## PERSONAL AND SOCIAL

### DANCE AT SONOITA JUNE 19TH

There will be a dance at the Sonoita schoolhouse Saturday night, June 19th. Music by Peitler's orchestra. Refreshments served. The proceeds of the dance will go toward paying off the indebtedness against the new school building. Everybody is cordially invited to attend.

Betty Ann Bread, fresh daily, is sold in Patagonia by Evans Mercantile Co. and the Corner Store. Baked by Home Bakery, Nogales.

Three carloads of ore were shipped this week to the El Paso smelter.

Gus Yeary of Vaughn is spending a few days this week in Patagonia during suspension of road work.

E. C. Best of Serrano canyon was a Patagonia visitor Thursday.

R. C. Larimore of Sonoita was a Patagonia visitor Thursday.

It was reported in Patagonia that the home of J. S. Goforth of Sonoita was completely destroyed Tuesday by fire.

Bert Logan, foreman of the Mowry mine, was in town Wednesday for supplies.

Sanitos table cloths, beautiful patterns. Washington Trading Co.—Adv.

Jeff Milton of Fairbank was in town last Saturday seeking men to work on his mining property in the Huachuca mountains. Several were employed and left immediately for the mine.

Louis Dussere of Tucson was a weekend visitor here of Miss Margaret Davidson and Munday Johnston.

Dan Dawson and son, Eddie, of Salero spent the week-end in Patagonia.

John Bible of Pasadena is in the district doing assessment work on his mining claims. He expects capitalists from the coast within a few days to make an examination of the property.

"Uncle Billie" Powers, who has been spending several days at Indian Hot Springs, taking treatments for rheumatism, has returned home much benefited by the trip.

I still have a few sacks of Pinto beans for sale to those who want first-class seed beans to plant. Get them before it is too late. \$3.50 per 100 pounds, f.o.b. Patagonia. Howard Keener, Patagonia, Ariz.

Supervisor R. A. Campbell and John Campbell were Nogales visitors.

The dam recently built by the Big Jim mine is being used as a swimming hole by Patagonians. The water is about 12 feet deep at one end and none but good swimmers should venture into deep water. Children should not go in the water unless there are older persons in the party.

Imported pongee, natural color, 80c yard. Washington Trading Co.—Adv.

Elbert L. Kinsley of the San Rafael valley was a Nogales visitor Tuesday. He returned home with a new car.

Mr. and Mrs. Frank Powers of the World's Fair mine were in Patagonia Saturday on their way from Tucson, where they had been on business.

Bob Kane is sporting a new coupe, girls. Things are beginning to look serious.

Mrs. O. V. Kinsley of San Rafael valley was a Nogales visitor Tuesday.

C. L. Northcraft was a county seat visitor Tuesday.

Mr. and Mrs. A. L. Kinsley and Guernie Danham of San Rafael valley were Nogales visitors Wednesday.

Mrs. Grace A. Farrell, county school superintendent, and Coach Zimmerman, principal of the Patagonia Union High school, were in Patagonia Saturday looking over several buildings as possible locations for the school.

**OH, EMERY!**  
Chalfant's peanut brittle is a real home-made confection. Fancy boxed candies for the "particular" trade. Try 'em out. 235 Grand, Nogales.—Adv.

### REGISTER AT SONOITA DANCE

Registration Officer Grace Van Osdale will be at the Sonoita schoolhouse Saturday night and will register those who desire to vote at the primary election. You can help the county recorder by registering early.

Mrs. John Oliver and daughter, Bettie, and Miss Fannie Oliver of Fort Huachuca were Nogales visitors Saturday. They returned by way of the San Rafael valley, and visited friends.

Mr. and Mrs. James Finley and children of Canille are in California for a few weeks' vacation.

Mr. and Mrs. W. C. Hooks and children were San Rafael and Canille visitors Sunday.

Ladies' silk hose, all colors, special sale, \$1.00. Washington Trading Co.—Adv.

The Rail-X ranch started its spring roundup at Flux canyon last Monday.

Word was received here Sunday of an accident to Mrs. James Kane Sr., mother of Jim and Bob Kane of Patagonia, at the ranch of her son Henry, near Tucson. Mrs. Kane sustained a broken hip in a fall and was taken to Tucson for treatment.

Postmaster H. B. Riggs and daughter, Edna, and Lola Mead are vacationing at Lewis Springs, near Fort Huachuca.

A. G. Keating, president of the Big Jim mine, left Sunday for Los Angeles, after a short business trip to the mine. He was accompanied to Tucson by J. J. Peterson, superintendent.

Mrs. Jennie Bruner has been suffering with an attack of pleurisy this week.

A. F. Kearney of St. Paul arrived here yesterday to start assessment work on the Blue Lead mining claims. He was met in Nogales by Howard E. Davis.

P. J. Whittaker of New York City was the guest of Mr. and Mrs. Carl Underwood of Nogales at the Commercial hotel Monday afternoon.

Tom Heady, Miss Ellicott and Mr. Carlson of the San Rafael valley and Mr. and Mrs. W. T. Roath of Elgin were visitors here Saturday.

Betty Ann Bread, fresh daily, is sold in Patagonia by Evans Mercantile Co. and the Corner Store. Baked by Home Bakery, Nogales.

Mr. and Mrs. Clyde Shields of Nogales were in town Saturday on their way to Fort Huachuca.

Miss Margie McCutchan returned home Sunday from a visit to Bisbee.

J. B. Tinney of Tucson is in Patagonia for a few days on business.

Miss Nora Linnahan of Tucson arrived here Tuesday to spend the summer.

P. J. Pierce, James Reis Jr., and C. A. Pierce left last night on a motor trip to California.

Miss Geraldine McCormick, daughter of Mrs. E. D. Farley, arrived home Sunday from Flagstaff, where she has been attending teachers' college.

Miss Sara Pierce returned home Wednesday from Kansas City, where she has been attending high school.

E. F. Bohlinger is in Tucson attending to business for the Richardson Corporation.

B. Maier, Benson merchant, was in town Wednesday on business.

E. E. Bethell, Dan Herrington and "Bud" Oberg were Tucson business visitors Monday.

### MAGEE FREED BY JURY IN N. M.

East Las Vegas, June 17.—Carl Magee was freed of a manslaughter charge today when Judge Louis E. Armigo granted a motion for a direct verdict. Former Judge Leahy, on the witness stand, yesterday admitted he was the aggressor in the fight that resulted in the accidental killing of John B. Lasseter by Magee, who fired at Leahy during a struggle.

### OPEN MEETING OF CHAMBER OF COMMERCE JUNE 17

At the "all-county" meeting at the All Baba theater, Nogales, under the auspices of the Nogales Chamber of Commerce Thursday night the audience listened to several addresses, all with the general subject of "what to do to bring development and new capital to Santa Cruz county." The talks were listened to with interest by many persons from all parts of the county. Patagonia, Vaughn, Elgin and Nogales all were well represented. Lower taxes is the aim of the chamber of commerce and all business of the county. This can only be brought about by bringing new enterprises and capital into the county from the outside, according to the speakers.

Mr. Carpenter of Tucson told of the work being done by the ore sampling works in his city and of its benefit to miners and the county generally. Howard E. Davis, mining engineer of Patagonia said cooperation between the mine owners and prospective developers would solve the problem of bringing new capital into the county. Lee H. Gould spoke of new wealth for the county from an agricultural standpoint, mentioning the experiments being made in the growing of Valencia onions and fall lettuce. Lee G. Zinsmeister of the Circle-Z guest ranch told of the efforts of his enterprise to advertise to advertise Santa Cruz county's wonderful scenery and climate to the rest of the country, stating that outsiders know little or nothing about this part of Arizona. He showed two reels of films that he had made of scenes near the Circle-Z ranch, which were enlightening and entertaining. The films have been shown in the east and have done much to let the people there know of our section of the country.

MRS. HENRY WOOD SHOTS MAN AT HER VAUGHN RANCH  
Wednesday afternoon Mrs. Henry Wood of Vaughn shot five times at a Mexican named Marcelino Contreras who had been working at the Wood ranch at Vaughn. One of the bullets struck the man in the thigh, causing a bad flesh wound. The wounded man was taken to Nogales by Charles Everhart, for treatment.  
It is said the shooting was the outcome of a dispute over a check, and that during the discussion Contreras had threatened the lives of the entire Wood family.

### WOODIE GATLIN TO RUN FOR OFFICE OF COUNTY ASSESSOR

Woodie Gatlin of Patagonia has announced his candidacy for the office of county assessor and is running on the Democratic ticket.  
Mr. Gatlin was born in New Mexico in 1892. He came to Santa Cruz county with his parents, Mr. and Mrs. J. S. Gatlin, in 1904, and has resided here ever since, being a resident of the county for 22 years. He was at one time engaged in the grocery business in Nogales with O. H. Weaver under the firm name of Gatlin & Weaver.  
For the past several years Mr. Gatlin has been carrying mail on a star route for Uncle Sam, but this year he was underbid for the job.  
Mr. Gatlin has a host of friends in all parts of the county and should make a good race for county assessor.

### ELKS CELEBRATE FLAG DAY

The Nogales lodge of Elks held Flag Day services at the Methodist church last Sunday night, which were attended by a small crowd of people. Rev. Mr. Griffin addressed the audience at the opening of the program, being followed by Mrs. Louis Hudglin, who sang "The Star-Spangled Banner." Mrs. Grace A. Farrell read the "History of the Flag" in a very creditable manner. The 25th Infantry orchestra rendered several old southern melodies, following which Charles E. Hardy made the address of the evening. He spoke of the loyalty and patriotism of the Elks' lodge and of its place in social and civic life. His address was instructive and interesting.

### FIREMEN TO HOLD DANCE

At the regular monthly meeting of the Volunteer Fire Department, held Monday evening, it was decided to hold a benefit dance at the Opera House Saturday, June 26. Word was received from the state highway department that the road signs for use here will soon be forthcoming. Dick Rowe was accepted as a new member.

### JIM PARKER'S HOUSE BURNS

Fire destroyed the home of Jim Parker Wednesday night about 9 o'clock, which was located northwest of town. Mr. and Mrs. Parker were in Phoenix at the time and had left Ben Johns in charge of the place. Johns, in a statement to Fire Chief Hooks, declared that he had made a fire in the kitchen stove before sundown, but that it was out before he left the house later in the evening. He said the only possibility of a fire was an open box of matches lying on a desk.  
The Volunteer Fire Department was on the scene in 8 minutes and succeeded in confining the flames to the house, which was a complete loss. It is unknown whether there was any insurance on the house.

### CHARLES L. FOWLER TO ATTEND DEDICATION CORONADO TRAIL

Collector of Customs Charles L. Fowler has been officially appointed to represent Santa Cruz county at the dedication of the Coronado Trail at Springerville, Ariz., this week. He is heartily in favor of good roads and boosts for them on every occasion.

## Seek Guides for Girl Reserves

Girl Reserves frolic at "Y" camp. Inset: Miss Anna Rice, Executive of Summer School at Berkeley, California.

THE flapper lives on the moral heritage of her race. She does not add to it." This stern and unflattering opinion of the young girls of today from a New York professor is not borne out by the experience of the leaders of the 192,000 girls of the so-called flapper age in the Girl Reserve Movement.  
So many young girls are asking for Girl Reserve clubs to be organized where they live that additional courses have been announced to meet the demand. Girls in cities and towns, large and small, are eager to assume the self-imposed discipline of the Girl Reserve code and to live up to its high ideals at their work and play.  
The Pacific Coast course will be held in connection with the Summer School of the University of California at Berkeley. The dates are June 21st to July 31st. It is located on the Pacific Coast to train Western college women who wish to enter the movement as leaders and advisors of young girls.  
Miss Gertrude Gogin, of New York, head of the Girl Reserve "family" of 192,000 girls, will go to Berkeley to give a series of lectures as part of the curriculum. Miss Ann, Rice, also of New York, will serve as executive of the school. It will be open to all young college women, with adequate qualifications who are interested in Girl Reserves, already in the movement or seeking definite training to qualify them as leaders.  
A similar Summer course will be given in New York City at the National School of the Y. W. C. A. Among the Western faculty will be Mrs. Mary Clarke Burnett, M. A. of the Department of Social Work at the Carnegie Institute of Technology; Miss Mildred H. Esgar and Miss Esther May Carter, Girl Reserve Secretary of San Francisco.  
The Girl Reserves take rank as the second largest movement among girls of this country. Members are 12 to 18 years of age. Their activities vary from household arts such as sewing and cooking, through indoor and outdoor recreation, to spiritual ideals translated into every day living. Civic responsibilities in their program take many practical forms of community service. Girls of many nationalities the world around are members and translations of their literature and songs are read and sung in many countries. It is the junior organization of the Y. W. C. A.  
Prospective students may get information from Miss Anna Rice, Y. W. C. A. School, Union Street at Alton Way, Berkeley Cal.

### BIG JIM MILL READY FOR STEADY OPERATION

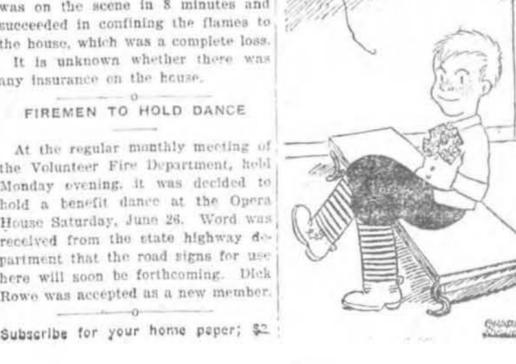

President A. G. Keating of the Big Jim Mines, Inc., whose property is located at Harshaw, was here Sunday from Los Angeles to inspect the mill, which recently has been remodeled and new machinery installed to use electric power from Nogales. The work has been completed and the mill is now ready for steady production. The water question, which was a handicap to operation, has been solved by piping water from the Harshaw mine, 6000 feet distant, and by the erection of a dam in one of the adjacent canyons. There is plenty of water now available to serve the purposes of the mine and mill, and it is expected that from now on production will not be held up.  
Dr. Lyman F. Barber has completed the work of installation of the machinery at the mill and Superintendent Peterson has finished the work of getting the water to the mill. The company has been diligent in its efforts to get everything in first-class running order and has built one of the most complete milling plants in the country for its size, with every modern method of extraction to secure high-grade concentrates.

### COURSE OF STUDY FOR UNION HIGH

Coach Zimmerman has arranged the course of study for the Patagonia Union High school for the fall term, which has been approved by the governor, C. O. Case and Cloyd H. Marvin of the U. of A., as follows:  
Freshmen—English (r), mathematics (e), algebra, social science (r), world history, general science (e), home economics or farm shop (r).  
Sophomores—English (r), mathematics (e), geometry, American history (r), civics and economics (r), home economics or farm shop (r).  
Juniors—English (r), American history (r), civics and economics (r), home economics or farm shop (r).  
Seniors—Chemistry (r), Spanish (e), typing (e), bookkeeping (e), home economics or farm shop (r).  
(r) Required, (e) Elective.  
The two years home economics and farm shop offered in the above course of study are to be given under the Smith-Hughes act. We have met the minimum state requirements of six units and the minimum requirements for entrance to the state university.  
This course has had the signed approval of Dr. F. C. Paschal, H. S. Visitor of the U. of A. (for this state), Gov. Geo. W. P. Hunt, Supt. C. O. Case, and Pres. C. H. Marvin of the U. of A., the last three being members of the state board of education.

### MICKIE SAYS—

THE EDITOR'S LIFE IS ONE OF PUBLIC SERVICE—HE HAS A DUTY TO THE PUBLIC—HE MUST BE READY TO SUPPORT ALL MOVES TOWARD COMMUNITY IMPROVEMENT—HE MUST RESIST ANY ATTEMPTS TO USE HIS PAPER TO SATISFY GRUDGES—AND HE MUST USE ALL MEANS TO ADVANCE THE INTERESTS OF HIS COMMUNITY

## OFFICIAL PROCEEDINGS

### SANTA CRUZ COUNTY BOARD OF SUPERVISORS

OFFICE OF THE BOARD OF SUPERVISORS, Nogales, Arizona, May 3rd, 1926.

The Board of Supervisors met pursuant to adjournment of April 6th, 1926. Present: James L. Finley, chairman; Robert A. Campbell and Hugo M. For, members, and A. Dumbauld, clerk.

An offer was submitted by Victor J. Wager, County Assessor, from Mr. Weldon Bailey of \$250.00 for the mining machinery of the Progressive Mining Company in California Gulch. The matter was left in the hands of the County Assessor and County Attorney for their action.

Mr. J. Javino appeared before the Board offering to rent a property located in Beck's Subdivision, and being Lot 53. After due consideration, the Board rented the property to the above at a rental of \$10.00 per month.

Mr. Magruder appeared before the Board with reference to protection on the river bank near the Amado bridge. This matter was referred to the County Engineer for his inspection and report.

J. W. Larimore was instructed to prepare maps of the voting precincts of the county, also showing supervisory districts.

The following reports of county and precinct officials were presented, read and ordered filed: County Treasurer, Assessor, Superintendent of Health, County Recorder, Clerk of Court, Superintendent of Outdoor Indigent Relief, Sheriff, and Justice of the Peace of Precinct No. 1.

A viewers' report was presented on the Salero and Tubac road recommending that the same be made a county road and that damage in the sum of \$1.00 be allowed the owners of the Baca Flat.

The above report was received, ordered filed, and June 14 set as the day for hearing of objections and for presentation of claims for damages on this road, and the Clerk of the Board was ordered to post the road as provided by law.

The County Recorder filed with the Board a notice of appointment of the following registration officers for the county: Harry V. Parrior for Nogales and vicinity, and Grace Van Osdale for Patagonia and vicinity. The appointments were approved by the Board.

Mrs. Grace A. Farrell appeared before the Board with reference to transportation of school children. After discussion and consideration, the following motion was made:

Motion of Miller, seconded by Campbell, that all school district trustees in active districts where transportation is necessary the trustees of each district shall provide the same as provided for under Paragraph 2733, Section 174, of School Laws of Arizona. The motion was carried.

A notarial bond of H. V. Parrior was presented and approved by the chairman of the Board and ordered filed with the Clerk of Court as provided by law.

The bond of Howard Keener for contract for the year 1925 was presented and approved.

A communication from the Arizona Industrial Commission was presented and read notifying the Board of the insurance of all county employees coming under the insurance qualifications, the same having become effective on November 2nd, 1925.

The following claims and demands were presented to the Board, audited, allowed and ordered paid out of the various county funds:

Wt. No. 91—Joe Kane, road work	\$ 40.00
Wt. No. 92, 93—James Reagan, road work	36.00

KNOW YOUR MINING INDUSTRY

A wide gulf has been spanned in the last half century in the mining industry of the west. Formerly mines were discovered by chance. Now the government geological surveys, the mapping of the mineral belts and regions, and the progress of metallurgy in treatment of ores have completely changed mining and placed it upon a sound and scientific basis.

To mine low grade ores, large investments are required. To secure this capital, it is essential that mining states realize what an asset the mining industry is to them.

THE STAND FOR STATES RIGHTS

"Amid all the contentions of the present day nothing is more important to secure the continuation of what they (the founders of the republic) wrought than a constant and vigilant resistance to the domination of selfish and private interests in the affairs of government."

TEACH MORE KINDNESS

A number of states have enacted laws requiring that a small portion of time be devoted each week in public schools to the teaching of kindness to animals. These laws are not generally observed. In the higher institutions of learning the subject is never mentioned, and cruel practices in sports and hazing are tolerated.

SANE REASONING

Expressing his views on trusts and monopolies, Secretary Hoover says: "Full constructive competition must be preserved in the manufacture and distribution of commodities."

LEGAL ADVERTISEMENTS

LEGAL ADVERTISEMENTS

Notice of Sale of Real Estate

Notice is hereby given that the Board of Supervisors of Santa Cruz County, State of Arizona, will, after Friday, the 11th day of June, 1926, from time to time as purchasers thereof may present themselves, sell the following described land and real estate in Santa Cruz County, State of Arizona, which said real estate is held by the State of Arizona by tax deed, the names of the former owners of said real estate, the description of said respective pieces and parcels, and the total amount of taxes, penalties and costs, including the unpaid charges of the County Treasurer and County Recorder being as shown on the list immediately following this notice.

Dated this 7th day of June, 1926.

BOARD OF SUPERVISORS OF SANTA CRUZ COUNTY, STATE OF ARIZONA, By JAMES L. FINLEY, Chairman.

Attest: A. DUMBAULD, Clerk.

Table with 2 columns: NAME OF FORMER OWNER, DESCRIPTION OF PROPERTY. Includes entries for Gerontimo S. Sierra, Jesus F. de Castellan, George Roberts, Adela de Mexia, Mildred L. Hardie, Yedron M. Roldiguez.

One reason why few recognize Opportunity is because it is disguised as a hard job.—Austin American.

The home owner is the pathfinder and the pioneer in American society.—Theodore Roosevelt.

Son—Dad, what do they mean when they say "College bred"?

Father—Four-year loaf.—Exchange.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Cane Holds Folding Table for Playing Cards

Constructed like an umbrella, a small folding table, top, legs and all, can be placed inside a walking stick, which also

collapses for carrying in the pocket when not in use as a cane. The table is well braced and is of the right height to permit players to use it comfortably when seated.

Ships Built with Soft Bows to Increase Safety at Sea

With vertical instead of horizontal plates at the prow, vessels could be constructed so that they would not be likely to sink other ships in case of a collision and would be proof against serious damage themselves, according to E. F. Spenser, a British marine architect.

TRIBUTE TO AMERICAN SYSTEM

A highly gratifying occurrence of recent date, which has been widely commented on, is the statement of Karl von Siemens, one of the leaders in the electrical world, in addressing the associated chambers of commerce in Berlin, Germany.

TEACH MORE KINDNESS

A number of states have enacted laws requiring that a small portion of time be devoted each week in public schools to the teaching of kindness to animals. These laws are not generally observed.

tion bulkhead. Other ships, from the largest liners down to those of only 150 or 200 feet in length, would also be protected from serious damage, Mr. Spenser states, assuming they were of ordinary seagoing steel construction, as the plates would be dented only instead of being cut through, and repairs would be less costly.

Radio-Tube Phone to Aid Deaf

Instruments which make use of the principles of radio amplification of sounds for the help of the deaf have been available for some time and now the vacuum tube has been adapted as a sort of "booster" for the telephone, so that persons hard of hearing may carry on conversation with but little difficulty.

The apparatus is contained in a separate box which may be placed against the wall or in the desk. It can be adjusted to meet the needs of the person for whom it is intended, but its use by those not hard of hearing is discouraged as it naturally amplifies all sound equally.

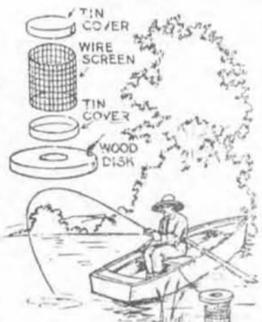

Applying Wall Paint

One of the most common reasons why many amateur jobs in painting fail is improper application, particularly in wall work. When painting walls the amateur usually works horizontally across the wall from the ceiling down.

The secret of success is to paint a strip about 2 ft. wide from the ceiling to the floor and cover this area well. The next lap can be painted before the paint of the first lap has dried and the edges of the lap will never be noticeable.

Floating Bait Box

Fishermen will find the floating box shown in the drawing of considerable convenience as it is always within easy reach and, as it is submerged, keeps the minnows alive. It is made from a piece of 1/4-in. wire mesh about 18 in. long and 6 in. wide, the ends being soldered together to form a 6-in. cylinder.

through it and the tin cover, to permit getting the bait in and out. The box is tied to the boat by a cord attached to a staple in the cover.

Greasing Ford Ignition Systems

Special battery-ignition systems used on Ford cars have a casing at the lower end in place of the timer, which contains a pair of gears running in grease. It is a good plan to drill and tap a hole in this casing, at a point which will not interfere with the gears, and to install a grease cup or high-pressure fitting.

Notice of Increased Assessment

At the June meeting of the Board of Supervisors sitting as a Board of Equalization, the Board, with the information then possessed by it, believed that the following assessments on the following described property are each to small, namely:

Table with 4 columns: NAME, DESCRIPTION, RAISED From, To. Lists various properties and their assessed values, including Montezuma Hotel Company, Margaret R. de Elias, Kress Company, Standard Oil Company, A. Carpena, Geo. B. Marsh, Inc., F. F. Rodriguez, The Army Store, Puchi Brothers, Salomon Sibe, Norman D. Pomeroy, Vail & Ashburn, Duquesne Mining Company.

The owners of the above property and all who are interested therein are hereby notified that the Board of Equalization will meet at the office of the Board of Supervisors in the Court House of Santa Cruz County, State of Arizona, at nine (9) o'clock a. m., on the first Monday of July, and being July 6th, 1925, at which time and place they will take up, consider, and determine whether the assessments above specified, or any thereof, shall be increased, when and where you can be present, with such witnesses as you may bring, and given a hearing. These assessments will be taken up by the Board and considered in the order as they appear above, unless for some good reason or cause, first shown, the time is extended in any case.

(NOTE.—July 6th will be the date of meeting since July 5th is a holiday.)

A. DUMBAULD, Clerk, Board of Supervisors of Santa Cruz County, Arizona. Published June 18, 25, 1925.

Notice of Sale of Real Estate

Notice is hereby given that the Board of Supervisors of Santa Cruz County, State of Arizona, will, after Friday, the 11th day of June, 1926, from time to time as purchasers thereof may present themselves, sell the following described land and real estate in Santa Cruz County, State of Arizona, which said real estate is held by the State of Arizona by tax deed, the names of the former owners of said real estate, the description of said respective pieces and parcels, and the total amount of taxes, penalties and costs, including the unpaid charges of the County Treasurer and County Recorder being as shown on the list immediately following this notice.

Table with 2 columns: NAME OF FORMER OWNER, DESCRIPTION OF PROPERTY. Includes entries for Gerontimo S. Sierra, Jesus F. de Castellan, George Roberts, Adela de Mexia, Mildred L. Hardie, Yedron M. Roldiguez.

One reason why few recognize Opportunity is because it is disguised as a hard job.—Austin American.

The home owner is the pathfinder and the pioneer in American society.—Theodore Roosevelt.

Son—Dad, what do they mean when they say "College bred"?

Father—Four-year loaf.—Exchange.

"WORTH IMITATING"

Under the above caption, the Tucson Star of June 14, ran the following editorial, which should be a stimulus to Santa Cruz county business men to keep up the good work started in the direction of advertising our wonderful natural resources to the outside world:

"Santa Cruz county of late weeks has been setting some other sections of the state a good example in how to boost their communities. Nogales, county seat, has a live board of commerce that overlooks few bets if they are for the best interests of the town. But it does not stop at that. It is engaged in selling Santa Cruz county on every possible occasion, not so much to the world at large as to the people of the county itself. Recently,

a motorcycle took a large number of the board members to Patagonia, where the city folks learned all about the mines and ranches of the district. This week, the Patagonians will return the compliment when they will be guests of the border cityites.

"Pima county has much outside of Tucson that is of interest to Tucson that is of interest to Tucson people. Ajo has been visited by the Tucson chamber of commerce and the people from Ajo returned the visit. Annually there is a joint picnic of the Pima county farm bureau and the Tucson chamber of commerce. They tend to make the city folks realize how important to them are the many projects within their immediate neighborhood, and that, even though it is 120 miles away, Ajo has a vital connection with our own city.

"All of these things are vital to the progress of Arizona. The state is already well sold to its people section by section, but it is sometimes pathetic how little the people of one section know about even their nearest neighbors.

"If the people of the state become convinced that it is the greatest in the union, they'll do a large part of needed selling outside the state. Nogales is doing its selling a bit more intensively than some other sections, selling itself and Santa Cruz county to their own people, and is setting an example it would be well for the rest of the state to emulate."

A boy broke a dish and went to his mother and said, "Mother, I did it and I'm sorry, and I hope this will be the end of the matter."—Ex.

## Great Personages of the Bible

By REV. LEONARD A. BARRETT

### Paul

OF THE many interesting experiences in the life of the Apostle Paul, his visit with Peter is one of the most important. After Paul had seen the Lord in the vision on the Damascus highway, he asked "What wilt Thou have me do?" In answer to this question he was given his commission to go and preach the Gospel. Paul deeply appreciated the responsibility of this new work which opened before him. He also realized that he was not sufficiently prepared for the task, because he had never seen Jesus. He had heard a great deal about Him, but he had never come into personal contact with Him. He felt that a personal contact of this nature was a prime requisite. In the absence of it he was at a great loss. It seemed to him that it was impossible for him

# POULTRY

## INFERTILE EGGS IN LATE SPRING

Many commercial chick hatcheries are complaining about the large percentage of infertile eggs, according to the directors of the International Baby Chick association who met with poultry specialists of the United States Department of Agriculture. Many of the hatches, they report, show that less than 75 or 80 per cent of the eggs available are fertile, whereas in normal years fertility runs as high as 90 per cent or more. "Fertility is largely a management problem," says Dr. M. A. Jull, in charge of poultry investigations, United States Department of Agriculture, "and infertility is due largely to the cold and wet weather, which causes

### Rainbow Frocks

Rainbow dresses of dainty silk, have the colors blended so gently that a range of every color in the spectrum is possible without the appearance of glaring vividness. Mousseline and voile are also subject to such color treatment. Short capes heavily trimmed with crystal beads and which come only to the hip line, are frequently worn with these dresses.

Trouble may make one lose his appetite, but not for long.

## Liquid Air Freezing Best, but Expensive

More rapid methods of freezing are being sought by experimenters. Pieces of haddock were hung on wires and submerged in liquid air and kept in big thermos bottles at a temperature of some 300 degrees below Fahrenheit. The liquid boiled and hissed like water when a red-hot iron is plunged into it, and in a minute the fish was taken out frozen white like one's ear in a blizzard.

Liquid air freezing is still too expensive for commercial users, says a writer in Science, but if the fish industry were to adopt this method widely, the manufacture of liquid air on a large scale for this purpose would bring about a lower price.

### Heavy Silk Coats

A coat in one of the heavier silks is extremely smart for spring days.

## Narcotic May Arrest Ravages of Old Age

The invention of efficient and harmless narcotics for anesthesia and pain alleviation is one of the most important tasks of modern science. Recently Dr. Maurice Sandoz of the University of Lausanne, Switzerland, succeeded in producing a substance called "triciane," which, it is claimed, is remarkable for its rapid narcotic effects. On cold-blooded creatures, such as fishes, frogs or salamanders, two to six minutes in a one-tenth per cent solution

it is possible to keep frog eggs for several weeks without hatching. Untreated eggs left in pure water for the same period would turn into adult frogs.

These experiments, says Popular Science Monthly, have suggested a possible use of triciane in arresting the ravages of old age.

...

## Elderly Warned to Beware of Idleness

Old age comes on more quickly from a life of idleness than from one of work. The mind and body fall into decay from disuse, says Better Health, a recent bulletin from the Oklahoma Tuberculosis society. The indolent natives of the Orient average from nineteen to twenty-five years as a lifetime. The wide awake, active occidental has an average life span of fifty-six years. Youth may be considered as vital

SYNOPSIS

The story opens in New York, about the middle of the eighteenth century. Robert Ormerod, who tells the tale, is talking to Peter Corlier, chief of the traders, and man of enormous strength, when Darby McGraw, Irish bonded boy, brings news that a pirate ship is "off the Hook." An old sea captain announces he has been chased by the notorious pirate, Captain Rip-Rap. The older Ormerod tells Robert the pirate is Andrew Murray, his (Robert's) great-uncle, commanding the pirate ship, the Royal James. Murray is an ardent Jacobite. Next day Robert and Darby encounter a one-legged sailor, John Silver. Robert meets a young woman from a Spanish frigate who is seeking her father, Colonel O'Donnell. Murray with a force of sailors visits the Ormerod house. He announces his intention of carrying off Robert, by force, if necessary, promising him a great future. Robert meets a blind sailor, Pew. The fellow's blindness apparently troubles him little, but Robert instinctively dislikes and fears him.

CHAPTER VI—Continued

"Nor will you, Nephew Robert. No, my problems are connected with the difficult task of attaining an imaginary spot in this trackless waste and puzzle-ment as to whether I have correctly estimated an equation of human value. You are not, perhaps, mathematical? Ah, too bad! There is no mental exercise so restful and diverting to the mind as algebra. But figures lack the warm interest of human equations. As, for instance, the exact degree of trust to be imposed in untrustworthy persons."

"Sail ho!" shouted the lookout in the main crossrees.

Murray's calm face flushed with sudden emotion, and he took a step forward.

"Where does she lie?" he trumpeted through his clasped hands.

"Maybe one, two points to larboard, sir."

"Can you make her out?"

"Only tops'ls, sir; big 'uns."

"Let me know as soon as you make her," said Murray, and turned back to me.

But almost at once the other lookout in the foretop sang out—

"Second sail to larboard, sir, comin' up arter t'other chap!"

Murray rubbed his hands together with every evidence of satisfaction.

"Ah!" he exclaimed. "It appears that my estimation of the safe degree of trust to be imposed in the given situation was within the bounds of accuracy."

"I don't understand you."

"No? In plain English let us say then that my own vessel and consort are meeting me according to plan."

"Why do you speak of trust?" I challenged. "Cannot you trust your own people?"

"I trust nobody farther than I must," he retorted.

And without another word he produced a patent folding spyglass from his pocket and clapped it to his eye. Silver, who had been an interested witness to the scene from his arctic stop of the cabin skylight, hopped across the deck to my great-uncle's side.

"Beggin' your pardon, captain," he said. "But I'd make oath that tops'ls in the canvas you took out of the morgan's ship off Pondicherry. Mind it, sir? 'Twas uncommon bleached and looked whiter'n our cloth."

Murray handed him the glass.

"Stap me, Silver, but I believe you are right," he returned. "What a hawk's eye you must have! Here, see what you can make of it with this."

Long John peered through the glass, steadying his crutch against the butt of the mizzen.

"Aye, 'tis—"

"Royal James to leeward!" halted the foretop.

And the main crossrees echoed, not to be outdone—

"Walrus comin' up astern o' her!"

"'Tis they, never a doubt," assented Silver as he lowered the glass. "Djigin' into it they are, too, and a lusty show o' canvas, as to that. If you was to ask me now, captain, I'd say Flint isn't willing to plow your wake."

My great-uncle indulged in a pinch of snuff, a mildly cynical smile upon his handsome features.

"I thank you," he acknowledged.

"And now I would have the men tumble up their gear from below and make ready the boats. I shall also leave it to you, Silver, to lay the powder-train. How much have you?"

"Three casks, sir."

"Excellent. But allow us ample time to get free."

"Why do you give your orders to Silver and not to Bones?" I inquired curiously after the one-legged man had gone forward.

My great-uncle lowered his glass with a benevolent smile.

"I rejoice to perceive that you have an observant tendency," he commented. "Why do I single out Silver for orders? Ah! The reasons are quite obvious. To begin with, he is gifted with a personality which enables him to secure the accomplishment of tasks; but perhaps as important as that consideration is the parallel fact that it lies to my interest to develop the seed of dissension in the Walrus' crew. Their future contains infinite possibilities. Who knows what trifling factor may influence the dictates of fate? I am, you may say, in a minority of one among some hundreds of headstrong, wilful, in-

temperate men. United, they would crush me like a fly on the wall. Divided, and kept divided, they are so many instruments for the fulfilling of my desires. Wait until we are aboard the Royal James, Robert. Then you will realize what I offer you."

"I have heard much of it already," I agreed dryly.

"Anon you shall hear all," he answered. "Let us get Flint across-table from us in the James' state cabin with a beaker of rum at his elbow. Then you shall hear me talk."

Bones came up to speak to him; and I rejoined Peter, who was glumly watching the unslashing of the small boats and the rigging of the falls by which they were slung overboard.

As Murray nodded dismissal to Bones, Silver left us and hopped up to him.

"All set and ready below, captain," he announced.

My great-uncle cast his eye at the approaching ships, now so near that we could make out quite distinctly the contour of their hulls, painted yellow, with a white band delimiting the ports, man-o-war fashion. The James was already beginning to take in some of her top canvas.

"Very good, Silver," he answered. "Master Bones! You will bring the ship to and put over the boats."

There was a great flapping and banging as the brig rounded to, and with much yo-ho-ing the boats were lowered into the water.

"You will go off first, Master Bones," ordered Murray. Kindly present my compliments to Captain Flint and say that I should like to have a word with him aboard the James at his early convenience."

Bones sullenly touched his cap and led better than half the crew into one of the two longboats the brig had cast off. Murray nodded to Silver as they cast off.

"Start your train," he said shortly. "Nephew Robert, I wish you and Peter to go into the second boat. At once, please!"

Peter and I climbed clumsily down the ladder of cleats nailed to the brig's hull and dropped into the bobbing longboat. Peter groaned as we crawled over the thwart.

"Like der waves in my stomach—oop—andt down. Now I be sick, ja!"

And he was.

Presently Murray descended the brig's side with an agility which put me to shame and took his seat in the stern sheets. Darby swarmed down like a monkey and ensconced himself beside us in the bow. Silver was slung over in the bight of a rope, and the last of the crew tumbled over after him, one upon the other's heels. Ours were thrust out, and we pulled rapidly toward the Royal James, wallowing in the trough of the sea, a quarter-mile away. The Walrus, foaming up under a cloud of canvas, was almost as near, and on our weather board.

Boom! The roar of an explosion behind us was as sharp as the smack of an open hand. I turned my head. So did the others. Murray was looking back, too, and the rowers rested on their oars.

A cloud of smoke jetted up from the brig's hatches. She heeled over to starboard as we watched, gave a

quivering lurch and commenced to slide under by the head. We could hear the slap of the sails as they struck the waves. In two minutes she was gone.

"That was well-contrived, Silver," remarked my great-uncle. "Sdeath, but you are a man of parts. Give way, lads!"

He nodded the length of the boat to me.

"I trust you perceive the significance of that, Nephew Robert. A certain young man, we will say, disappears from New York. A certain brig disappears simultaneously. Some might go so far as to associate the two disappearances. Frigates put to sea in search of a certain brig—but the brig is no more."

The men at the oars laughed loudly, and I made no answer. What could I say? I felt very hopeless.

The bulwarks of the James were

lined with heads and faces as we pulled under her counter and made fast, and even at that distance the complexity of her crew was apparent. I saw Portuguese, Finns; Scandinavians, French and English cheek by jowl with negroes, Moors, Indians and slant-eyed yellow men. But what impressed me the most was the absolute silence which greeted us, a silence all the more impressive because the wind carried to our ears the bedlam of shouts, cheers, oaths and imprecations with which the Walrus was receiving Bones' boat several hundred yards away.

Murray waved me to the ladder as he set foot on the first cleat.

"Up with you, Nephew! Peter also. The rest go to the Walrus."

Darby snatched at my hand as I rose.

"Whirra, whirra, but there's an ache in my heart to be parted from ye, Master Bob!" he cried. "And if we was to be pirates it do seem we might be together on the same ship!"

He made to follow me, indeed, but Silver pulled him back.

"You stays w' us, Darby," growled the one-legged man. "Blast ye, lad, you're our good luck. Flint'll douse the ship in rum after one look at ye."

"We'll meet again, Darby," I said. "Never you fear."

He was still jabbering in a mixture of grief and joy when I climbed over the bulwark and dropped beside my great-uncle into the midst of another world.

Fore and aft from poop to fo'c'sle stretched the wide deck from which the lofty spars rose like forest giants. The massive bulwarks were shoulder-high, and inboard everything was painted red exactly as in a king's ship. The hundreds of men who had watched us from the bulwarks had all sifted forward. We stood in the midst of an open space, with only three others.

One of these three was a very small old man with wispy gray hair and deeply bronzed face, from which his eyes peered intensely blue and childishly simple. He had gold rings in his ears, and his dress was neat and plain.

"My service, captain," he greeted Murray. "Ship's in order, I hope. My eyes if we've had so much as a o' genuine wind since the hussy bore away from ye off the Hook."

The effect of the unspeakable blasphemies which poured with mild intonation from his lips was ridiculous, but nobody appeared to notice it, and I learned afterward that his habit of swearing by the anatomy of the twelve apostles and various saints and sacred figures was the quaintest of several quaint characteristics of an unusual personality.

"We won't complain about that, Master Martin," replied my great-uncle. "I have brought back my grandnephew to be the mainstay of my old age. Here he is—Master Ormerod, Martin. Ah, and this is a friend of his and an old enemy of mine, Peter Corlier." As Peter rolled over the top of the bulwarks. "He is more to be reckoned with than you might suppose, is Peter."

"Master Martin, Nephew Robert, is my mate, and as such, my right hand and arm."

Martin stepped back, and the second of the three men confronting us touched his cap. This was a square, heavy-built fellow with a dour glint to his eye, and wore a decent blue cloth coat and small clothes.

"And here is Saunders, Master Martin's second," continued my great-uncle. "A Scot like myself. My nephew should make a fine Scotsman; eh, Saunders?"

"He's a braw-lookin' laddie in seemin'," Saunders agreed cautiously. "Your meaning is that we must prove him?" responded Murray. "Quite true. We shall. Hola, Coupen!"

And he rattled into a string of French which I could not follow as the third man met him with a bow and a scrape of one foot. Coupen was as brutal in looks and manner as Black Dog or Bill Bones, but without the sinister implications of speech and action that made me shudder whenever the blind man Pew approached me or spoke in my hearing. He had been branded on the cheek, and an attempt to obliterate the brand—or perhaps 'twas the superimposed scar of a wound—had made that side of his face a very nightmare. His wrists and forearms showed gouges that wound upward like snakes and suggested what other torments his gaudy clothing concealed.

"Coupen," remarked my great-uncle, turning again to me, "is our gunner. I saved him from the French galley, and he is not without devotion tinged by self-interest which is to be preferred above all."

"And now we will go aft and prepare to receive Captain Flint!"

Murray led us to a door in the break of the poop which was opened for us by a stalwart black in a red livery coat, who ushered us along a companionway lined with stateroom doors into a spacious state cabin stretching the width of the stern. The walls were paneled in mahogany; silver sconces were fastened at intervals, and a wondrous luster chandelier was pendant from the ceiling, itself uncommonly lofty for shipboard; several paintings in the French school hung at the sides; and there were trophies of peculiar arms and armor. Underfoot were Eastern rugs thick-piled and soft of hue.

My great-uncle surveyed this magnificence with pardonable pride. 'Twas evident it meant something to him.

"Diomedes," he said to the negro, "where is Master Gunn?"

A high, piping voice answered him from the companionway.

"Coming, worshipping sir. Ben Gunn's a-comin'. I jest stopped by the galley to fetch up your chocolate."

The man who followed the voice trotted in bearing a silver pitcher of steaming chocolate, Murray's favorite drink; eye, and food. He was a slender fellow, with a simple, open face, clad in plain black as became an upper servant. He stopped dead at sight of us.

"Set your tray on the table, Gunn," instructed my great-uncle. "This is my grandnephew, Master Ormerod, and his friend, Master Corlier. They are to sail with us a while."

Gunn pulled his forelock and ducked. "Sarvant, gentlemen," he acknowledged. "Allus glad to please, is Ben Gunn. Bound to oblige ye, gentlemen. You jest name your drinks, and I'll fetch 'em up from the win'bins."

"Food as well, Gunn," said Murray. "And Captain Flint is coming aboard."

Ben Gunn cocked his head one side. "That means rum," he commented. "Plenty o' rum, says you. Jest leave it to Ben, captain."

He ducked and scraped again and skipped off into the companionway with a kind of wiggle like a self-conscious child.

"My steward," remarked my relative. "The man is a half-wit, is he not?" I asked.

"A natural, yes," assented Murray, tasting the chocolate.

"I should think it would be dangerous to have one so simple in such close proximity to you."

My great-uncle smiled.

"You are quite, quite wrong, my boy. It is for the very reason that the man is incapable of spying that I use him. He is more valuable for my purposes than the most intelligent member of the crew."

He broke off.

"This chocolate is by no means so well brewed as Silver's. An extraordinary fellow, that, monstrously clever—exactly the sort of man, Robert, I never permit to remain near me. Indeed, if you possess the patience and the interest to analyze the composition of my officers and crew you will observe, I believe, that there is not an independently clever man amongst them. Aye, and if you find me a clever man aboard the Royal James—yourself and friend Peter excepted, of course—I will thank you to point him out to me, and I will straightway make a present of him to Flint, who must have half a dozen of the Walrus' crew who esteem themselves equally capable with him of commanding her."

"I am not—by necessity I am not—regarded with affection by my followers. And on the whole, I think I have gotten along better by means of fear than I might have by means of affection. Fear is a natural element in a pirate's career. What place has he in his life for affections? Hark! Do I hear something?"

He did beyond question—an uproar of curses and shouts upon the deck outside.

"It is only that Captain Flint has come aboard. Pray take your seats, I promise you an interesting episode."

The door to the deck banged open, and a harsh, domineering voice belted in the companionway.

"—me, Martin, what the ———— d'ye think ye are? By the bellered swab, ye made us—"

"Stow that, ye ———— apoloogy for a ————" interrupted Martin mildly from the deck. "Why, any ———— would ha' had more sense than you!"

"Like ———— I'm my own master, I am. I—"

"Ye may be when ye stand on the Walrus' deck, but here ye're only another ———— as doesn't know better," to veer after—"

"Belay for a ———— lackey, ye slab-faced chunk o' rotted sea-horse! I'll talk to your master!"

Slam went the door, and a mutter of curses rumbled from the companionway, preceding a tall, blue-jawed man in a flaming red coat all cobwebbed over with gold lace. He halted in the cabin entrance, hands on his hips, feet planted wide, close-set green eyes flickering balefully on either side of a long nose that seemed to poke out from a tangle of lank, black hair.

"Back, eh, Murray?" he snarled. "Two men the richer for your effort. Gut me, 'twas a fool's errand!"

"Pardon me," objected Murray, "but I am considerably more than 'two men the richer' in consequence of my run ashore—although I would not appear by these words to depreciate the importance to be attached to the acquisition of my grandnephew and Master Corlier. Permit me, Captain Flint! Master Ormerod, my grandnephew, and Peter Corlier."

## Qualities of Magnet Explained by Science

The coast and geodetic survey says that every magnet possesses two kinds of magnetism, that in one end being different from what is in the other. If the magnet is hung up on a thread so that it is free to turn and a second magnet is brought up to it, it may be noticed that the near end of the second magnet draws one end of the suspended magnet and repels the other. The repulsion is exerted between like kinds of magnetism and the attraction between unlike kinds. The earth has all the characteristics of a permanent magnet, and for this reason a suspended magnet, when allowed to come to rest, will take up a definite position, which is determined by the direction of the earth's magnetism at the place. The end of the magnet which points in a northerly direction

Daddy's Evening Fairy Tale  
BY MARY GRAHAM BONNER

### MUD TURTLE

"Turtle, be happy, be gay, for in a moment you will not be gay and you will not be happy," said the yellow-necked mud turtle.

"Whatever in the world is going to happen?" asked the rest of the turtles.

"This is dreadful. This makes us very nervous. This is too much. 'What does it all mean?' 'What does it, indeed?' 'Nothing is going to happen,' said the yellow-necked mud turtle.

"Then why is it that in another moment we will not be gay and we will not be happy?" asked the turtles.

"Yes, what does that mean," they repeated. "Surely we cannot help but worry when we hear such a speech."

"We would be most unmannerly if we didn't feel anxious. Do tell us what you mean?"

"Why, in another moment, will we not be gay, nor happy?"

"Because," said the yellow-necked mud turtle, "I have something to tell you."

"Nothing is going to happen—that is true."

"But, something is going to be said, and it will be true, and it will make you sad."

"Oh," said the other turtles; "let us hear what you have to say, so we may be sad quickly and then get over with it."

"You may never get over being sad," said the yellow-necked mud turtle.

"I'm not at all sure that you will."

"How dreadful," said the other turtles.

"You tell us such dreadful, dreadful things."

"But give us a chance to see if we will ever get over being sad by let-

ting us know what it is all about. 'Tell us what you have to tell us.' 'I am different,' said the yellow-necked mud turtle, 'from all of you. I have a yellow neck, yellow markings, and my eyes are yellow. 'Oh, that is wonderful. 'I have the gay and beautiful shade of yellow as a part of me. 'Your mud turtles, I pity you all. For you are not as I am. 'I am the great yellow-necked mud turtle from the state of Arkansas. 'Your mud turtles, my sad story for you, and my proud story for myself is all over. 'Now you see what I meant. 'Now you will be sad. Now you may never be happy again.' The mud turtles all laughed. They all laughed very hard indeed. They may be proud that you have such colorings and such markings," they said.

"And, we admire you."

"But because we aren't like you is no reason for making us sad. 'We're not sad now. Nor do we expect to be sad. 'No, indeed, not even for a moment will we be sad.' And the yellow-necked mud turtle looked at the others who were so contented with a surprised look from her yellow eyes.

She was amazed at the other turtles.

Still she was not mean. And so long as they didn't mind, certainly she didn't, but she thought they were a bit dull and foolish. That was what she thought of them. While they were merely amused at her, quite, quite amused.

### Double-Edged

Gym Teacher (to girls)—Lots of girls use dumbbells to get color in their cheeks.

Bright One—And lots of girls use color on their cheeks to get dumbbells.—Kansas Sour Owl.

### Good for Something

Auntie—Gracious, but that's a bad cold you have.

Annie—No, it isn't. It's a very good cold. It kept me away from school for a whole week.

### Daddy Damaged Her

Betty got spanked by her dad for being naughty. After the worst of the storm was over she snuggled close to her eight-year-old brother, Bobbie, and said: " Gee, daddy sure damaged me."

### Origin of Terriers

"Where do sky terriers come from?" asked four-year-old Gertrude.

"Humph!" exclaimed her brother, who is two years her senior, "anybody ought to know that; they come from the sky when it rains cats and dogs."

### Ice for the Romans

Tourist—I wonder what building that is. It's a wonderful ruin and there's an ornamental frieze running around it.

Companion—Probably an ancient cold storage plant.

"To Whom Do You Owe Your Present Position?" He Asked Coldly.

some dilution, and he laughed jarringly.

"You ha' much to learn, my lad," he jeered. "We don't spoil good rum w' water aboard the Walrus. There's a cask bronched this minute on the spar-deck, and all hands fillin' their pannikins as fast as they can empty 'em, w' red-headed Darby astride the butt for luck."

"Which means you will be in no condition to make sail a few hours hence," deplored my great-uncle, waging his head. "'Tis foolishness, Flint. This rum-swaggering will yet prove the undoing of you and every man of your crew."

"Look to your ship, and I'll look to mine," snapped Flint, quaffing a wine-glass of the goblet's contents.

My uncle stared him straight in the eye with a hard, direct thrust of power which stirred my unwilling admiration.

"To whom do you owe your present position?" he asked coldly.

Flint made a patent attempt to stare him down, but abandoned the effort and looked away.

"Some might say one thing and some another," he muttered.

"To whom do you owe your present position, Flint?" repeated Murray.

"Oh, to you, most like," admitted Flint. "Blast you!"

"Have I ever led you into difficulties?" continued my great-uncle.

"Not if—"

"Have I ever led you into difficulties?"

"No."

Robert offered as hostage in next installment.

## CHILDREN'S NURSE RESUMES HER DUTIES

Praises Lydia E. Pinkham's Vegetable Compound

"I have taken Lydia E. Pinkham's Vegetable Compound for some time and I would not be without it in the house. As I am a children's nurse, I have to be on my feet a great deal and your medicine has helped me wonderfully. I was hardly able to do my housework when I began taking it, and now I am a strong and well woman, able to do all that and go out nursing besides. I have also used the Sanative Wash and found it beneficial."—Miss Gertrude L. Stewart, 103 Davis St., Greenfield, Mass.

Valuable for Weakness

"I have found Lydia E. Pinkham's Vegetable Compound a valuable medicine for weakness."—Mrs. J. A. Pizzetti, Box 397, Lancaster, Pa.

Hundreds of letters like these are received by the Pinkham Medicine Co., Lynn, Mass. Grateful women from Pennsylvania to Washington, from Texas to Illinois and from Rhode Island to Nebraska say that their health has improved since taking Lydia E. Pinkham's Vegetable Compound.

Harlem, purely vegetable, lactated and Children's Register, awarded an every label. Guaranteed non-narcotic, non-toxic.

MRS. WINSLOW'S SYRUP

The Lactated and Children's Register

Children grow healthy and free from colic, diarrhoea, flatulency, constipation and other troubles if given it at soothing time. Safe, pleasant—always brings remarkable and gratifying results.

ALLEN'S FOOT-EASE

For Tired Feet It Can't Be Beat

At night when your feet are tired, sore and swollen from much walking or dancing, sprinkle two Allen's Foot-Ease powders in the hot bath, gently rub the sore and inflamed parts and relief is like magic. Shake Allen's Foot-Ease into your shoes in the morning and walk in comfort. It takes the friction from the shoe. Sold everywhere. For FREE Sample and a Foot-Ease Walking Doll, address, ALLEN'S FOOT-EASE, Le Roy, N. Y.

## SUMMER BRINGS COOL FROCKS; FULLNESS MOVES TO THE SIDES

GOOD sense and fashion are getting better acquainted—although they still have occasional differences, in the matter of summer frocks they are going hand in hand. Fashion is devoted to sheer fabrics and good sense is devoted to comfort; neither of them has to make any sacrifice to provide cool frocks for hot days and this is what has been done for morning, noon or night in town or country.

In either place the average woman gets into a crisp house dress in the morning or into a casual day dress of some sort, made of washable material. Much attention is given to the styling of these morning frocks, which must

work and a little embroidery on the collar. When a distinctive style feature makes a success, interesting things begin to happen to it. Different designers, taking the new favorite under consideration, soon produce varied developments of the same idea and many interpretations of the mode finally reveal it at its best. Taking skirt fullness, as an example—it would seem that everything that can happen to the full skirt has happened to it, and now increasing numbers of mid-summer dresses display the popular skirt fullness placed at the side. It is introduced in innumerable ways, by

FOR ALL HOURS OF THE DAY

be simple and practical and should be durable and pretty as well. The outstanding new style point to be noted in them this season is the introduction of cotton and rayon mixed fabrics, among the dependable gingham, percales, broadcloths and the like that are used for making them. These rayon mixtures are silky and sturdy.

Suitability is the test of good style; therefore for summer afternoons there are many practical and cool dresses of crepe de chine and fine cotton voile that will stand tubbing and much wear. Other informal afternoon frocks are made of lightweight printed silks, crepes or soft chiffon tulle. Printed and plain chiffon is the most popular

means of gathers, shirings and all kinds of plaits (arranged in all kinds of ways) and by shaped flounces.

Sometimes a genius in designing takes two or three popular style points and combines them in one frock, usually throwing in, at the same time, a touch that is original. That is what has happened to the handsome afternoon gown shown here. A tunic effect, with fullness placed at the sides, a popular and graceful sleeve and a snug belt, appear in a model that has so much good style that it seems the best possible development of present modes. A new touch in trimming is distinctive. Applique bands, in a darker shade of crepe than the dress,

HANDSOME AFTERNOON GOWN

of all fabrics for afternoon and evening frocks of the dressier types and is often made up with lace, usually in light tan or ecru tints, or dyed to match a dominant color in the chiffon. Then comes the lace gown for dinner and evening worn over a foundation slip or a pink slip has many admirers, but nothing outranks the graceful, soft frocks of plain or printed chiffon in pastel colors that dine and dance at the end of a perfect day. These airy gowns are pleasant things to think about and the pleasantest of reflections concerns their inexpensiveness.

The pretty frock pictured here is made of voile adorned with draw-

ings edged with a narrow fancy braid, placed in rows on the sleeve and in a novel arrangement on the side panels. A vestee in the darker shade is edged with three rows of braid, and the neck finished by a standing collar with tie at the side.

Panel and panel effects occur rather often, on the latest gowns along with snug belts and bloused waists. Also there are numbers of pretty frocks that open at the front like a coat and some of these are double-breast style, but they do not look at all like coats and are made up in crepe de chine or georgette.

**FROZEN DISHES**  
There is nothing more appealing to the palate on a hot day than the refreshing frozen things.

With a cupful of strawberry juice, raspberry juice, grape juice or in fact almost any good flavored fruit juice, sweetened to taste and frozen with a pint of thin cream and a tablespoonful or two of lemon juice, one may have a delightful frozen dessert.

Water ices are prepared by boiling together sugar and water; cool and add the strained fruit juice and freeze. A tablespoonful or two of lemon is always good to add to any fruit combination as it seems to bring out the other flavors. When a colored juice like grape or raspberry is used, the lemon seems to make the color more striking.

**Velvet Sherbet.**—This is one of the simplest and most liked of all the frozen desserts: Take two cupfuls of sugar, the juice of three lemons and one quart of rich milk. Mix and freeze as usual. Let stand two hours to ripen. The mixture will curdle when being put together, but will freeze as smooth as velvet.

**Strawberry Ice Cream.**—Mash a quart of the berries, strain carefully and sweeten with a sugar and water sirup which has been boiled and cooled. Add a quart of rich milk, or milk and cream, or a quart of thin cream, making a richer ice; add a pinch of salt and freeze as usual. Always pack the ice cream after freezing and let stand an hour or two, as it seems to be better flavored so treated.

All frozen dishes stand up better when served, that is, are firmer, if a sugar sirup is used instead of sweetening with sugar.

**Peanuts and Lettuce.**—If one likes peanuts this will be enjoyed: Sprinkle head lettuce with rolled or coarsely chopped peanuts, serve with a bit of shredded onion, or that may be omitted. Serve with French or a boiled dressing highly seasoned.

Frozen foods and chilled drinks are invaluable in the kitchen, as are the hot soups and broths. All food intended to be served hot should be hot, and all cold foods cold. It is well, when possible, to place the dishes on the tray and pour into them, to avoid spilling.

**Chocolate Dainties.**  
Chocolate is such a general favorite that nearly everybody enjoys a recipe of the popular food.

**French Chocolate.**—Melt two ounces of bitter chocolate, add two tablespoonfuls of sugar and one-half cupful of water, boiling hot. Cook three minutes. Scald three cupfuls of milk with one-fourth of a cupful of finely ground coffee, strain and add the chocolate with one-eighth of a teaspoonful of salt. Beat with a Dover egg beater and serve with whipped cream.

**Chocolate Sauce.**—Cook two squares of chocolate, a cupful of sugar and one-half cupful of water together with two tablespoonfuls of butter and one-fourth teaspoonful of salt. Cook twelve minutes, add a teaspoonful of vanilla and serve hot. Very nice over vanilla ice cream. Omit the flavoring when serving over ice cream flavored with vanilla.

**Chocolate Mousse.**—Melt three squares of chocolate, add one and one-half cupfuls of sugar and one cupful of thin cream; boil one minute, cool, add a teaspoonful of vanilla, a pinch of salt and the whip from three cupfuls of heavy cream. A tablespoonful of gelatin mixed with a little cold water is added to the hot mixture. Pour into a mold and let stand packed in ice and salt four hours.

**Cocoa Ice Cream.**—Take two cupfuls of milk, one cupful of sugar, one tablespoonful of cornstarch or arrowroot, and one-half cupful of cocoa; cook in a double boiler for twenty minutes. Add four egg yolks well beaten, a teaspoonful of vanilla and a little salt. Freeze as usual.

**Cocoa Parfait.**—Boil one cupful of sugar with one-half cupful of water ten minutes; pour the sirup over four tablespoonfuls of cocoa which has been beaten with four egg yolks, cook over hot water until of the consistency of soft custard. Beat until cold, add two cupfuls of whipped cream flavored with a little vanilla and a pinch of salt added. Turn into a mold and pack in ice and salt; let stand four hours.

**Orange Chocolate Sauce.**—Melt three tablespoonfuls of grated chocolate in a double boiler, add three tablespoonfuls of butter, stir until well mixed, add three egg yolks one at a time, four tablespoonfuls of sugar and one-fourth of a cupful of rich milk. Cook until thick, add the juice and rind of an orange and serve at once. Chocolate and orange flavors seem to be two that combine well.

*Nellie Maxwell*

## Steady Increase in Pure Breds

### "Better Sires-Better Stock" Campaign Shows Increase in Members.

(Prepared by the United States Department of Agriculture.)

One hundred and fifty new members a month is the average number of live-stock owners joining the "Better Sires-Better Stock" campaign fostered by the bureau of animal industry, United States Department of Agriculture. The members have adopted the use of pure-bred sires for all kinds of live stock on their farms, including poultry. This increase in membership is believed to be a good index of progress in live stock improvement in this country.

During the three months, January 1 to March 31, as shown by the report just issued by the bureau of animal industry, 450 live-stock owners signed enrollment blanks, thus affiliating themselves with the better-live-stock movement and bringing the total number of persons so enrolled to 16,569. Persons participating in this work receive from the department educational literature on animal breeding and feeding and also a lithographed sign, "Pure-Bred Sires Exclusively Used on This Farm." Many other agencies, also, are at work striving toward the same goal, but in most cases their influence is not so easy to measure.

**Leading Counties.**  
In the report just issued a list of 43 counties shows that each of these areas has more than 100 persons who are using pure-bred sires exclusively for the improvement of their herds and flocks. In each of the three leading counties the number of persons active in this work exceeds 500. The relative standing of these counties follows:

County and County Agent	Pure-Bred Sire Users
Pulaski, Va.—E. C. Grigsby	592
New Haven, Conn.—Raymond E. Clapp	552
Union, Ky.—H. G. Wilson	550

Special activity in live-stock improvement during January, February and March of this year centered in New Haven county, Connecticut, though participants were listed from 13 counties in 8 states.

**Development of Movement.**  
The development of the better-sires movement during the last six years has been marked by a steady increase in the number of participants, by excellent support from the agricultural and city press, and by direct efforts of live-stock organizations and extension workers. County agricultural agents, representing the various states and the United States Department of Agriculture, have conducted most of the work in their respective counties. The Department of Agriculture keeps records of progress and furnishes suitable educational literature and information.

A recent development in the department's service is that of lending country newspapers electrolytic cuts and furnishing illustrations and text matter for special editions devoted to live-stock improvement.

## Plan for Success With Caponizing Operation

To be successful with capons and caponizing it is absolutely necessary to keep the chicks free from vermin. Chicks infested by mites will not withstand the shock of the operation, while a vigorous chick will scarcely notice it. While caponizing may be done successfully almost any time of the year, May and June are the better months for it. These, with proper care, should make eight or ten-pound capons by the holiday season. The latter ones must be kept over till the latter part of the winter or early spring.

The correct weights for caponizing depend upon the breed—the Mediterranean at about one pound, the American breeds at from one and three-quarter to two pounds, the Asiatic and English from two and a half to three pounds.

The chicks must be kept without food or water for 24 or 30 hours before the operation. This makes the operation more successful and is better for the birds.

## FARM NOTES

No farmer is genius enough to grow quality production on scrub land.

Sweet clover is one of the best pastures and is a great crop for improving the soil.

Pushing a soft team of horses to their limit is not the best way to get the most work out of them.

A clean-up day is often advisable on many farms. It gives an opportunity to put things away and makes the farm more attractive.

Even the baby chicks have self-feeders now. And they are practical, too, for farmers say that both bran and mash can be fed in this manner. Thus labor is saved and strong quick-growing chicks are produced.

"Get the gopher," is the slogan this spring. These farm pests are living a more difficult time than they did a few years ago when their chief danger was from the little ribs shot by farm youngsters. Now the farmer himself is "taking a shot" at killing the gophers.

## Advise Shippers to Candle Market Eggs

### Especially Urgent During Spring and Summer.

(Prepared by the United States Department of Agriculture.)

Candle all eggs before shipment, and especially during the warm spring and summer months when spoilage is most likely to occur, is the advice given to egg shippers by the bureau of chemistry, United States Department of Agriculture, which is charged with the enforcement of the federal food and drugs act. "The loss resulting from spoilage of eggs shipped to distant markets may be greatly reduced by this precaution," say the officials. (Candling as near as possible to the source of production will not only save transportation charges but will prevent waste of a valuable food product.)

Federal inspectors have been instructed to be on the watch for interstate shipments of adulterated eggs. Under the food and drugs act eggs which have yolks stuck to the shell, moldy eggs, black spots, mixed rots, added eggs, and any other eggs that are filthy, decomposed or putrid are adulterated. When such shipments are found they may be seized and the individuals responsible for shipment prosecuted under the law.

Many eggs that are suitable for immediate consumption will not stand shipment to distant markets. By candling, these eggs may be taken out and sold for local consumption, leaving only those that have a good chance to reach the market in edible condition.

A bulletin on candling eggs tells just how to distinguish between a good egg and one that is likely to spoil in transit. Write to the Bureau of Chemistry, United States Department of Agriculture, Washington, D. C., for a copy.

## Wide Variations in the Cost of Producing Pork

Wide variations in the cost of producing pork are shown in a survey made by the Department of Agriculture of farms in Henry county, Iowa, and Warren county, Illinois, said to be typical of corn-hog farms throughout the corn belt.

The gross cost of producing 100 pounds of marketable pork on 44 farms in one year ranged from \$3.67 to \$13.55, with an average of \$5.49. Production costs on 39 farms in another year ranged from \$4.86 to \$10.02, with an average of \$6.32. The figures are for the years 1921 and 1922 and are presented merely as showing the variation in costs.

The variation, the department says, indicates the influence of care and management in the hog lot. The farms were within a short distance of each other; it was possible to follow very similar methods within the region, and yet some farms shipped hogs to market costing more than twice what they cost other farms.

Detailed results of the survey have been published in Department Bulletin No. 1381, "Cost of Producing Hogs in Iowa and Illinois," copies of which may be had free, as long as the supply lasts, upon request to the Department of Agriculture, Washington, D. C.

## Sudan Grass Found Best Emergency Crop for Hay

At the Iowa experiment station sudan grass has proved to be the best nonleguminous emergency hay and pasture crop. It may be seeded after corn planting, as it is very drought resistant. About 15 to 20 pounds of seed per acre sowed broadcast or drilled is the general practice. The seedling is prepared as for corn. If a seed crop is wanted, drill in rows wide enough to permit of cultivation and use 5 to 10 pounds of seed.

The crop is not available for pasture until about July 1 and ceases to be productive after the first frost. There is no advantage in seeding before the middle of May or later than July 25.

Two cuttings gave higher yields of hay of better quality but there was great difficulty experienced in drying it. The better way is to cut when the seed is in the soft, dough stage and pasture the aftermath. Cut with a mower and cure in the swath. A binder may be used successfully when only one hay crop is made. Sudan and soy beans grow successfully when mixed.

## Scours in Lambs Caused Usually by Carelessness

Experience has caused many breeders to believe that scours in lambs, like the sore eye trouble, is generally the result of carelessness. Heavy feeding of grain, soon after lambing, may cause scours, but the main trouble is caused by failure to keep the ewe's udder milked clean while the lamb is small, too small to use all the milk. This old state milk will poison the lamb and affect its digestive organs. It is easier to prevent than to cure. When a ewe brings a lamb, feed grain sparingly until the lamb can use all her milk, and keep the excess milk stripped from her udder, during this time, and you will seldom have scours in your lambs. In the first ten days of a lamb's life, if either gets a good start in life or a set-back. A lamb well started is about half made. About 90 per cent of the time a sheep is just what its master made it, but that covers a lot of ground and is another story.

## Are you being bored to death?

MOSQUITO torture is quickly ended if you keep a can of Flit handy.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

### Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly.

Get a Flit can and sprayer today. For sale everywhere.

STANDARD OIL CO. (NEW JERSEY)

**Wife Didn't Hear Him**  
For dry sophisticated wit, unsuspected in one of so simple an appearance, the farmer, evidently in town for the afternoon, who ate luncheon at a small restaurant near the Register office, must be given honorable mention.

Throughout the meal he was unobtrusive. He gave his orders in a low voice. And to his young son, who sat beside him, he paid but slight attention. After the pie course, in which he discarded the plate, he drank a glass of water, tapped the boy on the shoulder, and motioned to him not to forget a small package at his elbow.

They were at the door when the waitress called them back with, "Mister, you've left another package on the seat."

He returned slowly, placed the package under his arm, and remarked to the waitress:

"I'm always walking away and leaving things behind; my wife's the only thing I just can't manage that way."—Mobile (Ala.) Register.

**Culticura for Pimply Faces.**  
To remove pimples and blackheads smear them with Culticura Ointment. Wash off in five minutes with Culticura Soap and hot water. Once clear keep your skin clear by using them for daily toilet purposes. Don't fail to include Culticura Talcum. Advertisement.

**The Ayes Have It**  
"The queen of Spain has begun a campaign to bring back the ankle skirt and the long sleeve, but I'm afraid she's going to be defeated," Jean Patou said to a New York correspondent.

He added with a chuckle:

"A world vote on the question, 'Shall girls continue to wear knee skirts and no sleeves?' would be bound to result in a victory for the eyes."

**Sounds Bad**  
"Have you an account here, madam?"

"Certainly. We have accounts all over town."

If a man is managing the works, his trusting in Providence is not sufficient.

The condition of health is observing the laws of health.

**Accommodating**  
"Sir, I am a bill collector."

"That's fine; just a minute and I'll get you a nice big stock of them."

# WALTER CAMP: "Father of Football"

E. K. Hall, Chairman Memorial Committee

Proposed Walter Camp Memorial

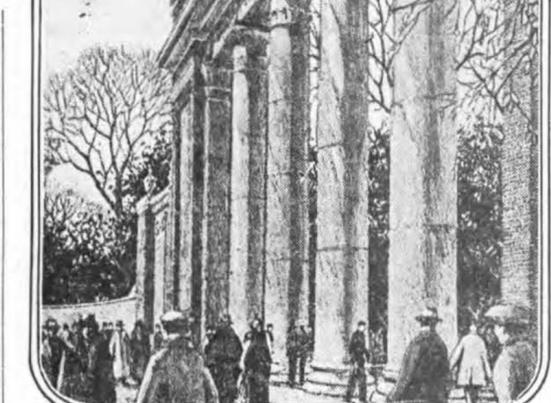

**D** ID you read a brief news item which recently appeared in the press throughout the country announcing plans for the erection of a national memorial to the late Walter Camp, known wherever the game is played as the "Father of American Football"?

Unless you know the story of Walter Camp and the part he played in making football what it is today, and in addition the story of his ups and downs during the many years he had charge of athletics at Yale—unless you have this background you won't appreciate fully the significance of this honor and the climax it produces in a drama of football politics.

Years ago, long before college football profits ran into seven figures, Walter Camp, then known as the "Cesur of Football" at Yale, stood before a gathering of that university's athletic heads and announced that he had contrived to save \$135,000 out of football receipts.

ASTONISHED by the vastness of this sum, they were further astounded by Mr. Camp's ambitious plans for a great football arena, the Yale Bowl, a new bathhouse fully equipped, and a new athletic field.

QUESTIONS immediately formed in the minds of his listeners. Whence this secret fund? Where did it come from, and why? There was the customary investigation. He might have withstood the attack, but the investigation disclosed that Camp, who was then a member of the faculty, had

Close-Up of Gateway

years after Camp left Yale that university was paying Yale men twice as much for coaching as Camp ever received, and that in addition Yale football was on that "sure and certain downgrade course it pursued until the past two seasons."

TODAY Yale alumni and nearly 500 American colleges and universities are raising a fund of \$300,000 for a memorial to take the form of a monumental gateway to the Yale athletic fields at New Haven. Carved in stone over the arched entrance will be an inscription "Walter Camp Fields." Upon bronze tablets set into the walls

ly and shrewdly keeping to himself the whys and wherefores of these ideas.

"For ten years he stood alone as creator and originator of modern football, and Yale triumphed. Deland conceived the flying wedge. Camp hurled a single sturdy guard into it, broke it, and sent a half-back through the opening to tackle the runner. He had solved the defense before the offense ever got under way.

"Away back in the early '90s, Camp, who was a good business man, conceived the idea that football, which attracted the public, could and should

## \$2,500 TO SEE WHAT A HOME LOOKS LIKE

### Trapper Makes Long Trip to View Civilization.

Winnipeg, Man.—When the temperature registers a mean 40 degrees below zero the entire winter and often dips down to 60 and 65, civilization and its warm fires and cozy homes are an inviting prospect and may be worth all of \$2,500 which it cost him to view.

That is the way H. H. Hall from way up around the Arctic circle sees it and Hall ought to be given credit for his viewpoint, for he just parted with that sum for a peep at the modern world.

**Well Paid for Hardships.** Hall is a white fox trapper. When it is explained that these valuable animals only inhabit the territory adjacent to the pole it is easily understood why he lives in that desolate region. He admits he is well paid, from a monetary standpoint, for the hardships he endures, but every once in a while he must go out in the world.

The playground of the white fox is in the district around Deception bay, on the Hudson strait, almost farther north than one can imagine. When Hall and his companions, Rob Whelan and Guy Dawson, started for the outside world they had to travel 900 miles through a barren waste, where there were no trees, no animals, no life of any kind except themselves and the dogs which drew their sleighs.

**Followed Hudson Bay.** The first half of their journey behind them they entered the timberland, where they hugged the tortuous shore of Hudson bay for another 900 miles into Moose Factory, where they met up with the railroad. They were 45 days behind the dog team and they admitted the trip had cost them \$2,500, a sum sufficient to take them to Europe and back.

The trappers come from that part of Quebec just across the strait from Baffin Land. Obtaining food is the great problem in that land, Hall said, as nothing in the way of vegetables will grow in that country. All food must be shipped in from the south.

## Fiji Eats on Train; Swallows Miles Away

Los Angeles, Calif.—Summed up, Ratu Mele Salabogi's impression of life in the United States, as rendered through his friend and interpreter, was this:

"I sat in a chair by a table. A man placed food before me. I ate it in one town and swallowed it in the next." The meal which the strapping bare-foot Fiji chief referred to was eaten aboard a California train a few days ago after he had landed at San Francisco from the ship that had brought him across the ocean.

That meal and the fact that hot water could be obtained by merely turning a faucet interested Chief Salabogi the most. The ease with which hot water can be drawn prompted him to bathe three or four times daily.

Until some six months ago Chief Salabogi had never seen a skyscraper, an automobile, flying machine, radio, bathtub or any of the other wonders of modern civilization.

## Dyed Pet Dog Fad Has Short Life in Paris

Paris.—Mlady no longer may dye her pet dog in a color to match her gown as she goes promenading. An olive green Pekinese, led by an Englishwoman, started the fad on the Promenade des Anglais. Soon poodles, Peking and other breeds in varied colors were seen on the leashes of their mistresses.

## HAWAII PROFITS BY EARTHQUAKES

### Usually Cause Jump in Taxi and Hotel Rates.

Honolulu.—There are several sure signs of volcanic activity in Hawaii. One of them is quakes. A second is sulphur fumes. The third is a rise in taxi rates.

Dr. T. A. Jaggard, eminent volcanist, does not regard eruptions in Hawaii as alarming, nor do the citizens. In fact, by and large, this phenomenon "sets people wild with joy." The steamship agencies, the hotels, the taxi drivers and everybody else begin to grin.

The reason is that the quakes, although they often number 150 a day in the vicinity of Kilauea, are so gentle that no one is annoyed. The taxi drivers do a tremendous business taking tourists to view the impending eruption or the one already under way and the hotels and steamship companies get their share of the business.

The sulphur fumes are so light, says Doctor Jaggard, that the direction of the vent from which they come could not be determined by the public without information from the government observers.

Lava flows, although spectacular, do little damage and the dozen or two families forced to flee accepted the situation in the spirit of packing up to move to the city, they are so used to moving out of the way of the flows.

## OUSTED NUNCIO

Archbishop George J. Caruana, papal nuncio to Mexico, who has been expelled from that country on the charge that he illegally entered, Archbishop Caruana came to Washington to take up with officials of the American government the reasons for his expulsion. He is an American citizen.

## Parisians Oust Bobs From 1926 Fashions

Paris.—Parisian women are quick to observe that not one shingled coat or short skirt a la 1926 is to be found in this year's exhibition of the Society of French Artists and the Beaux Arts.

A few discreet bobs are the sole recognition of the mannish trend. The only short skirts exhibited are on little girls or at tennis courts. The portraits of women of fashion follow the general rule of art before style.

A canvas called "The Amazons," painted by Robert Pughon, a Frenchman, promises to be the storm center of this salon. It depicts three richly tanned young women against the background of a dapple gray horse.

## SWAINS OF MEXICO WOO THROUGH BARS

### American Jazz Fails to Cross Rio Grande.

Laredo, Texas.—Mingled here in the borderland where two races dwell and two civilizations meet are customs as old as romance and as new as jazz.

The Twentieth century marches blaringly down to the bewitching Rio Grande del Norte and there it stops, for jazz has not yet leaped the barrier. On the other hand, the Nineteenth century flits up to the same great river of the north, but does not altogether halt. The intriguing Latin tones of viola and guitar steal across to soften the din of brass and drum. The river separates two centuries, but cannot bar the music of the soul. Marriage, death and love give a definite picture of life on the strangely moving border.

**Customs Centuries Old.** Love-making for the young Mexican follows a habit centuries old. He may become enamored of a fair senorita, but it is only after his father has explained the situation to her father that they may become formally acquainted. Fain would every Latin hombre pick eloquence as his pater's outstanding virtue.

The wooing must be done through the barred windows of the senorita's home until the engagement is announced. But when the moonlight filters through the leaves, even though the formal announcement is not yet, the young man may strum his trusted guitar under the beloved one's balcony and his recompense is a rose. Each day during the weeks just before the wedding he passes the home of the girl and places a note beneath her door.

The "gran baile" (grand ball) is the plea de resistance of the marriage, and in its amorous lit there is no room for modern tin-pan music. Even if the home have no flooring or furniture, the parents will manage to obtain lace curtains and they always will have a place for the "gran baile."

Fiestas are numerous, but none rivals the "Jamaica" or Mexican fete of jollity. Decorated booths are erected along the sides of the plaza which is the public square. Each booth is in charge of senoritas, bedecked in colorful "chino poblanos," a long dress of many hues, a mantilla of lace and a rose in the hair. One booth will be a temple of justice, with a senorita presiding as judge; another will have "lawyers" and a third will be the "cureel" or jail.

Then there are a number of young woman "policemen" armed with be-ribboned hoops, and when they catch sight of a young "caballero" they slip the hoop over his head and he is brought captive to the judge, who promptly fines him and then incarcerates him in the "cureel." At each step he pays a fine of 10 cents and must square all accounts before he is released.

## Favor Bestowed by Flower.

There is the custom of the grand promenade, where flirtation is done by wholesale. The girls and married couples saunter along in an outer line on the walks of the plaza, while on the inner line, going in the opposite direction, walk the young gallants. Should the eyes of two meet and should the girl cast a flower it means that his acquaintance would be welcome, and he at once sets about to gain an introduction. These meetings frequently lead to marriage.

Plainly, jazz is not the life motif of the Latin. The classical dances of Spain predominate. The "Jarabe-Tapatista" is to be seen in homes and theaters. It is danced by a lady in a long-skirted "chino poblanos" and a senor in velvet "charro" which are

## "BAYER ASPIRIN" PROVED SAFE

Take without Fear as Told in "Bayer" Package

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

Colds Headache

**FORECASTING LARGE FIRES**

Albuquerque, N. M., June 15.—An initial study of the relation of relative humidity to the forest fire danger in the southwest has recently been completed in the local office of the United States forest service. The results obtained, although at considerable variance with similar studies undertaken in other sections of the country, show that forecasts can be made of those low humidity periods when even an unextinguished match will ignite the litter on the ground and start a fire which, if unimpeded, will travel with unusual speed until the humidity rises again.

The basis for the study was obtained by the use of a hygro-thermograph kept in the forested region at Flagstaff, Ariz., for the past year. This machine made graphs automatically of the hourly fluctuations in humidity and temperature, which in turn were checked against the action of forest fires burning at the same time in this vicinity. The same method used in the Pacific northwest showed that if the humidity dropped as low as 32, extremely inflammable conditions were present and that fires would start from a spark and burn fiercely, endangering life and property. This rule, as applied to New Mexico and Arizona, means that the forests, during the fire season, are at the flashing point most of the time, since a humidity above, rather than below, 32 is an unusual occurrence during the summer days in the rare, dry atmosphere of this section of the country.

That forest fires will burn rapidly any time after 10 o'clock in the morning during the dry season has long been known to foresters in the southwest, where experience has shown that any large fire that has been burning overnight and is out of control at this hour in the morning is practically sure to remain beyond the skill of the fire fighters until the humidity rises again at night. Abnormally dangerous conditions exist, however, according to observations on fires, on the rare occasions when the humidity drops to the neighborhood of 10 or 15. To develop a method of forecasting this stage was the purpose of the study and, among other rules tentatively determined and applicable at least to the section in which the hygrothermograph was located, it was decided that any relative humidity below 15 at noon with the 7 a. m. temperature above 55 or a low humidity at 7 a. m. with a high temperature at noon of the same day indicates that emergency fire conditions will exist that afternoon. Thus, by observing the humidity in the morning and at the same time getting the temperature forecast for the day, the fire organization may be informed at the time of the morning test of the telephones what the fire conditions for the day will be. The importance and value of such warning are evident when it is realized that the few hours' warning of emergency conditions, which allow a mobilization of fire fighting resources,

often makes all the difference between success and failure in handling the situation.

Man (in search of his wife)—Bridget, do you know anything of my wife's whereabouts?  
Bridget—Yes, sor, I put thim in the wash.—Exchange.

Wife (reading newspaper)—Just think of it! A couple got married the other day after a courtship which lasted 50 years.

Hubby—I suppose the poor old man was too feeble to hold out any longer.—Exchange.

Upon motion duly made and carried, the County Treasurer was ordered and instructed to transfer the sum of \$1,918.17 from the county general fund to the county expense fund and a further sum of \$3,967.36 from the county general fund to the county salary fund.

There being no further business to come before the Board, they adjourned to meet June 1st at 9 o'clock a. m. as a Board of Equalization.

JAMES L. FINLEY, Chairman.

Attest: A. DUMBAULD, Clerk.

FAMOUS ARTIST INSTRUCTS

Political Announcements

DEMOCRATIC

**County Supervisor**  
To the voters of Supervisorial District No. 3, Santa Cruz County, Ariz.: I hereby announce my candidacy for the office of Supervisor on the Democratic ticket. If you can vote for me I will greatly appreciate it, and, if elected, promise to return a just and faithful service. Respectfully,  
ELBERT L. KINSLEY.

I hereby announce my candidacy for the office of Supervisor of Santa Cruz county, to represent District No. 1. I respectfully solicit your support at the forthcoming Democratic primary, September 7, 1926. I stand for a business administration of the affairs of the county.  
A. E. SANDERS, Nogales.

I hereby announce my candidacy for the office of County Supervisor in District No. 1, subject to the will of the Democratic voters at the September 7 primaries. If nominated and elected, I will endeavor to give the people of Santa Cruz County a business administration of their affairs.  
C. C. CRENSHAW, Nogales.

I take this method of informing the public that I will be a candidate for the Democratic nomination September 7th for the office of Supervisor, which office I now hold. I solicit your vote, believing I have given an economic and faithful administration of the county's business affairs.  
ROBERT A. CAMPBELL.

I hereby announce my candidacy for the office of County Supervisor in the Third District, subject to the will of the Democratic voters at the primary election, September 7, 1926.  
W. T. ROATH.

**County Treasurer**  
I hereby announce my candidacy for the office of County Treasurer, subject to the will of the voters at the Democratic primary, Sept. 7th.  
MRS. ANNA B. ACKLEY.

**State Senator**  
I hereby announce by candidacy to succeed myself as State Senator from Santa Cruz County, subject to the will of the Democratic voters at the primary election to be held on September 7, 1926.  
LESLIE C. HARDY.

I hereby announce my candidacy for the office of State Senator, subject to the will of the Democratic voters at the September, 1926, primaries.  
ANDY BETTWAY, Nogales.

**Representative in Congress**  
In making my formal announcement to be a candidate for Representative in Congress from Arizona, I do so with a full realization of the responsibilities attached to the position. I will seek the nomination on the Democratic ticket at the primaries, to be held September 7, and will appreciate your support for the office.  
Sincerely yours,  
FRANK J. DUFFY, Nogales, Ariz.

**Sheriff**  
I hereby announce my candidacy for re-nomination for the office of Sheriff of Santa Cruz county, subject to the will of the voters at the Democratic primary, September 7, 1926. I solicit your votes on the strength of having given, during the past two terms, an economic and efficient administration of the Sheriff's department.  
HAROLD J. BROWN.

I hereby announce my candidacy for the office of Sheriff of Santa Cruz county subject to the will of the Democratic voters at the September primaries. I solicit your support for the nomination.  
ARTHUR D. PAGE, Nogales.

San Rafael Valley Notes

Mrs. Mattie Johnson of Canille is visiting in California. Kent Fryer is in charge of her ranch during her absence.  
Jerry Sheehy of Harshaw and Pat McCarty of Canille were visitors Thursday at the McPherson ranch.  
Fred Kellogg and family of Sunny-side were visiting friends Monday in the valley.  
Bud Baldwin and Clyde McPherson were Bisbee visitors Monday.  
J. W. Williamson was a Patagonia visitor Thursday.  
Carl Madsen and family of Miami are visiting his parents, Mr. and Mrs. John Madsen.  
Mrs. Clarence Reese and Mrs. Charles Pineout of Douglas and John Hunts and son, Howard, of Tucson were Tuesday guests at the Baldwins.  
Dan McKinney of Elgin was visiting in the valley this week.  
Clyde McPherson was a Vaughn visitor Wednesday.  
Forest Rangers Robert Thompson and Mr. Wingo and Forest Supervisor McKenzie were visitors in the valley last Friday.  
T. E. Heady, manager of the San Rafael ranch, visited Elgin Wednesday.  
Miss Dorothy Madsen, who has been attending high school in Miami, is home for her summer vacation.  
Mrs. Bud Baldwin and Melvina Williamson were Patagonia visitors Thursday.  
Mrs. Louis Kunde and daughters of Bisbee are guests of Mr. and Mrs. Clyde McPherson.  
John Madsen returned Wednesday from a week's visit in California.  
Mr. and Mrs. Bud Baldwin and Mrs. Lizette Grisy were visitors at Canille last Friday.

REVIVAL MEETINGS CONTINUE

Rev. C. W. Griffin, pastor of the First M. E. Church of Nogales, is continuing the special revival services in the Opera House, having meetings every night in the week with the exception of Sunday night.  
Sunday afternoon at 3 o'clock is the time for the Sunday services, as Rev. Griffin occupies his pulpit in Nogales both morning and evening on Sunday. His talks have been deeply interesting and helpful at every service, and a number of people are coming many miles to attend.  
Mr. and Mrs. Alfred and others of Nogales are frequent attendants.  
The children's program of last Friday night was enjoyable and helpful, and interest is increasing nightly in the meetings.  
Sunday school is still held in the schoolhouse at 10:30 a. m. Postmaster Riggs is superintendent.
