

Patagonina Has the Finest All-Year-Round Climate in the United States; Altitude 4053 Feet; Good Schools

SANTA CRUZ PATAGONIAN

Patagonia Has Some Very Promising Silver, Lead and Copper Mines That Need Capital to Develop Them

VOL. XIII (\$2.00 a Year in Advance)

PATAGONIA, ARIZONA, FRIDAY, SEPTEMBER 11, 1925

(Single Copy 5 Cents) NO. 40

PERSONAL AND SOCIAL

County School Superintendent Mrs. Grace A. Farrell of Nogales visited San Rafael Valley and Parker Canyon Monday. Accompanying her were Miss Jessie Moran and Miss Alice Eastman, teachers of the rural school districts mentioned.

Elbert L. Kinsley, O. D. Lewis and Bee Lewis of the San Rafael Valley were Patagonia visitors Tuesday.

Mr. and Mrs. R. C. Blabon were business visitors to Nogales Wednesday.

There will be a dance at the San Rafael Valley school house Saturday night, September 12. Good music. Everybody cordially invited.

Mr. and Mrs. E. E. Bethell, Mr. and Mrs. C. L. Northcraft, and Mr. and Mrs. James M. Little of Patagonia were Sunday visitors at the San Rafael Valley ranch of Miss Grace Van Osdale.

Miss Alice Eastman of Tucson arrived in the San Rafael Valley Monday and Tuesday morning assumed her duties as teacher of the Red Rock school district.

Mrs. O. P. Ashburn, daughter Hulda and son Marshall were Nogales visitors Friday.

Mr. and Mrs. Frank J. Wright of Los Angeles spent several days last week in Patagonia, guests of Mrs. Wright's parents, Mr. and Mrs. F. A. Stone.

There will be a dance Saturday night, September 12, at the Patagonia Opera House. Everybody welcome.

A. C. Snyder of Douglas was in town Wednesday on business. He succeeds T. B. Grace as representative of an El Paso firm, Mr. Grace having gone to Florida to reside.

G. E. Lineberry of Louisville, Ky., was a business visitor here Wednesday.

F. A. Berg of Phoenix was a Patagonia business visitor Tuesday.

Mrs. L. P. Read of Benson passed through town Saturday en route to Sunnydale, where she will teach the district school.

Mr. and Mrs. K. F. Parke of Tucson spent the week-end at the Commercial hotel.

Mr. and Mrs. Frank W. Sherman spent the week-end in Patagonia, guests of the Commercial hotel.

Joe H. Wolf of El Paso was in town Thursday on business.

Heavy rainproof canvas, 48 and 72 inches wide. Washington Trading Co.—Advertisement.

Mrs. Poppen and husband, who is manager of the Santa Rita hotel, Tucson, spent the week-end in Patagonia.

L. W. Overlock and family spent the week-end at the Commercial hotel. Mr. Overlock is a Tucson business man.

Mrs. Edna Boggs left Patagonia for Tucson, where she expects to remain indefinitely.

A. G. Keating, president of the Big Jim Mines, Inc., of Los Angeles spent several days this week at the company's mining property, in company with C. B. Chapin, capitalist, and Frank Dolin, secretary of the company and a Los Angeles broker.

Deputy Sheriffs Arthur Peck and Jim Hathaway of Nogales were in Patagonia Tuesday on official business.

Undersheriff Pat Patterson was in town Wednesday on official business.

Joe Collie and Mr. and Mrs. James M. Little were Nogales visitors Tuesday.

Mr. and Mrs. C. A. Pierce were Nogales visitors Saturday.

Mr. and Mrs. C. L. Northcraft were county seat visitors Saturday.

Jack Campbell and John Mitchell motored to Tucson Thursday on business.

George H. Elliott, manager of the Dixie Queen mine was in town Wednesday. He says he has started two mines, both of which are in ore, and one of which is intended to serve as the main working shaft. The vein is said to be six feet wide. Mr. Elliott has had several men working at the mine for several months and a great deal of ore has been taken out, all of which has been thrown on the dump awaiting the erection of a mill, which it is expected will soon be placed in commission.

The road between the American Boy and Dixie Queen mines is being repaired by George H. Elliott's crew. Both mines have been active for a long time.

Two new leasers have started work on the Duquesne mining property. One of them says he has some fine ore in sight.

Mrs. Amelia Ishnood was a county seat visitor Wednesday.

Mr. and Mrs. Jim Parker were Nogales visitors Wednesday.

Mr. and Mrs. P. M. Etchells of Mansfield came to town Saturday. Mrs. Etchells and children will stay in Patagonia during the school year.

Geraldine and Bud McCormick were Nogales visitors Tuesday.

Mr. and Mrs. Chester Broyles were county seat visitors Tuesday.

Judge Richard Farrell of Harshaw was a business visitor in Patagonia Thursday.

W. D. Gray of Gray Brothers' mine was in town Thursday on business.

Ernest Best and mother of Best's canyon were in Patagonia Tuesday for supplies.

Edwin Raines of Temporal Canyon was a Nogales visitor Tuesday.

Cattle Inspector A. D. Page and family were in town Wednesday visiting relatives.

C. S. Thrapp has accepted the position of mine blacksmith at the Eureka mine, Salero.

Dan Dawson of Salero shipped a car of ore this week from the Jefferson group.

Homer Edwards, formerly a resident of Patagonia, was a visitor here Saturday from Superior.

Mr. and Mrs. Sy Swyers have leased the Virgil Long ranch, near Sonolita, and purchased a few head of cattle.

Immigration Inspector Lou Quinn was in town Saturday, a guest of his sister, Mrs. H. B. Riggs.

James (Muldoon) Cunningham of the Morning Glory mine was in town Monday.

Hugh Young and Mr. Hilton of the 49 mine, near Pantano, were Patagonia visitors Tuesday.

Supervisor R. A. Campbell attended the regular meeting of the board of supervisors in Nogales Tuesday.

John Parker and Mr. Laxander of Canille, Mr. Saxon and two sons and John Hunts of Tucson were visitors this week at the Bud Baldwin ranch, San Rafael Valley.

Jim Rountree and Mrs. Clyde McPherson of the San Rafael Valley were Nogales visitors Wednesday.

Juan Espinosa of Elgin has moved to the San Rafael Valley, where he will farm the Arthur place next year for John Madsen.

Ernest Best and mother were Sunday guests of Mr. and Mrs. Bud Baldwin in the San Rafael Valley.

G. N. Wright of Salero was in town Wednesday.

J. D. Rountree and Mrs. Eliza E. Nevius and daughter Clara of Nogales were Sunday visitors at the ranch of Mr. and Mrs. Clyde McPherson in the San Rafael Valley.

A day nursery has been opened for infants whose parents teach or study at the Chicago University.

SCHOOL NOTES

(Fidel Valenzuela, Editor)

The Patagonia school opened Tuesday morning, September 8, with an enrollment of 108 pupils, who were assigned to the various grades as follows:

First grade, Mrs. Anna H. Fortune teacher, 12 pupils.
Second grade, 17; third grade, 12; Mrs. Katherine Carter, teacher.
Fourth grade, 12; fifth grade, 13; Mrs. Gladys Swyers, teacher.
Sixth grade, 7; seventh grade, 10; eighth grade, 4; Mrs. Dixie Yost, teacher.
Ninth grade 5; tenth grade 8; Miss Sophia Sjoberg, teacher.

Mrs. Yost will teach music to the entire school, devoting one period a week to each room.

The seventh grade had good lessons this week in history.

Mrs. Reeves of Elgin is driving the school bus from the upper part of the county, carrying high school pupils to Patagonia. Three are attending from Elgin and 10 from Sonolita.

Children and teachers all seem to be glad to have school begin. There is a decided air of enthusiasm and contentment noticeable among the pupils. We are glad to have with us the high school boys and girls from Patagonia and the neighboring districts.

We are looking forward to a very pleasant and profitable year of school work.

Doris Seibold entered school on Wednesday, not being able to attend opening day because of eye trouble.

ELGIN NEWS NOTES

The dance Saturday night at Sonolita was well attended and everybody reports having had an enjoyable evening.

Miss Beulah Bateman, Elgin school teacher, returned Monday from her summer vacation, spent with her parents in Missouri.

Howard E. Dalton and Ted Simpson expect to go to Tucson, where they will attend the university this year.

N. L. Houston was an Elgin visitor Monday from his ranch.

C. W. McKenzie, forest supervisor, and Deputy Supervisor Roak passed through Sonolita Saturday en route to Tucson.

Howard W. (Bill) Dalton has been employed for some time at the Garden ranch, east of Mesal Gap. Miss Beale Garden, a charming young lady, is seen riding with Bill quite a lot lately.

It is reported that Mount Adams, who came to Elgin this summer from the coast, is considering returning to Los Angeles.

S. M. Beebe and E. W. Farrenkopf moved a load of household goods to Nogales Sunday.

D. D. Miller and Ira Rothrock are with the county road crew which is building a road close to the Simpson ranch.

Mrs. A. C. Dalton and Shirley were Nogales visitors Saturday.

Jake Isn't the Only One

Jake was a worthless and imprudent fellow. One day he said to the local grocer: "I gotta have a sack o' flour; I'm all out, an' my family is starvin'."

"All right, Jake," said the grocer. "If you need a sack of flour and have no money to buy it with, we'll give you a sack. But, see here, Jake, there's a circus coming to town in a few days, and if I give you a sack of flour, are you sure you won't sell it and take your family to the circus?" "Oh, no," said Jake, "I got the circus money saved up already."—Ex.

Pat McCarty of Canille was a visitor in the San Rafael Valley Wednesday.

Born—Friday, September 4, to Mr. and Mrs. Henry Wood of Vaughn, an 11-pound son.

The rural schools of the county began the fall term on Tuesday of this week.

MICKIE SAYS—

DON'T GET MAD IF YOUR PAPER STOPS COMING. WE HATE TO DROP YOU OFF THE LIST AS MUCH AS YA HATE TO BE DROPPED, BUT WE GOTTA HAVE OUR MONEY OR WE CAN'T SEND THE PAPER! THAT'S THE LAW! YESSIR!

BIG JIM STARTS SINKING TODAY

The Big Jim mine, which has been idle for several weeks, awaiting the consolidation of several other mining properties in the Harshaw district, resumed work this morning. The old shaft will be sunk to a greater depth and the ore bodies developed.

President A. G. Keating, Secretary Frank Delan of the Big Jim Mines, Inc., and C. B. Chapin, a Los Angeles capitalist, were here for several days inspecting the properties in which they are interested and left for the coast highly pleased with the company's prospects.

President Keating stated before his departure that a large number of Los Angeles business men and capitalists will accompany him to this district on an inspection trip within a few days. Approximately 100 persons are to join the party, it is stated.

The Big Jim is headed by live-wire mining men, who know the mining business, and the mine superintendent, J. J. Peterson is a thoroughly practical mining man, who has the rare ability to handle men and get results. A combination of this kind is bound to get satisfactory results in the development of the company's mines, which means profits for its stockholders.

Matty—"I wonder if Professor Kidder meant anything by it."

Charlie—"By what?"

IT PAYS TO ADVERTISE

FAIR ASSOCIATION MEETS IN PATAGONIA

The San Cruz County Fair Association met Tuesday evening at the Commercial hotel, Patagonia, to set a definite date for the fall fair and to transact other business. October 17 was decided on as the best date for the affair, as it would allow farmers to gate better displays, owing to the late development of crops this year.

County School Superintendent Mrs. Grace A. Farrell appeared before the meeting and offered to put on a demonstration by school children in the nature of a pageant. The offer was accepted.

A communication from John J. Farley of Patagonia protesting against the exhibition of calf and steer roping and other exhibitions of like nature, was read. Mr. Farley, in his communication, stated that the so-called cowboy sports were cruel and unnecessary and that other sports of a less barbarous nature could be substituted therefor which would meet the approval of a majority of persons attending the fair. The matter was discussed at length, and suggestions were made to those present to talk to members of the sports committee with the view to having all contests handled in the most humane manner possible.

It was decided to ask for bids for the concessions at the fair this fall, as the ladies' clubs of the county did not wish to handle them as they did last year. They will be let, as a whole or in part, to the highest and most responsible bidder.

The association will give a dance at the Fair hall, Sonolita, Saturday night, September 18, for the benefit of the fair fund. Everybody should attend this event and make the receipts as large as possible.

W. F. Noll, secretary of the association, and Lon Hunt, of Elgin, and Ed Lo Gendre of Sonolita were present at the meeting besides a number of Patagonians.

ARCUS REDDOCH GOES TO C. A.

Arcus Reddoch, one of the best known residents of Santa Cruz county for many years, left Nogales this week for Honduras, Central America, where he will be employed by the railroad company of that country, which is under the management of his brother. Mr. Reddoch will move his family to that place soon, where he expects to become a permanent resident.

What is said to be the high mark in New York realty transactions is the recent sale of the Eutaw building, the largest, but not the tallest, skyscraper in the metropolis, for \$38,000,000. This is enough to make even a Miami or Los Angeles realtor envious.

OFFICIAL PROCEEDINGS

OF THE SANTA CRUZ COUNTY BOARD OF SUPERVISORS

OFFICE OF THE BOARD OF SUPERVISORS, Nogales, Arizona, August 3, 1925.

The board met pursuant to adjournment of July 13, 1925. Present: Chairman James L. Finley, Members Robert A. Campbell and Hugo W. Miller, and Clerk A. Dumbauld.

Hugo W. Miller presented to the board a map of the Jund Heights subdivision for approval, setting out the streets as mapped and surveyed and to be dedicated to public use.

Upon motion duly made and carried the same was approved and the chairman authorized to sign the same, also to be attested by the Clerk of the board.

Mr. Elliott appeared before the board with reference to making an audit of the County Treasurer's accounts, making the following proposition to the board:

That he would begin an audit on or about the 24th of August, 1925, and on the following per diem basis: Principal auditor to receive \$25.00 per day, junior auditor to receive \$20.00 per day, transportation from Tucson to Nogales and return to be paid by the county. The work to be done on an eight-hour-per-day basis.

The typing of the auditor's report to be an extra charge and to be paid by the county. Mr. Elliott stated this work would cost possibly from \$80.00 to \$100.00.

Upon motion duly made and carried the board accepted Mr. Elliott's proposal as made, up to the expenditure of \$200.00, the audit to begin as of the date December 31, 1924, and to run back through prior years, the board reserving the right to discontinue the audit at any time satisfactory results and progress were not being made.

The County Attorney was authorized and instructed to attend the hearing of the Southern Arizona Power Company before the State Tax Commission in Phoenix on August 6, 1925.

H. J. Brown and Mr. Russell appeared before the board in the matter of the purchase of a new motorcycle for traffic work in the county. Mr. Brown stated that the old machine was in bad condition and needed overhauling and that it would cost around \$100.00 for this work, and asked the board to turn in the old machine on the purchase of a new machine.

Mr. Russell made the following proposition to the board: Cost of a new motorcycle, \$381.00, 1926 model; allowance for old machine, \$150.00; balance, \$231.00 to be paid cash upon delivery of new machine.

Upon motion duly made and carried the board instructed Mr. Russell to deliver the new machine to the motor cop of the county as soon as possible to make delivery.

Mr. Duane Bird and R. N. Keaton appeared before the board with reference to roads across the land of Mr. Keaton. After discussing the matter, the board referred the matter to the County Attorney, to be taken up by him with Mr. Keaton and his attorney, Mr. Bird, to ascertain what might be done along the line of an agreeable settlement.

Upon motion of Campbell, seconded by Miller and carried, the County School Superintendent was authorized to use her best judgment in the matter of transportation of school children in the county, with the understanding that this work would be taken care of as economically as possible, Chairman Finley opposing above action.

The following claims and demands were presented to the board, audited, allowed and ordered paid out of the various county funds:

E. E. Roberts	Road Work, District 2	\$11.50
E. C. Best	Road Work, District 3	52.00
Elbert L. Kinsley	Road Work, District 3	145.00
Harry Steen	Road Work, District 3	79.00
Charles Sheldahl	Road Work, District 3	48.00
A. C. Yeary	Road Work, District 3	67.00
A. C. Holcomb	Road Work, District 2	128.50
Harry Steen	Road Work, District 3	35.00
Frank Seibold	Road Work, District 3	52.00
Elbert L. Kinsley	Road Work, District 2	178.00
Harry Steen	Road Work, District 3	113.00
E. C. Best	Road Work, District 3	62.00
Robert Kane	Road Work, District 2	44.00
Howard Chapman	Road Work, District 2	44.00
Gus Amado	Road Work, District 2	44.00
M. Saldaña	Road Work, District 2	32.00
H. H. McCutchan	Road Work, District 2	139.50
Pat Downey	Road Work, District 2	20.00
Leonard Wingo	Road Work, District 2	92.00
Harvey Walker	Road Work, District 2	103.50
Evans Mercantile Co.	Supplies, Road Work, District 3	17.35
Patagonia Light Plant	Supplies, Road Work, District 2	16.21
Pov & Titcomb, Inc.	Supplies, Road Work, District 3	9.65
C. S. Thrapp	Blacksmithing, Road Work, Dist. 2	14.50
Evans Mercantile Co.	Supplies, Road Work, District 2	35.35
Virginia V. de Fraijo	Feeding Prisoners	100.53
A. L. Peck Jr.	Auto Service, Sheriff's Office	375.00
A. L. Peck Jr.	Gas, Oil and Supplies, Motor Cop.	6.02
Roy & Titcomb, Inc.	Supplies, General	4.04
Heinze, Bowen & Harrington	Supplies, General	36.25
E. K. Cammings	Premium on Insurance	39.80
V. de Fraijo	County Agent	125.00
R. C. Espinosa	Plumbing, County Jail	11.35
J. D. Halstead Lumber Co.	Supplies, General	8.15
I. P. Fraizer	Expense, County Attorney's Office	118.00
W. F. Chenoweth	County Physician and Health	1.05
Western Union Tel. Co.	Telegrams	14.92
Victor J. Wager	County Assessor's Expense	21.40
H. J. Brown, Sheriff	Sheriff's Contingent Expense	91.82
Evans Mercantile Co.	Troceries, Indigent (P. Dycker)	11.25
F. A. Sarabia	Repairs, County Clock	7.90
City of Nogales	Water, Court House	22.50
Southern Ariz. Power Co.	Gas, Electricity and Supplies	45.20
Anna B. Ackley	County Treasurer's Expense	45
Robert E. Lee	Stenographer's Services	85.50
Mountain States Tel. Co.	Phones and Tolls	61.16
C. G. Morgan Pig. Co.	Supplies, Cler. of Court	25.00
Howard Keener	Publishing, Pkg. J. P. Office Rent	239.50
Heinze, Bowen & Harrington	Supplies, General	22.50
O. A. Smith	Sept. Outdoor Indigent Relief	50.00
O. A. Smith	Outdoor Indigent Relief	170.00
Walker Transfer Co.	Coal	371.92
Nogales International	Pkg., County Atty. and County Treas.	4.75

The following names appearing on the county payroll for the month of July, the same were audited and ordered paid out of the county salary fund:

W. A. O'Connor	Superior Court Judge	\$125.00
Robert E. Lee	Clerk of the Superior Court	187.50
Robert E. Lee	Court Reporter	125.00
E. Ruth French	Deputy Clerk of Court	100.00
Anna B. Ackley	County Treasurer	187.50
Agnes B. Hamlin	Deputy County Treasurer	125.00
Victor J. Wager	County Assessor	187.50
Mary C. Carey	Deputy County Assessor	125.00
Tracy Bird	County Recorder	187.50
Beula O. Bird	Deputy County Recorder	82.50
James L. Finley	Chairman Board of Supervisors	108.32
Robert A. Campbell	Member Board of Supervisors	91.65
Hugo W. Miller	Member Board of Supervisors	91.65
A. Dumbauld	Clerk Board of Supervisors	150.00
H. J. Brown	Sheriff	306.00
H. J. Patterson	Undersheriff and Fingerprint Expert	160.00
Arcus Reddoch	Jailor	125.00
J. W. Hathaway	Motor Cop and Deputy Sheriff	150.00
Miles Perry	Jailor	125.00
Tollie L. Wren	Jailor	125.00
James G. Kane	County Ranger	125.00
H. B. Shreve	Jailor	125.00
W. F. Chenoweth	County Physician and Health	175.00
Charles E. Hardy	J. P. Precinct No. 1	150.00
Charles P. Lopez	Court Interpreter	125.00
A. D. Page	Constable Precinct No. 1	5.00
Mrs. George W. Parker	Jail Matron	25.00
Howard Keener	J. P. Precinct No. 2	25.00
James G. Kane	Constable Precinct No. 2	5.00

The following monthly reports of county and precinct officials were presented, read and filed: County Assessor, Clerk of Court, County Physician, County Recorder, Sheriff, County Treasurer, and Justice of the Peace of Precinct No. 1.

The Vanishing Men

By RICHARD WASHBURN CHILD

(Copyright by E. P. Dutton & Co.)

CHAPTER XVII—Continued

She did not talk to him as he fixed the car, nor when, having looked back along the slight cut of the old prehistoric torrent bed now filled almost to its old banks with drifting sands, he squatted over a map, measuring and consulting a pocket compass. His anxiety was evident.

They went forward again, however, under the full light of day into a trackless waste where there was not even a depression to guide them and where Brena, holding the compass in her hands, gave directions to him as he moved the wheel. At the end of twenty miles more Brena uttered an exclamation.

"What is that on the desert?" she asked. "Peter, look! There! to the left."

A little point of light shone on the sand as if a diamond had caught the sunlight and had extracted from it a bit of its essence to outshine the sun himself. Peter, steering toward it, looked down over the edge of the car as one might look over the edge of a boat at some piece of strange flotsam sighted in midocean. This was strange flotsam indeed. Peter having stopped the car again to pick it up, showed it to Brena; it was an empty vial of white glass.

Peter sprang out of the car, and, walking about in widening circles, searched the ground. He appeared excited. Time and time again he looked at the little glass vial.

"Some one has been here," said Brena. "I'm just Irish enough to say that, Peter."

"Hush," he said. "I've seen more than you have seen. It means everything to us!"

He bent over her as if he were going to take her in his arms, but he tossed his head at some thought that had restrained him, and took the wheel once more.

At nine o'clock they came within sight of a great mound on the desert; it appeared as if it were the fat round back of some gigantic creature that had buried itself for a sleep of centuries in a sand wallow of vast area.

"There it is!" exclaimed DeVolte. "Look, Brena. Look to the west. Somewhere up there is the Llano Estacado—the Staked plain—as the Spanish explorers called it. And there's the haze on the horizon—the haze that the Jesuit missionaries told about. It comes from the colder air of the Mesquero ridge!"

"And it means that we have found our way?"

"Yes, found our way. There's ninety miles more."

"Where are we going?"

"To the oldest city, Brena, in America. To a city at the base of a high cliff, built of clay which crumbled centuries ago into dust. The wall is left perhaps as it was two centuries ago. A dry well. A carving upon the rock. A windless place occupied only by horned toads and perhaps one other misshapen thing."

At three o'clock they had stopped again to eat; they were able to see in the west the tops of distant mountains marked by a deeper, duller blue than the thin cloudless rotunda of the sky. An hour later they came within sight of the tableland upon which these mountains were set like piles of food upon a giant's doorstep. And this step up—this mesa—with its precipitous edge, marked the end of the desert.

"The cliffs that rise to that tableland are impassable," said Peter, with his eyes alight and his voice filled with excitement. "The city was built below their protection around a great well. I walked in front with thick fortifications. We shall see them, Brena!"

He looked at the opening in the high wall as if it were the maw of Destiny opened to belch forth upon them a sentence.

"Tell me, Peter—are there dangers there? Do you know?"

"I only guess," he answered. "I think there are none. I think, Brena, that beyond that wall there is freedom for us—life for us—a message for us."

"I must go with you."

He nodded.

At the entrance he stopped, gazing down at the ground—the film, the blanket of fine dust. He uttered an exclamation.

"What do you see, Peter?"

"I see a record in the sand."

"What record?"

"There are things of gold, too," said Peter. "Keep your nerve, dear. Look at this!"

He held out in his trembling fingers a signet ring with an H deeply engraved upon it.

"That!" exclaimed Brena with horror. "It was his!—Jim Hennepin's. This is—him?"

"Yes."

Brena moved toward the pile of bones half consumed by fire; then she stopped and looked away.

"He was killed," she said. "He was shot or stabbed."

"No," replied Peter grimly. "It was worse than that—more ghastly. He was killed. But it was not by human hand."

CHAPTER XVIII

"Brena, I want you to stand here by this old well without walking away from it a moment," said Peter, taking her by the shoulders and looking squarely into her dark eyes. "I'm going to leave you alone a minute. It's not pleasant. I want you to do it just the same."

"Where are you going?"

"Outside the wall again. I've seen something there that you did not see."

Brena shivered.

"Don't be afraid, dear," he said. "We have had—both of us—the lesson of futile fear. Once we told each other that fear was a crime—a terrible waste. We are on the verge of learning how terrible a waste it can be."

She put her hands in his; with a smile she said, "You see, Peter, I am in the dark, dear. But just the same I'll do as you tell me."

As he walked away from her, his head bent forward as if meditating, she leaned back against the hot, flat face of one of the huge stone blocks of the well curb, following him with her steady gaze. He disappeared outside the old wall, and as he vanished, so vanished all that attached her to the living world. There was no sound, no motion within the range of the senses; the place of death was still.

From the tablelands above, a lonely buzzard had come swooping down on wide black wings, dipping and turning, with one eye cocked down, as if sometime before he had picked bones in this inclosure and had returned to the scene of gruesome feasts. Black, ill-omened, carrion creature that he was, Brena felt glad that he had come—a thing of life and motion—into this place of vast dimensions filled by the silences and rigidity of death. She

waited for her to look up again; she had been staring down at the yellow-gray dust.

"I suppose you can see," he went on. "I suppose you can see now what was in his mind. Two pictures. One was the picture of Jim Hennepin alive—that great muscular athlete who drank hard, who had the false traditions of the South, the love of death oaths, the degenerate temper, the sly smiling ways of carrying a vengeance through. He saw him escaping from the desert. Brena—heaven knows how—but escaping by some desperate effort, some chance, some miracle, some way that Parmalee's brain could not conceive, but yet couldn't be put out of range of possibility. He saw Hennepin seeking him. Yes, he saw it—a picture—a thousand haunting pictures—Hennepin with his malleous, desperate, haunting eyes and his terrible muscles. He saw him smiling along the trail for his quarry. He saw him walking about a quiet picture gallery, and realizing that Parmalee had taken him, turn red with renewed wrath which would send him out for a knife."

"At last that imaginary Hennepin became almost a reality," said Brena. "He shot at him once—at a reflection in a piece of glass. He kept Paul because Paul was a brute who would fight. He was afraid Hennepin would send some assassin to get employment as a servant. He never knew when Hennepin might come—and kill."

"But he saw the other picture too. He saw the buzzards hovering over what was left of Hennepin, he saw a whitened skeleton grinning up at the sunlit sky and at the stars, Brena. That's what he saw. And some day some one would somehow come there. Perhaps some one had been there already. Perhaps at the very minute a prospector, dirty and unshaven, or some accursed archaeological explorer from a university was in that very town where they had bought the horses and was telling of the skeleton and of finding the skeleton of the riderless horse with the bit still held between the white teeth. He might have that bit in his pocket. Some one recognizes it. Somehow the chain once started never ends until—"

"There comes a hand upon the shoulder," said Brena, as if in a dream,

screams echoing back from the rocks, his curses rising into this thin pale-blue sky and the vultures swing overhead."

"Seven years ago," she whispered. "Yes, seven years. And four years of torturing fear—that was the pay of the one who rode away."

"Compton Parmalee?"

She said it without any external sign of emotion.

"Yes," said Peter. "He had succeeded in wiping out one blackmailer. But another, more terrible, sprang up—fear."

"He feared discovery?"

"Yes, and something else. He could never feel sure that Hennepin was dead. That was the curse upon him—the fear the murderer feels, twisting and alternating with the fear of a physical coward who ever hears those threats, those curses, those promises of vengeance coming across the moonlit desert as he rode away that night."

She shuddered.

"Yes," said Peter. "That was why Parmalee destroyed the map. He had probably ridden back to some other settlement after shooting Hennepin's

horse in some gully and he wanted to wipe out all evidence. For months he resisted the temptation—that burned and scorched inside—to see you."

"To find out whether I had been told anything about Hennepin's destination? And then when he wasn't sure—when there was that scrap of paper not accounted for—! Peter, it is too horrible; he proposed that strange marriage agreement in order to go away and take me with him. He was afraid I might remember some word—give some clue."

"No," replied Peter. "It was that of course. But that was not all. The spark of real man that you saw in him was there, Brena. Terror put it out at last, but the real tragedy of Parmalee was that he had that redeeming spark."

He waited for her to look up again; she had been staring down at the yellow-gray dust.

"I suppose you can see," he went on. "I suppose you can see now what was in his mind. Two pictures. One was the picture of Jim Hennepin alive—that great muscular athlete who drank hard, who had the false traditions of the South, the love of death oaths, the degenerate temper, the sly smiling ways of carrying a vengeance through. He saw him escaping from the desert. Brena—heaven knows how—but escaping by some desperate effort, some chance, some miracle, some way that Parmalee's brain could not conceive, but yet couldn't be put out of range of possibility. He saw Hennepin seeking him. Yes, he saw it—a picture—a thousand haunting pictures—Hennepin with his malleous, desperate, haunting eyes and his terrible muscles. He saw him smiling along the trail for his quarry. He saw him walking about a quiet picture gallery, and realizing that Parmalee had taken him, turn red with renewed wrath which would send him out for a knife."

"At last that imaginary Hennepin became almost a reality," said Brena. "He shot at him once—at a reflection in a piece of glass. He kept Paul because Paul was a brute who would fight. He was afraid Hennepin would send some assassin to get employment as a servant. He never knew when Hennepin might come—and kill."

"But he saw the other picture too. He saw the buzzards hovering over what was left of Hennepin, he saw a whitened skeleton grinning up at the sunlit sky and at the stars, Brena. That's what he saw. And some day some one would somehow come there. Perhaps some one had been there already. Perhaps at the very minute a prospector, dirty and unshaven, or some accursed archaeological explorer from a university was in that very town where they had bought the horses and was telling of the skeleton and of finding the skeleton of the riderless horse with the bit still held between the white teeth. He might have that bit in his pocket. Some one recognizes it. Somehow the chain once started never ends until—"

"There comes a hand upon the shoulder," said Brena, as if in a dream,

screams echoing back from the rocks, his curses rising into this thin pale-blue sky and the vultures swing overhead."

"Seven years ago," she whispered. "Yes, seven years. And four years of torturing fear—that was the pay of the one who rode away."

"Compton Parmalee?"

She said it without any external sign of emotion.

"Yes," said Peter. "He had succeeded in wiping out one blackmailer. But another, more terrible, sprang up—fear."

"He feared discovery?"

"Yes, and something else. He could never feel sure that Hennepin was dead. That was the curse upon him—the fear the murderer feels, twisting and alternating with the fear of a physical coward who ever hears those threats, those curses, those promises of vengeance coming across the moonlit desert as he rode away that night."

She shuddered.

"Yes," said Peter. "That was why Parmalee destroyed the map. He had probably ridden back to some other settlement after shooting Hennepin's

horse in some gully and he wanted to wipe out all evidence. For months he resisted the temptation—that burned and scorched inside—to see you."

"To find out whether I had been told anything about Hennepin's destination? And then when he wasn't sure—when there was that scrap of paper not accounted for—! Peter, it is too horrible; he proposed that strange marriage agreement in order to go away and take me with him. He was afraid I might remember some word—give some clue."

"No," replied Peter. "It was that of course. But that was not all. The spark of real man that you saw in him was there, Brena. Terror put it out at last, but the real tragedy of Parmalee was that he had that redeeming spark."

WEAK, RUN-DOWN NERVOUS, DIZZY

Mrs. Lee Suffered From All These Troubles, but Lydia E. Pinkham's Vegetable Compound Made Her Well

Terre Haute, Indiana.—"I was weak and run-down and in such a nervous condition that I could hardly do my work. I was tired all the time and dizzy, had no appetite and could not sleep. I tried different medicines for a year but they did not help me. Then my husband saw the ad. for Lydia E. Pinkham's Vegetable Compound in the newspapers and also gave a fair-sized amount of green feed. At 2 p. m., another feed of grain and at 5 or 6 p. m., a last feed of grain and also all the greens they can eat. A good growing mash should be before them in hoppers, giving one-quarter as much mash as grain by weight. This program says: "Won't you eat a little" over and over, and at night you will have the satisfaction of having these young ladies going to bed with crops only partly filled. As long as this is continued you know these birds are growing bodies, not combs, and you may be surprised to find that in four weeks' time these same youngsters will have gained anywhere from three-fourths to one and one-quarter pounds each, without having come into laying. When maturity (full body growth) has been reached, you can put on the laying program and feel that one more point in poultry management has been put under definite control.

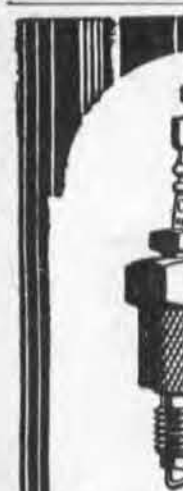

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all these troubles.

For sale by druggists everywhere.

Life's Span Extending

In spite of the fact that the continued betterment of health and living conditions in this century has given Americans the expectancy of longer and longer lives, the average American had his "expectancy of life" reduced from 58.01 years in 1921 to 57.52 years in 1923, or a loss of about eight months. According to statisticians of a leading life insurance company, who compiled the figures, greater prevalence of influenza and pneumonia in 1922 caused the reduction, but from advance indications for 1924 and 1925 the expected span from birth to death will be a larger number of years than it was in 1921, a banner year.

The successful are criticized.

POULTRY

MATURING PULLET BEFORE SHE LAYS

One of the best discussions of a good method of finishing pullets comes from the pen of Mrs. George E. Shoup of the Western Washington Experiment Station, which is as follows:

To put on body growth, give a low open hopper of cracked yellow corn or yellow cornmeal. Keep it full all the time. Feed a full breakfast of sprouted oats or scratch, using so much that a little grain is in the litter at the next feed. At breakfast time or shortly after give sour milk, or a substitute, using four to six quarts to the hundred birds. At 11 a. m. again feed scratch grain and also give a fair-sized amount of green feed. At 2 p. m., another feed of grain and at 5 or 6 p. m., a last feed of grain and also all the greens they can eat. A good growing mash should be before them in hoppers, giving one-quarter as much mash as grain by weight. This program says: "Won't you eat a little" over and over, and at night you will have the satisfaction of having these young ladies going to bed with crops only partly filled. As long as this is continued you know these birds are growing bodies, not combs, and you may be surprised to find that in four weeks' time these same youngsters will have gained anywhere from three-fourths to one and one-quarter pounds each, without having come into laying. When maturity (full body growth) has been reached, you can put on the laying program and feel that one more point in poultry management has been put under definite control.

A number of such details as this used by one and neglected by another makes the difference of steady, or spasmodic, egg production during the following year. In short, it helps to make one a poultryman who makes his chickens keep him and not one who just keeps chickens.

Cholera and Limberneck Cause of Poultry Loss

Cholera and limberneck are two diseases that attack the poultry flocks and cause the loss of a number of birds each year, says D. H. Hall, extension poultry specialist at Clemson college, who suggests below methods of treatment for these troubles.

Cholera is one of the worst diseases that is known in the poultry business. It attacks the fowls very suddenly, and as a rule a poultryman loses from one-third to one-half his flock before he can do anything. The best treatment is to prevent the spread of the disease rather than to treat the sick birds. Spray the house with a 10 per cent solution of some disinfectant, and burn or bury all of the droppings and dead fowls in deep holes. Feed wet mash in troughs so as to prevent spreading through dry mash hoppers. Keep the water fountains clean and use permanganate of potassium as an antiseptic in drinking water.

Limberneck is a disease resulting from poisoning of the fowl caused by feeding on decomposed animal flesh. This disease is characterized by a paralyzed condition of the body. The neck becomes limber and the head cannot be held erect. In treating this disease give each bird two teaspoonsful of castor oil with a few drops of turpentine, and find the cause of the disease and remove it. Bury or burn all dead fowls.

Five Excellent Reasons for Standard Bred Hens

Here are five reasons for keeping standard-bred poultry: More uniform in size, type and color. More attractive in appearance and appeals more strongly to purchasers of stock and eggs. Offer a greater combination of practical and useful qualities suitable to the needs of the farmer and poultry keeper.

The products of standard-bred fowls are more uniform in quality, are in greater demand, and bring better prices. Standard-bred poultry means greater success and better profits.

Average Production of Hens in Ordinary Flock

A flock of hens that averages 100 eggs a year per hen is a good flock. Here is the number of eggs per hen such a flock should average in each month:

November	8 eggs
December	10 eggs
January	12 eggs
February	10 eggs
March	12 eggs
April	12 eggs
May	20 eggs
June	20 eggs
July	16 eggs
August	16 eggs
September	12 eggs
October	8 eggs

Best Poultry Tonics

Fresh air, sunshine and exercise are the best tonics that can be given poultry. But fresh air does not mean drafts in the houses, nor does sunshine call for exposure to the hot sun's rays during the summer. But the houses should be so constructed that fresh air will be present both day and night, and the atmosphere purified. They must, too, be so arranged that the sunshine may reach every corner of the interior to destroy germs that may be lurking in dampness.

In the JUNGLE

With Cheerups and the Quixies by Grace Bliss Stewart

POLLY PARROT'S DILEMMA

"GOOD morning, good morning," good morning!" screamed Polly Parrot at the top of her voice. "It's time to get up; it's time to get up!" "Oh, dear!" yawned Cheerups sleepily, as he stretched himself and opened one eye. "What was that noise? I didn't tell the Quixies to call me. Oh, here's a visitor already. How do you do, Polly Parrot? I have seen some of your cousins in the United States and so I recognized you right away. I hope you'll excuse me for not being dressed. I'll just slip on this bathrobe," and Cheerups wrapped a large fern snugly about him.

"Of Course I'll Excuse You," Cried Polly, Flapping Her Wings.

But as you are one yourself, I doubt if you can tell me. You wouldn't go to the bat to find out how to see, now, would you?" "Do calm down, Polly, and tell me what is the matter," said Cheerups in a gentle voice. "At least you can give me the chance to be of some help." "Well," began Polly more pleasantly, "Mr. Parrot and I build our nest—no, we don't either; we don't really build a nest at all, we just find some nice cozy hole in the trunk of a tree and there I lay my eggs. Then the trouble begins! For I do get so tired sitting on those eggs day and night, and Mr. Parrot never offers to help me ought. It really seems to me that he ought to do his share."

"Have you asked him nicely to do

so, Polly?" inquired Cheerups. "Well, I've scolded a lot about it," replied Polly sheepishly. "That won't do," said Cheerups, with as nearly a severe look as his merry little eyes would hold. "That won't do at all. When you go home, just ask Mr. Parrot as pleasantly as you can if he won't sit on the eggs part of the time. Mention that 'turn about is fair play,' and say that you will fly off and find a juicy worm or a bit of fruit for his supper while he is sitting on the nest. And, mind you, here's another good idea which may come in handy sometime. If you ever think that danger is coming too near your precious eggs, call the rest of the Parrot flock to come and help you drive off the enemy. Mother Nature tells me that they will gladly do it.

"But the very best way, as you will find, To get your wish, is just be kind."

Poor Polly was so ashamed of herself that she hung her head for a minute, then she screamed delightedly, "I'll try it, Mr. Cheerups, I'll try being kind and pleasant; and I won't forget what you say about asking the other Parrots to help me, either. Thank you very much. Now I must go home, for no telling where Father Parrot is and those eggs may be getting cold."

"Won't you stop for a bit of bread-fruit with us?" called Cheerups.

Popular "Jimmy" Morrison, prominent in the "movies," was born at Mattoon, Ill. After a liberal arts education at the University of Chicago, he entered upon a stock and vaudeville career which led him straight to the screen. Mr. Morrison weighs 135 pounds and is nearly six feet tall.

"No, thanks, too much of a hurry," chattered Polly and was gone.

From that day to this the rule in the Parrot family has been share and share alike.

Your Health By Andrew F. Currier, M. D.

SUBACIDITY OF STOMACH

NO ORGAN of the body gives people more trouble and distress than the stomach, though it also gives much pleasure and satisfaction.

Its troubles range from the simplest dyspepsia to the serious ulcer and the fatal cancer.

Especially after maturity, when people are constantly indulging in all sorts of improprieties in eating and drinking, is the stomach prone to be rebellious and refuse to submit to maltreatment.

The stomach is at work so many hours out of the twenty-four it is not strange it should give out and show its exhaustion by disease.

All kinds of food pass into this or-

James Woods Morrison

And nobody would blame him for strutting through the forum or festival center or wherever the admiring crowds might be assembled.

For Jimmy has put all the old heads among the local rose growers to rout and won the grand sweepstakes prize for the best blossom at the rose show against contestants who have spent double his lifetime in making pruning a fine art and fertilization a matter of prayer.

The judges decided that a Frau Carl Druschki rose, grown on one of Jimmy's own bushes in the family garden at 884 East Yambill street, was the finest among all the aristocrats of blossoms entered at the show.

Weak, Noble Creatures

In this world there are thousands of weak, noble creatures who fancy that sacrifice always must be the last word of duty; thousands of beautiful souls that know not what should be done and seek only to yield up their life, holding that to be virtue supreme. They are wrong; supreme virtue consists in the knowledge of what should be done, in the power to decide for ourselves where to we should offer our life.—Maeterlinck.

Mothers Wear 'Em Too

One reason so many modern girls are taller than mother may be discovered just beneath their stocking heels.—Boston Herald.

THE WHY of SUPERSTITIONS

By H. IRVING KING

CROWS AND THE CROPS

AS A rule crows are birds of evil omen. But there is one condition under which a farmer may see a crow to his advantage. If a solitary crow is seen walking about a field just before it is put to seed then it is an omen of good crops. But should the lone crow perch on a limb overlooking the field as the seed is being put in the corn will run to stalk and there will be precious little grain. And if the crow caws the crop will be a total failure.

This is because the crow—or the raven, which is practically the same thing—is an attendant bird of Odin, the chief of the Norse gods, and Odin had a direct interest in agriculture, as many stories of him attest. It was formerly the custom in the Scandinavian peninsula to leave standing in the field after the harvest a sheaf of wheat "For Odin's horses," and the god is represented as once having protected in person a field of rye near Trotenborg in which rye grew with astounding fullness. Now when the bird of Odin walks quietly over a field, inspecting it, he is acting for his master—giving it Odin's protection. This is mythology, a survival of the Norse religion. But in the perching of the crow upon a limb overlooking the field we see the introduction of magic. He is perched on a limb—a stalk, as it were—and so, by sympathetic magic, the future crops will run to stalk in imitation of the limb upon which the crow perches. The ancients not infrequently mixed up magic with their mythology.

Western Boy's Rose Takes Prize Honor

If these were the good old times, when laurel wreaths rested on deserving brows, fourteen-year-old Jimmy Dunning, rose grower extraordinary, would have one cocked over his cowlick, and a youthful blackamoor page besides, to carry the tall of his toga, says the Portland Telegram, which continues:

And nobody would blame him for strutting through the forum or festival center or wherever the admiring crowds might be assembled.

For Jimmy has put all the old heads among the local rose growers to rout and won the grand sweepstakes prize for the best blossom at the rose show against contestants who have spent double his lifetime in making pruning a fine art and fertilization a matter of prayer.

The judges decided that a Frau Carl Druschki rose, grown on one of Jimmy's own bushes in the family garden at 884 East Yambill street, was the finest among all the aristocrats of blossoms entered at the show.

Weak, Noble Creatures

In this world there are thousands of weak, noble creatures who fancy that sacrifice always must be the last word of duty; thousands of beautiful souls that know not what should be done and seek only to yield up their life, holding that to be virtue supreme. They are wrong; supreme virtue consists in the knowledge of what should be done, in the power to decide for ourselves where to we should offer our life.—Maeterlinck.

Mothers Wear 'Em Too

One reason so many modern girls are taller than mother may be discovered just beneath their stocking heels.—Boston Herald.

CROWS AND THE CROPS

AS A rule crows are birds of evil omen. But there is one condition under which a farmer may see a crow to his advantage. If a solitary crow is seen walking about a field just before it is put to seed then it is an omen of good crops. But should the lone crow perch on a limb overlooking the field as the seed is being put in the corn will run to stalk and there will be precious little grain. And if the crow caws the crop will be a total failure.

This is because the crow—or the raven, which is practically the same thing—is an attendant bird of Odin, the chief of the Norse gods, and Odin had a direct interest in agriculture, as many stories of him attest. It was formerly the custom in the Scandinavian peninsula to leave standing in the field after the harvest a sheaf of wheat "For Odin's horses," and the god is represented as once having protected in person a field of rye near Trotenborg in which rye grew with astounding fullness. Now when the bird of Odin walks quietly over a field, inspecting it, he is acting for his master—giving it Odin's protection. This is mythology, a survival of the Norse religion. But in the perching of the crow upon a limb overlooking the field we see the introduction of magic. He is perched on a limb—a stalk, as it were—and so, by sympathetic magic, the future crops will run to stalk in imitation of the limb upon which the crow perches. The ancients not infrequently mixed up magic with their mythology.

How Much Are Poor Roads Costing You?

5,000,000 of America's 18,000,000 motor vehicles are recognized as an economic necessity on the farm.

Is your car giving the full efficiency of which it is capable—and at the lowest cost per mile possible?

Not if you are jolting over bumps and ruts. Not if you get stuck in the mud.

In addition to the time you thus lose along the way, you also pay from one to four cents a mile more in gasoline, tire and repair bills than you would pay on permanently paved highways.

Think, too, how many so-called improved roads have gone to pieces within the past few years, thereby piling up huge maintenance and rebuilding costs.

Contrast all this with the record of Concrete Roads—the roads that have repair built out and maintenance built in. Firm, rigid and unyielding, free of bumps, ruts, holes, mud and dust, they are, in every way, the most economical roads.

Tell your highway officials you want more Concrete Roads. Such an investment will pay you big dividends year after year.

Let us give you all the facts about Concrete Roads, including the experience of other communities. Ask for our free booklet, K-3.

THE JORDAN PLAN

"As the history of the future shall be written in the schools of today, it is vital that the teacher lay in the minds of children the foundation of a sane and wholesome background from which to develop international amity and intelligent abhorrence of war."

In the above statement, Dr. David Starr Jordan expressed a profound truth and adds a prefix to a great plan for international peace.

The plan of "education for peace" looks courageously toward the ultimate abolition of international war as a legitimate sequence of disagreements between nations or between individuals of different countries. Its central purpose is the mobilization of teachers in all lands, most immediately in America, in order that their combined influence and that of their pupils may be thrown solidly on the side of peace.

After receiving the Raphael Herman \$25,000 award, Dr. Jordan's plan of education to develop international justice and friendship was adopted by the World Federation of Education Associations at its meeting at Edinburgh, Scotland, last month. The plan received hearty endorsement by the attending delegates from most of the countries of Europe and North and South America. Twenty official and 40 unofficial delegates attended from the United States.

The coordination of educational forces throughout the world, stabilizing as far as possible by teaching, the trend of the future toward peace and international understanding along the lines of the Jordan plan will without question go a long way toward that mental and moral disarmament which must precede and accompany military disarmament, and also bring about a better understanding among men.

OIL OUTLOOK REASSURING

Commenting on our future supply of oil, the Standard Oil Bulletin, published by the Standard Oil Company of California, says:

"Predictions of failure of the American supply of oil have been made almost from the beginning of the oil industry. All have proved fallacious. When the production of oil fields has dropped off, the oil industry has found new fields."

A committee of eleven members of the board of directors of the American Petroleum Institute has just issued a report on the future of the industry. The report draws particular attention to two impending developments of very great importance. One is the extension within the industry of "cracking" crude oil, a process which increases the yield of the all-important gasoline. The other is a change in motor construction which, roughly speaking, will double the mileage of the automobile per gallon of gasoline. Herein is true conservation.

Altogether the findings of the committee are reassuring. There may be passing periods of shortage of petroleum, but there is no danger in the situation.

METAL VS. COAL MINES

Labor conditions in the metal mining industry of the west contrast sharply with those in the coal mining industry of the east. It would seem that as much intelligence could be brought to bear on the coal miners' problems as has been done in the metal mines and the country relieved of the hardships following the periodical war in coal mines.

LABOR AND CAPITAL

The Brotherhood Investment Company is reported to have purchased 27,000 acres on the Gulf of Mexico, near Sarasota, Fla. It is a subsidiary of the Brotherhood of Locomotive Engineers, oldest, richest, most conservative labor organization in the United States. The Brotherhood has banks, coal mines, and other stable, sterling investments.

One way to overcome being sensitive is to realize how unimportant you are.

Official Proceedings of Bd. of Supervisors

(Continued from page 1)

The Superintendent of Outdoor Indigent Relief reported as follows on indigent relief for August, 1925:

Justo Anaya, Patagonia	\$10.00
Carmen Snoluit, Patagonia	15.00
Vicente Lopez, Harshaw	15.00
Pco. de Reyes, Tubac	10.00
Stephen Alexander, Canile	15.00
John Ates, Nogales	25.00
Mrs. Clara Baker, Nogales	10.00
Mrs. Felicitas Felix, Nogales	10.00
Mrs. Maria Adams, Nogales	10.00
E. J. Holden, Nogales	25.75
Henri Majon, Nogales	35.00

Total for Outdoor Indigent Relief \$170.00

A request for leave of absence was presented to the board by Robert E. Lee, clerk of court, and H. J. Brown, sheriff, the same being granted by the board.

A communication from the Manufacturing Stationers, Inc., and the Arizona Printers was presented and read in reference to election supplies. The clerk of the board was authorized to place order with F. H. Keddington Company of Tucson for election supplies.

The date of hearing on the Beebe and Farrenkopf and the Antonia Gralva road petitions was set for September 8, 1925.

The board now proceeded to the consideration of the county budget for the year beginning July 1, 1925, and ending June 30, 1926.

The Tentative Budget as advertised by the board, upon motion duly made and carried, was adopted as the Official County Budget without change or alteration.

OFFICIAL BUDGET OF SANTA CRUZ COUNTY, ARIZONA, FOR YEAR BEGINNING JULY 1, 1925, AND ENDING JUNE 30, 1926

ARIZONA

It has been officially announced in Jerome that the Humboldt smelter will reopen on November 1.

Every Bisbee school teacher will be given a health examination before she is permitted to enter upon her duties. It was announced recently by the health department of Bisbee.

In excess of 50 planes are expected in Tucson to participate in the Southern Transcontinental Airways celebration, November 1, according to the committee in charge.

The sum of \$10,893,825.34 represents the revenue received from all sources into the state treasury for the fiscal year ending June 30, 1925, according to figures compiled by Vernon N. Wright, state treasurer, and his deputy, Howard J. Smith, and made public in Phoenix.

Office equipments, including records and files of the Arizona office of the federal prohibition department at Phoenix were packed and shipped to Robert E. Firth, newly appointed prohibition administrator for this district, whose headquarters will be in Los Angeles.

The reduction of the freight rates on cotton seed, cotton oil and cotton seed products in Arizona agreed to in Los Angeles following a hearing before the Arizona corporation commission in Los Angeles, follows the filing of a complaint attacking rates filed by the Mutual Cotton Oil Company.

What is declared by federal officers to be the Arizona headquarters for a nationwide narcotic ring operating from headquarters in Mexico, is said by officers to have been broken up in Tucson with the arrest of Joe Alonso of El Paso, and Christina Catalano, of Tucson and Mexico City, by Federal Narcotic Agent John C. Parent and Tucson officers.

Frank M. Pool will remain in charge of national prohibition enforcement work in the state of Arizona under the present arrangements of General L. C. Andrews, assistant secretary of the treasury and head of the dry force of the nation. The re-organized dry force started to function on September 1, and the southern California and Arizona district will be in charge of Robert A. Frith of Los Angeles.

A petition for an injunction to restrain the secretary of state and the boards of supervisors of each county from placing on the ballot at the special election on September 29, the referred measure directing the legislature to enact a fish and game code, has been filed in superior court at Phoenix. The action was filed by T. E. McCullough, a taxpayer of Yavapai county, and the Arizona Game Protective association.

The mine production of gold, silver, copper and lead in Arizona in 1924 amounted to \$99,610,379, according to statistics compiled by Victor C. Helgeson, of the Bureau of Mines, Department of Commerce. The figure indicates a decrease of \$4,690,821 from the 1923 output of these metals, which was placed at \$104,301,200. The production of ore in 1924 was 19,820,505 short tons, as compared with 17,015,178 short tons reported in 1923. The output of gold in Arizona in 1924 amounted to 235,995.74 fine ounces, as against 236,109.23 fine ounces in 1923. The silver output in 1924 is recorded as 6,649,276 fine ounces, compared with 7,343,742 fine ounces in 1923. The recoverable copper in Arizona ores mined in 1924 was 677,752,013 pounds, as compared with the 1923 output of 618,925,602 pounds, and the recoverable lead in ores mined in 1924 is placed at 18,642,314 pounds, as against 16,291,548 pounds for 1923.

The Prescott National forest, despite the drought of the early part of the season, suffered less damage from forest fires during the summer than any other part of the district. While there were more fires on the Prescott than on some other forests in the southwest, fewer acres were burned over. There were 20 fires, with only 27 acres of land burned over. The total of forest fires in the southwest for the season was 800.

Through the completion of Federal air project No. 77, another 15 miles of superb road has been added to the Arizona highway system and the arterial system of roads designated as United States highways. Announcement of the completion of the work was made in Phoenix by W. C. LeFebvre, state engineer. The project starts at a point 10 miles east of Solomonsville, in Graham county, and extends eastward for 15 miles, forming an important unit of the main central Arizona highway extending from Yuma, through Phoenix, Superior, Miami and Globe on the main line of travel to El Paso. This route was designated as one of four transcontinental highways in Arizona.

A force of 30 men has begun excavation work and dismantling of the old Copper Queen smelter at Douglas, making way for a new and more modern plant to be finished in 1927.

Notice was received by State Water Commissioner Frank P. Trott at Phoenix from the federal power commission, announcing a postponement of the hearing on the application of James B. Girard for a license for a proposed power development on the Colorado river at the Diamond creek power site. Under the order for continuance the hearing will be held October 20.

MY FAVORITE STORIES

By IRVIN S. COBB

The Reverend Had a Little Lamb!

The pastor of a colored church in Tennessee was haled before the board of deacons on serious charges. It was alleged that although married he had been caught in the act of embracing a comely female member of the congregation, in the vestry room. The evidence against him appeared to be conclusive. Three presumably unbiased witnesses testified to the fact.

The accused was asked whether he had anything to say in his own defense. He answered at length and with eloquence. He led off by pointing out that the word "pastor" was a Latin word meaning "shepherd." Therefore, he properly was a shepherd. He also called the attention of the court to the fact that in pictures and paintings and more frequently in stained-glass memorial windows the Master Himself was shown as a shepherd carrying a lamb.

Now then, he contended, it naturally followed that when he, as the shepherd, took a member of his flock in his arms, he merely was carrying out the scriptural example.

In the minds of the deacons there seemed to be no way of controverting these arguments. Accordingly they went into executive session and drew up resolutions exonerating the preacher. But they added a proviso. The concluding clause of the document, as read by the senior deacon before the congregation on the following Sunday night, ran as follows: "And be it finally resolved that in future, of our beloved pastor should feel de desire stealin' over him to tek one of de lambs of de flock in his arms, dat he shall tek a ram lamb!"

The Least of His Worries

Down in southern Alabama a person of color was fetched into court to be arraigned for his preliminary hearing on a charge of wilful murder.

"Mose Tupper," said the judge, contemplating the prisoner over his spectacles, "you are accused here of one of the most serious crimes known to our laws—to wit, the taking of a human life. Are you properly represented by counsel?"

"No, suh," said the darky cheerfully. "Well, have you talked to any one about your defense since your arrest?"

"I told de sheriff 'bout de shootin' when he come to my cabin to bring me heah," said the prisoner, "but that's all."

"And have you taken no steps whatever to engage a lawyer?"

"No, suh," said Mose. "I ain't got no money to be wastin' on lawyers. Dey tell me lawyers is mighty costive."

"If you have no funds," insisted the judge, "it lies within the power of the court to appoint an attorney to represent you without expense on your part."

"You needn't be botherin' yo'self, Judge," answered Mose.

"Well, what do you propose to do about this case?" demanded his honor.

"You must be properly defended—the law so provides."

"Judge," said Mose, "ez fur ez I see concerned you kin jest let de matter drop!"

Borrowed Plumage

About once in so often I hear one which has the double merit of being good and being true. I personally vouch for the authenticity of the offering which follows:

I know a Kentucky lawyer, a brilliant man, who outgrew the small town where he was reared and where he began the practice of his profession. An offer came to him to go to Chicago and become the attorney for a big lumber concern. He went, taking his family with him.

Always he had lived comfortably but in a simple fashion as was befitting his original environment. But he felt the position he now occupied called for more display than formerly. So he rented a large house and installed a staff of servants, including a colored butler. On his first day of service the butler came to his new master for instructions.

"Mister Blank," he asked in his most buttered manner, "does you desire me to wear my full dress suit ever' night at dinner?"

"Well, no," said the Kentuckian, "on nights when we have company I'd like for you to lend it to me."

Neither Here Nor There

Two French Canadians were traveling down a Quebec river in a houseboat. One of them knew the river and the other did not.

They anchored for the night on a bar. During the night the river rose and along toward daylight the craft went adrift. Three hours later the motion awoke one of the travelers. He poked his head out of the door. An passing strange section of scenery was passing.

"Baptiste! Baptiste!" he yelled. "Get up! We ain't here no more."

"No, by gar!" said the companion after a quick glance at the surroundings. "We are here!"

FLAPPERS ARE OLD AS RACE'S HISTORY

Have Been Common in Every Race and Class.

There is nothing new under the moon. The flapper of today is one with Tyre and Nineveh. Away in the incredible years when the first foundation slab of the Sphinx was laid, the Egyptian flapper was interfering with the process of its future by furtive glances cast on impressionable members of the board of works of the pharaohs.

Cleopatra was a flapper. Shakespeare talks of her "hopping 40 paces down the public street." No one but a flapper could have adopted such a method of progression. Her freak of putting a valuable pearl in acid was sheer flapperishness.

Helen of Troy was a girl of many destructive impulses. She would have run at any cost. Hence the wooden horse and the fall of Troy.

At a little later period the skittish Venus was in the same capricious form when she prevailed upon the "Pious Aeneas" to break his journey with her.

Horace in his songs invokes the name of Lalage and other maidens. It is safe to assume that two-thirds of them were little canaries who coyly responded to the lyrical advances of the Latin nightingale.

In the heroic days the Grecian flappers took much more exercise than their Roman sisters. They were the forerunners of the modern sports girl.

Here it may be well to indicate that flappers are not confined to any one class of communities, ancient or modern. They are just as frequent among the plebs as among the patricians.

There is not the faintest doubt that ill-fated Marie Antoinette, in her early years at the French court, was an enchanting flapper.

Another most unhappy woman, Mary Queen of Scots, was so full of esplanteric and fascination that John Knox, in Puritan Scotland, found her an easy victim to stern-browed persecution.

Louise de Valliere was not the obvious type, but she was a type of flapper none the less. She was quite a little bird who attracted the long devotion of a fastidious king in a few flights. Her friend, Mlle. de Tonnay-Charente, afterwards Mme. de Montspou, was a bird of brighter methods, but both were of the order seductive that captures kings and clerks alike.

More hoydenish and daring than either of them was the gallant sister of Charles II, later Duchess d'Orleans. Charles' sister was as gay and larkly as the most up-to-date New York flapper. She loved to dress in the apparel of men, as girls of today adore appearing in mock-masculine garb at fancy dress dances.

Nell Gwyn was the very plink of flappers. Her smiles were as restorative as her oranges; and her kisses would have bucked up a regiment. Nell remained a flapper until the end.

At the same meeting adequate provision in the federal budget for maintaining the naval ratio of 5-5-3 fixed by the Washington conference was urged. Provision for the proper defense of the Hawaiian islands by fortifying them and improving Pearl Harbor and also for an increase of 4,000 in the enlisted personnel of the navy was recommended by the naval affairs committee of the Legion, headed by E. E. Spafford of New York.

In a report submitted by Reed G. Landis of Chicago for the aeronautics committee and adopted by the executive committee, support was pledged to Postmaster General Harry S. New in his reported refusal to contract for airplane mail service between the United States and South America with any company financed by foreign capital or controlled by subjects of foreign countries. Germans are financing and operating a concern which has been attempting to obtain such a contract between Key West, Fla., and South America, according to information laid before the committee.

The name "Huguenots" was given to French followers of Calvin, Protestant leader of the Reformation. They suffered massacre at Vassy by the party of Guise in 1562. This act led to the civil wars, which continued until the Edict of Nantes in 1598, when civil and religious liberty was confirmed to them. The massacre of St. Bartholomew occurred August 24, 1572, during a truce in the wars. The power the Huguenots gained as a political party following the edict was of short duration, being destroyed in a few years by Louis XIII and his minister, Richelieu. Louis XIV, in 1685, revoked the Edict of Nantes, and as a result half a million Huguenots fled to England, Germany, the Netherlands, Switzerland and America.—Kansas City Star.

Found It Easy to Forgive

"You know the feeling, that flush of anger that comes over you when you're driving peacefully along a country road and suddenly hear a familiar sharp report," said the motorist. "You begin to curse and ask yourself why you didn't change that tire. Well, I was driving near the Oakland Hills Country and Golf club recently and all of a sudden 'Bang!' I got out to see which tire it was. They were all O. K. Then up comes a beknickered chap and starts apologizing for something. 'Sorry,' says he, 'sort of missed my aim and drove my pill into your rear fender.' Sure enough there was a dent in the fender and the ball was a short distance away. I was only too glad to forgive him."—Detroit News.

To Aid Children

Knight's of Youth, a new order whose purpose is the ethical training of school children, has been introduced in 12 public schools of New York city. Nearly 1,000 children are enrolled in the ranks of knighthood in one school. This order acquires character as the knight's noblest quest, and it was formed to combat the increase in juvenile crime. It is sponsored by the National Child Welfare association.

Spread of the Bob

Shingling is still the most popular style of hairdress in Paris, London, Vienna and Rome, according to answers to inquiries made recently.

THE AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

PLANNING TO MEET IN PARIS IN 1927

Holding of the proposed national convention of the American Legion to Paris, France, in 1927 was brought several steps nearer reality, it was indicated at national headquarters of the Legion at Indianapolis, following important recent developments in the matter.

The Trunk Line Passenger association has offered to grant to all Legionnaires a round-trip ticket from any point in America to the port of embarkation for a one-way fare. John J. Wicker, Jr., of Richmond, Va., chairman of the France convention travel committee, predicts that other railroad associations will follow suit.

Assurances have been received through diplomatic channels that the French government will welcome Legionnaires with sincere pleasure. Mr. Wicker has reported. Word has come from officials of Paris post of the Legion that the people and officials of the city of Paris will cooperate to make the gathering a success.

The last week in September, 1927, has been recommended by the committee as the best time for holding the convention. Final decision in the matter rests with the national convention, the governing body of the Legion.

At the meeting at which Mr. Wicker made his report to the national executive committee, Garland W. Powell, director of the National Americanism commission of the Legion, presented his resignation. Mr. Powell, who became assistant director in 1921 and director in 1922 took the lead in campaigns for employment of veterans in 1921, for restricted immigration, for better education in all its phases, for Americanization work, against illiteracy, against revolutionary radicalism and extreme pacifism. He conducted the American education weeks and the Legion's national essay contests.

Mr. Powell, whose home is at Cumberland, Md., and who was a captain pilot in the American aviation forces, resigned to become identified with the organization and administration of Woodrow Wilson Memorial university at Valdosta, Ga.

Frank Clay Cross, of the faculty of the Colorado School of Mines at Golden, Colo., succeeded Mr. Powell. He achieved fame through the nationally known "opportunity school" in Denver. He was chairman of the Americanism committee of the department of Colorado during the past year. He served overseas for 14 months.

At the same meeting adequate provision in the federal budget for maintaining the naval ratio of 5-5-3 fixed by the Washington conference was urged. Provision for the proper defense of the Hawaiian islands by fortifying them and improving Pearl Harbor and also for an increase of 4,000 in the enlisted personnel of the navy was recommended by the naval affairs committee of the Legion, headed by E. E. Spafford of New York.

In a report submitted by Reed G. Landis of Chicago for the aeronautics committee and adopted by the executive committee, support was pledged to Postmaster General Harry S. New in his reported refusal to contract for airplane mail service between the United States and South America with any company financed by foreign capital or controlled by subjects of foreign countries. Germans are financing and operating a concern which has been attempting to obtain such a contract between Key West, Fla., and South America, according to information laid before the committee.

Honored Former Fee

For the first time in the history of the country, it is believed, American Legionnaires recently buried with full military honors a German soldier who fought against them in 1918 on the battlefields of France. This took place at Fairmont, Minn. Military rites, a firing squad and taps were accorded to Irvin Hoffman, who was drafted by the kaiser in 1918 when he was attending school at the age of fourteen. Tuberculosis resulting from privations and shrapnel wounds caused Hoffman to come to this country some months ago. He died at the age of twenty-one.

"Any man who gave his life for his country, no matter what country, is entitled to the tribute accorded a soldier," declared O. M. Merry, Fairmont post commander, who arranged the military funeral.

To Plan for Convention

A. H. Richardson, president of a prominent oil company in Nebraska, is the new general chairman of the committee planning for the 1925 national convention of the American Legion to be held in Omaha, October 5 to 9. Richardson was chosen to succeed the late Everett Buckingham at a recent meeting of the convention committee.

SATIN CREPE FOR AUTUMN; BEADED LACE FALL NOVELTY

ACCORDING to our psychologists, self-expression is the big thought of the present generation. Nor is this characteristic found wanting in the world of modern fashion. There is the matter of silk, for instance, in the days of "lavender and old lace" a silk dress was looked upon as a "possession," as a treasurable frock reserved for "Sunday-go-to-meetin'" wear or for weddings or special festive occasions. For the ordinary affairs of life calico, ginghams, percale and the like were the appointed materials. We modernists, being self-expressionists, take issue with this idea.

So it is silk we are choosing for school, for office, for home, for sports,

use is also accented by stylized, throughout autumn fashions. This vogue for lace embraces not only metal and other elaborate types, such as for instance the new beaded laces, but it also stresses chintilly and colored silk laces. This favor for lace emphasizes the tendency to exploit supple and sheer effects for this fall and winter.

One of the elegancies to which much attention is being directed is the graceful lace tunic. To be sure, there is a note of extravagance suggested in the idea, but as a matter of fact, economy is the chief asset of a lace overblouse which can be posed over various silken or satin costume slips, thus supplying

Effective Silk Costumes.

for street, and in fact for general utility wear. To substantiate this claim that silk is eminently practical for all occasions, we have taken to making it up in very simple styles which betray no signs of "fussiness" or overdress effects.

Two interesting silk frocks which eloquently bespeak modes adaptable to informal daytime wear are here illustrated. Attention is especially called to the girlish neck lines and tie effects. These tie-collars are the stylized pet theme this season. The majority of darker silk dresses are enlivened by graceful long ties marched either to the frock or in contrasting color or

a "different" appearing frock suited to the time and the event.

Referring, by way of demonstration, to the lace tunic in the picture. As shown here it is worn over a black satin slip and thus proclaims its tastefulness as a grande dame afternoon frock. Substitute for this black foundation a slip of flesh-colored satin or silver metal cloth, change the girldie for one of the delicately toned ribbon worn with loops en masse at the left hip and presto! the daytime costume becomes a formal evening gown of appealing charm. The fact that this adorable lace tunic is fashioned of several sorts of lace should prove an

Use of Lace Is a Fall Novelty.

most popular of all, of pure white washable crepe silk.

Notice, too, the intriguing manner of introducing fullness in the skirt, for the flare is an established fact for forthcoming autumn and winter frocks. The dress in the top foreground charmingly interprets the new vogue for shirred set-in portions, while the continued favor for plaiting is confirmed by the other model. In both instances satin crepe is selected for the making of these frocks, for satin crepe is an authoritatively announced as one of the popular dress materials for the forthcoming season.

In modes of the hour, lace is playing a winsome part. Its continued

inspiration to the woman of vision, and deft fingers. Most every family's cedar chest holds within its sacred precincts bits of lace treasured from generation to generation. Furthermore the bargain counter in this store and that offers tempting lace lengths to those who will, for a trifling fee, come and partake.

Beaded lace is the exquisite novelty promised for fall. In some instances the richness of lace is enhanced by embroideries in colored silk together with an interspersing of beads. There is a decided movement also toward the use of metal laces especially for evening gowns and for millinery purposes.

INFORMATION DEPARTMENT

Commercial inquiries answered and information gladly furnished without cost. Address any firm above.

Rockefeller, Jr., Pays Largest Tax. New York.—The income list made public last week revealed that Uncle Sam derives his income from many occupations and many quarters. The name of the first man of the land, politically, was far down in the list of incomes. President Coolidge paid \$14,081; Vice President Dawes paid \$24,834.

The largest contributor among members of the President's official family was Secretary of the Treasury Andrew W. Mellon, with \$1,882,609.

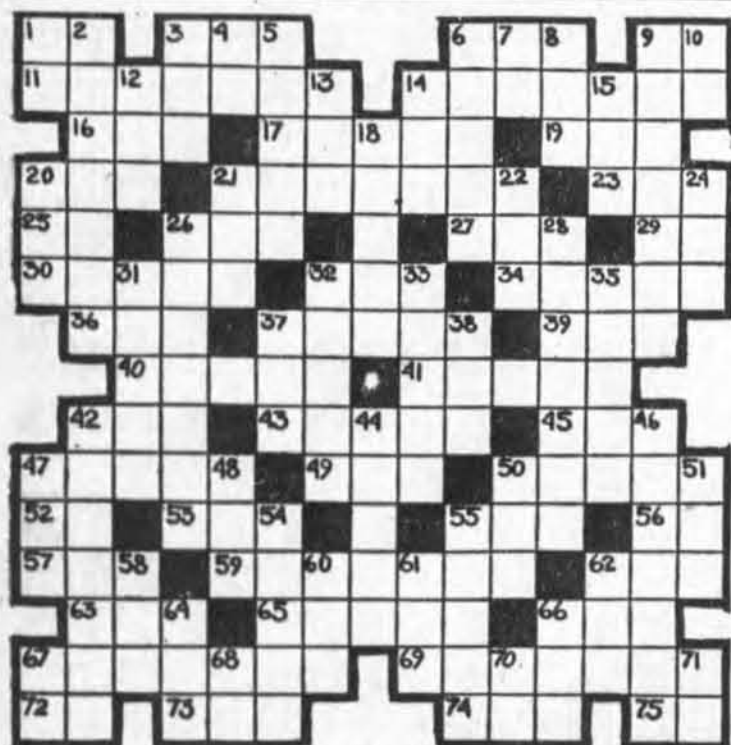

John D. Rockefeller, Jr., paid the largest personal tax thus far reported, \$6,277,699. John D. Rockefeller paid \$128,420. Henry Ford paid \$2,698,806, and Edsel Ford \$2,158,955.

The Ford Motor Company paid the largest tax reported by a corporation, \$16,493,160.

Colorado Springs.—Additional voluntary subscriptions to the \$16,000 fund being sought for the erection of a statue of Gen. William Jackson Palmer, founder and chief benefactor of the city, have been reported by Roy A. Davis, who is in charge of the financial campaign for the statue.

Three Brothers Marry Sisters

Los Angeles, Calif.—There are no more Mandelbaum girls left for the Krauth boys to marry, and if there were, there would be no more Krauth boys left to marry them. The last of the Krauth boys married the last of the Mandelbaum girls here a few days ago when Julius Krauth took for his bride the former Helen Mandelbaum. Helen's sister Nettie became Mrs. Henry Krauth eleven years ago, and more recently her sister Ethel became Mrs. Victor Krauth.

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will appear both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "Horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "Vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

NURSERY RHYME
PUZZLE

LOW, wind, blow,
And go, mill, go,
You pretty little wheel of colored paper!
You hum a purring song,
As I lightly skip along,
And through your arms the Autumn breezes caper.

Find two millers. Upper left corner down, along skirt and arm. Upper left corner down, along her back.

Coolidges Are to Have an Afghan

Plymouth (Vt.) women who know the President are busy making an afghan which is to be presented to Mr. and Mrs. Coolidge on their next visit to the birthplace of the President. The photograph shows four of the women making squares for the afghan on the steps of the post office and general store, the house in which the President was born.

U. S. Forest Fires
Cause Heavy Loss92,000 Blazes Burn 29,000-
000 Acres in Year.

Washington.—Nearly 92,000 forest fires swept 29,000,000 acres of public and private lands during the calendar year 1924, according to a report just compiled by the forest service, United States Department of Agriculture. The actual money damage was \$38,000,000, exclusive of damage to young growth, watershed protection, wild life and recreational facilities.

The figures, say forestry officials, clearly reflect the bad forest fire conditions which prevailed last year, especially in many southern states and in California. Compared with the calendar year 1923, the 1924 figures represent an increase of 24,000 fires, and compared with the nine-year average an increase of 45,000 fires, or nearly 100 per cent. In acreage swept by flames, the 1924 figures are only slightly larger than those for 1923, but are almost double the acreage figures representing the nine-year average.

Money damage in 1924, estimated at \$38,000,000, is \$10,000,000 above the 1923 estimate, and \$18,000,000 higher than the nine-year average of \$20,000,000. Damage to young growth, watershed protection, wild life, and recreational facilities, and losses to the lumber industry, including wages and other economic values, are not included.

Was a Bad Year.

William B. Greeley, chief of the forest service, states that the material increase in the number of forest fires reported during 1924 is partly the result of more complete reports, although 1924 was a very bad year in many sections of the country.

"Excessively dry weather was experienced in California and in the Gulf states," said Chief Forester Greeley, "and in these states the 1924 fire figures show great increase over the nine-year average. Smaller increases are also shown in most other states."

An analysis of the 1924 statistics shows that incendiary fires top the list with 21,000, or about 23 per cent of the total. Brush burning comes next with 10,000 fires, or 18 per cent, and fires caused by smokers is third with 13,000, or about 14 per cent.

Other chief causes of forest fires in 1924 were railroads, camp fires, lumbering and lightning. Lightning is considered the only natural cause of forest fires. Only six per cent of the 1924 fires were started by lightning.

Public Opinion a Needed Weapon.
"The greatest single agency with which to combat forest fires," said Colonel Greeley, "is public opinion. No thoughtful citizen can read the 1924 figures without coming to the conclusion that the fight against forest fires is his personal fight. The federal and state governments are doing their utmost with the funds and equipment allotted to them. It is high time that a more effective weapon is placed at their disposal, and that weapon is an outraged public opinion."

The figures given in the forest service report apply to all public and private lands in the United States and not merely to the national forest areas under the jurisdiction of the United States Department of Agriculture. On these latter areas, which embrace 137,000,000 acres, the number of forest fires during 1924 totaled 8,247, the area swept by flames was 602,000 acres and the money damage was estimated at \$1,500,000.

CITIES OF THE FUTURE TO
BE LARGE TRADE CENTERSPeople Will Live in Widely
Scattered Suburbs.

Chicago.—Cities of the future will be made up of a central area, devoted to business and night life, and widely scattered suburbs in which all the married people will live.

That is the conclusion of D. R. McKenzie, exchange professor of sociology from the University of Washington to the University of Chicago.

In outlining his study of ecology, or the forces that distribute population, Professor McKenzie asserted it's all a question of transportation.

"The first type of city," he added, "demanded that its inhabitants walk to the center for business and the pursuit of pleasure. That type tended to be circular and family life was

To Restore Lee Home
in Arlington Cemetery

Washington.—Restoration of the Lee mansion, on the highest spot in Arlington cemetery, will be undertaken under supervision of the War department, at a cost of \$225,000. A survey by the quartermaster corps, made at the direction of congress, has shown that the famous structure will require much work to put it in a condition comparable to its splendor shortly before the Civil war, and to provide adequate quarters for cemetery officials.

Union troops seized the mansion and estate surrounding it when Gen. Robert E. Lee joined the Confederate cause, and it was purchased by the government for \$150,000 in 1884. The estate of 6,000 acres was originally purchased for six hogheads of tobacco and later passed into the hands of the Custis and Lee families.

LAKE IN TENNESSEE
DISAPPEARS IN CAVESwallowed Up With Roar
When Roof of Cavern Falls.

Mayfield, Ky.—Particulars have reached here from the Idaho Springs vicinity, across the Kentucky line in Tennessee, of the swallowing up of a small lake on the farm of C. P. Warfield by the collapse of the roof of a cave.

The lake dropped into subterranean regions with a roar like that of a locomotive's passing, according to the story attributed to W. L. Warfield, who was in the neighborhood and saw the water dropping into the cavern.

In place of the lake there was an insignificant pool, scarcely worth notice. The hole when first seen by W. L. Warfield was about four feet in diameter, and the waters rushed down in a torrent, carrying fish, turtles and other inhabitants of the lake away with the great force of the suction. The water flowed through its new channel underground for some distance and then found a new exit a few hundred yards from its former location.

Trades Valuable Violin
for Cheap Saxophone

Pittsburgh.—When trial of a violin in a second-hand store revealed a tone such as he had never before heard from such an instrument, William P. Schwartz of Beechview, musician, bought it for a few dollars. The violin had been traded at the store for a cheap saxophone by a youth who found it dust-covered in an attic.

Examination by a connoisseur of old violins disclosed that the instrument was a genuine Peter Guarneri, made before 1700. It is valued at more than \$10,000.

Crow's Little Hoard

While cutting a large tree at Stow, Maine, Herbert Andrews was surprised to see a piece of money fall at his feet. Upon picking it up, it proved to be a bright dime, which was partly covered with flecks of tree mold. A careful search of the tree, after it was felled, disclosed the place from which the coin had fallen. As the tree was well back in the woods from any highway, it is believed that a crow, attracted by the gleam of the dime, picked it up and carried it to a safe hiding place.

Bee Library a Memorial

The Miller apicultural library at the Wisconsin College of Agriculture contains more than 1,100 books and bulletins relating to bee culture.

After the death of Dr. Charles C. Miller at Marengo, Ill., in 1920, fellow beekeepers sought some means of perpetuating his memory. A memorial library was finally decided on, which was endowed by the beekeepers and others. Because of the interest which the Wisconsin College of Agriculture displayed in beekeeping the Miller library was established there.

The library is an international monument to beekeeping, says a bulletin by H. F. Wilson, in charge of the agriculture department of Wisconsin college.

The Cuticura Toilet Trio.

Having cleared your skin keep it clear by making Cuticura your everyday toilet preparations. The Soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them.—Advertisement.

Preserving Wild Game

Those who want to see our big game protected commend the state authorities of South Dakota for their conservation of several valuable species of fast-perishing fauna in the state park set apart in the Black hills. Here there are 110 buffalo, 1,000 elk, 2,000 deer, 800 beaver, 400 coons and thousands of game birds. The nominal value of the creatures is \$105,000, but as teachers of natural history they are worth incalculably more.

Early Handkerchief

Churchmen have been credited with being the first to use handkerchiefs in Europe, and for a time priests alone were permitted to carry them. Even they were subjected to certain restrictions of use, for the handkerchief formed part of the vestments of the cleric's office and as a "facial" by which name it was known, was worn by the priest officiating before the altar.

It doesn't matter if beauty is only skin deep as long as the skin is worn on the outside.

No one ever became thoroughly bad all at once.—Juvenal.

The United States is remaining independent of the German dye manufacturers. Ninety-six per cent of the dyes used in America last year were produced in this country.

CHILDREN CRY FOR

**Fletcher's
CASTORIA**

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Chas. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Dedicating Solomon's Temple Site

A notable feature of Philadelphia's sesquicentennial celebration next year is to be a reproduction of Solomon's temple and citadel. The other day Mayor Freeland Kendrick dedicated the site, and he is seen above with John Mulraven, who acted as shik of the temple during the ceremonies.

PROCLAMATION ON CONSTITUTION DAY

WHEREAS, The adoption of the Constitution of the United States of America on September 17, 1787, marked a new epoch in government and a new era in human freedom, and

WHEREAS, The Constitution of the United States is founded on the theory of human liberty and freedom to all, granting religious liberty, free speech, free press and the protection of the individual to enjoy the fruits of his own efforts, and

WHEREAS, development in the last ten years, including the World War and its aftermath, make it imperative that the people of this country should have a better understanding of the principles underlying their government, and

WHEREAS, September 17 has been designated and set aside as United States Constitution Day,

NOW, THEREFORE, I, George W. P. Hunt, Governor of the State of Arizona, do hereby proclaim September 17, 1925, the one hundred and thirty-eighth anniversary of the signing of the Constitution of the United States, to be Constitution Day, and I hereby urge the people of this state to commemorate the day with fitting exercises in every community of the state, and since a new law requiring the teaching of the Constitution in the public schools is now effective, I suggest the arrangement of lectures on the Constitution in the various schools by persons competent to interpret it to the pupils.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the great seal of the State to be affixed. Done at Phoenix, the Capital, this 26th day of August, 1925.

(SEAL) GEO. W. P. HUNT,
Governor of Arizona.

Attest: JAMES H. KERBY,
Secretary of State.

"What kind of a fellow is this bird your daughter is going with?" asked a friend.

A. DUMBAULD, Clerk, Board of Supervisors

Upon motion, duly made and carried, the County Treasurer was authorized and instructed to transfer the sum of \$3,950.00 from the county general fund to the county salary fund, and a further sum of \$2,100.00 from the county general fund to the county expense fund.

There being no further business to come before the board, they adjourned to meet August 17, 1925.

Attest: A. DUMBAULD, Clerk. JAS. L. FINLEY, Chairman.

OFFICE OF THE BOARD OF SUPERVISORS,

Nogales, Arizona, August 17, 1925.

The board met pursuant to adjournment of August 3. Present: Chairman James L. Finley, Members Robert A. Campbell and Hugo Miller, and Clerk A. Dumbauld.

The following statement was presented to the board by the clerk, showing the valuations as obtained from the 1925 tax rolls:

Total State and County.....	2.155	1.03	Increase .277
Total City of Nogales.....	3.91	4.105	Increase .195

The board now took up for consideration the county road from the state highway leading to Arivaca, part of the road being in Santa Cruz county

part in Pima. The board made an arrangement with the supervisors of Pima county to meet their representatives on August 19, at 10 o'clock a. m., for the purpose of going over the road and arrange for improvement on the same.

The clerk of the board was instructed to call the attention of the State Corporation Commission to the matter of the Beebe and Farrenkopf road, which seems to have been lost sight of; also to call the attention of the Southern Pacific Company to this matter, asking for early action upon the same.

There being no further business to come before the board, they adjourned to meet September 8, 1925.

Attest: A. DUMBAULD, Clerk. JAS. L. FINLEY, Chairman.

How can you respect gray hairs when they are died black? All work and no play makes Jack a scarce article.

"My husband is plain-spoken. He calls a spade a spade."
"So is mine, but I won't say what he calls the lawnmower."

FOR OVER 40 YEARS

HALL'S CATARRH MEDICINE has been used successfully in the treatment of Catarrh.

HALL'S CATARRH MEDICINE consists of an Ointment which quickly relieves by local application, and the Internal Medicine a Tonic, which acts through the Blood on the Mucous Surfaces, thus reducing the inflammation. Sold by all druggists. F. J. Cheney & Co., Toledo, Ohio.
