickey, and an examination at the police station proved that the officer was correct in his diagnosis. White was arraigned before U. S. Commissioner O'Connor Tuesday on a charge of violating the Volstead act. —Nogales Democrat.

TEACHERS ENGAGED

The Patagonia school trustees have engaged the following to teach in the school during the ensuing school year: Miss Edna Huntley, principal; Mrs. Anna H. Fortune, Miss Grace Slater, Miss Elizabeth Farrell and Mrs. Louise Kimball. The first three mentioned were last year's teachers, and the others will be new to Patagonia. Since Miss Mrs. H. B. Riggs, one of the school trustees, received an application from a teacher in the east who wanted to get to the "wild and woolly" west, and her personal description gave her height as 4 feet 7 inches weight, about 120 pounds. We give the school trustees credit for their up-to-date help.

Commencement at West Point and the Honor Man

General view of the commencement exercises at the United States Military academy at West Point, showing Secretary of War Weeks addressing the cadets. The illustration also shows Charles J. Barrett, who won highest honors in the graduating class, was first captain of cadets and is now a second lieutenant. He served overseas with the Twenty-Ninth division and was one of 185 soldiers selected to enter the academy. His home is in Newark, N. J.

Vitamine Secret Sought in Corn

Experiments With Growing Grain Indicate Chlorophyll Is Necessary to Production.

COD LIVER IS RICHEST SOURCE

Experts Recommend Cod Liver Oil as Part of Daily Diet of Infants, Because of Its Power to Prevent and Cure Rickets.

New York.—The analysis of corn in the seed and at various stages of growth, in the course of experiments by Dr. Benjamin Harrow and others at the College of Physicians and Surgeons, has indicated that the vitamins are either produced by the sun as chlorophyll or that the production of vitamins depends on chlorophyll.

"The seed corn does not gain in its vitamin content when it sprouts," he said. "The vitamins seem to be the same in number. But as it shoots up and begins to turn green, the vitamins increase rapidly."

So far it is believed that vitamins of all types are produced originally by plants alone, and are not to be found in soil or non-organic compounds or in living things except as the result of vegetable food which contains them. This is hard to reconcile with the fact that the greatest known concentration of vitamins is in the liver of the cod which lives on an exclusive fish diet.

FOREIGN WHITES ON INCREASE

Census Bureau Figures Show Increase of 13 Per Cent.

Count in 1920 Showed 36,398,658 Foreign White Stock in the United States, Including 13,712,754 Who Came as Immigrants.

Washington, D. C.—The Department of Commerce announces that according to the census of 1920 the total foreign white stock in the United States on January 1 of that year was 36,398,658. By "foreign white stock" is meant the total foreign born white population plus the native white population having one or both parents foreign born.

GET GEMS BY TELEPHONE RUSE

London Thieves Get Most of Lady Yoxall's Jewelry by Calling Maid Away by Decoy Message.

London.—Lady Yoxall, the wife of Sir James Yoxall, has been robbed of most of her personal jewelry by a clever ruse.

Lady Yoxall went to Richmond police court to give evidence in another case, leaving one of the two maids in the house with strict instructions not to leave it.

Soon after she had left the telephone rang and a man's voice asked if Sir James Yoxall had gone to town and if the other maid was in. On learning that the maid was alone the voice said she was wanted at the court to give evidence. The maid said that her orders were not to leave, and the voice replied: "Hold the line." There was a short pause and then the voice said sharply: "You must leave everything and come at once." The maid thereupon went straight to the

"The doubt is due to the fact that rickets occurs among infants on a wide variation of diets, including many diets well supplied with Vitamine A," he said. "It has also been shown that the disease is caused by some disturbance in the proportion of calcium and phosphorus in the food of the infants. These are the two principal bone-makers and there is a shortage of phosphorus in the case of a child with rickets. The sunlight seems to produce this phosphorus. Cod-liver oil invariably restores the balance and cures the disease. But it is very likely that there is some other factor in the cod-liver oil rather than Vitamine A, which does this. In our laboratory and in many other researches are being made to identify this agent in cod-liver oil. There are various substances in the oil which are little understood at present. It may prove to be Vitamine A or a new vitamine, but it may be something of another nature."

"On the other hand, it is known that cod-liver oil is a perfect specific against rickets, which is unfortunately a very prevalent disease. Orange juice is given to infants as part of their daily diet for the prevention of scurvy, and cod-liver oil should be given to every infant in the same way. It is unpleasant to adults, but infants become exceedingly fond of it."

Dr. Casimir Funk, who discovered the vitamins, denied that there was any advantage in a large consumption of vitamins, and said that the public was not benefited by the propaganda to sell certain foods on the grounds that they were rich in these factors.

"Man cannot live without a minimum supply, but the average American gets plenty of all types in the average diet," he said.

\$100,000 Would Eliminate It. On the value of cod-liver oil against rickets, Doctor Hess wrote: "There are approximately 125,000 children in New York city between the ages of three and fifteen months, the period of greatest susceptibility to rickets. If we estimate generously that the families of one-third to one-quarter of these children are unable to purchase cod-liver oil, and if we agree that the development of rickets may be prevented by giving a tea-

spoonful three times a day, then at the present cost rickets could be practically abolished in this city by the expenditure of about \$100,000 a year. This is but one of many instances in which the community does not get the full benefit of our medical knowledge."

UTILIZING THE CORNCOB

The production from corn cobs of low-priced substitutes for a wide variety of hard rubber and resin products, as well as a possible new motor fuel supply, is the result of six years of research work by (left to right) Dr. Frederick B. La Forge and Gerald H. Mains, chemists in the Department of Agriculture.

Fireman Is Killed When Locomotive Rears in Air

York, Pa.—The fireman of a Pennsylvania express train was killed and the engineer severely injured when the locomotive reared up in the air while running at high speed, tearing away a vehicle bridge overhead, and then plunged down a steep embankment at Brillhearts. The tender and first mail car followed the locomotive in its wild plunge. Passengers in the following coaches were badly shaken up.

Governors Support President.

Washington.—Replies from governors of coal-producing states, who were called on by President Harding to cooperate with the federal government in protecting mines at which operations are resumed, have been received in the White House. Most of the governors said they would support the federal policy, if any emergency should arise, and outlined their plans for so doing. Meanwhile plans went forward to put the government fully in a position to fulfill the pledge of "every assistance at its command," given by President Harding.

Prince of Wales Assists at Wedding.

London.—The prince of Wales was best man at the wedding of Prince Louis Mountbatten, nephew of King George, and Miss Edwina Ashley, eldest girl in Great Britain. King George, Queen Mary, Viscountess Lascelles and other members of the royal family were present. It was announced that the bride and groom would postpone their honeymoon until autumn, when they will go to the United States.

Accuse Republicans of Filibuster.

Washington.—Senate Republicans were accused by Senator Robinson, Democrat, Arkansas, of conducting a filibuster against their tariff bill. His charge came after Senator Gooding of Idaho, chairman of the Republican agricultural-tariff bloc, and Senator Ladd of North Dakota had consumed four hours in reading prepared addresses. Senator Robinson declared that Senator Gooding's speech—a general treatment of the tariff—was irrelevant and meaningless.

Denby Unhurt in Plane Fall.

Peking.—Secretary Edwin Denby of the American navy narrowly escaped death here in an airplane accident. He was flying at a height of 1,000 feet over the great wall when the engine of the plane broke down. The machine was demolished in landing, but Mr. Denby was unhurt. Plans are being made to build a modern navy for defense purposes only and would welcome the aid of American naval experts. Minister of Marine Li Ting-Hsin said here.

SENIORITY IS BIG PROBLEM

RAIL CONFEREES AGREED ON ALL POINTS EXCEPT SERVICE RIGHTS.

PEACE PLANS FAIL

LABOR BOARD WILL DISCONTINUE PEACE EFFORTS IN SHOPMEN'S STRIKE.

Chicago.—The failure of all efforts to bring about the settlement of the country-wide strike of the railway shopmen was announced in a statement issued by Ben W. Hooper, chairman of the United States Railway Labor Board.

"As there does not seem to be any probability of reconciling the antipodal views of the carriers and the men on the question at issue, the labor board and none of its members is now engaged in any further effort along that line," the statement said. At the same time the statement pointed out that virtual agreement had been reached between the rail heads and the strike leaders on all of the five points in dispute except that of the return to the strikers of their seniority rights—an incidental question which was not originally in dispute between the roads and their men.

Railroad executives through the western presidents' committee on public relations of the Association of Railway Executives, issued a statement corroborating Chairman Hooper's statement that no further peace conferences were being held and that the seniority issue was the principal stumbling block.

"There are now no conferences in progress looking to a settlement of the shopmen's strike," the executives statement said. "Chairman Hooper of the labor board has held informal conferences with some railway executives, but these have had no results and are now at an end."

"Since the strike was called the so-called question of 'seniority rights' has arisen and has now become one of importance."

"The men who have stayed at work or accepted employment during the strike have been given assurances of protection, not only by the railroads, but by the government itself."

"Thus it will be seen the fact that the men who are now working have claims upon the railroads and the public."

Mr. Jewell, when informed at strike headquarters of the statements of Chairman Hooper and the railroad executives, refused to comment on them.

E. F. Grable, head of the maintenance of way union, made public a letter he received from Mr. Jewell, disposing of reports that there was hard feeling between the shopmen and maintenance of way union because the maintenance of way organization had decided against a strike.

The letter asserted that the shopmen were "delighted" that the maintenance of way union had found a way out of the difficulties confronting it that will bring justice to the membership.

Two Killed in Train Smash.

Muskogee, Okla.—Two men were killed and more than a half dozen other persons injured in a head-on collision between a passenger train and an extra freight train on the Missouri, Kansas & Texas railway four miles east of Tulsa. The freight crew misread orders. The engineer and fireman of the passenger train were killed.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for infants and children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher. THE CENTAUR COMPANY, NEW YORK CITY.

HAPPY IN THEIR IGNORANCE

Tribe of South American Indians Don't Know Meaning of the Words "Worry" or "Care."

No one with authority, no apparent government, no ceremonies, no religion, a carefree people, always smiling, jolly, with nothing to be jolly about. These are some of the main characteristics of a newly discovered pygmy race of naked red-skinned South American Indians, four feet high, who inhabit the mountain border of Colombia and Venezuela.

Details of this strange tribe are given in the World's Work by George P. Busch, who, with a party of all prospectors, were the first white men—with the exception of a Spanish padre—ever seen by the tribe.

Of the world outside they know nothing and have no curiosity. The bow and arrow is their only weapon, carried by the men wherever they go, because they never go anywhere except to get food. Wading into the water, they wait for a fish to hover near; like a flash, they pierce it with an arrow.

One Never Knows.

A man and wife, new acquaintances of ours, called one evening. In the course of our conversation I told about my new twin nieces. I said I thought twins were cunning when they were little, but that I would hate to be one, for I thought a twin lacked individuality and could not make much out of himself.

Our callers both laughed, and the man said: "We do not consider it as bad as that, do we, Mary? We each happen to be one of twins."

I hastened to explain that I did not know much about twins.—Chicago Tribune.

STEADY LINE OF PROMOTION

From Displeased "Whiteseed" Visitor's Flowers Advanced to Dignity of "Lovely Marguerites."

One morning a summer resident started from Coolbeigh with a bunch of flowers in her hand.

"Going to take that whiteseed into the city?" inquired the man who drove her to the station, with evident scorn.

"Yes," said the young woman, quite unmoved by his opinion.

On the train she was joined by another young woman, who had formerly lived in the city, but had married a Coolbeigh man a few years before.

"Those are pretty daisies you have," she said tolerantly.

"Yes, I think they are," said the summer visitor, smiling to herself.

An hour later she handed the flowers to a friend in a busy city office.

"Oh, what lovely marguerites," cried the recipient.—Exchange.

Sign in the Heavens.

The first time a monoplane, like a great dragon fly, sailed over a certain sleepy little Scotch town, a couple of old toppers got the scare of their lives.

"Lord save us, Sandy!" cried one, gazing upward in terror.

"Weel! Weel! And can ye see it, too, Tammas?" returned the other aghast.

"Ah'm seein' it vera plain."

Sandy breathed a sigh of relief.

"Ah'd no like to see it by myself," he observed.

"What tak ye it to be, Sandy?"

"I ken weel it's a sign."

"An' what kind o' a sign, Sandy?"

"What kind o' a sign, mon? Dinna ye ken? Sure, it's a sign yon and me. Tammas, must cut out th' whisky."—Boston Transcript.

Nineteen Miles of Tablecloths.

The outfitting of the liner Majestic, 56,000 tons, which made her maiden trip to New York a short time ago, was a colossal affair and quite on a par with her size, which is the largest in the world.

Seventeen tons of blankets, 16 miles of sheets, 10 1/2 miles of bed covers were being utilized for the sleeping apartments.

For the dining rooms there were 19 miles of tablecloths and 29,000 pieces of glassware. China and earthenware totaled 80,000 pieces. The electroplate and cutlery consists of 50,000 pieces, with an extra 5,500 pieces for the French restaurant. The crew of the ship will wear something like 5 1/2 miles of aprons during a passage.

Cuticura Soothes Itching Scalp. On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your everyday toilet preparations and have a clear skin and soft, white hands.—Advertisement.

Retirement.

"Since that man was defeated for office he has talked loudly and irresponsibly on all kinds of subjects."

"Yes," rejoined Senator Borglum, "He is under no official restraint. It would be a relief if he could be returned to public life."—Washington Star.

Needs Guidance of God.

A new path needs the continual guidance of God. Young people sometimes make the terrible mistake of forgetting this, and thinking that they can safely leave God behind when they leave home.—East and West.

Arguing is seldom spoken of as a bad habit, yet it is one when it is a habit.

Don't be Fooled Low Price and High Quality Don't Go Together. Stick to

CALUMET The Economy BAKING POWDER

Never accept "Just as Good" Brands; it will only mean disappointments and failures on bake-day, which are expensive.

Calumet is a high grade Baking Powder, moderate in price

When you use it you never spoil any of the expensive ingredients used—such as flour, sugar, eggs and milk.

Best that science can produce—Stands the test of daily use.

10 Cents Gives Charming New Color Tone to Old Sweaters PUTNAM FADELESS DYES—dyes or tints as you wish

Had Your Iron Today?

The Delicious Bread - of Energy and Iron

SERVE raisin bread twice weekly on your table for three reasons:

1. Flavor; 2. Energy; 3. Iron

You remember how good a generously filled, full-fruited raisin bread can be.

Insist—if he hasn't one he can get it for you.

Full-fruited bread is full of luscious seeded Sun-Maid raisins—rich in energizing nutrient in practically predigested form.

Raisins also furnish fatigue-resisting iron for the blood.

Serve plain raisin bread at dinner or as a tasty fruited breakfast toast with coffee.

Make delicious bread pudding with leftover slices. No need to waste a crumb of raisin bread.

Begin this week the habit of raisin bread twice weekly in your home, for raisin bread is both good and good for you.

Cabinet Members to Address Congress?

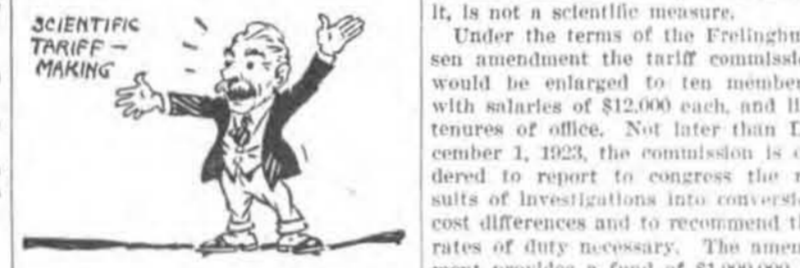

The President let it be known, following the cabinet meeting, that he shares the unanimous judgment of his cabinet that an arrangement whereby executive department heads could go to congress whenever matters of interest to their departments were under discussion and have the right to speak from the floor, would be very gratifying.

Grand Canyon - "Senatorial Courtesy"

THE sensational adventuring into national parks finance of Senator Ralph H. Cameron of Arizona last February, when he tried to kill the entire appropriation of \$88,000 for the Grand Canyon national park, has come to an end with the acceptance by congress of the conference report appropriating \$75,000 for the next fiscal year.

Frelinghuysen's "Scientific Tariff"

he had a hand in drafting it and favors it, is not a scientific measure. Under the terms of the Frelinghuysen amendment the tariff commission would be enlarged to ten members, with salaries of \$12,000 each, and life tenures of office.

One in Every Seven Officers Must Go

APPROXIMATELY one in every seven officers in the regular army must be turned out into civil life by January 1 next, according to a preliminary estimate made at the War Department of the effect of the compromise reached by senate and house conferees on the army appropriation bill.

Senators and the Short and Ugly Word

utterly false accusations by the senator from Alabama," observed Senator Glass, irritated by a speech Mr. Hefflin was making.

Lack of Patriotism

Enraged because some of his own countrymen refused to stand when "Deutschland über Alles" was being sung in the smoking room of a transatlantic liner, a young German officer, son of a German general, created a sensation by dashing his wine glass to the floor and otherwise showing his disapproval of the lack of patriotism displayed by his German companions.

Clubhouse Over Oil Well

To build their clubhouse over an oil well was the unique and profitable experience of the American Legion men in Waynesboro, Tenn.

Benefits Certain Ex-Service Men

Certain ex-service men who are not eligible for compensation under the veterans' bureau are nevertheless eligible for entrance into the national home for disabled volunteer soldiers.

Highest Commendation

A letter from Postmaster General Work, expressing the "highest commendation of your corps" has been received by Major General Lejeune, commander of the marine corps, following the withdrawal of the 2,000 marines who have been guarding the mails over the country for several months.

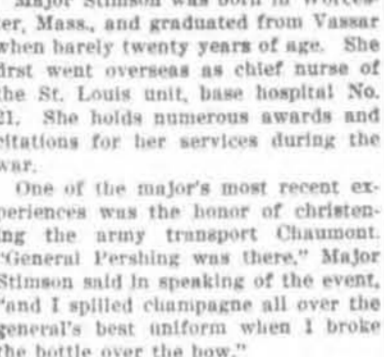

May Unite Organizations

In a majority of the countries that took part in the World war, there is a movement in favor of a unity of veterans' organizations. In Great Britain, the British legion has a membership of over 2,000,000. Plans are being worked out in Germany to combine the four largest organizations which have a total membership of 1,500,000.

The MARDI GRAS MYSTERY by H. Bedford-Jones Illustrations by Irwin Myers

TWO elements distinguish this story: The gaiety that makes New Orleans stand out among American cities, and the dark struggle and intrigue that have come with the development of oil lands in the surrounding region.

The carnival period is enlivened by the sensational yet mysterious performances of a man masked in aviator's garb. It is a rich young man's Mardi Gras prank, but it leads him into the midst of a most amazing conspiracy. It leads him also to a meeting with an unusual girl; and the story that evolves is an enthralling blend of mystery, adventure and love.

"The Mardi Gras Mystery" Will Be Printed Serially in The Santa Cruz Patagonian

ARIZONA WEEKLY INDUSTRIAL REVIEW

Outman—Fine ore body struck in Black Range. Wilcox—Ewing & Wallace claim to old Silver camp sacking ore averaging 66 a ton. Nogales—Arizona imports and exports for June totaled \$968,771. Prescott—Walker district experiencing a boom; rich strike reported in Shebina mine. Yuma—\$900 head of sheep purchased for valley ranch. Humboldt—Humboldt smelter blown in and operated by Southwest Metals Company. Yuma—Site selected for Yuma sugar factory, adding 30 families to district.

IMMIGRATION LAWS VIOLATED

Reports of flagrant violations of the immigration laws at the port of Nogales have stirred the immigration officers to action, says the Nogales Democrat, with the result that eight Mexicans, five women and three men, were lodged in the county jail Tuesday, charged with violation of the immigration laws. A charge was filed with United States Commissioner W. A. O'Connor Tuesday, alleging that Manuel Lopez, a Mexican citizen, had imported a Mexican woman from Sonora to the United States for immoral purposes. The woman is being held as a material witness. Ernesto Gonzalez and Antonio Martinez also were charged with having violated section 8 of the immigration law, the specific charge being that they violated the law by expiring the inspection at the border of themselves and four Mexican women. It was stated by the officials that Tuesday's arrests were the forerunner of a plan of action to be put into effect here to break up a gang of men alleged to be engaged in the importation of Mexican women for immoral purposes.

WHAT HE MOST NEEDED

Uncle Mose was a chronic thief, who usually managed to keep within the petty larceny limit. Once he misadventured, however, and was sent to trial on a charge of grand larceny. "Have you a lawyer, Mose," asked the court. "No, seh." "Well, to be perfectly fair, I'll appoint a couple. Mr. Jones and Mr. Brown will act as counsel." "Whose dat?" "As for your lawyers, consult with them and prepare to tell me whether you are guilty or not guilty." "Yes, seh."

Mose talked to his attorneys for a few minutes in hasty whispers. The judge caught and yelped several words, reported, "alibi." Then Mose arose, scratched his head and addressed the court. "CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of Dr. J. C. Fletcher

Valuable Minerals in Saskatchewan. Among the minerals found in the Wapavetka lake district of Saskatchewan, Canada, by the exploration party sent into the far northern part of the province by the provincial government are ochres, umbers, paint clays, bog iron ore, carbonaceous sands, shales, fire clays, glass sands and coal. Commenting upon the ochres and umbers found in the mineral waters of the lake, the ceramic engineer of the University of Saskatchewan and geologist of the party says that the samples have proven very satisfactory, particularly the ochres.
