

"BUY SOMETHING MADE OF COPPER"

PATAGONIA IS IN THE HEART OF THE WORLD'S RICHEST COPPER, SILVER, GOLD AND LEAD DISTRICTS

SANTA CRUZ PATAGONIAN

JOIN PATAGONIA'S CHAMBER OF COMMERCE & MINES AND BE A BOOSTER FOR THE TOWN AND DISTRICT.

VOL. X. PATAGONIA, SANTA CRUZ COUNTY, ARIZONA, FRIDAY, AUGUST 4, 1922. No. 35

PERSONAL AND SOCIAL

Mr. and Mrs. Robert E. Lee of Nogales were Patagonia visitors Sunday. Mr. Lee is a candidate for clerk of the superior court of Santa Cruz county at the September primaries, which position he now holds. Robert is so efficient that no candidate has had the courage to announce himself for the position.

C. J. Settles, superintendent of the school for deaf and blind, was in Patagonia Sunday. He was seeking prospective pupils. He later drove to the county seat.

Mr. and Mrs. Robert Bergier of Alto were shopping in Patagonia and visiting Mrs. Bergier's mother, Mrs. Charles Chapman, Tuesday of this week.

County Attorney A. H. DeReimer was in Patagonia Sunday. DeReimer wants to succeed himself as county attorney on the Republican ticket.

The Campfire Girls of Nogales have been spending several days at Monkey Springs. They have established a camp and are enjoying themselves swimming in the pool and living a camper's life.

Val Valenzuela Jr., manager of the Patagonia Commercial Company, was a business visitor to the county seat Tuesday and Wednesday.

Jim Parker of Canille was in Patagonia Tuesday shopping and visiting friends.

Ed McFarland of Sorreno canyon was in town Tuesday from his ranch with a load of apples, which were sold to the Patagonia Commercial Company. Mr. McFarland says he will have a good crop of apples this year.

Twelve men were put to work at the atone quarry between Patagonia and Blifton Wednesday morning by the Southern Pacific railroad.

Ed Hainline has been busy for several days making chopsticks for Yip Gee, the Chinese consul at Cittden, according to some of his close friends.

Mrs. H. Barton and son, Heine, of Elgin were Patagonia visitors Wednesday.

Mrs. Pete Perry and children have gone to San Fernando, Calif., for an extended visit with her mother.

E. E. Rothel, manager of the Washington Trading Company, was a business visitor to Nogales Tuesday.

Mrs. Elizabeth Foster has returned to her home in Nogales after a week's visit with her sister, Mrs. Melvina Sorrells, at Harshaw.

Mrs. Melvina Sorrells, Mrs. George Sawyer and Mrs. Pete Bergier, paid a visit Wednesday to Mrs. Ray Sorrells, in the Patagonia road.

Mrs. Mike Hogan and children and Miss Kate Farrell and brother, John, were Patagonia visitors from Harshaw last Monday.

Passengers unable to get to Nogales Monday night by train were taken to the border city by Pat Patterson in his car.

Albert Johnson, son of Section Foreman Nick Johnson, has gone to Benson to accept a position. He left on Saturday's train.

Will Roath, prominent cattle man of Elgin, was a Patagonia visitor Tuesday.

Monkey Springs was well patronized last Sunday by Nogales residents, as well as by those living near by.

Lou Quinn, Glenn Perry, John Van dewater and Frank Reihart were in Nogales Tuesday on business.

Pete Bergier was in town Tuesday from his ranch in Sorreno canyon.

A. B. Van Zandt, assistant cashier of the First State Bank of Patagonia, was a county seat visitor Thursday.

George W. Parker of the San Rafael valley was a visitor in Patagonia Monday on his way to the county seat.

Mrs. Sam Friedmann and sons, who had been spending their vacation at the home of O. F. Ashburn, returned Saturday to their home in Nogales.

Mr. and Mrs. J. D. Rountree and Jim Rountree were in town Saturday from the San Rafael valley.

Mrs. Clyde McPherson of the San Rafael valley was in town Saturday visiting friends and shopping.

Barnett & Barnett, City Market, cats.—Advertisement.

ARIZONA WEEKLY INDUSTRIAL REVIEW

Tucson—Santa Cruz valley to be thoroughly prospected for petroleum.

Tombstone—Contract for \$70,000 high school to be let at once.

Doa Cabezos—Mining company organized to develop local properties.

Miami—Construction of road along Pinal creek to Roosevelt advocated.

Jerome—United Verde adds 130 men to payroll during past week.

Wilcox—Three carloads of beef steers leave for El Paso.

Ajo—New Cornelia Copper Company starts full production, employing about 1000 men.

Bisbee—Good commerce here being extracted from 200-foot level of Lowell Division mine.

Casa Grande—Contract for valley electric power signed; \$200,000 line to be built.

Miami votes \$285,000 bond issue for school construction.

Outman—Diamond drilling in local properties producing good results.

Phoenix—\$1,336,645.14 available for state schools for fiscal year 1922-23.

Florence—Contract for section F of Florence-Superior highway to be let at once.

Phoenix—Bear Mountain Cattle Company, capitalized at \$50,000, organized.

Globe—Old Dominion mill to be remodeled and production increased to 1000 tons daily.

Bisbee—Phelps-Dodge Corporation takes option on Higgins property.

Phoenix—Completion of Mormon Flats dam to bring approximately 10,000 additional acres under cultivation.

Globe—Activity in asbestos fields of city being actively prospected.

Arizona sheepmen to ship at approximately 266,000 lambs during remainder of year.

Florence votes bond issue for extension and increased efficiency of power plant.

Phoenix—Activities in state copper mines starting to boom.

Casa Grande—First carload of grapes from Pinal county leaves for Chicago market.

Florence—Construction of power line from Sycamore district to supply valley farms and towns advocated.

Globe—Old Dominion shipping \$13 and \$20 silver ore to smelter.

Outman—Diamond drill operations started on Balfis claims.

Casa Grande—Haward Silver Company installing new machinery; will sink to 500-foot level.

Phoenix—New stations for extension of research into volume and velocity of Colorado river in state to be established.

Wilcox—Strike in Sheldon mine resulting in renewed activities throughout district.

Nogales to spend \$40,000 installing new water mains in business district.

Phoenix—Marked improvement in show in state range and stock conditions.

Yuma—Colorado River Delta project ready for colonization and development.

Phoenix—\$20,000 cotton compress and warehouse under construction.

Prescott—Party men work on Mingo mountain road.

Duncan—Cabbage crop proves good investment for valley farmers.

Bowie—100-foot steel span over Lovin wash ordered.

Duncan—Government loans to valley gentlemen totaling \$30,000 approved.

Phoenix—\$100,000 addition to federal building planned.

Miami—Preparations under way for further development of El Capitan mines.

Duncan—Organization of \$75,000 irrigation district under way.

Outman—Development work on Outman Extension claims started.

Prescott—Cattle and sheep men form organization to further stock industry.

Pima—Contract awarded for road work to Hot Springs.

Prescott—Six crews working on Rattlesnake cutoff to Flagstaff.

Miami negotiating for installation of civic gas plant.

Kingman—Carr property to start shipments to smelter; ore values running to \$1000 ton.

Clarkdale—United Verde to blow in second furnace, increasing output 50 per cent.

Globe—Old Dominion mine to spend \$50,000 increasing mill capacity.

Wenden—Purchase of Desert Copper property by Utah Copper Company reported.

Globe—Asbestos fields in Pleasant Valley district giving promise of becoming largest in America.

Tombstone—New station at Apache Fowler about on E. P. & S. W. railroad named "Curtis."

MINES AND MINERS

Dave Dowd, well-known mining man, who has been in the Patagonia district for several weeks doing assessment work on the Exposed Reef mining claims, in which he is interested, left Tuesday for Randsburg, Calif., where he will associate himself with Brockey Shannon and Ed Collier, formerly of Patagonia, in a mine lease.

Jerry Sheehy, who has been doing development work on the Sheehy Bros. mining claims in the Harshaw district, was a Patagonia visitor Monday.

J. C. Miller, well-known former Patagonian, now residing in Nogales, was in town Monday, following completion of assessment work on his mining claims in the Patagonia mountains, adjoining the 3-R mine on the west.

"Jimmie" Ritchie, well-known former Patagonian, who has been in Durango, Mex., since last winter, arrived in Nogales Monday. He will call on friends in Patagonia before again returning south.

J. B. David was in town Wednesday from the Rhea mine for supplies.

R. deR. Smith of the Harshaw mine was a Patagonia visitor Monday.

J. J. Farley and Henry Kruse left Tuesday with a load of supplies for the Santa Rita, where they will commence work on the Dixie mine, which they have leased from "Uncle Billie" Powers.

Gus Amado, who has been with the Tetal Wreck mine, near Pantano, which is under bond and lease to Tom Gardner and Lander Young, has returned to Patagonia.

DeReimer Takes Interest in Patagonia Teacher

County Attorney DeReimer, it is alleged, has become suddenly interested in the hiring of school teachers for Patagonia. Last Sunday, according to reports he came here to protest to the local school trustees against the appointment of Miss Elizabeth Purcell, sister of Mrs. Frank Pearson, who was murdered at Ruby last August. DeReimer's objection to hiring Miss Purcell as a teacher is based on the fact that she was unable to identify Silvas as one of the bandits who robbed the Ruby postoffice, thereby making the conviction of Silvas a certainty. We think DeReimer is exceeding his authority if he has tried to dictate to the school trustees in their appointments of teachers.

Attorney A. A. Trippel of Nogales came to Patagonia Wednesday with Miss Purcell and Marjorie Pearson, daughter of Mr. and Mrs. Frank Pearson, who she has taken as her ward, to protect her against the notion of DeReimer in trying to have the local school board rescind their action in hiring her to teach in the Patagonia school.

SUPERINTENDENT OF SCHOOLS RETURNS FROM CONFERENCE

County Superintendent of Schools Josephine A. Saxon has returned to Nogales from Flagstaff, where she had been in attendance at the conference of rural school teachers.

During the conference the Arizona superintendents were addressed by a number of prominent educators and a lengthy round-table discussion was held regarding the improvement of Arizona schools.

While in Flagstaff, Mrs. Saxon visited several teachers of Santa Cruz county in attendance at the summer school of the State Normal in that city.

S. H. Beattie, teacher of the Tubae school, and Miss Margaret McAllister, of the Rain Valley school, are taking the course. Miss Galvin, who taught the Amado school, and Miss Berdette Roark, a member of the Nogales teaching staff, also, are taking the course and will remain in Flagstaff for the balance of the summer.

The county school superintendent interviewed a number of teachers attending the normal school who have applied for positions as teachers in the state, and took the names of several who will be considered for positions in Santa Cruz county schools.

At present there are six vacancies in rural schools of the county to be filled, all other schools having been supplied with teachers by the trustees of the various districts.

W. B. ROUNTREE KILLED, SIX INJURED IN AUTO WRECK

Saturday, July 29, Wilson B. Rountree, 68, well-known former resident of Patagonia and vicinity, brother of Jim and J. D. Rountree of the San Rafael valley, was killed and six other occupants of the automobile in which he was riding were injured when the machine turned turtle near Los Flores, 12 miles north of Oceanside, Calif. Mr. Rountree and three children in the party, including his daughter Mrs. Grace Kirkpatrick, were pinned beneath the overturned automobile, the aged man dying from his injuries three hours later.

According to the story told by Mrs. Kirkpatrick, who was driving the car, the accelerator became jammed, and in her efforts to stop the machine it swerved from the road, crashed through a barbed wire fence and turned over.

One of the children of Mrs. Kirkpatrick suffered a broken leg. None of the other occupants of the car were seriously injured. Besides W. B. Rountree, Mrs. Kirkpatrick and three other children, the car was occupied by a playmate of the children, William Dorsett and W. Hooper, of San Diego, Calif.

A verdict of accidental death was returned at the inquest conducted by the coroner. The body was taken to Long Beach, Calif., where the funeral was held Tuesday.

Attorney A. A. Trippel of Nogales received a telegram Monday from Mrs. Kirkpatrick giving meagre details of the accident.

The Patagonian received full details Wednesday morning from Mrs. C. P. Young, formerly a resident of the San Rafael valley.

BRIDGE BADLY NEEDED OVER SONOITA CREEK AT PATAGONIA

Some method should be adopted by the county supervisors whereby money can be had for the building of a bridge over the Sonoita creek above town.

Many persons have been compelled to remain in town during the heavy rains of the past few days because the crossing north of town cannot be passed when it is filled with water.

For years this crossing has been the source of much expense to the county, owing to the fact that after every rain-storm workmen have had to be put to work repairing the damage done by flood waters. If a bridge were placed there much more money would be saved to taxpayers.

Several thousand dollars are now being expended to build a bridge at Elgin, where there is not one person to cross it where there are hundreds who use the crossing at Patagonia.

STATE FARM BUREAU APPOINTS NEW CHIEF

W. M. Cook of the agricultural college at the University of Arizona was appointed manager of the Arizona Farm Bureau Federation July 28 at a meeting of the federation's executive committee, held in Phoenix. He will serve for one year, having been granted a leave of absence by the university for that purpose. As manager of the federation, Mr. Cook will have charge of the state headquarters direct membership campaign and organization work and will conduct surveys and investigations on district community marketing associations.

BETTER PROGENY BY CULLING, TESTS WITH POULTRY REVEAL

That culling the poultry flock to get rid of all those birds except the vigorous, prolific layers results in noticeable improvement in the progeny is shown by recent investigations at the United States experiment farm, Beltsville, Md. The late moulters selected from a flock of 100 Rhode Island Reds in the fall of 1920 laid seven more eggs per bird during their second year than the original flock of pullets. They were used as breeders the following spring, and the first Red pullets to commence laying in the fall of 1921 were found to be the offspring of these late-moulting hens.

Their pullets in a period of seven months have already averaged about two dozen eggs per bird more than the original flock.

But it is not alone in number of eggs that the late-moulter's progeny excel, but also in the value of the product, as the distribution was more even, a much larger proportion of the eggs being laid during the winter months. In the last seven months the daughters of the late moulters not only averaged two dozen eggs per bird more than the original flock, but the value of their product was figured at the same price, about \$3.04 per bird more during the same period. It is expected that this margin will increase during the next five months.

PATROLMAN TAKES GUN FROM NEAR-BAD MEN

Monday morning Oscar Shere, a restaurant man and Bill Dennis taxi driver, both of Nogales were fined \$50 each by Judge Bird, who found them guilty of disturbing the peace Sunday morning, following their arrest by Patrolman H. J. Brown, who testified that the men were engaged in an altercation when they were placed under arrest. Shere is said to have drawn a revolver which was taken from him by Dennis, Brown disarming the latter before damage was done. Both the offenders are negroes.

CHAMBER OF COMMERCE WILL MEET SATURDAY NIGHT

A meeting of the members of the Chamber of Commerce of Patagonia is hereby called for Saturday, August 5, 1922, at 8 p. m., in the office of the commercial hotel. Everyone cordially invited.

There will be matters of importance that every citizen of Patagonia should be interested in.

C. A. PIERCE, President; W. P. CAPEHART, Acting Secy.

BIG DANCE AND BARBECUE AT CANILLE TOMORROW, AUG. 5

Tomorrow, August 5, at Canille, there will be held a big and swashy affair at the Canille ranger station, and a big dance will be held in Mal Eason's barn in the evening. Citizens especially are invited. See Vincent Knudsen for information and for the sporting events.

FROST MISSES LOCAL PEACHES

Mrs. Charles Chapman of Patagonia recently exhibited some very large peaches that were grown on her lot. The fact that peaches grow in Patagonia is not remarkable, as many peach trees flourish here, but what is remarkable is that they were killed by late frosts this spring, and that peaches that survived from the effects of the frost...

CHURCH NOTICE

There will be regular church services next Sunday. Please come.

Last Sunday's lesson: "The first lesson from exile—Jeremiah, 9:10, as Ezra, 1:1-8, 11. The golden text was: "We know that all things work together for good to the many love of God."—Romans, 8:28.

May we be more worthy of the blessings we receive.

God saves those who are willing to accept salvation. God is beautiful to the penitent an thro obedient.

Our pilgrimage here is for the purpose of faithfully discharging the responsibilities God lays upon us as good stewards.

Whom the end comes will it be said in us: "Well done, thou good and faithful servant!" or "depart!"

WASHOUT ON TUCSON-BENSON LINE OOF S. S. STOPS TRAFFIC

A washout Sunday night on the S. P. Nogales-Benson line tied up through traffic for several days this week. The floods, caused by the heavy rains of Saturday and Sunday, washed out not more than a mile of the road-bed, and a large crew of men were required to repair the damage and restore traffic.

The washout delayed mail and mail-trains in general inconvenient for residents of Patagonia. Section Foreman Nick Johnson estimates that the damage sustained to the railroad has cost the company at least \$10,000.

F. A. STONE TAKEN TO HOSPITAL

Station Agent F. A. Stone was taken Tuesday to Nogales and is in a hospital suffering from typhoid fever, it is reported. Mr. Stone has been sick for more than a week. Last Wednesday he complained of not being well, but gradually grew worse. His condition became alarmed over his condition and he was taken to Nogales by C. R. Wilcox and placed in a hospital for treatment.

Ladies Take Notice

Miss Evelyn A. Bentley, home demonstration agent of Tucson, will meet the ladies of Patagonia and vicinity next Monday and Tuesday, from 2 to 5 p. m., at Mrs. Tom Fraser's apartment in the Cady hotel. Miss Bentley will instruct in millinery. Those interested are invited to come and bring their work bags and material.

JUDGE O'CONNOR SUSTAINED BY STATE SUPREME COURT

Last Saturday the Supreme Court of Arizona sustained Superior Judge W. A. O'Connor in his decision rendered in favor of J. H. Johnson, automobile dealer, against the Southern Casualty Company for damage sustained through the wreck of an automobile belonging to the plaintiff when the car upset at Thrawley, Calif.

It was alleged in the suit that the car was wrecked through striking a canal bank when the driver turned out to allow another car to pass. Attorney Leslie Hardy, representing the casualty company, appealed the case, which hinged on the definition of the term "collision."

Judge O'Connor ruled that the term "collision" included collisions with stationary objects as well as other vehicles, and held, also, the evidence showed that damage to the automobile was caused by a collision with canal embankment and not by a mere "upset in the road."

Attorneys Noon and Kinder appeared for the plaintiff in the case.

RICH GOLD STRIKE REPORTED IN HILLS NEAR TUCSON

Gold has been found in the Catalinas, just 30 miles north of Tucson, according to information given out last Saturday. The ore, in pockets, is said to be so rich that visions of the 49ers, Virginia City and the Comstock came before the sober eyes of Tucsonans discussing the question and speculating as to whether the city will be the Mecca for a gold stampede.

The find was reported from the Catalinas in the Sierra Pelona district, and on the much leased from the state by Willard White.

Kendall Greathouse and Roy Rief, when seen Friday night, exhibited samples of the ore and said that from 25 says made by Elizardo Jacobi and A. L. Poligria it had tested 256 ounces of silver and 1200 ounces of gold, or approximately \$26,000 to the ton. It is pointed out, however, that this is a pocket and not a vein.

DR. RAY FERGUSON RESIGNS AS HEAD OF STATE HOSPITAL

A recent dispatch from Phoenix says the resignation of Dr. Ray Ferguson, superintendent of the state hospital for the insane, has been accepted by the board of directors of the state institution, effective at once, according to an announcement made public by Bert Winger, secretary to the board. Dr. Ferguson has already given up his duties at the hospital.

Dr. Ferguson resigned, Mr. Winger said, in order to accept a position as general manager of the Stargis mines at Morenci, and left several days ago to take up his new duties. His successor has not been appointed yet, but it is expected that Governor Campbell will appoint a well-qualified man within the next few days.

Dr. Ray Ferguson is well known in Patagonia, where he made his home for many years while engaged in the practice of medicine and in mining.

CANDIDATE FOR CORPORATION COMMISSIONER CAMPAIGNING

Charles de Sales Wheeler, candidate on the Democratic ticket for the nomination for corporation commissioner at the September primaries, is campaigning the state, and stopped in Patagonia Wednesday interesting voters in his behalf. Mr. Wheeler was accompanied by Attorney Duane Bird of Nogales, who is one of his ardent supporters. Mr. Wheeler is a resident of Maricopa county and has a host of friends in his home territory that predict he will carry Maricopa county by a large majority over his opponent, Amos Betts, incumbent, who is seeking re-election.

AT THE COMMERCIAL HOTEL

The Commercial Hotel register contains the following names of guests of the week: Henry Wood, Elgin; Geo. Stevens, Van Horn, Texas; R. B. Jones, Van Horn, Texas; T. C. Westerman, Los Angeles; Jack O'Brien, San Francisco; Miss J. Bushford, Tucson; Miss Evelyn Bentley, Nogales; Charles Greiss, Los Angeles; Lieutenant Carson and wife, Nogales; John W. O. Bungle, Nogales; Mrs. C. J. Ballinger, Nogales; O. A. Hunter, Douglas; Mr. and Mrs. Wellington Bailey, Tubae; Selie Carter, Tucson; C. R. Perkins, Tucson, and A. C. Guthrie, Tucson.

BABY HAS NARROW ESCAPE FROM DEATH

While playing with a lot of zinc screws Tuesday, given to him by a servant ignorant of its contents, Jack, the 6-month-old babe of Mr. and Mrs. Charles L. Hardy, managed to open it and swallow some of the poison. The prompt action of Mrs. Hardy in rushing the child to a physician saved its life. The little fellow is rapidly recovering from the effects of the poison.

1—Secretary Mellon and Ambassador Lansing discussing the French war with M. Jean Parmentier, French financial representative. 2—Elks, in convention at Atlantic City, mulling to their morning dip. 3—Wounded republican and Father Dominic, a rebel leader, captured by Free State troops in the battle of Dublin.

CAUGHT FROM THE NETWORK OF WIRE" ROUND ABOUT THE WORLD.

DURING THE PAST WEEK

RECORD OF IMPORTANT EVENTS CONDENSED FOR BUSY PEOPLE.

WESTERN

Burglars broke open eighty vaults on six floors of the Paulson building in Spokane, Wash., and stole in excess of \$100,000. This is the largest burglary ever committed in Spokane, according to local police.

Chris Chellis, 28, was instantly killed and Charles V. Herman, 28, was injured, possibly fatally, when the automobile they had entered in the races at Laguna, an amusement resort near Salt Lake City, plunged through the fence.

Jeffrey Hildreth and his slayer, Monte P. Rose, sleep together in Fall River cemetery at Redding, Calif. They had been friends for several years until a law suit estranged them and led to a quarrel as a result of which Rose slew Hildreth and then himself.

Spreading over an area that totals between 2,000 and 5,000 acres, the Marble creek forest fire, near Avery, Idaho, about eighty miles east of Spokane, Wash., has developed under a brisk wind into what forestry officials consider to be the largest fire in the Idaho territory since 1919.

Thomas Lynch, his wife, Mary, their daughter, Katherine, aged 4, and nephew, Philip, aged 3, were killed and four other members of the Lynch family and another woman suffered burns which are expected to prove fatal in a collision between the Lynch automobile and a street car in San Francisco.

Report was confirmed by W. J. O'Connor, assistant manager of the American Smelting and Refining Company's smelter at East Helena, Mont., that the wage scale at the plant would be increased 50 cents a day. The smelter will thus be paying the same scale which will prevail in other places in Montana for similar work, said Mr. O'Connor.

WASHINGTON

Operators from the coal-producing districts of six states have been asked by Secretary Hoover to co-operate with the government and the railroads in a plan to insure the distribution of fuel to the carriers and public utilities and to prevent profiteering during the strike emergency.

Republican and Democratic senators joined in demands for prompt payment of American damage claims against Germany and Austria but differed as to procedure during three hours debate on the bill of Senator Underwood of Alabama, the Democratic leader, which proposed an American claims commission.

In a comprehensive report submitted to the Senate by Chairman Norris of the Senate agricultural committee, Henry Ford's offer for the purchase and lease of the government's war-inflated projects at Muscle Shoals, Ala., is condemned in unusually strong language, while the Nebraska senator's bill, proposing development of the properties under a government-owned and controlled corporation, is described as "the most wonderful plan" that has ever been proposed in the history of the country.

Secretary Hughes has been authorized by President Harding to enter into negotiations with the principal maritime nations of the world with the view to holding a conference in the United States for the purpose of preventing oil pollution of navigable waters, especially in important harbors.

The Interstate Commerce Commission has declared that an emergency exists in transportation in territory east of the Mississippi river, which required it to direct the routing of shipments of all essential commodities and to fix preference and priority for the movement of food, perishable products, coal and other fuel, and live stock.

Falling to get action from the Senate finance committee majority, Senator Lenroot, Republican, of Wisconsin, launched his fight in the Senate to limit to 60 per cent ad valorem the duties in the pending bill on coarse wools, both in the raw and the manufactured state. His proposal met with sharp opposition from spokesmen for the committee and senators engaged in the production of wool, and there were frequent and, at times, sharp exchanges.

President Harding has accepted the invitation of the Flathead Indians of Montana to become an honorary member of their tribe. President Harding, in his reply of acceptance, said he had no objection to a proposal to have a mountain peak on the Indian reservation named Mount Harding.

Three Japanese cruisers, the Iwate, Isome and Asama, making a world tour, visited at Los Angeles harbor, the only American port at which the Japanese association entertained the personnel of the ships.

Following a conference in Moosehead, Ill., with B. M. Jewell, head of the striking railway shopmen, and shop crafts president, James J. Davis, secretary of labor, announced that he believed "the strike could be settled if the roads would give the striking shopmen their seniority rights, and there was a rehearing by the United States Railroad Labor Board on other disputed questions."

A new peace plan has been submitted to President Harding and mine workers' leaders by John F. Durkin, mayor of Scranton, Pa.

FOREIGN

National army troops have gained a fresh victory in west Ireland by capturing Ballyhannis, County Mayo, from the Republican irregulars. The Free State triumph in the capture of Limerick was followed swiftly by successes in the surrounding district.

Secretary Edwin Denby of the American navy narrowly escaped death at Peking in an airplane accident. When flying at a height of 4,000 feet over the great wall, the engine of the plane broke down. The machine was demolished in landing, but Mr. Denby was uninjured.

Former enemy aliens will be admitted to the British crown colony of Hongkong with the expiration of the anti-alien ordinance next month, the chairman of the Chamber of Commerce of Hongkong learned from the government sources. The ordinance will not be renewed, he was informed.

There were wild scenes on the bourse as values of the German mark fluctuated in consequence of newspaper announcements that the allies were going to take over control of German finances. There was considerable dealing in foreign securities. The mark went to 335 for one American dollar.

Lord Newton, speaking in the House of Lords recently, declared England and Scotland were the dirtiest countries in Europe. He quoted statistics to show that 300 tons of soot fall every year on each square mile of London, which was enough to build a pyramid four times as high as the famous clock tower over the houses of Parliament.

Former Premier Orlando, after an hour's consultation with King Victor Emmanuel in Rome, is reported to have refused to form a cabinet to succeed that of Premier Facta, which resigned recently. Signor Orlando, who has been discussing the situation with all the leaders of the various constitutional groups of the chamber, is said to have declared himself against the formation of a short-lived cabinet.

Fighting around Shichow, seven miles north of Canton, has resulted favorably for General Shen Chung-Ming's forces, according to reports to Chen. These say the troops of Dr. Sun Yat Sen, whose south China government Chen overthrew, have retreated miles. These forces were part of the body Sun threw into Kiangsi province, whose return to Kwangtung Sun anticipated, would enable him to regain his lost capital, Canton.

Limerick is completely in possession of the Free State forces, it is officially announced in Dublin, but no details of the final engagement with the regular troops are given. With Limerick and Waterford in the hands of the National forces, the attack on this line now has been opened in earnest and a combined assault is expected shortly. The Free State also have occupied Tullamore, where they were received with enthusiasm and popular rejoicing. They now dominate Kinas county.

Federal survey of strike situation gives 610,000 miners on strike and 185,000 still at work.

The last announcement of the governmental agencies seeking to bring about a resumption of work by the striking shopmen, clerks, officers and groups of maintenance of way workers, having been that of the federal railroad labor board to the effect that the board contemplated no further move at present, has left the country waiting for something to happen.

With immediate prospect for peace in the railway, strike goes, strikers and railroads have settled down to a test of strength. The statement of Chairman Hooper of the Railroad Labor Board that the board no longer was engaged in peace negotiations left the situation open to direct negotiations between strike leaders and railway chiefs, or attempts from other quarters.

Horace Tanner, 24 years old, contractor, died in a Mobile, Ala., hospital from a broken back suffered while diving in shallow water. Tanner dived from a lofty height into what he thought was twenty feet of water when there was only three feet.

The lack of unity between President Pilsudski of Poland and the Polish diet, felt since the beginning of the present cabinet crisis, seemed, in the view of some close observers of the situation, to be threatening to resolve itself into something like civil war.

Although gasoline refineries in the United States are breaking all records for production, the reserve supply of "gas" for the nation's automobiles is steadily growing smaller, the American Petroleum Institute disclosed in New York recently. In May, 12,229,975 barrels of motor fuel were refined, topping by over a million barrels the highest previous record made in September, 1920. Yet, according to the institute's figures, if all production should cease simultaneously, there would be only eighty-two gallons apiece for the 30,448,832 automobiles registered in the country.

William Allen White, editor of the Emporia (Kansas) Gazette, who, for several days, has been displaying a placard in the window of the Gazette office, now keeps his sign concealed from the public. The yellow poster announcing "we are for the striking railroad men 50 per cent," was removed following the issuing of a warrant charging Mr. White with violating the Industrial Court law. The editor immediately made bond for his appearance when the case is called in the October term of the District Court.

Terrorized, they said, by moonshiners overrunning the district, citizens of the little town of Kingsdale, forty miles south of Duluth, Minn., have appealed to state and federal authorities for aid, declaring that their village has become the center of organized liquor dealings, extending throughout Minnesota.

Mrs. Angie M. Booth, widow of the former head of the Ward Steamship Company, left an estate whose value will aggregate between \$5,000,000 and \$12,000,000, it was disclosed in Surrogate Court in Chicago.

NEWS REVIEW OF CURRENT EVENTS

Harding Asks That Coal Mines Be Reopened and Promises Federal Protection.

URGES GOVERNORS TO HELP

Negotiations to End Railway Strike Run Against Seniority Snag—France Consents to Moratorium for Germany—Conference at The Hague Ends in Failure.

By EDWARD W. PICKARD

PRESIDENT HARDING'S last plan for the peaceful termination of the coal strike failed of acceptance by the miners and by a considerable number of the operators. It was that the mines should be reopened under the old scale and that a commission should arbitrate a national wage scale. A large majority of the operators agreed to the plan, but it could not go through unless the acceptance was unanimous on both sides.

Then the President put forward his proposal for prevention of the fuel famine with which the country is threatened. This is that the mines be reopened at once and with whatever labor can be procured, and that the state governments in the respective states protect these workers and give assurance of the maintenance of order. This Mr. Harding set forth in a long telegram to the governors of the states, and he promised them the "prompt and full support of the federal government whenever and wherever you find your own agencies of law and order inadequate to meet the situation."

Responses by the governors were in the main highly satisfactory. That of Governor Kendall of Iowa, is typical: "As chief executive of the state of Iowa I pledge every resource of the state to the support of the program you have inaugurated for the relief of the fuel situation." From two governors—Morrison of North Carolina and Ritchie of Maryland—came responses expressing outright dissent from the President's program. The former said in part: "Your position is practically to use the power of the government against the strikers, and they will naturally have little confidence in the impartiality or fairness of soldiers or other agencies of force, however good the reason for such a stand may be." Ritchie declined to take immediate action, saying he would not send the Maryland National Guard to the coal fields until all peaceful methods had failed. He did not state what peaceful methods remain to be tried. Governor Allen of Kansas said the resumption of mining and that about 50 per cent of the state's needs was now being produced.

In Illinois there is a situation, previously described, which seems to block the Harding plan in that state. The law provides that no one shall work as a miner without first obtaining a certificate of competency, and no miner can get such a certificate unless he can submit evidence that he has had at least two years' experience as a miner or with a miner. Moreover, the 90,000 miners of the state are 100 per cent organized. There had been some chance that their president, Frank Farrington, would at the proper time push the idea of separate state agreement, but operators said this hope was dispelled by the springing of the Washington plan.

North Dakota is confronted with a crisis that is causing almost a panic among the residents, and the conditions there are peculiar. The state depends almost wholly on lignite from the mines within its borders. The miners, according to Governor Nestos, quit on the national call and not because of any local grievances. The lignite fields, he says, have no economic bearing on the bituminous or anthracite fields, and he believes if they could be placed in a separate category and the operators permitted to deal

directly with the district leaders, "the mines could be reopened peacefully rather than by methods which might result in violence." Nestos asked President Harding to use such means as he deems consistent to persuade the United Mine Workers of America to settle the North Dakota problem in that way.

President Lewis of the mine workers was not disturbed, apparently, by the promulgation of the President's plan. He said that an immediate result of any attempt to operate mines by non-union labor would be the quitting of the maintenance workers, which would mean the speedy flooding of the mines. This would mean no strike order.

Lewis added that there were more men out than when the strike started sixteen weeks ago and that they would continue to refrain from work, "in peaceful and orderly fashion." That their methods are not always peaceful was demonstrated at Cliffville, W. Va., where a large band of marauding strikers from Pennsylvania encountered a sheriff's posse and killed the sheriff and four other men.

FOR several days it looked as if the shopmen's strike might be settled amicably through the negotiations instituted by Chairman Hooper of the labor board. Assurance was given, specifically to the maintenance of way men, that the board would grant rehearings on wage disputes, and it was believed this not only would keep those workers from going out but also would be made applicable to the other disaffected unions. Moreover, President Grable of the maintenance men said Senator Cummins, who is chairman of the interstate commerce committee of the senate, had advised him that "he is going to hold hearings immediately on disputed points of the transportation act, principally to ascertain how the law may be amended so that the living wage principle would be made clear and so that every employee would be guaranteed a living wage."

All this looked very auspicious, and then up jumped the question of seniority and put the negotiations on the blink. The shopmen insisted that if they returned to work their seniority rights must be restored, and the carriers flatly refused to yield to this demand. Both sides set forth their arguments on this point, which have been heard before in many a strike, and as both stood firm, Chairman Hooper issued a statement saying that the negotiations had had no result and are now at an end. Added to the seniority barrier to peace was the demand for a national board of adjustment.

Though it was believed the strike of the maintenance of way men would be averted, the numbers of the strikers were increased by several thousands in various parts of the country. There were many disorderly incidents, but were many disorderly incidents, but were many disorderly incidents. The government of rearmament, that the mails shall not be interfered with had its effect and Attorney General Daugherty said they were delayed in only a few instances. He added: "It appears, however, that there is a relationship between the railroad situation and the coal strike. Whether this relationship is conspired or inspired I do not care to say at present. One thing is certain; the fault is not on one side." This lends strength to the belief, expressed in Washington, that the policy the government will follow in dealing with the railway situation depends largely on the results of its action in relation to the coal strike.

IN CHICAGO the employees of the surface and elevated roads were all ready to quit work and spent much of the week awaiting the permission of their international president, W. D. Mahon, who was in the east. His delay was taken to mean that negotiations might be resumed and the strike averted, but before this reaches the under it is likely the people of Chicago will be making their way about as best they can without the aid of the street cars and elevated trains.

FRANCE has yielded so far as to consent to a moratorium for Germany on cash payments for from three to six months. In return she has demanded that the allies maintain the strictest supervision over German government finances, being allowed to

inspect all financial projects before they are sent to the reichstag and before they are put into execution. The members of the reparations commission are completing the details of the arrangement. Although Germany cannot pay much cash until it has been accumulated by the sale of German products abroad, she can deliver materials to the allies, and France hopes to get in that way a large part of the 900,000,000 francs she is entitled to this year. The Loucheur-Rathenau accord, reached nearly a year ago but held in abeyance, facilitates this delivery of materials and went into effect last week.

THE council of the League of Nations is in session in London mainly for the purpose of settling all matters relating to the mandates. Its task was made comparatively easy by the reaching of complete agreements between the United States and Great Britain and France concerning certain of the mandated regions. The rights of Americans are said to be fully safeguarded.

FULFILLING predictions, the conference at The Hague has come to an end without results. Russian delegates, after all their stubbornness and after refusal to meet with a committee, at a plenary session went so far as to offer to submit proposals to Moscow under which the bolsheviks would agree to recognize debts to foreign nationals as well as to furnish satisfactory compensation for seized property through private negotiations, regardless of whether or not credits were received. But they spoiled all this by notifying the British delegates that the soviet government would expect immediate de jure recognition. Immediately thereafter the allies and neutrals adopted a resolution definitely ending the conference. The allies and neutrals, finding all thoughts of a general agreement with Russia futile, did not see any use in risking a break among themselves, but each reserved the right to resume separate negotiations with Russia after The Hague conference. Litvinoff, head of the soviet delegation, said: "Russia will attend no more conferences. Genoa and The Hague have been enough for us."

PREMIER LENINE of Russia has been killed again, this time according to a Swedish correspondent in Riga. His story is that Lenine was poisoned on a train when on his way to a Caucasian bathing resort and his body was thrown into the River Doh. An accomplice of the assassin is said to be impersonating Lenine at the resort. Soviet officials say the premier is in Moscow and almost well.

IRISH FREE STATE officials announce that their forces are now in control of twelve counties but are strongly opposed in Donegal, Sligo, Galway, Limerick and Tipperary. Waterford, Cork, Kerry and Mayo, they assert, are in "subjection" to the irregulars. Waterford was taken by regulars toward the close of the week, and in Limerick the rebels were cooped up in the barracks and King John castle after some heavy fighting. The two assassins of Field Marshal Sir Henry Wilson were tried in London, convicted and sentenced to death, the case being handled with a neatness and dispatch that arouses the envy of those who contemplate the outrageous criminal court procedure in the United States.

SCORE yet another victory for the progressives in the Republican party. In the Nebraska primaries Robert B. Howell, former Bull Moose, was nominated for the United States senate, defeating the "regular" candidate, Representative Jeffries, who is classed as a stand-patter. Senator Hitchcock easily won a re-nomination by the Democrats.

AMNESTY for the 87 so-called political prisoners now in federal penitentiaries was asked of President Harding by a delegation of sentimentalists last week. They carried a petition with a million signatures. The President told them he would never pardon any criminal who was guilty of preaching the destruction of the government by force and consequently would not consider general amnesty. His response will meet with the approval of all right-thinking Americans.

Episcopal church meeting in Portland, Ore., Sept. 6, was made public by the commission. "Advanced culture did not save past civilizations. Upon America's conservation to God depends her fate," says the report, which contains an exhaustive study of conditions in the United States with particular reference to home life. "We touch the root of our family problem when we point to the lack of religion in the home," it continues. "It is paralyzing to think of the average American family going on from the rising to the retiring hour as if God had no existence. Sunday is a day for extra sleep, motoring, papers in many volumes, comic supplements. If American children are not to be taught of God in the schools, and He is unnamed in the home what can we expect but that at this moment the United States is actually developing into a non-Christian nation?" The commission was appointed by the Episcopal general convention six years ago.

WARNS OF NATION'S DECAY

Report to Episcopal Church Convention Bitterly Criticizes Lack of Religion in the Home.

New York.—Uttering a "solemn warning to the men and women of America" that "this nation will decay and finally perish when American homes cease to revere God," the report of the joint commission on home and family life, which will be presented to the triennial general convention of the

MRS. FRANK WILKIE, of Syracuse, N. Y., formerly matron at the State Reformatory at Industry, N. Y., who says she is delighted with Tanlac since it restored her health after she suffered eight years.

"This is the first time in eight years that I have been free from stomach trouble and it is all because of the wonderful good Tanlac has done me," said Mrs. Frank Wilkie, 229 Cedar St., Syracuse. Mrs. Wilkie formerly resided in Buffalo and for two years was matron of the State Reformatory at Industry, N. Y. "I was eating scarcely enough to keep alive," she declared, "for I would rather not touch a bite than suffer the misery I knew would follow. Even sweet milk disagreed with me. I was sick in bed for two and three days at a time, and gas on my stomach made such awful pressure on my heart it almost cut off my breath. I had horrible dreams at night and in the morning was all tired out. "Well, the longest day I live I will praise Tanlac, for my appetite is no more heartburn, my appetite is no more, I can eat most anything I want, and my sleep is sound and restful. I am thoroughly delighted with Tanlac. It is wonderful." Tanlac is sold by all good druggists.—Advertisement.

Complimentary. Lady—I want to see some grand plans. Do you carry them? Clerk—Madam, you flatter me.—Life. No man can feed his soul who is starving his servants. Few of us have the courage to point out our own mistakes.

ARE YOU GIVING OUT?

Does every day mean just another day of suffering? Are you lame, stiff and aching—tortured with a nerve-racking backache? Surely there's a reason why you feel so badly and likely it's the kidneys. When the kidneys are weakened kidneys accumulate and upset the whole system. That's why you have constant backache and sharp, stabbing twinges. You may have headaches, nervous and dizzy spells with annoying bladder irregularities. Don't risk serious kidney disease. Use Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor!

A Colorado Case Mrs. J. E. McElhinney, 45 Walnut St., Fort Morgan, Colo., says: "For a long time I suffered with pains in my back and sides. I hardly dared to stoop over, because which always hurt me when I stretched myself a bit. My head ached and I felt drowsy and run down. Doan's Kidney Pills have helped me, and I soon felt well again." Get Doan's at Any Store, 60c a Box. DOAN'S KIDNEY PILLS. FOSTER-MILBURN CO., BUFFALO, N. Y.

IN COMMAND OF FLOOD CAMP

Lieut. M. L. Geisenberger, Valuable Aid at Natchez, When Mississippi Went on Rampage.

After the American Red Cross at Natchez, Miss., had obtained from the government several hundred army tents to house flood refugees, it was found that the government had failed to send anybody along who could direct the erection of the canvas shelter.

A Legion doctor laid out the camp from the standpoint of sanitation, and M. L. Geisenberger, a former lieutenant, was made commandant of the refuge camp.

More than five hundred people were taken care of during the first few days, and as the flood area widened the number rapidly increased. The Legion's work in the care of flood victims received unstinted praise from every quarter of the country.

NAME IS NOT IN DICTIONARY

"Legionnaire" Not Yet in Official Guide—Promises to Hold for All Time to Come.

The American Legion Weekly comments on a New Zealand Newspaper's use of the word "legionary" to denote a member of the American Legion.

"Legionnaire" as indicating a member of the American Legion, seems too firmly established to dislodge. We must remember that all Legions—Roman, Foreign and American—had one thing in common: They fought in France.

No Difference Now.

Movie Director—Now here is where you jump off. Star—I know, but suppose I'm hurt? Director—That's all right, old man. It's the last scene in the picture.—American Legion Weekly.

Suggestions of a Doughboy.

Being the suggestions of a doughboy on the manner of conducting the next war, together with certain reflections on the conduct of the last one. That all song writers, would-be writers, song leaders and vaudeville singers be marked Class I-A. That they be drafted in the first contingent and have at least six months' intensive training at K. P., sanitary detail, etc., before being permitted to compose their country's songs.

That any person who shall write, compose or sing, or attempt to write, compose or sing songs expressing doughboy sentiment without such previous training shall be liable to death and shall be sent over the top at midnight with a lantern in each hand.—American Legion Weekly.

"It's a Great Life."

Proving that gay Paree didn't cause them to forget the cows and chickens, 600 of the 3,300 vocational trainees in the Seattle (Wash.) district of the veterans' bureau are taking up agriculture as their new occupation. When asked about their work, these embryo farmers invariably reply, "It's a great life."

Survives Broken Neck.

John Lawrence Allen of Indiana, one of the few men to have survived a broken neck, has been granted \$20 a month for a personal attendant by a special ruling of the veterans' bureau. Allen is reputed to have saved the life of Lieut.-Col. Theodore Roosevelt. While serving as runner for Roosevelt, Allen's neck was broken. After two years of effort, hospital surgeons devised a brace for his head and neck and now, with the assistance of his attendant, he is able to get about almost as well as he did before.

WAR WORKER IS OHIO MAYOR

Miss Amy Kaukonen, Guardian of Little Buckeye City, Active in Auxiliary Affairs.

Ohio not only boasts that she has produced many more than her share of the nation's chief executives, but she also points with pride to the fact that her little city of Fairport has one of the most attractive and capable "lady mayors" in the country.

Major Kaukonen finds time from her official duties to take part in the affairs of the American Legion Auxiliary of her city. That she is a staunch supporter of the Legion is evidenced by her statement: "It is distinctly an American organization, in which politics and selfish interest have no place. Its cornerstone is American manhood, its objects liberty, fraternity and service. Its principles are as broad as the continent upon which falls the shadow of our flag."

CARE OF FRENCH WAR ORPHAN

Argonne Association's Plan May Be Used for Unfortunates in United States.

A plan for the care and training of French war orphans, worked out by the Argonne association, an organization formed as a permanent memorial to the Americans who fought in France, is said to be functioning so satisfactorily that a similar organization may be formed for the care of orphans in the United States.

The Argonne association was formed in 1918 by a group of Americans interested in French orphans. It has as its motto: "To provide for the child who has no parents, a home and a family life; to secure him his birthright of health; to educate him and train him to earn a livelihood; to develop his character that he may become a useful and an upright citizen and to do these things so well and so economically that others shall follow this example—is the aim of the Argonne association."

The orphans cared for under the association's plan are placed in private homes in a community where they are really wanted. They are not "farmed out." There is a community school, playground and vocational training center where the children are daily brought together to get their mental and physical development. There are three such centers in France where the orphans are given three distinct stages of training.

HE WELCOMED MARSHAL FOCH

Ernest Hall, Arizona's Secretary of State, Knew France's Idol Under Different Circumstances.

When Marshal Foch visited Arizona on his recent tour of the United States as the guest of the American Legion, he was officially welcomed by Ernest R. Hall, Arizona's secretary of state, who in the absence of the state's chief executive became acting governor.

It had not been many months since Mr. Hall had seen the marshal under entirely different circumstances. On that former occasion, Mr. Hall wore an "Is-sued" uniform. He was known as "Corporal Hall of the Twenty-seventh Engineers."

Carrying On With the American Legion

Tyron, Neb., 26 miles from a railroad, in the midst of the sandhill region, has dedicated a \$2,300 American Legion memorial hall.

The Legion in Massachusetts has raised funds to install a radio receiving set in each of the state's five hospitals where service men are being cared for.

Free traveling libraries are being furnished Oklahoma posts of the American Legion by the department of education. The post may keep each collection of books two months.

Commander Hanford MacNider

of the Legion has announced himself in favor of every Legion post adopting a troop of boy scouts or forming troops in communities where none exist. "Scouting is the best education in America today for developing future citizens and I favor anything that tends toward its promotion," Mr. MacNider says.

A second great vessel of the United States merchant marine now bears the name American Legion. The fastest boat of the Munson line is also named for the organization.

A warning to kind-hearted people who send food and delicacies to disabled veterans in hospitals to be careful what they send has been issued by the Iowa state chairman of the American Legion hospitalization committee. A number of patients have been made sick by the contents of some of the boxes.

LATEST MARKET QUOTATIONS

Furnished by U. S. BUREAU OF MARKETS Washington, D. C.

Virginia and Maryland eastern shore Cobblers, \$2.25 to \$4 per bu, in leading markets; \$3.50 to \$4.25, Chicago, and Cincinnati, \$3.50 to \$4.25, New York, \$4.00 to \$4.25, only; New Jersey sacked Cobblers, \$1.65 to \$2 per 100 lbs, in eastern cities; Georgia and South Carolina, Tom Watson watermelons, medium sizes \$2.00 to \$4.00, bulk, per car, f. o. b., good stock, some showing decay, \$7.00 to \$7.75. Baltimore and Chicago Georgia Elberta peaches, sizes and bushel basis, \$2.75 to \$3.50, eastern states, \$2.50 to \$3.50, shipping points; Georgia North Carolina Blueberries, \$2 to \$2.50 in leading cities; North Carolina Hileys, \$2 to \$2.75. California salmon tins, standard size, \$1.15 to \$2.50 in consuming markets. Arizona stock mostly \$2 to \$2.50; Boston \$2.75 to \$3. Northern California green peas, 75c to \$1 in New York and Baltimore; \$1.25 to \$1.50 in Boston. Early apples, various varieties, \$1.50 to \$2 per bushel; hamper in eastern markets; Illinois Yellow Transparent, \$1.50 to \$1.75, Chicago.

Cotton. Spot cotton prices declined 47 points, New York July futures down 10 points. Spot cotton closed at 22.24c per pound, New York July futures 21.82c.

Dairy Products. Butter market weak and lower. Supplies of all grades, especially the lower grades, are plentiful.

Closing prices, 92 score butter, New York, 36c; Boston, 36c; Philadelphia, 36c; Chicago, 36c. Cheese market 1/2c to 1c lower at primary markets in Wisconsin, and trading more active at the lower prices.

Prices at Wisconsin primary cheese markets: Flats, 19 1/2c; Twins, 18 1/2c; Dalais, 19c; Double Dalais, 18 1/2c; Young Americas, 19c; Longhorns, 19c; Square Prins, 19c.

Grain. Closing prices in Chicago cash market: No. 2 red winter wheat, \$1.11 1/2; No. 2 hard winter wheat, \$1.13 1/2; No. 2 mixed corn, \$1.04; No. 2 yellow corn, \$1.03 1/2; No. 3 white oats, 35c. Average farm prices, No. 2 mixed corn in central and east, No. 2 hard winter wheat in central Kansas, \$1.04; No. 1 dark northern wheat in central North Dakota, \$1.25; Chicago futures prices: Chicago September wheat, \$1.04 1/2; Minneapolis September wheat, \$1.05 1/2; Kansas City September wheat, \$1.02 1/2; Winnipeg October wheat, \$1.16.

Prices continue firm. Receipts, particularly of new hay, increasing. Active demand for immediate delivery in most markets for top grades. Quoted: No. 1 Timothy, \$14.50; Kansas City, \$22; Memphis, \$18; Minneapolis, \$16.50; St. Louis, \$24; Philadelphia, \$22; Timothy, \$11; Kansas City, \$21; Memphis, \$10; light clover, mixed, \$12.50; Kansas City, \$23; Philadelphia, \$20; alfalfa, \$22; Memphis, \$14.50; Kansas City, \$25; Iowa, \$14; prairie, \$12.50; Kansas City, \$16; St. Louis, \$17.50; Minneapolis, \$17.50.

Wheat feeds strong. Offerings small, due to light flour production in South-west. Cottonseed meal in poor request. Quoted: New crop meal offered \$1 below prevailing price. Gluten and hominy, \$1.25; No. 2 hard winter wheat, \$1.25; No. 1 dark northern wheat, \$1.25; Chicago September wheat, \$1.04 1/2; Minneapolis September wheat, \$1.05 1/2; Kansas City September wheat, \$1.02 1/2; Winnipeg October wheat, \$1.16.

Live stock and meats. Chicago hog prices ranged 20c to 35c higher on lighter weights, but dropped 10c to 15c on heavies. Practically all closed at a loss. Demand for good beef steers weak to 50c; butchers, 15c to 25c, and veal calves, 25c to 35c. Choice hogs unchanged, while good beef steers were steady to 10c up, and butcher cows the lower to 15c higher. Choice hogs, 20c to 25c; fat hogs, 15c to 20c; fat calves, 15c to 20c; fat lambs, 15c to 20c; fat ewes, 15c to 20c; fat pigs, 15c to 20c. Choice hogs, top, \$11; bulk of sales, \$8.40 to \$10.90; medium and good beef steers, \$7.90 to \$10; butcher cows and hogs, \$3.25 to \$3.85; feeder calves, \$5.65 to \$7.75; light and medium weight veal calves, \$8 to \$9.50; fat lambs, \$12 to \$13.15; feeding steers, \$6 to \$7; yearlings, \$8.25 to \$11.25; fat ewes, \$4.25 to \$7.65.

With the exception of fresh pork loins, which were firm, prices of most meats were lower. Choice hogs, \$12 to \$13; medium and good beef steers, \$7.90 to \$10; butcher cows and hogs, \$3.25 to \$3.85; feeder calves, \$5.65 to \$7.75; light and medium weight veal calves, \$8 to \$9.50; fat lambs, \$12 to \$13.15; feeding steers, \$6 to \$7; yearlings, \$8.25 to \$11.25; fat ewes, \$4.25 to \$7.65.

DENVER MARKET QUOTATIONS.

Cattle. The market on inferior grades and grass stock was called from 15 to 25 cents under the close of last week.

Most of the grass steers sold around \$8, and one lot of the best stock of that class went to a local killer for \$8.50. The best yearlings offered sold for \$8.75.

There are cows was light. Most of the corn-fed stock of this class has already come to market and supplies from on will be pretty scarce.

Most grass cows sold from \$5 to \$6, and choice dry-lot animals were quoted at \$6.75. Choice steers were selling better than \$7, and stockers were quoted from \$5 to \$6.50.

Small killers paid the top price. \$10.00 for choice lots of stock, and packers were close behind with their top steers at \$10.30. Bulk of sales ranged from \$9.25 to \$10.25. The quality of the hogs accounting for the range of the figures. Packers' cows were quoted at \$8 and round hogs at \$7. Pigs continued to meet with a good demand at fully steady prices. The best light stockers being quoted from \$7.75 to \$10, while a number of sales were reported from \$5.50 to \$9.75.

Sheep. Dealers are quoting choice lambs from \$11.75 to \$12, but packers assert that the stock would have to be of very good finish to bring such a price. Ewes are quoted from \$5.50 to \$6.50, according to quality and weights.

Mayor Hyman has announced that he would not be a candidate for governor of New York this fall under any circumstances.

Southwest News From All Over New Mexico and Arizona

A special election was held in Willard to vote on a bond issue of \$35,000 for the erection of a new school building.

The Golden Link mine in the Mogollon mountains, near Silver City, has been taken over by L. H. Foster and plans are being made to put it in operation at an early date.

The plant of the Four States Seed Company, which burned to the ground some time ago, is to be rebuilt, according to a statement of one of the officials of the reorganized company at Clayton, N. M.

The New Mexico Cattle and Horse Growers' Association will hold the fall session at the State College in Las Cruces, some time in October or September. Plans are being made to handle a large crowd at this time.

The big box factory which for some time has been under construction at the mills of the McGaffey Lumber Company in the Zuni hills, near Gallup, N. M., will soon start operations and begin filling the large number of orders now on file.

Thomas Hopper, employed as a teamster in the construction of a new swimming pool near the city pumping station of Douglas, was struck by a bolt of lightning and almost instantly killed. A Mexican working with him was knocked down, but was not injured. The two horses were killed.

Robert E. Mills was sentenced to a year in Leavenworth penitentiary by Federal Judge Sawtelle of Prescott, Ariz., on a charge of passing counterfeit dollars. He pleaded guilty to passing one tin and lead milled dollar, but federal agents explained he had forty more in his possession when he was arrested.

J. J. Huber, Mesa rancher, who recently was indicted on a charge of bigamy, surrendered at the sheriff's office in Phoenix and furnished bond of \$1,500. It is charged that Huber married two women before the law against polygamy was enacted in Arizona and has since continued to maintain two homes.

On the Datil national forest it is estimated that the cost of the fires for the season up to June 30 has been over \$5,000. The Cañon creek blaze alone costing over \$3,000. Of the fifty-seven blazes which occurred in the reserve, 23 were caused by carelessness of campers or herders and 34 were started by lightning. In the 23 blazes started by men, nine convictions were secured in court, fines being imposed which ranged from \$10 to \$25.

Forrest Fielder has opened an inquiry at Silver City into the feud tragedy on the open range in which one on each side, Bate Bradbury and John Pulcher were killed in a gun fight. Attorney J. S. Vaughn has been retained to defend Mart Bradbury, arrested for complicity in the shooting. Sidney Pulcher, who suffered a shattered right arm in the fight, is in a Lordsburg hospital. He will be defended by Attorney W. B. Watson of Silver City.

Twenty-one parcels of state land in Santa Cruz county were sold at public auction in Nogales by Rudolph Kuebler, state land commissioner, assisted by T. L. McLeod, chief engineer of the department, and C. E. Ashley, department sales manager. The land, which is mostly grazing lands, went to nine purchasers, the total amount received by the state being approximately \$16,000. The money goes into the public school fund and the fund for the operation of state institutions.

Plans are being made for the remodeling of the Old Dominion mill at Globe, Ariz., and the increasing of its capacity from 750 to 1,000 tons daily. The remodeling will cost about \$50,000 and will permit of lower costs and a higher extraction being obtained. The mill will not be shut down while changes are being made.

A verdict of suicide was returned at the inquest into the death of Lee Honaker, a truck driver, who died at St. Joseph's sanatorium in Albuquerque as the result of a bullet wound in his head. Honaker shot himself after he had attempted to kill his two brothers-in-law, William L. and Harry U. DuBell, at their home in Albuquerque.

At a recent meeting of the directors of the New Mexico chapter of the American Mining Congress, J. F. Woodbury, Silver City attorney, was named as the secretary of the chapter, to fill the vacancy caused by the resignation of Burton Bunch. Mr. Woodbury will take up his new duties at once, handling them in connection with his law practice.

Automobile registration in New Mexico for the six months period from January 1 to June 30, 1922, shows an increase of 687 automobiles over the registration for the same period last year, according to a statement issued recently by Ernest R. Hall secretary of state.

The new water plant at Roy is now completed and the pumps installed so that the city will soon be furnished with water. It is believed that the two wells will supply from 1,200 to 1,500 gallons per hour which it is thought will be ample for the city.

Collections by the insurance bureau of State Bank Examiner Road's office for the last year totaled \$67,807.56. Harold Mayhew, deputy in charge, announced in Albuquerque. The preceding year's collections reached \$75,470.54, the biggest mark in the bureau's history.

A total of \$1,235,045.14 will be available to the public schools of Arizona for the fiscal year 1922-23, Miss Elsie Toles, state superintendent, of public instruction, announced in Phoenix. This represents an increase of \$82,320 over the funds of last year.

Advertisement for Little Sun-Maids Raisins, featuring an illustration of a woman and text describing the raisins' benefits for digestion and health.

The Sacrifice. Edith—I don't see why you like that group picture of our society. It wasn't particularly good of you. Isabel—I know it, but it had such a perfectly horrid portrait of that conceited Miss Gushing.—Boston Evening Transcript.

Important to Mothers. Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of J. C. Watson.

Flowers for Luck. In Switzerland when the cows are driven to the mountain pastures for the summer, the leader, which wears a bell, has her neck garlanded with flowers for luck.

Allen's Foot-Ease Does It. When shoes pinch or corns and bunions ache, get a package of ALLEN'S FOOT-EASE, the antiseptic powder to be shaken into the shoes. It takes the sting out of corns and bunions, gives instant relief to smarting, itching, swollen feet, 1,000,000 pounds of powder for the feet worn used by our Army and Navy during the war.—Advertisement.

Too Strong for Home Use. One of the amateur golf champions is being sued for divorce, his wife naming golf as the cause. Perhaps he fell into the habit of using the golf vocabulary around home.

To Have a Clear Sweet Skin. Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Advertisement.

An Authority. Willie—Papa, teacher asked us to find some new words that have just come into the English language. Can you tell me some? Papa—Go ask your mother, Willie. She always has the latest word.—New York Sun.

It is perhaps better to give yourself away than to be sold.

WOULD LIKE TO POSTPONE THE TARIFF BILL

Republican senators and leaders are seriously considering the postponement of the tariff bill until the short session of congress in December. The barrage laid down against this profiteering measure by the leading Republican papers of the country, the growing defection in their own ranks, and the results of Republican primaries everywhere have caused a genuine panic among the profiteering protectionists. Some of the more discerning ones, are actually advising revision of the rates downward, and are willing to take all the time necessary to do it, instead of criticizing the Democrats as heretofore for alleged attempts to delay a vote on the bill. They foresee only party defeat in the passage of the bill with its exorbitant rates and therefore would be glad to see it go over until after election; that is, they would be glad if it were not for the fact that they would then have to take a "pne soldiers' bonus bill, of which they are as much afraid as they are of the tariff bill.

At this writing no safe prediction can be made as to just what the party Republicans will do with the tariff bill, because the oil leadership on the Republican side is that displayed by Leavitt of Wisconsin, who is now fighting some of the high rates, and generally giving an imitation of the late Senator Dooliver in the Payne-Aldrich tariff fight.

One fact, however they all recognize: That the leaderless Republican party is now in the worst jam it has ever been in. So far as the Republicans in the senate are concerned, the only Moses in that body bears the Christian name of George, and is the antithesis of a leader.

REDUCE, DON'T SHIFT

The suggestion that is frequently advanced for reducing the growing tax burden is to "shift the load" from one class of taxpayers to another.

No relief would be thus secured. Relieving the farmer or the workman or the average citizen of tax payments and adding the amount to industries or those having large incomes would simply mean that the money to raise these tax payments would be shifted back to the individual through increased cost of everything he purchased, thus shifting the cost of living up another notch.

The program of taxing invested or accumulated capital to the point of confiscation will, in a short time, reduce this source of taxable wealth to the point where it can no longer pay the taxes required. Then the burden of taxation falls back automatically on the small taxpayer.

Shifting the load will only aggravate the situation. The one remedy is to bring about a reduction in taxation demands and increase efficiency in governmental management and expenditure of public funds.

THE DAY HAS ARRIVED

Twelve years ago at the beginning of state regulation of public utilities in California, Theodore Roosevelt said to the commission of that state:

"Your first task will be easy. Elected as you will be under a movement responsive to the people and independent of corporations, you will find it easy to reduce rates where they are too high, and you will find many rates too high. Your real task will come later, when you have to do justice to the corporations and raise rates in spite of the public clamor to lower them. The test of public regulation will be the ability of public men to do that and maintain popular confidence in doing it."

8,000 HIKING CLUBS IN GREATER NEW YORK

They Swing Along Highways and Through Woods in Groups of Varying Size.

New York.—One must walk nowadays to be in the swim. Statistics gleaned from the out-door departments of the newspapers, from the Boy Scout and Campfire Girls' organizations, from the Y. M. C. A. branches and kindred bodies, from scores of amateur athletic clubs and from the leading dealers in sporting goods, indicate that

"Best Walkers Make Best Citizens," Says Mayor of New York.

today there are no less than 8,000 hiking clubs in Greater New York, with a total membership of more than a quarter of a million men and women, who are keeping themselves in the pink of condition and experiencing the real joy of living by getting regularly out into the open country with no other means of locomotion than their God-given legs.

The city of New York has taken official notice of the movement. On three occasions recently Mayor Hylan has congratulated the boys and girls of the public schools upon their enthusiasm in taking up the new sport of hiking. In his dedication of the great new playground in the Bronx the other day Mayor Hylan extolled the athletic tendencies of the boys and girls and impressed upon them that there was no better or more profitable way in which they could pass their vacations and utilize their holidays than by the excursions into field and forest of their walking clubs. He gave the same message to Brooklyn a few days later, and when a club of East Side boys and girls visited him at city hall preparatory to a hike to the tomb of Roosevelt at Oyster Bay he assured them that the best walkers among them would make the best citizens.

Walk and Be Well
No less enthusiastic a champion of the walking game is Dr. Royal S. Copeland, city health commissioner. "The benefit to health and the safeguard to morals to be found in long walks," said Dr. Copeland in an interview, "are too apparent to speak of them. If one takes long walks alone it is well, for he walks the road of health, but if he takes long walks in company it is better for he adds the tonic of companionship to his exercise. Walking is the one form of exercise in which there is the minimum risk of overdoing it. In short, I consider walking the most beneficial of all exercises and it is never out of season."

"Never in my life-time," said Edward R. Wilbur, manager of a nationally known sporting goods store, "have I known such a demand as now for outdoor garments and shoes and stockings and appliances for the tourist's luncheon box. The rapid spread and tremendous popularity of the walking-club idea has no parallel in our experience."

"The hiker can make his requisite just what he feels like spending. Really, there are only two or three articles indispensable to hiking—thick walking shoes that allow lots of room, thick woolen socks and clothing that will give freedom of limb. He should have a canvas or leather musette bag, such as the soldiers used in France."

The Cow in the Knapsack
"To get the real benefit and joy out of hiking luncheon should be carried and prepared and eaten in the open. Bread and cheese, a few slices of bacon, some coffee, a can of condensed milk, and a cake of chocolate furnish high-powered fuel for the hiker and are readily and happily assimilated even by those who in their pre-hiking days were afflicted with digestive apparatus so feeble as to balk at crackers and milk. Fortunately for the hiker, he can replenish his simple larder at any cross-roads store and provide himself with the most nutritious and appetizing food in a form that can be conveniently carried."

No single development in the problem of food transportation for the hunter, fisherman, hiker and all lovers of the out-of-doors can compare with the gift bestowed by the man who first found the way to make condensed milk, thereby putting a dairy in every man's knapsack. Before long there will be a national association of hikers, and Gail Borden will be its patron saint. Such an association could do much to encourage the spread of the most beneficial and universal of all outdoor pastimes, map out interesting routes, secure the establishment of shelters, rest-stations, and camp sites at suitable locations, and insure the rights of pedestrians on country roads."

CANANEA MINE IS TO RE-OPEN

The Consolidated Cananea Copper Company operating the largest mining property in the state of Sonora, will re-open about August 15, according to official advices to Governor Francisco Elias of Sonora, who was a recent visitor in Nogales from Hermosillo. The Cananea mines, which normally employ thousands of men, ceased operations with the general closing down of mining properties a year ago.

Late Letter Mailers Fined.

In England a century ago fines were assessed for late mailing of letters. Unless letters were mailed in London before four o'clock a fee of a penny for each one had to be paid to the bellman who collected the late mail. The postman was an important personage in those days. He was all dressed up in red, white and blue, scarlet coat, blue breeches, white stockings, with a great cockade in his hat.

Those who chose to carry letters to the general post office could do so, but if they wished to have letters received after a certain time no less than sixpence must be paid. It was usual for postage to be collected from the person who received a letter.

Style and Style.

He—You say you've met Miss Penley. I've read some of her works, but I can't say I like her style.
She—Neither do I; she's positively dowdy.—Boston Transcript.

PROPERTY VALUES DECREASE IN SANTA CRUZ COUNTY

The total assessed valuation of all property in the state for 1922 is \$51,653,980, or 9.83 per cent less than the 1921 valuation, according to a comparative statement for both years issued recently by Charles R. Howe, chairman of the state tax commission. The assessed valuation for Santa Cruz county in 1921 was \$13,018,995, and for 1922, \$12,261,615. The decrease is \$758,380, or 5.82 per cent.

SEIZED CARS TO BE SOLD

Two automobiles recently seized by customs officials will be sold at public auction to the highest bidder in front of the United States custom house at 2 o'clock on the afternoon of September 9. They were seized for alleged violation of the customs laws. The cars are a Ford touring and an Overland touring.

CATARRHAL DEAFNESS

Is often caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.
HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh of Deafness caused by Catarrh of the Eustachian tube. It has been successful in the treatment of Catarrh for over forty years.
Sold by all druggists.

ANCIENT CAPITAL OF JAPAN

Nara, Rich in Artistic Treasures, Was Once Classic Center of Shinto Worship.

Nara, ancient Japanese city, is a classic center of Shinto worship, and was the first capital of Japan. Much of the building and beautifying begun in A. D. 710, the "Golden Age of Japan," still is intact.

During the early days of Nara prosperity, the Todaiji, one of the seven great temples, was the head of Buddhism in Japan, and the buildings covered some 20 acres.

Of all its glories there today remain but few, chief among them being the Great South Gate, Nandai Mon; the great Hall of Buddha, and the ancient and most interesting old shrine called Kaidan-in. The Great South Gate was built in 752 A. D. and remodeled in 1159. On either side are two gigantic figures of Nio, or the Dova Kings, carved by Tankai and his pupil Unkei. With the two stone lions close by, excellent specimens of Tenth century Chinese sculpture, they are listed and protected as "National Treasures."

The Narano-Dalubutsu, the vast bronze Buddha cast in 749 A. D., is the largest of the kind in Japan, if not in the world, being 52½ feet in height.

The Kaidan-in is remarkable for its unusual construction and arrangement inside—a series of platforms rising one above the other to support the images of the Deva Kings, Indra and Brahma, which are said to be among the best examples of the art of Nara era, also are counted among the "National Treasures."

INDIA'S RIGID CASTE SYSTEM

Religious Laws, Handed Down for Centuries, Are Given Most Implicit Obedience.

The religious laws of Brahmanism divide the Hindu people in India into four principal hereditary classes or castes—the Brahmins (priests), Kshatriyas (rulers and warriors), vaisyas (merchants and husbandmen), and Sudras (mechanics, laborers or servants), the first three being known as "twice-born" and the last as "once-born." These original four castes, however, have become to a great extent sub-divided—the men being known by their work or trades, as the "caste" of shoemakers and the "caste" of sweepers—so that nowadays the Brahmins alone are said to remain as a distinct caste. Aside from all these are the Pariahs (or outcasts) who have no caste. According to the Cyclopaedia of India, "The effect of the caste system is that no man may lawfully eat with any individual of any other caste, or partake of food cooked by him, or marry into another caste family; but he may be his friend, his master, his servant, his partner."

Wordsworth's View of Nature.

There was in Wordsworth's own character, as we have seen, a certain natural contentment, a sort of inborn religious placidity, seldom found united with a sensibility so mobile as his, which was favorable to the quiet, habitual observation of inanimate or imperfectly animate existence. His life of 84 years is divided by no very profoundly felt incidents, its changes being almost wholly inward; it falls, like his work, into broad, untroubled, perhaps somewhat monotonous spaces. What it resembles most is the life of one of those early Flemish or Italian painters who, just because their minds were full of heavenly visions, passed some of them, the better part of 60 years in quiet systematic industry. And this sort of placid life matured in Wordsworth a quiet unusual sensibility, really innate in him, to the sights and sounds of the natural world.—Walter Pater, in "Sketches and Reviews."

Making Vermilion.

For many years in Hong-kong the industry of vermilion-making, entirely in the hands of the Chinese, has been an important one. The factories at Hong-kong have inviolate trade secrets. The manufacture of this pigment is among the foremost of the colony's industries. There are some things like a hundred small plants for the manufacture of vermilion in Hong-kong and Kowloon. The raw material comes from Australia, and the vermilion is prepared altogether by what is known as the wet method. The Chinese made artificial cinnabar long before Europe was a civilized country, and to this day there are trade secrets in the vermilion industry.

Hole Acts Like Reversed Camera.
Sitting on the old shot tower at Fayette and Front streets, of which he had been commissioned to paint pictures, Howard A. Frech, Baltimore artist, was startled by the apparition of a man walking along the wall, serene in spite of being upside down. The phantom reached a spot of shadow and vanished. Mr. Frech investigated. He found that opposite the spot where the uncanny vision appeared was a small hole in the brick wall an inch or two across, where once it peered back lung. Through this aperture the images of persons passing on the walk outside are thrown on the wall life size, and with all colors exactly reproduced, but legs in the air.

Kid Glove Penwipers.
You can make penwipers out of old kid gloves and use them at the next "church fair." Cut up the gloves into circles, using chiefly the backs and wrists. Stitch all strongly together through the center. Then take a good long cork and stick it in the center of the top layer of circles, sewing it in place. Next, take sealing wax, one bright color, or several colors, as you prefer. Drop it on the top of the cork, letting it run down the cork to the penwiper, turning the cork round and round so that it is nearly covered with sealing wax. The cork, covered with sealing wax, forms the handle. For the top round of the penwiper pick out a specially nice piece of kid and seal-top it all around the edge, or take a bit of bright cloth to match one of the sealing wax colors.

Darwinian.
"Why did Percy van Dubb give up trying to trace his ancestry?"
"He said that the further back he went the harder it was, until at last he found himself completely up a tree."

KNOWN AS PROTESTANT POPE

Sobriquet Bestowed on Clement XIV When He Suppressed the Order of Jesuits.

Pope Clement XIV bears the sobriquet of "the Protestant Pope," although he was by no means a member of the Protestant faith. He earned this title by a bull which he issued in 1773, ordering the suppression of the Order of the Jesuits. This seemed to the devout Catholic a concession to Protestantism, and thus Clement was given this title.

The Jesuit order was established in 1537 by Ignatius Loyola, and its chief aim was to establish the power of the pope and to preserve it against the attacks of the Protestants. It grew to be the most powerful society of the Roman Catholic church, gaining its influence principally through the excellent schools which its members founded and maintained. Its potency grew to such an extent that the temporal authorities took alarm, and, in 1773, France, Spain, Portugal, Prussia, Naples and Austria prevailed upon Pope Clement to issue his bull abolishing the order. It was re-established by Pope Pius VII immediately after the fall of Napoleon in 1815, and is now in a thriving condition in all countries where the Roman church has adherents. The order has been distinguished throughout its existence for the great learning and scholarship possessed by its members.

DECREED REST FROM LABOR

Saxon Monarch, a Thousand Years Ago, Instituted Custom of Saturday Half Holiday.

A thousand years ago the Saxon King Edgar proclaimed a rest from all labor from the noon of Saturday till the dawn of Monday, and the same principle was emphasized by his successors.

The church was in those days the dominant factor in all social life, and the Saturday-to-Monday ordinance was doubtless at first intended to give the people full opportunities for going to church. Round the village church, too, gradually sprang up the Saturday market for the cottagers, and so, though slowly, the Saturday day evolved into a holiday.

With the change from agriculture to industrialism, people left the villages for the towns, and here for some time the Saturday half-holiday was endangered in the rush and greed of the new-found and little understood "progress." A samer and more moderate outlook, however, restored the Saturday half-holiday. But, curiously enough, the towns claimed it as a new invention of their own, ignoring the village life which, long centuries back, knew as a legal right the weekly half-holiday of the Saturday.

Indian Tale of Pillar Rock.

There are Indian tales of the Pillar rock, which is located about 1,000 feet from the Washington shore, and which stand about 20 feet from the surface of the Columbia river, and of the occurrences thereabouts, real and fanciful. One is that Chief Skamokawa, his ire aroused because a Clatsop brave made away with the chief's daughter, hurled the rock at the departing canoe of the swain from the tribe across the river, missing the craft but implanting the huge pillar in mid-stream. The rock extends below the 30-foot depth, and the base, or projection, is said to have an approximate width in excess of 30 feet. George Vancouver, following Gray, the discoverer of the river, spoke of it in 1792 as "the remarkable pillar rock." He is said to have been told of the rock by Gray and entered the river on the way down the coast.

"Washing One's Soiled Linen."

The phrase, "washing one's soiled linen," is popularly used to express airing of unpleasant private affairs or family quarrels in public, the analogy being, of course, that both are matters for disposition in the privacy of one's home.

The expression comes down to us as one of the brain children of Voltaire, the famous French satirist. The occasion for its origin is said to have taken place in 1740, when General Mauselein wrote to Voltaire asking to be vindicated publicly of accusations made against him.

Voltaire happened to be occupied in answering the appeal of Frederick of Prussia to help him straighten out one of his dilemmas. So he replied to Mauselein:

"The king has sent me some of his dirty linen to wash. I will wash yours another time."

OLD STORY MERELY LEGEND

Nothing to Support Belief That Belisarius Was Reduced to Beggary in Old Age.

Belisarius was the chief military commander of the Emperor Justinian, and probably one of the greatest generals of history. He was born in 505 and died in 562, spending, in his lifetime, nearly forty years in military service. His soldierly skill renewed for a time the ancient military glory of Rome, and he earned the title of "The Achilles of New Rome." His career as a general is divided into two epochs, the war against the Vandals and that against the Goths. In both wars he was so successful that he was given a triumphal entry into the city of Constantinople—the then Roman capital—the first that had granted that city, and the first in any part of the empire since the days of Titus.

Like many another favorite of a great ruler, Belisarius was finally the victim of false accusation of conspiracy, and was degraded and reduced to poverty. Around his last years many legends arose. The best known of these is that he wandered, blind and destitute, from door to door, asking alms and crying "Dare ostium Belisarius" ("O my penny for General Belisarius"). His sufferings have been the subject of numerous literary, artistic and musical compositions that have kept alive this story, which is entirely without foundation.

MUSIC THE BEST OF TONICS

Nothing in the Way of Medicine Can So Effectually Cure a Nervous Breakdown.

A well-known doctor says there is but little use in taking so-called "tonics" for a "run-down" or nervous condition. When one has been overworked there is nothing better for this than music. In music we have one of the finest tonics in the world, and, skillfully applied, it has been known to work wonders with those suffering from nervous disorders.

Even the performances given by amateur societies, have been known to benefit jaded nerves, but the best results are obtained from high-class instrumental music played by those who have a wide knowledge of true values.

If you are musically inclined, don't imagine because you feel "frazzled out" after a day's work that an hour or two at the piano is going to be too much for you.

As often as not you will find that you will be materially benefited, not so much, perhaps, because you have been playing particularly restful music, but because the mind has been brought in a direct contact with a diversion.

So if you are feeling depressed and your nerves jaded, remember that one of the surest ways of making yourself fit again is to go and hear some good music. There is plenty of it about today, and the price of admission is scarcely worth a week of sleepless nights.

"Tell It to the Marines."

The body of men called marines, "soldiers and sailors too," were originally enlisted for service on board ship to defend naval officers from the bluejackets, who in those early days were generally men of the lowest class and worst character, who were seized by the press-gang and bound unwillingly to the ships for a term of years.

The expression, "tell it to the marines," is applied sarcastically to the telling of a more than usually unlikely story, but this arose merely from the fact that all sailors thought themselves more shrewd and less easily imposed upon than landlubbers, and the marine was conveniently handy on board ship.

Solomon's Magic Carpet.

The story of Prince Arpetel tells how the magic carpet of Tangi would transport any one who sat on it to the place he wished to reappear in.

Its counterpart appears in the Koran. King Solomon, it is told, had a carpet with the same magic quality. It was made of green silk and on it was placed his throne when he wished to travel. Spirits stood on the left hand of the king, and on his right stood men and women. Then Solomon told the wizard where he wished to go, and immediately the carpet rose into the air with all who stood upon it, and traveled swiftly to its destination, while birds with outstretched wings flew overhead to screen the royal presence from the sun.

Helping Him Out.

Doris—I felt sure you were going to kiss me when you puckered up your lips just now.

Archibald—No—er—it was only a piece of grit in my mouth.

Doris—Then for goodness sake swallow it—you need some.

Helicopter to Be Used Soon

Dr. Albert F. Zahm, Expert for the Navy, Declares It Is Not an Impossibility.

TWO TYPES OFFERED TO U. S.

Experiments Are Continuing in Hope of Perfecting a Motor That Can Be Depended Upon to Maintain Machine in Air.

Washington.—The helicopter, or vertical rising air machine, is not an impossibility, and should a real use for such a type arise, successful ones may be seen before many years, according to Dr. Albert F. Zahm, aeronautical expert for the navy. Had there been a need for the helicopter during the war, he said, any of several types could have been perfected, of which working models have been flown.

Much interest has been shown of late in reports of successful machines of the helicopter type being perfected in both Germany and England. However, while some flights have been made, none of any consequence are reported by a machine equipped with horizontal propellers or revolving planes, designed to rise vertically from a confined space and descend on the same.

That the helicopter is possible Doctor Zahm said, is proved by the German machine, which, rising several times to moderate heights, has carried observers, remained almost stationary while in the air, and descended in safety. The machine, however, has made no extended flight, such as would prove its dependability, but was tethered to the ground by a mooring rope. At times, when the motors failed, the machine dropped, and the passengers saved themselves only by leaping with parachutes.

The experiments are continuing, however, with the purpose of perfecting a motor which can be depended upon to maintain the machine without sudden failure, the scientist explained, for, as soon as the engine stops, the machine cannot glide to the ground, as does an airplane, but drops vertically. In a proper descent the propellers should be whirled slowly to ease the landing.

Two Other Types Offered.

Present hopes of attaining successful vertical flight rest mainly upon the endeavors of Emil Berliner, Washington inventor, whose experiments with the helicopter have extended over a long time; and of Louis Brennan of London, whose newest machine is reported as nearing completion. He is working to win the £50,000 prize offered by the British air ministry for successful flight.

The helicopters upon which most experimentation has been made consist mainly of two or more propeller screws mounted horizontally on a vertical shaft bearing engines, fuel and pas-

Baby Falls From Window, Caught in Postman's Bag

Henry M. Druckman, of Brooklyn, N. Y., a letter carrier, was delivering mail when he saw a baby climbing to the sill of a third-floor window. He ran across the street to notify the child's mother, but the baby kept on climbing. Druckman got under the window just as the child, who had crawled over the sill, fell out. The letter carrier stretched his empty mail bag and caught the baby in it. The child was unharmed.

GOOD CROP OF PELICANS

Thousands of baby pelicans have made their appearance on the Coronado islands of Mexico recently. They are fairly tame and can be picked up with little difficulty. The one this girl has caught is about one month old.

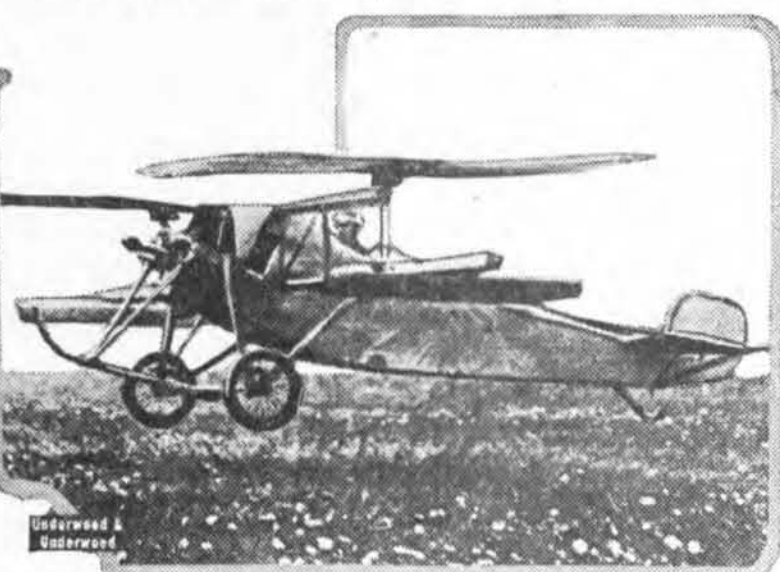

equipped with three propellers, two placed far out toward the wind ends, and with vertical rudders and ailerons similar to those in use. The quicker lifting power was to be gained by having the wash of the central propeller act upon elevators on the tail of the machine, while the side propellers would wash against the special ailerons on the wing tips.

In the air, Doctor Zahm continued, this machine could maneuver exactly as does the ordinary plane, cut figures and do stunts, besides being able to rest motionless in any desired position—vertical with nose up, if need be.

The best feature, he said, is that both planes of the new types are entirely feasible and can be constructed at any time. In fact, several European inventors and manufacturers are patenting designs of the second type, notably the Frenchman, Bleriot, one of the pioneers of aviation.

Experts for the government studied the second type during the war, it was explained, but the matter went no further.

Berliner Helicopter Really Rises

With the successful development of this helicopter which now will rise ten feet off the ground, Henry A. Berliner and his father, Emil Berliner, believe that in a few years flyers will be able to hop off from the roofs of buildings. The helicopter has the fuselage and rear controls of an ordinary plane with two 14 foot horizontal propellers replacing the wings, and immediately beneath the propellers four narrow vanes acting as controls with a small horizontal propeller near the tail of the plane. The two large propellers literally pull the plane into the air, the small propeller giving it the horizontal motion.

The Mardi Gras Mystery

By H. BEDFORD-JONES

The tale of a carnival joke that led to grim realities.

CHAPTER I.

Carnival.

Jachin Fell pushed aside the glass curtains between the voluminous over-draperies in the windows of the Chess and Checkers club, and gazed out upon the riotous streets of New Orleans. Half an hour he had been waiting here in the lounge room for Dr. Cyril Ansley, a middle-aged bachelor who had practiced in Opelousas for twenty years, and who had come to the city for the Mardi Gras festivities. Another man might have seemed irritated by the wait, but Jachin Fell was quite untroubled.

He had much the air of a clerk. His features were thin and unremarkable; his pale eyes constantly wore an expression of wondering aloofness, as though he saw around him much that he vainly tried to understand. In his entire manner was a shy reticence. He was no clerk, however; this was evident from his attire. He was garbed from head to foot in soberly blending shades of gray whose richness was notable only at close view. One fancied him a very precise sort of man, an old maid of the wrong sex.

Doctor Ansley, an Inverness flung over his evening clothes, entered the lounge room, and Fell turned to him with a dry, toneless chuckle.

"You're the limit! Did you forget we were going to the Maillards' tonight? However, we need not leave for fifteen minutes yet, at least."

Doctor Ansley laid aside his cane, stick and hat and dropped into one of the comfortable big chairs.

"You intend to mask for the Maillards?" Ansley cast his eye over the gray business attire of the little man.

"I never mask," Jachin Fell shook his head. "I'll get a domino and go as I am. Excuse me—I'll order a domino now. Back in a moment."

Doctor Ansley followed the slight figure of the other man with speculative eyes. Well as he knew Jachin Fell, he invariably found the man a source of puzzled speculation.

During many years Jachin Fell had been a member of the most exclusive New Orleans clubs. He was even received in the inner circles of Creole society, which in itself was evidence supreme as to his position. At this particular club he was famed as a wizard master of chess. He never entered a tournament, yet he consistently defeated the champions in private matches—defeated them with a bewildering ease, a shy and apologetic ease, an ease which left the beholders incredulous and aghast.

With all this, Jachin Fell was very much of a mystery, even among his closest friends. Very little was known of him; he was a lawyer, and certainly maintained offices in the Maison Blanche building, but he never appeared in the courts and no case of his pleading was known.

Ansley knew him as well as did most men, and Ansley knew of a few who could boast of having been a guest in Jachin Fell's home. There was a mother, an invalid, of whom Fell sometimes spoke and to whom he appeared to devote himself. The family, an old one in the city, promised to die out with Jachin Fell.

Ansley puffed at his cigar and considered these things. Outside, in the New Orleans streets, was rocketing the mad mirth of carnival. The week preceding Mardi Gras was at its close.

Now, as ever, was Mardi Gras symbolized by masques. In New Orleans the masquerade was not the pale and painful frolic of colder climates, where the occasion is but one for display of jewels and costumes, and where actual concealment of identity is a farce. Here in New Orleans were jewels and costumes in a profusion of splendor; but here was preserved the underlying idea of the masque itself—that in concealment of identity lay the life of the thing!

When Jachin Fell returned and lighted his cigar he sank into one of the luxurious chairs beside Ansley and indicated a newspaper lying across the latter's knee, its flaring headlines standing out blackly.

"What's that about the Midnight Masquer? He's not appeared again?"

"What?" Ansley glanced at him in surprise. "You've not heard? Good heavens, man! He showed up last night at the Lapeyrouse dance, two minutes before midnight, as usual. A detective had been engaged, but was afterward found locked in a closet, bound with his own handcuffs. The Masquer wore his usual costume—and went through the party famously, stripping everyone in sight. Then he backed through the doors and vanished."

Fell pointed his cigar at the ceiling, and sighed. "Ah, most interesting! The loot was valued at about a hundred thousand?"

"I thought you said you'd not heard of it?" demanded Ansley.

Fell laughed softly and shyly. "I didn't. I merely hazarded a guess."

"Wizard!" The doctor laughed in amusement. "Yes, about that amount."

"The Masquer is a piker," observed Fell, in his toneless voice.

"El? A piker—when he can make a hundred-thousand-dollar haul?"

"Don't dream that those figures represent value, Doctor. They don't! All the loot the Masquer has taken since he began work is worth little to him. Jewels are hard to sell. Of course, the crook has obtained a bit of money, but not enough to be worth the risk."

want to find ourselves bare at some gay carnival moment! I'd warrant you've a hundred or so in your pocket right now!"

"Not I," rejoined Fell calmly. "One ten-dollar bill. Also I left my watch at home. And I'm not dressed; I don't care to lose my pearl studs."

"Eh?" Ansley frowned. "What do you mean?"

Jachin took a folded paper from his pocket and handed it to the physician. "I met Maillard at the bank this morning. He called me into his office and handed me this—he had just received it in the mail."

Doctor Ansley opened the folded paper; an exclamation broke from him as he read the note, which was addressed to their host of the evening.

"Joseph Maillard, President, Exeter National Bank, City."

"I thank you for the masque that you are giving tonight. I shall be present. Please see that Mrs. M. wears her diamonds—I need them."

"THE MIDNIGHT MASQUER."

Ansley glanced up. "What's this—some hoax? Some carnival jest?"

"Maillard pretended to think so," Fell shrugged his shoulders as he re-pocketed the note. "But he was nervous. He'll have a brace of detectives inside the house tonight, and others outside."

Ever since the first ball of the year by the Twelfth Night club this Midnight Masquer, as he was termed, had held New Orleans gripped in terror, fascination and vivid interest. During the past month he appeared at least once a week, now at some private ball, now at some restaurant banquet, but always in the same garb: the helmet, huge goggles and mask, and leathern clothes of a service aviator. On these occasions the throbbing roar of an airplane motor had been reported, so that

"Still, he's an American now. Calls himself Henry Gramont, and would drop the prince stuff altogether if these French people around here would let him."

A page brought the domino. Fell, discarding the mask, threw the domino about his shoulders, and the two men left the club in company.

They sought their destination afoot—the home of the banker Joseph Maillard. The streets were riotous, filled with an eddying, laughing crowd of masquers and merry-makers of all ages and sexes; confetti twirled through the air, horns were deafening, and laughing voices rose into sharp screams of unrestrained delight.

At last gaining St. Charles avenue, with the Maillard residence a half-dozen blocks distant, the two companions found themselves well away from the main carnival throngs.

As they walked along they were suddenly aware of a lithe figure approaching from the rear; with a running leap and an exclamation of delight the figure forced itself in between them, grasping an arm of either man, and a bantering voice broke in upon their train of talk.

"Forfeit!" it cried. "Forfeit!—where are your masks, sober gentlemen? This grave physician may be pardoned, but not a domino who refuses to mask! And for forfeit you shall be my escort and take me whither you are going."

Laughing, the two fell into step, glancing at the gay figure between them. A Columbine, she was both cloaked and masked. Encircling her hair was a magnificent scarf shot with metal designs of solid gold—a most unusual thing. Also, from her words it was evident that she had recognized them.

"Willingly, fair Columbine," responded Fell in his dry and unimpassioned tone of voice. "We shall be most happy indeed to protect and take you with us."

"So far as the door, at least," interrupted Ansley, with evident caution. But Fell drily laughed aside this wary limitation.

"Nay, good physician, farther!" went on Fell. "Our Columbine has an excellent passport, I assure you. This gauzy scarf about her raven tresses was woven for the good Queen Hortense, and I would venture a ransom guess that, clasped about her slender throat, lies the queen's collar of star sapphires—"

"Oh!" From the Columbine broke a cry of warning and swift dismay. "Don't you dare speak my name, sir—don't you dare!"

Fell assented with a chuckle, and subsided.

Ansley regarded his two companions with sidelong curiosity. He could not recognize Columbine, and he could not tell whether Fell was speaking of the scarf and jewels in jest or earnest. Such historic things were not uncommon in New Orleans, yet Ansley never heard of these particular treasures. However, it seemed that Fell knew their companion, and accepted her as a fellow guest at the Maillard house.

"What are you doing out on the streets alone?" demanded Fell, suddenly. "Haven't you any friends or relatives to take care of you?"

Columbine's laughter pealed out, and she pressed Fell's arm confidentially.

"I've not some little rights in the world, monsieur," she said in French. "I have been mingling with the dear crowds and enjoying them, before I go to be buried in the dull splendors of the rich man's house. Tell me, do you think that the Midnight Masquer will make an appearance tonight?"

"I have every reason to believe that he will," said Jachin Fell, gravely.

Columbine put one hand to her throat, and shivered a trifle.

"You—you really think so? You are not trying to frighten me?" Her voice was no longer gay. "But—the jewels—if they are taken by the Masquer—"

"In that case," said Fell, "let the blame be mine entirely. If they are lost, little Columbine, others will be lost with them, fear not! I think that this party would be a rich haul for the Masquer, eh? Take the rich man and his friends—they could bear plucking, that crowd! Rogues all."

"Confound you, Fell!" exclaimed Ansley, uneasily. "If the bandit does show up there would be the very devil to pay!"

Some thrills await you in the next installment.

(TO BE CONTINUED.)

LEGATEES OF THE MIDDLE AGES

Artists of Today Are But Carrying On the Work of the Old Master Craftsmen.

The art of the Middle ages is really the art of youth. It has no finality, because that which it expresses can never be finished. It lives with unmeasured potentialities still before it. Until the Renaissance, and men's subsequent concentration upon commerce and science, it seldom rested in the West, but grew from one stage to another—as in our still living arts—of painting, and music, poetry, and the drama—we still move and change and grow.

The Middle ages were the age of youth. I do not mean merely of young nations, but of men who were building up the future and had unlimited development before them. It was our youth, and we are growing from it. In our intelligence—it is growing from that stem. In so far as it is dead, it is in those forms of art which have honored their own traditions, such as

architecture, ornament, the crafts, and much sculpture, and have tried to form themselves from ancient models in the pedantry of the schools. They are cut off from the stem and they languish. But painting, like music and poetry, has gone on without a break and is alive today.

Let us take heart. We are the heirs of those old craftsmen.—Percy Dearmer.

Pope's Good-by to Cardinal Gibbons. I cannot help recalling an instance where a lady, a guest at the White House luncheon, asked the late Cardinal Gibbons whether he really believed that the pope was infallible in all he said. The cardinal smiled and answered: "I can only respond to that, madame, by saying that when the pope made me good-by the last time he said, 'Addio, Cardinal Gibbons!'"—Maurice Francis Egan in the Review of Reviews.

It is well to understand that it is sometimes well to stand under.

WILL ANSWER ANY WOMAN WHO WRITES

Woman Restored to Health by Lydia E. Pinkham's Vegetable Compound Makes This Offer

Cumberland, Md.—"My mother gave me Lydia E. Pinkham's Vegetable Compound when I was between thirteen and fourteen years old and was going to school, because I suffered with pains and could not rest. I had to have any more trouble after that until I was married, then I always was troubled in my back while carrying a child and could not do my work until I took the Vegetable Compound. I am strong, do all my washing and ironing and work for seven children and feel fine. I always have an easy time at childbirth and what it did for me it will do for other women. I am willing to answer any woman if she will write asking what it did for me."

—Mrs. JOHN HEILER, 63 Dilley St., Cumberland, Md.

During girlhood and later during motherhood Lydia E. Pinkham's Vegetable Compound brought relief to Mrs. Heiler. Her case is but one of many we constantly publish recommending our Vegetable Compound. She is willing to answer your letter. Write to her.

Improved Concrete Pipe. Hydrostatic tests on single lengths of concrete pipes are now being made in California, without the use of false ends and tie-rods. The apparatus consists of two aluminum cylinders fitting one inside the other and each having flanged ends with a space between the flanges for a tubular gasket. These flanges fit tightly into the interior of the pipe under test, and water pressure is supplied to the gaskets and the space between the outer aluminum cylinder and the interior of the pipe. Up to now 150 pounds per square inch is the safe limit for the apparatus. Improvements will raise this limit considerably. — Popular Mechanics Magazine.

The Japanese bride calls upon her neighbors and friends, instead of the neighbors and friends calling upon her.

Many of the Eskimo women in the vicinity of Hudson bay still tattoo their faces.

National Committee on Boys and Girls Club Work Will Award Free Trip to Europe.

A free trip to Europe with all expenses paid will be awarded the four champion canning girls of the United States in 1922. This is the largest prize ever offered to the farm girls of America. Fifty-five thousand rural girls who are members of the girls clubs conducted by agricultural colleges, the U. S. Department of Agriculture co-operating, are competing in the contest. After the local, county, and state elimination contests are held there will be five interstate or sectional contests, the winners of which will compete for final national honors at Chicago during the week of the International Live Stock Exposition. At the final contest the honors and prize trip will be awarded on the basis of efficiency in demonstrating canning methods, in judging canned products, and by the home canning record.

The American Committee for Devastated France is providing the prize trip for the four girl winners and for the three women leaders, who will train the winning teams. The contest for the section comprising Colorado, New Mexico, Arizona and Wyoming will be held at the Colorado State Fair, Pueblo, Colo.

Guards Protect Buffalo Tram Cars.

Buffalo, N. Y.—Policemen armed with riot guns and under orders to shoot to kill rode the seventy-one street cars which started out from the car barns following a warning by Mayor Schwab to striking carmen that further rioting would have serious consequences. Two hand grenades were exploded on the roof of the Cold Spring car barns.

Suit Charges Coercion.

Denver.—One of the most remarkable suits ever filed in a Denver court was instituted in the District Court by Mrs. Margery Verner Mayo, daughter of the late multi-millionaire Verner Z. Reed, with a view to taking the administration of her \$5,000,000 estate out of the hands of the Rev. David T. O'Dwyer, who has been its trustee. The suit not only involves millions, but it names Mrs. Mary Dean Reed, widow of the multi-millionaire, the mother of the plaintiff, as one of the defendants, and charges that she used undue influence to coerce her daughter into signing papers creating the immense trust fund before she would consent to her marriage to Paul Thoburn Mayo.

Pastor Gets One Year Sentence.

Xenia, Ohio.—Rev. W. W. Culp, Spring Valley pastor, pleaded guilty in Probate Court here to abandoning his family and was sentenced to one year in the Dayton, Ohio, workhouse and fined \$500 and costs, as the result of his elopement with Esther Hughes.

Man Held Month for Another's Crime.

San Francisco.—For more than a month George Anderson was in jail here charged with grand larceny. He had been identified by the officers who arrested him. He had been identified as the man who had pawned the stolen articles. His handwriting had been declared that of the thief. But he denied his guilt. Joseph Whelan was under arrest for petit larceny. He confessed, police say, to the crime for which Anderson has been paying. Anderson was freed.

Lost Aviator Feeds on Caribou.

Dawson City, Y. T.—Charles C. Prest, Nevada aviator en route from Buffalo, N. Y., to Nome, Alaska, and Siberia, and who was feared lost in the wilderness between here and Fairbanks, is alive and well at Nigger Head Flat, on Seventy-Mile river, seventy-five miles from Dawson. He was forced to land there on account of engine trouble. Prest's airplane descended in the midst of a herd of caribou. The aviator killed one of the animals, thus supplying himself with food.

Don't Fall for Spanish Swindle

Americans Have Quit Going to Spain to Rescue Wealthy Imprisoned Princesses.

GERMANS ARE NOW VICTIMS

Impostors Who Market Adventures to Credulous Investors Give Their Princesses Names of Famous Women Long Dead.

Granada, Spain.—Americans have quit coming to Spain in search of the beautiful and wealthy princesses imprisoned in a dark, damp tower by a greedy uncle who is anxious to annex her fortune.

The historic old Spanish swindle apparently has gone out of fashion in the United States, but it is still in vogue in other parts of the world. Germany has recently supplied quite a crop of kind-hearted gentlemen who advanced money for the release of the dark-eyed Spanish beauty who was suffering in a rat-infested cell and slowly dying on a diet of bread and water while the bats hovered about her head and added to the terrors of her solitary confinement.

Beauties in Granada.

Granada has always been a popular center for the men who have contributed to the relief of imprisoned beauties. Washington Irving and scores of lesser writers have credited Granada with having more beautiful women than any other city in the world.

The legend of the Rose of the Alhambra and the stories of the three beautiful princesses Zayda, Zorayda and Zorahayda, hover about the Alhambra and make it the natural refuge for disappointed investors in distressed beauties.

So it is not strange that searchers for princesses should come to Granada after having sought vainly for mythical castles in mythical mountains. Most of the modern Spanish princesses are being held captives in castles by the sea. Castles by the sea are so

much damper, and then it is much more romantic to rescue parties to approach the rock coast in ships and wade to the imprisoned princess, who will promptly tear her clothing to bits and make a rope with which she will lower herself from the gloomy tower. Many of the impostors who are marketing adventure to credulous investors give their princesses the names of famous women who have been dead for centuries. Moraymah and Alshah, queens of the Moorish regime, who have been dead for over 400 years, and many other celebrities of history and legend have lent their names to princesses supposed to be in distress.

Visitors Are Warned.
Hotel keepers in Granada have become skilled in detecting visitors who

Volcanoes Our Best Friends

Geologist Says Without Them We Would Have No Oceans or Carbon Dioxide.

KATMAI ERUPTION DESCRIBED

Most Tremendous Volcanic Explosion of History Passed Unnoticed Because It Was So Far From Centers of Civilization.

Washington.—It might be a surprise to many to be told that the fire-spitting, lava-spouting, earth-rocking volcano is one of mankind's best friends rather than his arch enemy, but such is the surprising declaration which was explained to the conference on geography of the National Education association in Boston recently.

The most tremendous volcanic eruption

are searching for imprisoned beauties. They usually make very guarded inquiries and seldom admit they have been duped. Frequently they inquire for gypsy fortune tellers, or astrologers, who probably charge well for their services.

Letters concerning the distressed princesses are usually marked strictly confidential, and instructions are given that nothing must be said to anyone lest the life of the princess be endangered. Most of the dupes are too much ashamed of their plight to confess openly that they have been gullied.

Hair Saves Woman's Life.

Pottstown, Pa.—Although severely injured when she fell from a second story window while reaching for a screen the other day, Mrs. Clara Keim owes her escape from probable death to her long hair. She landed on her head on a cement walk, but her hair was so arranged as to form a cushion which broke the force of the contact. She was unconscious when found and taken to a hospital.

tion of history, that of Mount Katmai in Alaska in 1912, was described in this connection by Dr. Robert F. Griggs, leader of several parties sent to the scene of the cataclysm by the National Geographic society, and who discovered the valley of Ten Thousand Smokes, Katmai's neighbor wonder of nature.

Mankind's debt to the volcano has been more fully recognized by results of recent researches, says a bulletin of the society describing the upheaval. Without volcanoes, it is now believed, there would be no oceans, and volcanoes we are indebted for carbon dioxide, without which human life could not exist.

Katmai Explosion Unnoticed.

The explosion of Katmai, the conference was told, was unnoticed because it was so far from the centers of civilization. Had the eruption occurred near New York city, the bulletin declares, the sulphurous fumes would have polluted the air everywhere east of the Rocky mountains; the noise would have reverberated like an artillery duel across the central states. The lower Hudson itself would have been turned into a gigantic tomb.

However, due to the lack of population in that far region, there was no loss of life, and the eruption provides scientists and geographers now one of their greatest opportunities to study the phenomenon of volcanic action. Though generally unaware of the eruption until long after, every inhabitant of the country, and almost of the world, felt its effects, one of which was the cold damp summer of 1912. This was caused by the interception of sunlight by the long-hanging dust cloud in the upper air. Even in cloudless Sahara, it was declared, the sky was overcast.

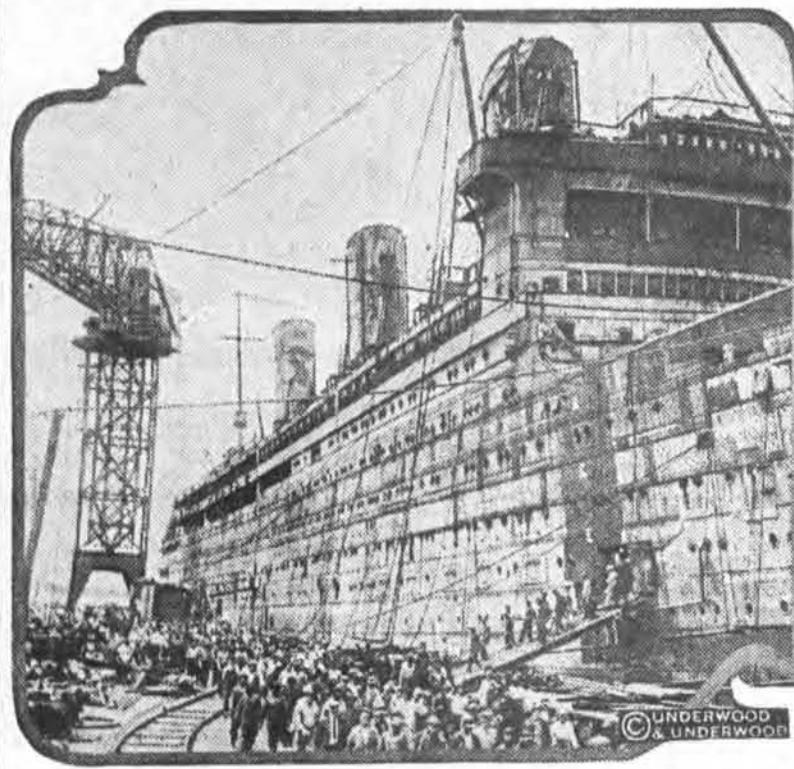

Repeat Ice Age.

A succession of such mighty explosions could plunge the earth into another ice age, it is believed.

An area around Katmai, larger than the state of Delaware, was covered that summer by more than a foot of volcanic ash which was enough to destroy all but the hardiest of vegetation. When the explosion occurred two cubic miles of material were blown off the top of the mountain, and the present whereabouts of the mountain top is still a mystery to scientists.

A Japanese scientist claims he has made synthetic petroleum out of fish oil and clay.

Thousands Working on the Leviathan

The huge Leviathan, lying in the shipyards at Newport News, Va., has 2,200 men hard at work refitting the ship for passenger service. The Leviathan when completed in June, 1923, will be the largest American vessel afloat, being 950 feet long and weighing 54,282 gross tons.

DEMAND FOR UNIFORM SIGNALS

Railway Association Recommends Standard Colors.

One of the Suggestions Made in the Interest of Public Safety Is Use of Yellow in Automobile Tail Lights.

Chicago.—In the interest of public safety recommendations for the standardization of colors for traffic signals are being considered. These recommendations were made on behalf of the signal section of the American Railway association at a recent conference requested by the Illuminating Engineering society and the International Traffic Officers' association and held under the auspices of the American engineering standards committee. The recommendations are:

1. The principle of red for stop everywhere, unless qualified by a more favorable indication—that is at high

way crossings with railroads if train is approaching, in fixed signals and in the hands of traffic officers, at street intersections, at the ends of streets, and possibly to indicate excavations in streets.

2. Yellow for tail lights of automobiles, possibly excavations in streets and for calling policemen, or for any other purpose where caution is required; possibly at busy street intersections to indicate that the traffic lights will be changed from red to green or from green to red.

3. Green lights for fire escapes, for proceed at street intersections and other purposes to indicate the way is clear.

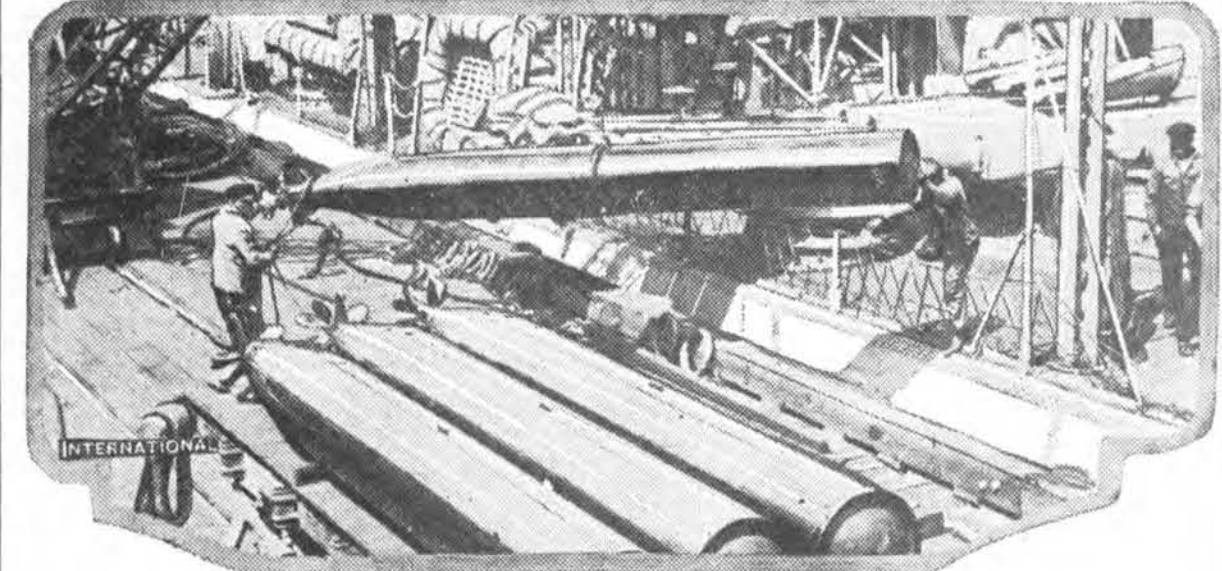

In presenting these recommendations on behalf of the signal section A. H. Rudd, chief signal engineer of the Pennsylvania system, said: "The railroads are particularly interested in eliminating the use of the red light for various purposes other than that of indicating danger or stop unless qualified by a more favorable

Skunks Lure Bees From Hives, Eat 'Em

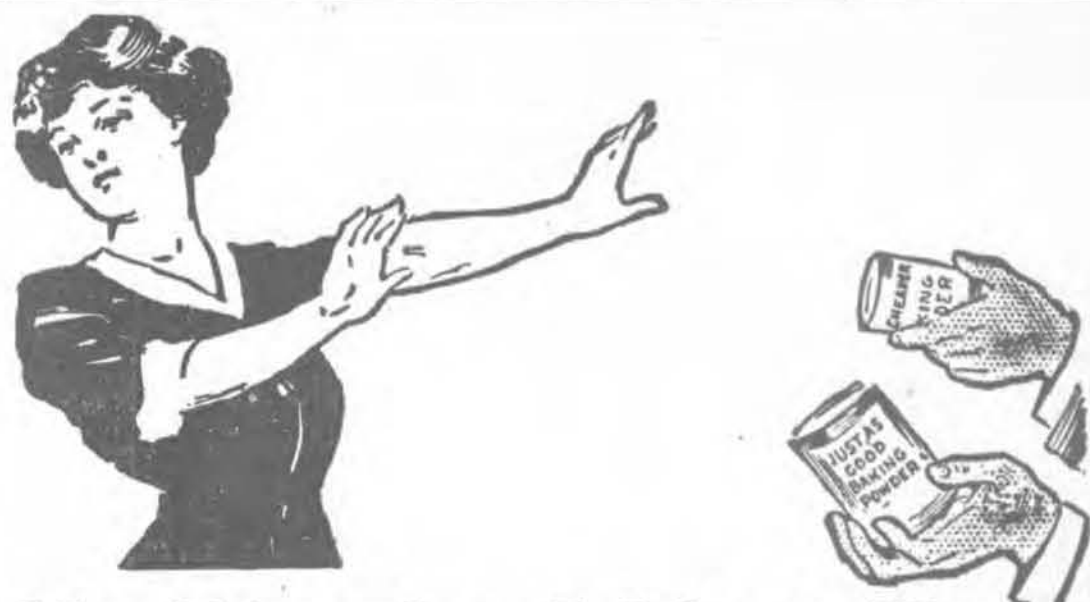

Washington.—A report from Ohio received by the biological survey of the United States Department of Agriculture says that skunks are giving a great deal of trouble to beekeepers in that region. The skunks visit the hives at night and scratch on the outside till the bees come out. As soon as they appear the skunks eat them. The biological survey recommends that under such conditions the hives be fenced in with chicken wire at least three feet high.

color. They desire that any scheme devised may conflict as little as possible with their own signal systems already established and that uniformity of indications in the protection of highway crossings at grade may be established.

Destroyers Getting Ready for Duty in China Waters

One of the thirteen United States destroyers assigned to duty in Asiatic waters, taking on torpedoes at the naval torpedo station, Newport, R. I., shortly before the flotilla departed from there for Chinese waters.

No Thanks, I Must Have CALUMET
The Economy BAKING POWDER

- Never fails to produce pure and wholesome bakings.
- You save when you buy it. You save when you use it.

GETS CLOCK, BUT NOT "TIME"

Court Robbed of Imposing Timepiece Under Its Very Eyes and With Its Permission.

Thousands of law-breakers have been given "time" at Berlin's central criminal court in Moabit, but recently an ingenious crook posing as a repair man actually was given the court's official clock and that while a case was being tried.

The sitting was well under way when a man in working clothes entered the courtroom with a long ladder which he calmly placed under the huge, imposing timepiece on the wall. The judge, counsel, accused and spectators were astonished as such an unprecedented interruption. The president stopped the workman's ascent of his ladder long enough to inquire the meaning of his conduct. The visitor explained that he merely wanted to get the clock for repair and that it would take only a moment. The president objected, but consented when the man said he already had called six times and always found the court in session.

The vacant space on the wall surprised the janitor later in the day, and his investigations revealed that the court had been robbed under its very eyes, in fact, with its permission.

Export of Chinese Hair Menaced.

China's export pigtail industry is threatened by the preference of American women for double hair nets, according to a report to the Commerce department from Consul Gauss at Tsinan.

Manufacture of double hair nets, the report said, threatens to reduce the human hair net business very much, as the double hair net long outwears the single net, and advises in China indicate that an association of hair net importers have been formed in the United States, one of its objects being to discourage the making of double nets. It is estimated, the report added, that unless the double net is driven off the market the hair net business in China will decline by 75 to 80 per cent.

The right kind of a man seldom has to spend half of his time looking for a job.

DON'T OBSERVE 8-HOUR DAY ASSYRIANS NOT SO ROUGH

Law Is No Longer Popular With Workmen in Hamburg, Germany, Says Writer.

Keener competition is causing a decided swing away from many post-war pet ideas in Germany. Even the eight-hour law is no longer popular, Frederick Simplicy writes in Our World. The labor inspection bureau in a recent report pictures the trouble its enforcement is bringing as Hamburg's economic condition improved. Employers complain that laborers of both sexes, after an eight-hour day, undertake to do outside work for other people—which cuts down their efficiency on their regular job. Workers, on the other hand, consider it an interference with their personal liberty if their employers try to hold them to the eight-hour plan. Although the law was passed to safeguard the health of the workers, they appear to have lost sight of its real intention, and the authorities show reluctance to prosecute cases of its violation. In the hotels and cafes, especially, it has been difficult to enforce the eight-hour day; waiters are loath to give up their chances for more tips during overtime.

Were More Humane Than Popularly Fabled, Says Professor Who Has Studied Their Laws.

The Assyrian is popularly recalled as coming down "like a wolf on the fold." But one provision of the Assyrian code of laws indicates that the Assyrians are more humane than they are popularly fabled. This requires that the destitute widow be supported by her sons "as the bride whom one loves."

Instead of the Assyrians being wholly abject, their letters, says Prof. A. F. Olmstead, of the University of Illinois, show high officials speaking their minds with the greatest plainness, the kings making pathetic appeals to those whose support they would win. Their imperial free cities were as free as those in western Europe in the Middle Ages, with charters of freedom from corners of the earth and to all tongues.

Boasting Pickwick.

Train Boy—Where on the map is Pickwick Hill?
Brakeman—Sounds as if it might be somewhere in the hinterland, kid. Why?
Train Boy—Some people are always trying to boost their native town. An old-fashioned hick asked me if I had the Pickwick papers.—Judge.

Some kinds of misfortune make former bad luck look good.

The largest hot springs in the world are at Thermopolis, Wyo.

Back to the Grain Fields for Health

GRAPE-NUTS is a regular "three bags full" of the best food qualities of whole wheat flour and malted barley, carefully mixed and slowly baked—

- To develop all their appetizing flavor,
 - To preserve all their wholesomeness,
 - And to provide nature's "broom" that keeps the digestive system spick and span.
- There's not a bit of artificial sweetening in Grape-Nuts—it just becomes sweet of its own accord in the long baking.
- And that enticing flavor—how good it is with good milk or cream! Fruits, too, fresh or cooked, add to the delight of a dish of Grape-Nuts, morning, noon or sundown.

It is a compact, ready-to-eat food—no cooking needed. Why not try it for tomorrow's breakfast?

"There's a Reason"

Postum Cereal Co., Inc., Battle Creek, Mich.

FIRESTONE'S CANADIAN PLANT AT HAMILTON OPENS SEPT. 15

Announcement is made by the Firestone Tire & Rubber Company of Akron, Ohio, that its Canadian plant will be in active operation about September 15. The site at Hamilton consists of over 60 acres of land, located on Hamilton bay, with an unlimited supply of cool water which is so necessary in the rubber business.

The main plant is a five-story building, fireproof construction, and is completed. The machinery and other equipment are now being installed. The plant will start with a capacity of 1500 tire daily.

Prospects for business are very bright as the Canadian company has been active for over two years in establishing representation in every province in Canada, and at the present time has over 2200 dealers handling its product. No rubber company has ever started with brighter prospects, and it should be only a short time until the plant is operating at full capacity.

In the beginning only tires and tubes will be manufactured, but the plans contemplate a full line of rubber goods, including belting, hose and possibly boots and shoes.

SHERIFF TRANSFERS PRISONERS

Last week Sheriff Harry J. Saxon took 11 federal prisoners that were in the Santa Cruz county jail to Tucson, where quarters are provided for persons held on federal charges.

In a statement, Sheriff Saxon said that he was going to move immediately all federal prisoners placed in his care. "There is no use lodging federal prisoners here when quarters have been provided at Tucson. It is my intention to transfer immediately all federal prisoners ordered held by the local federal commissioner to the Tucson jail. That's where they belong."

Born—To Mr. and Mrs. James Kane, Thursday, August 3, an 8-pound boy. Mother and son are doing nicely.

How The Master Driver Became Master Tire Builder

IN 1903, driving the "999" racing car, Barney Oldfield started his career of victories that later earned him the title of "Master Driver of the World." To overcome the tire weaknesses that made racing difficult and dangerous, he studied tires—specified materials—supervised construction.

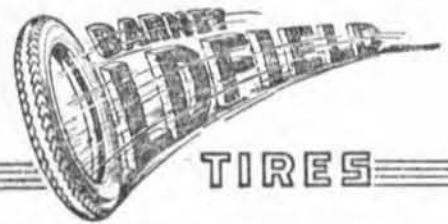

Today, Barney Oldfield is known as the "Master Tire Builder." Starting with the crude tires which carried the "999" one mile in sixty seconds, Oldfield gradually developed his famous Cords—a set of which covered 500 miles at eighty-eight miles an hour without a change.

In three years Oldfield tires have won every important race on American speedways. They are the only

American tires that have ever taken first place in the French Grand Prix. They have won for three consecutive years in the 500-mile Indianapolis Sweepstakes. So far in 1922, Oldfields have lowered four World's Records and seven track records.

The Wichita Test Run gave evidence of Oldfield superiority in touring—when a set of four Cords covered 34,525 miles over rutted, frozen, winter roads—a performance attested by the Mayor of Wichita.

See your dealer and get a set of these rugged tires that Barney Oldfield has developed and perfected through a lifetime of practical tire experience. Their performance will convince you that they are "The Most Trustworthy Tires Built."

MRS. GEO. B. MARSH AND PARTY RETURN FROM CALIFORNIA

A motor party consisting of Mrs. Geo. B. Marsh, her daughters, Elizabeth and Georgia, and maid, and Harry Moslander, arrived in Nogales Sunday afternoon, having spent a month visiting southern and central California.

Members of the party sojourned at the southern California beaches, then motored to Santa Cruz, on the coast below San Francisco, where Mrs. Marsh and party visited with relatives.

KELSEY GETS COCHISE CO. JOB

Louis C. Kelsey, consulting engineer of Nogales, has returned from Wilcox, where he has been retained by the city commission of that town to install a water works and sewer system.

The installation of the new system will cost in the neighborhood of \$100,000. The retaining of Engineer Kelsey by the city of Wilcox is a compliment to his ability in his chosen field.

TRUCK STALLED IN CREEK

A large truck belonging to Recare & Johnson of Bisbee got stuck in the sand at the Sonoma creek crossing, north of town, Friday and it required
